# FEDERAL REVENUE LAW OF 1921.

Following is a synopsis of the federal revelue law passed by congress and approved by President Harding Nov. 23, 1921:

22 per centum of the amount by which

INCOME TAX-INDIVIDUALS. Normal Tax.

Sec. 210. That in lieu of the tax imposed by section 210 of the revenue act of 1918 there shall be levied, collected and paid for each taxable year upon the net income of every individual a normal tax of 8 per centum of the amount of the net income in excess of the credits provided in section 216: Provided, That in the case of a citizen or resident of the United States the rate upon the first \$4,000 of such excess amount shall be 4 per centum. such excess amount shall be 4 per centum.

Surtax.

Sec. 211. (a) That in lieu of the tax imposed by section 211 of the revenue act of 1918, but in addition to the normal tax imposed by section 210 of this act, there shall be levied, collected and paid for each taxable year upon the net income of every individual: (1) For the calendar year 1921 [omitted;

no longer applicable].

Surtax 1922 and Thereafter.

(2) For the calendar year 1922, and each calendar year thereafter, a surtax equal to the sum of the following:

1 per centum of the amount by which the net income exceeds \$6,000 and does not exceed \$10.000:

2 per centum of the amount by which the net income exceeds \$10,000 and does not exceed \$12.000:

3 per centum of the amount by which the net income exceeds \$12,000 and does not ex-

ceed \$14.000:

4 per centum of the amount by which the net income exceeds \$14,000 and does not exceed \$16,000:

5 per centum of the amount by which the net income exceeds \$16,000 and does not exceed \$18,000:

6 per centum of the amount by which the net income exceeds \$18,000 and does not exceed \$20,000;

8 per centum of the amount by which the net income exceeds \$20,000 and down the

ceed \$22,000:

9 per centum of the amount by which the et income exceeds \$22,000 and does not exceed \$24,000:

10 per centum of the amount by which the net income exceeds \$24,000 and does not exceed \$26,000:

amount by which 11 per centum of the

the net income exceeds \$26,000 and does not exceed \$28,000; 12 per centum of the amount by which the net income exceeds \$28,000 and does not

exceed \$30.000:

13 per centum of the amount by which the net income exceeds \$30,000 and does not exceed \$32,000;

15 per centum of the amount by which the net income exceeds \$32,000 and does not exceed \$36,000;

16 per centum of the amount by which the net income exceeds \$36,000 and does not exceed \$38,000:

17 per centum of the amount by which the net income exceeds \$38,000 and does not exceed \$40,000;

18 per centum of the amount by which the net income exceeds \$40,000 and does not exceed \$42,000;

19 per centum of the amount by which the net income exceeds \$42,000 and does not exceed \$44,000;

20 per centum of the amount by which the net income exceeds \$44,000 and does not exceed \$46.000;

21 per centum of the amount by which

22 per centum of the amount by which the net income exceeds \$48,000 and does not exceed \$50,000:

23 per centum of the amount by which the net income exceeds \$50,000 and does not exceed \$52,000:

24 per centum of the amount by which the net income exceeds \$52,000 and does not exceed \$54,000:
25 per centum of the amount by which

the net income exceeds \$54,000 and does not exceed \$56,000:

26 per centum of the amount by which the net income exceeds \$56,000 and does not exceed \$58,000;

27 per centum of the amount by which the net income exceeds \$58,000 and does not exceed \$60.000;

28 per centum of the amount by which the net income exceeds \$60,000 and does not exceed \$62,000;

29 per centum of the amount by which

the net income exceeds \$62,000 and does not exceed \$64,000;

30 per centum of the amount by which the net income exceeds \$64,000 and does not exceed \$66,000;

31 per centum of the amount by which the net income exceeds \$66,000 and does not exceed \$68,000:

32 per centum of the amount by which the net income exceeds \$68,000 and does not exceed \$70,000;

33 per centum of the amount by which the net income exceeds \$70,000 and does not exceed \$72,000;

34 per centum of the amount by which the net income exceed \$72,000 and does not exceed \$74,000;

35 per centum of the amount by which the net income exceeds \$74,000 and does not exceed \$76,000;

36 per centum of the amount by which the net income exceeds \$76,000 and does not exceed \$78,000;

37 per centum of the amount by which the net income exceeds \$78,000 and does not exceed \$80,000:

38 per centum of the amount by which the net income exceeds \$80,000 and does not exceed \$82,000;

39 per centum of the amount by which the net income exceeds \$82,000 and does not exceed \$84,000:

40 per centum of the amount by which the net income exceeds \$84,000 and does not exceed \$86,000;

41 per centum of the amount by which the net income exceeds \$86,000 and does not exceed \$88.000:

42 per centum of the amount by which the net income exceeds \$88,000 and does not exceed \$90,000;

43 per centum of the amount by which the net income exceeds \$90,000 and does not exceed \$92,000;

44 per centum of the amount by which the net income exceeds \$92,000 and does not exceed \$94,000:

45 per centum of the amount by which the net income exceeds \$94,000 and does not exceed \$96,000;

46 per centum of the amount by which the net income exceeds \$96,000 and does not exceed \$98.000:

47 per centum of the amount by which the net income exceeds \$98,000 and does not exceed \$100,000:

48 per centum of the amount by which the net income exceeds \$100,000 and does not exceed \$150,000;

49 per centum of the amount by which

the net income exceeds \$150,000 and does not exceed \$200,000;

centum of the amount by which

(b) In the case of a bona fide sale of mines, oil or gas wells, or any interest therein. where the principal value of the property has been demonstrated by prospecting or explora-tion and discovery work done by the tax-payer, the portion of the tax imposed by this section attributable to such sale shall not exceed, for the calendar year 1921, 20 per centum, and for each calendar year thereafter 16 per centum, of the selling price of such property or interest.

Net Income of Individuals Defined.

Sec. 212. (a) That in the case of an individual the term "net income" means the gross income as defined in section 213, less the deductions allowed by section 214.

(b) The net income shall be computed upon the computed the computed upon the comp

the basis of the taxpayer's annual accounting the basis of the thapard a summa secondary period (fiscal year or calendar year, as the case may be) in accordance with the method of accounting regularly employed in keeping the books of such taxpayer; but if no such method of accounting has been so employed, method of accounting has been so employed, or if the method employed does not clearly reflect the income, the computation shall be made upon such basis and in such manner as in the opinion of the commissioner does clearly reflect the income. If the taxpayer's annual accounting period is other than a fiscal year as defined in section 200, or if the taxpayer has no annual accounting period or does not keep books, the net income shall be computed on the basis of the calendar year.

(c) If a taxpayer changes his accounting period from fiscal year to calendar year, from calendar year to sscal year, or from one fiscal year to another, the net income shall, with the approval of the commissioner, be computed on the basis of such new accounting period, sub-ject to the provisions of section 226.

Gross Income Defined.

Sec. 213. That for the purposes of this title (except as otherwise provided in section 233) the term "gross income"—

the term 'gross income'—fits and income derived from salaries, wages or compensation
for personal service (including in the case of
the president of the United States, the judges
of the Supreme and inferior courts of the
United States and all other officers and employes, whether elected or appointed, of the
United States, Alaska, Hawaii or any political
subdivision thereof, or the District of Columbia, the compensation received as such), of
whatever kind and in whatever form paid, or
from professions, vocations, trades, businesses,
commerce or sales, or dealings in property,
whether real or personal, growing out of the
ownership or use of or interest in such property; also from interest, rent, dividends, securities or the transaction of any business carried on for gain or profit. or gains or profits ried on for gain or profit, or gains or profits and income derived from any source whatever. and income derived from any source whatever. The amount of all such items (except as provided in subdivision (e) of section 201) shall be included in the gross income for the taxable year in which received by the taxpayer, unless, under methods of accounting permitted under subdivision (b) of section 212. any such subdivision (b) of section 212, any such amounts are to be properly accounted for as of a different period;
(b) Does not include the following items, which shall be exempt from taxation under

this title:

this the:

(1) The proceeds of life insurance policies paid upon the death of the insured;

(2) The amount received by the insured as a return of premium or premiums paid by a return of premium or premiums paid by him under life insurance, endowment or annuity contracts, either during the term or at the maturity of the term mentioned in the

contract or upon surrender of the contract;
(3) The value of property acquired by gift, bequest, devise or descent (but the income from such property shall be included in gross

income):

(4) Interest upon (a) the obligations of a state, territory or any political subdivision thereof, or the District of Columbia, or (b) securities issued under the provisions of the federal farm loan act of July 17, 1916, or (c) the obligations of the United States or its possessions, or (d) bonds issued by the War the obligations of the United States or its pos-sessions, or (d) bonds issued by the War Finance corporation. In the case of obligations of the United States issued after Sept. 1, 1917 (other than postal savings certificates of deposit); and in the case of bonds issued by the War Finance corporation, the interest shall be exempt only if and to the extent provided in the respective acts authorizing the issue in the respective acts authorizing the issue thereof as amended and supplemented, and shall be excluded from gross income only if and to the extent it is wholly exempt to the taxpayer from income, war-profits and excessprofits taxes:

(5) The income of foreign governments received from investments in the United States in stocks, bonds or other domestic securities owned by such foreign governments, or from interest on deposits in banks in the United States of moneys belonging to such foreign governments, or from any other source within the United States.

(6) Amounts received through accident or health insurance or under workmen's compensation acts as compensation for personal injuries or sickness, plus the amount of any damages received whether by suit or agreement

quanages received whether by suit or agreement on account of such injuries or sickness;

(7) Income derived from any public utility or the exercise of any essential givernmental function and accruing to any state, territory or the District of Columbia, or any political subdivision of a citate or territory. subdivision of a state or territory, or income accruing to the government of any possession of the United States, or any political subdivision thereof

(8) The income of a nonresident alien or foreign corporation which consists exclusively of earnings derived from the operation of a ship or ships documented under the laws of a foreign country which grants an equivalent exemption to citizens of the United States and to corporations organized in the United

(9) Amounts received as compensation, family allotments and allowances under the provisions of the war risk insurance and the vocational rehabilitation acts, or as pensions from the United States for service of the beneficiary or another in the military or naval forces of the United States in time of war:

(10) So much of the amount received by an individual, after Dec. 31, 1921, and before Jan. 1, 1927, as dividends or interest from domestic building and loan associations. operated exclusively for the purpose of mak-ing loans to members, as does not exceed

(11) The rental value of a dwelling house and appurtenances thereof furnished to a min-ister of the gospel as part of his compensa-

The receipts of shipowners' mutual (12) The receipts of snipowners mutual protection and indemnity associations, not organized for profit, and no part of the net earnings of which inures to the benefit of any private stockholder or member, but such corporations shall be subject as other persons to the tax upon their net income from interest. dividends and rents.

(c) In the case of a nonresident alien individual, gross income means only the gross income from sources within the United States, determined under the provisions of section

Deductions Allowed Individuals.

Sec. 214 (a) That in computing net income there shall be allowed as deductions: (1) All the ordinary and necessary expenses paid or incurred during the taxable year in paid or incurred during the taxable year in carrying on any trade or business, including a reasonable allowance for salaries or other compensation for personal services actually rendered; traveling expenses (including the entire amount expended for meals and lodging) while away from home in the pursuit of a trade or business; and rentals or other payments required to be made as a condition to the continued use or possession, for purposes of the trade or business, of property to which the taxpayer has not taken or is not taking the taxpayer has not taken or is not taking

title or in which he has no equity;
(2) All interest paid or accrued within the taxable year on indebtedness, except on in-

taxable year on indebtedness, except on indebtedness incurred or continued to purchase or carry obligations or securities (other than obligations of the United States issued after Sept. 24. 1917, and originally subscribed for by the taxpayer) the interest upon which is holly exempt from taxation under this t.tle:

(3) Taxes paid or accrued within the taxable year except (a) income, war profits and excess-profits taxes imposed by the authority of the United States, (b) so much of the income, war-profits and excess-profits taxes, imposed by the authority of any foreign country or possession of the United States, as is allowed as a credit under section 222; (c) taxes assessed against local benefits of a kind tending to increase the value of the property tending to increase the value of the property assessed, and (d) taxes imposed upon the tax-payer upon his interest as shareholder or member of a corporation, which are paid by the corporation without reimbursement from the taxpayer. For the purpose of this para-graph estate, inheritance, legacy and suc-cession taxes accrue on the due date thereof except as otherwise provided by the law of

except as otherwise provided by the law of the jurisdiction imposing such taxes;
(4) Losses sustained during the taxable year and not compensated for by insurance or otherwise, if incurred in trade or business;
(5) Losses sustained during the taxable year and not compensated for by insurance or otherwise, if incurred in any transaction entered into for profit, though not connected with the trade or business; but in the case of a nonresident alien individual only if and to the extent that the profit, if such transaction had resulted in a profit, would be taxable under this title. No deduction shall be allowed under this paragraph for any loss claimed to have been sustained in any sale or other disposition of shares of stock or securiother disposition of shares of stock or securities made after the passage of this act where it appears that within thirty days before or after the date of such sale or other disposition the taxpayer has acquired (otherwise than by bequest or inheritance) substantially than by bequest or inheritance) substantially identical property, and the property so acquired is held by the taxpayer for any period after such sale or other disposition. If such acquisition is to the extent of part only of substantially identical property, then only a proportionate part of the loss shall be disallowed;

the discretion of the commissioner, a reasonable addition to a reserve for bad debts); and when satisfied that a debt is recoverable only in part, the commissioner may allow such debt to be charged off in part;

(8) A reasonable allowance for the exhaustion, wear and tear of property used in the trade or business, including a reasonable allowance for obsolescence. In the case of such property acquired before March 1, 1913, this deduction shall be computed upon the basis of its fair market price or value as of March 1, 1913.

(9) In the case of buildings, machinery, equipment or other facilities erected, installed or acquired on or after April 6, 1917, stalled or acquired on or after April o, 1917, for the production of articles contributing to the prosecution of the war against the German government, and in the case of vessels constructed or acquired on or after such date for the transportation of articles or men contributing to the propagation of articles are the vicinities. for the transportation of articles or men contributing to the prosecution of such war, there shall be allowed, for any taxable year ending before March 3, 1924 (if claim therefor was made at the time of filing return for the taxable year 1918, 1919, 1920 or 1921) a reasonable deduction for the amortization of such part of the cost of such facilities or vessels as has been borne by the taxable year, but not again including any amount otherwise allowed under this title or previous acts of congress as a deduction in computing net income. At any time before March 3, 1924, the commissioner may re-examine the 1924, the commissioner may re-examine the return, and if he then finds that the deduction originally allowed was incorrect, the income, war-profits and excess-profits taxes for the year or years affected shall be redeted. termined.

(10) In the case of mines, oil and gas wells, other natural deposits and timber, a reasonable allowance for depletion and for depreciation of improvements, according to the peculiar conditions in each case, based upon cost including cost of development not otherwise de-

ducted.

(11) Contributions or gifts made within the taxable year to or for the use of: (a) The United States, any state, territory or any political subdivision thereof, or the District of Columbia, for exclusively public purposes; (b) any corporation or community chest, fund or foundation, organized and operated exclu-sively for religious, charitable, scientific, l.terary or educational purposes, including posts of the American Legion or the women's auxiliary units thereof, or for the prevention of cruelty units thereof, or for the prevention of cruelty to children or animals, no part of the net earnings of which inures to the benefit of any private stockholder or individual; or (c) the special fund for vocational rehabilitation authorized by section 7 of the vocational rehabilitation act, to an amount which in all the above cases combined does not exceed 15 per centum of the taxpayer's net income as computed without the benefit of this paragraph graph.

(12) If property is compulsorily or involuntarily converted into cash or its equivalent as a result of (a) its destruction in whole or in part, (b) theft or seizure, or (c) an exercise (6) Losses sustained during the taxable year of property not connected with the trade or property not connected with the trade of property not connected with the trade of property sufficient only property within the fallen individual only property within the United States) if arising from fires, storms, shipwreck or other casualty, or from theft, and if not compensated for by insurance or otherwise. In case of losses arising from destruction of or damage to property, where the property so destroyed or damaged was acquired before March 1, 1913, the deduction of other property of a character similar or related in service or use to the property so destroyed or damaged was acquired before March 1, 1913, the deduction of other property of a character similar or related in service or use to the solution of the stock or shares or in the establishment of a replacement funditum or the trade off within the taxable year (or, in tion of the proceeds so expended bears to the entire proceeds. The provisions of this paragraph shall apply so far as may be practicable the exemption or exclusion of such proceeds or gains from gross income under prior income, war-profits and excess-profits tax acts.

Items Not Deductible. Sec. 215. (a) That in computing net income no deduction shall in any case be allowed in

respect of:
(1) Personal, living or family expenses

(2) Any amount paid out for new buildings or for permanent improvements or betterments made to increase the value of any property or estate;

(3) Any amount expended in restoring property or in making good the exhaustion thereof an allowance is or has been which for

made; or

(4) Premiums paid on any life insurance policy covering the life of any officer or employe, or of any person financially interested in any trade or business carried on by the tax-payer, when the taxpayer is directly or indirectly a beneficiary under such policy.

(b) Amounts paid under the laws of any (b) Amounts paid under the laws of any state or foreign country as income to the holder of a life or terminable interest acquired by gift, bequest or inheritance shall not be reduced or diminished by any deduction for shrinkage in the value of such interest due to the lapse of time, nor by any deduction allowed by this act for the purpose of computing the net income of an estate or trust but not allowed under the laws of such state or foreign country for the purpose of computing the income to which such holder is en the income to which such holder is en-

Credits Allowed Individuals.

Sec. 216. That for the purpose of the normal tax only there shall be allowed the fol-

lowing credits:

(a) The amount received as dividends (1) from a domestic corporation other than a corporation entitled to the benefits of section 262, or (2) from a foreign corporation when it is shown to the satisfaction of the commissioner that more than 50 per centum of the gross income of such foreign corporation for the three-year period ending with the close of its three-year period ending with the close of its taxable year preceding the declaration of such dividends (or for such part of such period as the corporation has been in existence) was derived from sources within the United States as determined under the provisions of section 21.7;

(b) The amount received as interest upon obligations of the United States and bonds issued by the War Finance corporation, which

is included in gross income under section 213;

(c) In the case of a single person a personal exemption of \$1,000; or in the case of the head of a family or a married person living with husband or wife, a personal exemption of \$2,500, unless the net income is in excess of \$5,000, in which case the personal exemption shall be \$2,000. A husband and wife living together shall receive but one personal exemption. The amount of such personal exemption shall be \$2,500, unless the aggregate net income of such husband and wife is in excess of \$5,5000. in which case the amount of is included in gross income under section 213; cess of \$5,000, in which case the amount of such personal exemption shall be \$2,000. If such husband and wife make separate returns. the personal exemption may ersonal exemption may be taken by or divided between them. In no case shall the reduction of the personal exemption from \$2,500 to \$2,000 operate to increase the tax which would be payable if the exemption were \$2,500 by more than the amount of the net income in excess of \$5,000;

(d) \$400 for each person (other than husband or wife) dependent upon and receiving his chief support from the taxpayer if such

dependent person is under 18 years of age or is incapable of self-support because mentally or physically defective.

(e) In the case of a nonresident alien indi-vidual or of a citizen entitled to the benefits of section 262 the personal exemption shall be only \$1,000 and he shall not be entitled to the credit provided in subdivision (d).

(f) The credits allowed by subdivisions (c), (d) and (e) of this section shall be determined by the status of the taxpayer on the last day of the period for which the return of last day of the period for which the return of income is made; but in the case of an individual who dies during the taxable year such credits shall be determined by his status at the true of his death, and in such case full credits shall be allowed to the surviving spouse, if any, according to his or her status at the close of the period for which such survivor makes return of income.

PARTNERSHIPS AND PERSONAL SERVICE

CORPORATIONS.

Sec. 218. (a) That individuals carrying on business in partnership shall be liable for income tax only in their individual capacity. There shall be included in computing the net income of each partner his distributive share, whether distributed or not, of the net income of the partnership for the taxable year, or if his net income for such taxable year is computed upon the basis of a period different from that upon the basis of which the net income on the partnership is computed, then his dis-tributive share of the net income of the partnership for any accounting period of the partnership ending within the fiscal or calendar year upon the basis of which the partner's net income is computed. income is computed. (h)

The partner shall, for the purpose of the (b) The partner snail, for the purpose of the normal tax, be allowed as credits, in addition to the credits allowed to him under section 216, his proportionate share of such amounts specified in subdivisions (a) and (b) of section 216 as are received by the partnership.

(c) The net income of the partnership shall

be computed in the same manner and on the same basis as provided in section 212, except that the deduction provided in paragraph 11 of subdivision (a) of section 214 shall not be allowed.

(d) Personal service corporations shall not be subject to taxation under this title, but the individual stockholders thereof shall be taxed in the same manner as the members of partnerships.

This subdivision shall not be in effect after Dec. 31, 1921.

## ESTATES AND TRUSTS.

Sec. 219. (a) That the tax imposed by sections 210 and 211 shall apply to the income of estates or of any kind of property held in

trust, including—

(1) Income received by estates of deceased persons during the period of administration or

settlement of the estate;
(2) Income accumulated in trust for the benefit of unborn or unascertained persons or persons with contingent interests;

(3) Income held for future distribution un-

der the terms of the will or trust, and
(4) Income which is to be distributed to the beneficiaries periodically, whether or not at regular intervals, and the income collected by a guardian of an infant to be held or distributed as the court may direct.

(b) The fiduciary shall be responsible for making the return of income for the estate or trust for which he acts.

(f) A trust created by an employer as a part of a stock bonus or profit-sharing plan for the exclusive benefit of some or all of his employes, to which contributions are made by such employer, or employes, or both, for the purpose of distributing to such employes the

earnings and principal of the fund accumulated by the trust in accordance with such plan, shall not be taxable under this section. plan, shall not be taxable under this section, but the amount actually distributed or made available to any distribute shall be taxable available to any distributes shall be taxable to him in the year in which so distributed or made available to the extent that it exceeds the amounts paid in by him.

INDIVIDUAL RETURNS.

Sec. 223. (a) That the following individuals shall each make under oath a return stating specifically the items of his gross income and the deductions and credits allowed under this title

(1) Every individual having a net income for the taxable year of \$1,000 or over, if single, or if married and not living with husband

or wife;

(2) Every individual having a net income the taxable year of \$2,000 or over, if (3) Every individual having a gross income for the taxable year of \$5,000 or over, regard-

less of the amount of his net income.

(b) If a husband and wife living together

(b) 11 a husuand and wife living together have an aggregate net income for the taxable year of \$2,000 or over, or an aggregate gross income for such year of \$5,000 or over—
(1) Each shall make such a return, or
(2) The income of each shall be included in single joint return in which each the tax

a single joint return, in which case the tax shall be computed on the aggregate income.

(c) If the taxpayer is unable to make his own return, the return shall be made by a duly

authorized agent or by the guardian or other person charged with the care of the person or property of such taxpayer.

PARTNERSHIP RETURNS

Sec. 224. That every partnership shall make a return for each taxable year, stating specifi-cally the items of its gross income and the de-ductions allowed by this title, and shall include in the return the names and addresses of the individuals who would be entitled to share in the net income if distributed and the amount of the distributive share of each individual. The return shall be sworn to by any one of the partners.

FIDUCIARY RETURNS.

Sec. 225. (a) That every fiduciary (except a receiver appointed by authority of law in possession of part only of the property of an individual) shall make under oath a return for any of the following individuals, estates or trusts for which he acts, stating specifically the items of gross income thereof and the deductions and credits allowed under this title—

(1) Every individual having a net income for the taxable year of \$1,000 or over, if single, or if married and not living with husband or wife:

wife;

or wile;
(2) Every individual having a net income for the taxable year of \$2,000 or over, if married and living with husband or wife;
(3) Every individual having a gross income for the taxable year of \$5,000 or over, regardless of the amount of his net income;

(4) Every estate or trust the net income of which for the taxable year is \$1,000 or over, and

(5) Every estate or trust of which any beneficiary is a nonresident alien.

TIME AND PLACE FOR FILING RETURNS. Sec. 227. (a) That returns shall be made on or before the 15th day of the third month following the close of the fiscal year, or, if the return is made on the basis of the calendar year, then the return shall be made on or be-fore the 15th day of March. The commissioner may grant a reasonable extension of time for filing returns whenever in his judgment good cause exists.

(b) Returns shall be made to the collector

for the district in which is located the legal residence or principal place of business of the person making the return.

CORPORATIONS. Tax on Corporations.

Sec. 230. That, in lieu of the tax imposed by section 230 of the revenue act of 1918, there shall be levied, collected and paid for each

taxable year upon the net income of every corporation a tax at the following rates:

(a) For the calendar year 1921, 10 per centum of the amount of the net income in excess of the credits provided in section 236,

and (b) For each calendar year thereafter 121/2 per centum of such excess amount.

Conditional and Other Exemptions.

Sec. 231. That the following organizations shall be exempt from taxation under this title: (1) Labor, agricultural or horticultural organizations:

ganizations;
(2) Mutual savings banks not having a capital stock represented by shares;

## DEATH OF VISCOUNT JAMES BRYCE.

Viscount James Bryce, noted as an author, | Viscount James Bryce, noted as an author, statesman and diplomat, died at Sidmouth, Devonshire, England, Jan. 22, 1922, at the age of 83. In the United States he was known chiefly as the author of "The American Commonwealth," long used as a standard textbook in the schools, and as British ambassador in Washington from 1907 to 1913. It was often said of him that he understood the principles on which the American resulblic the principles on which the American republic

was based better than did most American statesmen. Viscount Bryce filled many im-portant posts, wrote much and ably on varied subjects and took part in numerous diblo-matic conferences. His opinions and decisions were sought and accepted on both sides of the Atlantic and the public had complete confidence in the soundness and impartiality of his judgment. He was active almost to the last and died peacefully after a brief illness.

#### PALISADES INTERSTATE PARK.

The Palisades Interstate park embraces the Palisades cliffs and extends from a point near Fart Lee to Palisades, N. Y. along the west bank of the Hudson river for a distance of about twelve miles. distilled or essential, 25%.

Opium, crude, \$3 lb.; prepared, \$4 lb.; derivatives of, \$2.50 to \$3 oz.; preparations of n.s.p., 60%.

Paints, pigments, artists' colors, 75%; blue, 8c lb.; bone black, blood char, 20%; gas black, lampblack, 20%; lead pigments, 2½c to 3c lb.; ochers, siennas and umbers, crude, %c lb.; washed or ground, %c lb. Paris green, 15%

Perfumery, materials for, natural, 20%; chemical n.s.p., 45%; mixtures containing oils or

aromatic substances, 40c lb. and 50%.

Perfumery and toilet preparations containing alcohol. 40c lb. and 75%; without alcohol,

75%

Phosphorus, 8c lb.
Potassium, ½c to 25c lb.
Sarsaparilla root, 1c lb.
Soap, castile, 15%; toilet, 30%; all other

Sody, cashie, 15%, tonet, 50%, an other n.s.p., 15%.
Sodium, %c to 10c lb.; hydrosulphite, 35%.
Starch, potato, 1%c lb.; all other n.s.p., 1/c lb.; dextrine n.s.p., 1/c lb.

Strychnine, 15c oz. Tin bichloride, 25%. Titanium potassium oxalate, 30%.

Vanilla beans, 30c lb.; tonka beans, 25c lb. Zinc chloride, 13-10c lb.; sulphate, %c lb.; Zinc chloride, 13-1 sulphide, 1½c lb.

Schedule 2—Earths, Earthenware and Glassware.

Bath brick, chrome brick, fire brick n.s.p., 25%; magnesite brick, %c lb. and 10%. iles, 3c to 8c sq. ft.; 30% to 60%. imestone, crushed, 5c 100 lbs.; lime n.s.p., Tiles.

Limestone, cru
10c 100 lbs.

Cement, portland, 8c 100 lbs.; other cement, \$3.50 to \$14 ton.

\$3.50 to \$14 ton.
Gypsum, \$1.40 ton.
Pumice stone, unmanufactured, 1-10c to ¼c
lb.; manufactured, 55-100c lb.
Clars or earths n.s.p., \$1 to \$7.50 ton.
Mica, unmanufactured, 4c lb.; above 15c per
lb., 25%; manufactured, 20% to 40%.
Tale or soapstone, ¼c lb.; ground or pulverlzed, 25%; ct. n.e.s., 35%; decorated, 45%,
Earthenware, common, not decorated, 15%;
arrangement 2006.

ornamented, 20%.

Earthenware of nonvitrified absorbent body,
45%; decorated, 50%.

China and other vitrified wares, 60%; dec-

orated, 70%.
Graphite or plumbago, 20%.
Gas retorts, 20%; lava tips for burners, 10c
gross and 15%.

Grbons and electrodes, 45%. Glass bottles, 1½c lb., or 50c gross. Glass utensils for scientific purposes, 65%; illuminating articles, 60%; table and kitchen utensils of glass, 50%.

Cylinder, crown and sheet glass, unpolished, 1½c to 2½c lb., according to size; polished, 6c to 15c sq. ft.; cast polished plate glass, 12½c to 20c sq. ft.; silvered, 13½c to 21c

eyeglasses, goggles, 20c doz. and Spectacles, 15% to 40%.

Lenses, 40%; optical glass, 45%. Photographic lenses, opera and field glasses, telescopes, microscopes, n.s.p., 45%. Incandescent light bulbs and lamps, 20%. Stained glass windows, 50%. Marble, breecia and onyx in rough, 65c cu. ft.; sawed or dressed, \$1 cu. ft.; monuments, vase etc. 50%.

vases, etc., 50%.

Burrstones, made into millstones, 15%. Stone, building, 50%; unmanufactured, 15c Stone, b

Grindstones, \$1.75 ton. Slate, manufactured, 15%. Watch crystals, 60%.

Schedule 3-Metals and Manufactures Of. Iron in pigs, wrought and cast scrap iron, 75c

Alloys used in manufacture of steel n.s.p., 25%.

Bar iron, except castings, 2-10c lb. to 1½c lb. Steel ingots, blooms, slabs, sheets and plates n.s.p., 2-10c lb. to 3½c lb.; valued above 16c lb., 20%. Beams, girders and other structural iron and steel, 20% to 25%.

steel, 20% to 25%.

Hoop or band iron or steel, 4c lb.

Wire rods, 3-10c lb. to 6-10c lb.

Iron and steel wire, 14c lb. to 14c lb.; valued above 6c lb., 25%.

Woven wire cloth, 25% to 45%.

Iron and steel anchors, 25%.

Electric storage batteries n.s.p., 40%. Balls for roller bearings, 10c lb, and 45%. Wheels for railway purposes, 1c lb. Anvils under 5 lbs., 45%; others, 1%c lb. Blacksmiths' hammers, tongs, etc., 1%c lb. Creet iron line 100c.

Cast iron pipe, 20%.
Chains, %c to 4c lb.; sprocket chains, 35%
Nuts and washers, 6-10c to 1c lb., or 35%.
Nails and spikes, 4-10c to 1½c lb., or 15%.
Rivets, studs, 30%; n.s.p., 1c lb.
Corset clasps, 35%.
Screws 25%

Corset Gasps, 50%.
Screws, 25%.
Table and household utensils n.s.p., 5c lb.
and 30% to 40%.

Crosscut saws, circular saws, n.s.p., 20%. Engraved steel plates and lithographic stone,

Umbrella ribs of steel or other metal, 50%. Sewing machine needles, \$1.15 per 1,000 and 40% to \$2 and 50%.

Fishhooks, rods, reels, flies, etc., n.s.p., 45%. Saddlery and harness hardware, 35% to 60%. Belt buckles, 5c to 50c per 100 and 20%. Hooks and eyes, 4½c lb, and 25%. Metal buttons, 1-12c to ½c per line gross and

15% to 45%.

Pins, not jewelry, 35%.
Pens, metallic, 12c to 15c gross.
Penholder tips, penholders, 25c gross and 20%

to 45c gross and 20%. Fountain pens and holders, stylographic pens, 72c dozen and 40%

Knives, 1c each and 50% to 35c each and 55%. Table knives, forks, steels, 16c each to 8c each and 45%.

Planing machine knives and of knives used in machines, 20%. other cutting

Shears and clippers, 3½c each and 45% to 20c each and 45%. Safety razors, 10c each and 30% to 35c each and 45%.

Surgical instruments, 45%; der ments, 35%. Scientific instruments n.s.p., 40%. instruments, 45%; dental instru-

Pliers, pincers, nippers, 60%. Files and rasps, 45%c to 77%c dozen.

Swords, 50%.

Muzzle-loading muskets, 25%; breech-loading, \$1.50 to \$10 each and 45%.
Pistols, \$1.25 to \$3.50 each and 55%.

Watch movements, 75c to \$10.75 each; jewels for watches, 10%.

Clocks and clock movements, 45%. Automobiles and motorcycles, 25%. Airplanes and motor boats, 30%. Bicycles, 30%.

Steam engines and locomotives, 15%

Sewing machines n.s.p., 15% to 30%. Cash registers, 25%. Printing presses, 30%. Lace making and other textile machinery, 40%. Adding and typewriting machines combined, 30%.

Shovels, spades, 30%. Aluminum, 5c to 9c lb.

Metallic magnesium n.s.p., 40c lb. and 20%.

Antimony metal, 2c lb. Bismuth, 7½%. Cadmium, 15c lb.

Antinyon, The Manual Research Research

Type, new, 20%.
Nickel oxide, 1c lb.; nickel alloy, 25%.
Bottle caps, undecorated, 30%; decorated,

45% Lead-bearing ores, 14c lb.; lead bullion, 24c

to 2%c lb. Zinc-bearing ores with 10% or more of zinc, %c to 1%c lb.; zinc in blocks, 2c to 2%c lb. rint rollers, 60%. Print rollers, 60%. Twist drills, 60%.

Articles n.s.p. of platinum, gold and silver, 60%.

Schedule 4-Wood and Manufactures Of.

Logs of fir, spruce, cedar or hemlock, \$1 m. Brier root or wood, ivy or laurel root, unmanufactured, 10%.

Cedar, lignum-vitæ, ebony, box, mahogany, rosewood, in the log, 10%; in boards, planks, and other sawed forms, 15%; veneers of wood and wood unmanufactured n.s.p., 20%.

Hubs for wheels or blocks, 10%. Casks, barrels, hogsheads, 15%. Boxes, barrels, other containers for fruit,

25%.

Reeds or rattan, 20%.

Furniture of wood, rattan, bamboo or fiber of any kind, 60%.
Toothpicks of wood or vegetable substance,

25%. Blinds, screens, baskets, of bamboo, wood, straw, palm leaf, 3%.

Manufactures of wood n.s.p., 331/3%.

# Schedule 5-Sugar, Molasses and Manufactures Of.

Sugar, tank bottoms, sirups of cane juice, molasses testing 54 to 75 sugar degrees by polariscope, 1.24-100c lb.; for each additional sugar degree, 46-1000c lb.

Molasses and sugar sirups n.s.p., testing not

Adolesses and sugar strips first, testing fior above 48% total sugars, 25-100c gal.; above 48%, 275-100c gal.

Maple sugar and maple sirup, 4c lb.

Sugar candy and confectionery n.s.p., 40%.

Schedule 6-Tobacco and Manufactures Of. Wrapper unstemmed. \$2.10 lb.:

rapper tobacco, stemmed, \$2.75 lb. Filler tobacco n.s.p., unstemmed, 35c lb.;

stemmed, 50c lb. Other tobacco, manufactured or unmanufactured, n.s.p., 55c lb.; scrap tobacco, 35c

Snuff and tobacco stem, pulverized, 55c lb.

Cigars and cigarettes, cheroots, \$4.50 lb. and 25%.

Schedule 7-Agricultural Products and Provisions.

Cattle, 1½c to 2c lb.; fresh beef and veal, 3c lb.; tallow, ½c lb.; oleo oil and stearin, lb.; ta

Sheep and goats, \$2 head; fresh mutton, 21/2c

lb.; fresh lamb, 4c lb.; swine, ½c lb.; bacon, hams, shoulders, 2c lb.; lard, 1c lb.; lard compounds and substitutes, 4c lb.

compounds and substitutes, 4c 10. Venison, reindeer meat, game n.s.p., 4c lb. Extract of meat, 15c lb. Meats, fresh or preserved, n.s.p., 20%. Milk, fresh, 2½c gal.; sour and buttermilk, 1c gal.; cream, 20c gal. Milk, condensed or evaporated, unsweetened, 1c lb.; sweetened, 1½c lb.; all other, 1%c lb.; malted milk, 20%.
Butter, 8c lb.; oleomargarine, 8c lb.

Cheese and substitutes, 5c lb.
Poultry, live, 3c lb.; dead, dressed or undressed, 6c lb. Eggs in shell, Sc doz.; egg yolk and albumen,

6c lb.; dried albumen, 18c lb. Horses and mules valued at not more \$150 each, \$30 per head; more than \$150

20%. each, Live animals n.s.p., 15%.

Honey, 3c lb. Salmon, prepared or preserved, 25%; dried fish, 14c lb.

Herring and mackerel, pickled or salted, in bulk, 1c lb.
Fish packed in oil, 30%; pickled or prepared (except in oil), 25%; in bulk, 1½c lb.
Crab meat, frozen or prepared, 15%; caviar.

30%.

Barley, 20c bu.; barley malt, 40c 100 lbs.; pearl barley, 2c lb. Buckwheat, 10c 100 lbs.; flour, 2c lb. Corn, 15c bu.; cornmeal, 30c 100 lbs. Macaroni, vernicelli, noodles, 2c lb. Macaroni, vermicelli, noodles, 2c lb.
Oats, 15c bu.; oatmeal, rolled oats, 80c 100

lbs. Rice, rough, 1c lb.; milled, 2c lb.; meal, 4c

lb.

Rye, 15c bu.; flour, 45c 100 lbs.
Wheat, 30c bu.; flour, 78c 100 lbs.
Bran, shorts, 15%.
Cereal breakfast foods n.s.p., 20%.
Biscuits, wafers, cakes, puddings, 30%.
Apples, green or ripe, 25c bu.; dried or evaporated, 2c lb.

orated, 2c lb, Apricots, green, ripe or dried, ½c lb.; prepared or preserved, 35%.

Berries, 1½c lb.; dried or evaporated, 2½c lb.; otherwise prepared, 35%.

Cherries, 2c lb.; prepared or preserved, 40%. Cider, 5c gal.; vinegar, 6c gal. Citrons, 2c lb.; candied, 4½c lb.; orange and lemon peel, 2c lb.

Figs, fresh or dried, 2c lb.; prepared or preserved, 35%.

Dates, fresh or dried, 1c lb.; prepared or preserved, 35%. Grapes in bulk, 2c cu. ft.; raisins, 2c lb.; cur-

rants, 2c lb.
Peaches and pears, ½c lb.; dried, 2c lb.; otherwise prepared, 35%.
Pineapples in bulk, ¾c each.
Plums, prunes, ½c lb.; prepared or preserved.

Jellies, jams, marmalades, 35%.
Tulip and other bulbs, \$1 to \$4 per 1,000.
Seedlings of rose stock, not more than 3 years old, \$2 per 1,000.
Seedlings of fruit stocks, \$2 per 1,000; grafted

woven tabrics, 30% to 55%.

Almonds, not shelled, 4%c lb.; shelled, 14c lb.
Cream or Brazil nuts, 1c lb.; filberts, not shelled, 2½c lb.; shelled, 5c lb.
Coconuts, ½c each; coconut meat, 3½c lb.
Peanuts, not shelled, 3c lb.; shelled, 4c lb.
Walnuts, not shelled, 4c lb.; shelled, 12c lb.
Matting, 3c sq. yd. to 8c sq. yd. and 35% to 40%

Pecans, unshelled, 3c lb.; shelled, 6c lb. Seeds, oil-bearing: Castor beans, ½c lb.; flax-seed, 40c bu; poppy seed, 32c 100 lbs.; seed. 40c bu.; poppy seed, 32c 100 lbs.; sunflower seed, 2c lb.; soya beans, ½c lb.; cotton seed, ½c lb. seeds, grass, 1c to 4c lb.; other seeds, 1c to 25c lb.

25c lb. Beets, sugar, 80c ton; other beets, 17%. Lentils, 4c lb.; lupines, ½c lb. Mushrooms, 45%; truffles, 25%. Peas, green or dried, 1c lb.; split, 14c lb.; prepared or preserved, 2c lb. Potatoes, 50c 100 lbs.; dried, etc., 2%c lb. Turnips, 12c 100 lbs. Vegetables in natural state n.s.p., 25%; prepared, 35%.

pared, 35%.

Chicory, acorns, dandelion roots, crude, 14cc lb.; prepared, 3c lb.; coffee substitutes and lb.; prepareu, co-essences, 3c lb. Chocolate and cocoa, 17½%.

Ginger root, candied, 20%.
Hay, \$4 ton; straw, \$1 ton.
Hops, 24c lb.; hop extract, \$2.40 lb.
Spices, 1c to 22c lb.; spices n.s.p., 25%.
Teasels, 25%.

Schedule 8-Spirits, Wines and Other Beverages. Brandy cordials, liqueurs, arrack, absinth and bitters (except Angostura), \$5 proof gal.; Angostura bitters, \$2.60 proof gal.; Champagne and sparkling wines, \$6 gal.

Offian and sparking whies, 50 gai. Still wines, \$1.25. Beer, ale, porter, stout, fluid malt extract, \$1 gal.; malt extract, 60%. Fruit juices and fruit sirups, 70c to 70c plus

\$5 proof gal.
Ginger ale, lemonade, soda water, 15c gal.
Mineral waters, 10c gal.
Schedule 9-Cotton Manufactures.

Cotton yarn, not bleached or colored, 1-5c to

28c lb., according to number; bleached or dyed, 4c to 34c lb.

dyed, %c to 34c lb. Cotton waste, manufactured, 5%. Cotton thread, %c 100 yds. Cotton cloth, plain, 40-100c lb. to 16c lb.; bleached, 45-100c to 18c lb.; printed, 55-100c lb. to 22c lb. Tire fabric, 25%.
Tracing cloth, 5c sq. yd. and 20%. Tapestries, 45%. Plie fabrics, 50%.

Pile fabrics, 50% Table damasks, 30%

Quilts, 25% to 40%.

Knit fabric, 35% to 55%.

Gloves, 50%, or \$2.50 to \$3 doz. pairs.

Hose, half-hose, 30% to 50%.

Underwear, 45%. Underwear, 20%.
Handkerchiefs and mufflers, duty on cloth; if hemmed 10% in addition.
Clothing n.s.p., 35%.
Shirts, collars, cuffs, n.s.p., 30c doz. and 10%.
Lace curtains, 1½c sq. yd. and 25%.
Cotton articles n.s.p., 40%.

Schedule 10-Flax, Hemp and Jute and Manufactures Of.

Manufactures 01.

Flax straw, \$2 ton; flax, not hackled, 1c lb.; hackled, 2c lb.

Sliver and roving, 20%.

Jute yarns or roving, 2½c to 11c lb.

Single yarns, 10c to 35c lb.

Threads of two or more yarns, 18½c to 56c lb.

Manila cordage, ¾c to 2½c lb.

Hose for liquids or gases, 17c and 10%.

Woven fabrics, 30% to 55%.
Clothing, 35%; collars and cuffs, 40c dozen

Bags or sacks, 1c lb. and 10% to 1c lb. and

Schedule 11-Wool and Manufactures Of.

Wools, not improved by admixture, 12c lb.; washed. 18c lb.; scoured, 24c lb. Wool and hair of angora goat, cashmere goat.

wool and har of angora goat, cashinere goat, alpaca, 30c to 31c lb.
Waste, 16c to 32c lb.; rags, 7½c lb.
Wool advanced beyond scoured condition but not further than roving, 33c lb. and 20%. Yarn of wool, 24c lb. and 30% to 36c lb, and

40%, according to value.
Woven fabrics, 24c lb, and 40% to 45c lb, and 45%, according to weight and value.
Pile fabrics, 40c lb, and 50%.

Blankets. robes, steamer rugs, 18c lb. and 30% to 37c lb. and 40%. Felts, not woven, 18c lb. and 30% to 37c lb and 40%

Fabrics with fast edges, 45c and 50%.

Knit fabrics in piece, 30c lb. and 40% to
45c lb. and 50%.

Hose, gloves and mittens, 36c lb. and 35% to 45c lb. and 50%.

Knit underwear, 36c lb. and 35% to 45c lb.

and 50%. Carpets. 25% to 55%. Wool manufactures n.s.p., 50%.

Schedule 12-Silk and Silk Goods.

Silk, partially manufactured, 35%.
Spun silk or schappe silk yarn, 45c lb.;
bleached or colored, 45c lb. and 10c lb. cu-Thrown silk not more advanced than singles,

25% Silk thread, \$1 to \$1.50 lb.

Woven fabrics in piece, 55%. Plushes, 60%. Fabrics with fast edges, 55%.

Knit underwear, hose and gloves, 60%. Handkerchiefs, 55% to 60%. Manufactures of silk n.s.p., 60%.

Schedule 13-Papers and Books.

Printing paper, n.s.p., %c lb. and 10%; on imports from countries charging export duty, an additional duty of 10% and in addition the amount of export duty charged by said country.

Paper board, wallboard and pulpboard, card-board, not printed or decorated, 10%; pulp-board in rolls, 5%.

Filter masse or stock, manufactures of pulp, 25%.

Tissue paper, stereotype paper, copying paper, 4c lb. and 15% to 6c lb. and 15%.

Paper with coated surface, 3c lb. and 15% to

5c lb. and 17%. Picture cards, calendars, eigar bands, placards, etc., decorated and printed, 25c lb. to 65c

Writing an and 15%. and other handmade paper, 3c lb.

Books, bound or unbound, 15% to 25%; blank books, engravings, photographs, maps, 25%; booklets, 7c lb. to 15c lb.; postcards, 30%; cards with American views, 15c lb. and 25%. Albums, 30%.

Playing eards, 10c pack and 20%.

Schedule 14-Sundries.

Asbestos, manufactures of, 25% to 30%. Boxing gloves, baseballs, footballs, te oxing gloves, baseballs, footballs, tennis, golf and other balls, finished or unfinished, Boxing

30%; skates, 20%. Spangles and beads, 35%; ivory beads, 45%. Ramie hat braids, 30%; manufactures of, 40%. Boots and shoes composed partly of cotton, etc., 35%.

Braids, plaits, laces of straw, palm leaf, etc., for ornamenting hats, not bleached, 15%; bleached or colored, 20%; hats of foregoing materials, 35% to 60%. materials, 35% to 60%.
Brooms, 15%, toothbrushes, 45%.
Bristles, 7c lb.
Buttons, ivory, pearl, 1%c gross and 25%.

Cork stoppers, 6c tures n.s.p., 30% 6c to 25c lb.; cork manufac-

Dice, dominoes, billiard and other balls of

ivory, bone, etc., 50%.
Dolls, toys, Christmas decorations, 70%.
Emery and other abrasives, ground, 1c lb.; emery wheels and files, 20%.
Firecrackers, 8c lb.; fireworks n.s.p., 12c lb.

Firecrackers, 8c lb.; nreworks 40%. Matches, 8c gross; wax matches, 40%. bercussion caps, 30%; Cartridges, percussion caps, 30%; caps, \$2.25 per 1,000; fuses, blasting \$1

per 1,000 ft. Feathers and downs, 20% to 60%; importation

of feathers except of ostriches or of domestic fowls prohibited.

Furs, dressed on the skin, 10% to 50%; hatters' furs, 35%.
Fans, except paim leaf, 50%.
Human hair, 10%; manufactures of, 35%.

Hair for mattresses, 10%. Haircloth and felt, 25% to 40%.

Hats, caps, bonnets, etc., of fur. \$1.50 to \$16 and 25%. Jewelry, valued above 20c doz., 80%.

Diamonds and other precious stones, roor uncut, 10%; cut but not set, 20%. rough Laces, lace curtains, 90%.

Chamois skins, 20%.
Leather, manufactures of, 30% to 45%.
Gloves of leather, \$4 to \$5 doz.
Gas, kerosene and alcohol mantles, 40%.

Marness, 35%.
Cabinet locks, 70c to \$2 doz. and 20%.
Amber, manufactures of, 20%.
Bone, chip, grass, horn, quills, rubber, palm leaf, straw, manufactures of, n.s.p., 10% to 50%.

Toory, manufactures of, n.s.p., 35%. Electrical insulators of shellac, copal or rosin n.s.p., 30%. Musical instruments and parts n.s.p., 40%.

Phonographs and parts, 30%; needles for, 45%

Rosaries and similar articles, 15% to 50%. Sponges, 15%; manufactures of, 25%. Violin rosin, 15%. Works of art, including paintings, engravings,

sculptures, etc., 20%. Peat moss, 50%.

Pencils of paper or wood, 45c gross and 25%;

pencil leads, 6c gross.

Photographic cameras and parts n.s.p., 20% dry plates, 15%; motion-picture film, 1c tt. Pipes of clay, 15c gross to 45%; other pipes and smokers' articles, 60%; meerschaum,

crude, 20%. Thermostatic bottles, 15c to 30c each and

Imbrellas, parasols, 40%; sticks for, and canes, 40%. Umbrellas.

TITLE II .- FREE LIST.

cids: Chromic, hydrofluoric, hydrochloric, nitric, suphuric, oil of vitriol.

Aconite, aloes, asafetida, mate, crude. Agates, unmanufactured.

Plows, Agricultural implements: harrows. planters, harvesters, reapers, drills and planters, mowers, horserakes, cultivators, thrashing machines, cotton gins, wagons drills and headers. and carts, sugar machinery, cream separators valued at not more than \$50 each and other implements n.s.p.

Albumen n.s.p.

Animals, pure bred, for breeding purposes.

Animals brought in temporarily for breeding or exhibition purposes.

Antimony ore. Antitoxins, vaccines, serums for therapeutic purposes.

Arrowroot, natural.

Arsenic, sulphide of, and white. Articles exported and returned without being advanced in value by manufacture or other-

Asbestos, unmanufactured. Loadstones. Bananas. Manuscripts n.s.p. Barks for quinine extraction. Mechanically ground wood pulp, chemical wood pulp. Medals of gold and silver bestowed as honor-Bells. Bibles. Binding twine. ary distinctions. Bread. Mineral salts. Blood, dried, n.s.p. Minerals, crude. Models of inventions. Bones, cured or ground; bone dust, meal and ash ooks, engravings, etchings, maps, etc., ported for the use of the United States. Books. ported for the use of the United States. Books, maps, music, engravings, photographs, etchings, lithographic prints which have been printed more than twenty years; public documents issued by foreign governments; books, etc., imported by institutions for religious, scientific and artistic purposes. Borax and borate material, crude. Brass fit only for remanufacture. Brick n.s.p. Brick n.s.p. Bristles, crude. Broom corn Bullion, gold or silver. Calcium: Acetate, chloride, crude; nitrate and cyanamid. Linotype machines; tar and oil spreading machines. Cement, Roman, Portland and other hydraulic. Chalk, crude. Chestnuts. Chrome ore. Coal and fuel compositions of coal. Coal tar, crude, and certain specified coaltar products. Cobalt and ore. Cocoa beans. Coffee. Coins. Copper ore. Coral, unmanufactured. Cork, unmanufactured. Cotton and cotton waste. Curry and curry powder. Cyanide: Potassium, sodium, salts. Glaziers' and engravers' diamon and engravers' diamonds, unset; miners' diamonds. Drugs, crude materials for, uncompounded and nonalcoholic. Dyeing or tanning materials. Eggs. Emery and corundum ore. Fans, common palm-leaf. Fibrin. Fish, except for food. Fossils. Furs n.s.p., undressed. Gloves of leather made from cattle hides. Goldbeaters' molds and skins. Grasses and fibers n.s.p. Guano and fertilizers n.s.p. Gunpowder and explosives n.s.p. Hair, unmanufactured, n.s.p. Hide cuttings; rawhide rope. Hides of cattle.

Ice.

cinnamon, citronella, geranium, Parchment and vellum. Pads for horses. Phosphates, crude and apatite. Pigeons, fancy and racing. salts n.s.p. Professional books, implements, Radium and radioactive substitutes. Rennet. Rice, patna, cleaned. Sago, crude, sago flour. Sausage casings. Selenium and salts of. Sheep dip. Hones and whetstones. Shingles. Horns, unmanufactured. Shrimps, lobsters and other shellfish. Silk cocoons and waste. and gutta-percha. unmanu-India rubber factured. Silk, raw. Iodine, crude. Skeletons. Iron ore. Ivory tusks in natural state. Jet, unmanufactured. eralogy not for sale. Junk. Keln. Leather n.s.p.; harness, saddles, except metal parts, n.s.p.; cut into shoe uppers, vamps, soles; leather shoe laces.

# TITLE III.—SPECIAL PROVISIONS.

TITLE III.—SPECIAL PROVISIONS.

Regulations as to Philippines.

There shall be levied upon all articles coming into the United States from the Philippines he rates of duty required to be levied upon like articles imported from foreign countries: Provided, That articles the growth or product of or manufactured in the Philippines from materials the growth or product of the Philippines or of the United States, or of both, upon which no drawback of customs duties has been allowed therein, coming into the United States from the Philippines shall hereafter be admitted free of duty; similar articles under similar conditions shall be admitted to the Philippines duty free. There shall be levied and paid in the United States upon articles coming from the Philippines at ax equal to the internal-revenue tax imposed upon like articles of domestic merchandise; such articles shall be exempt from

the payment of any tax imposed by the in-ternal revenue laws of the Philippines. There shall be paid in the Philippines upon articles coming from the United States a tax equal to the internal revenue tax imposed in the Philippines on similar articles manufactured there; such articles shall be exempt from the payment of internal revenue taxes in the United States.

## Goods for Porto Rico.

Articles, goods, wares or merchandise going into Porto Rico from the United States shall be exempted from the payment of any tax imposed by the internal revenue laws of the United States.

#### Bounties Equalized by Duties.

Whenever any country, dependency, colony, province or other political subdivision of government, person, partnership, association, cartel or corporation shall pay or bestow, directly or indirectly any bounty or grant upon the manufacture or production or export of any manufacture or production of export of and article or merchandise manufactured or produced in such country, dependency, colony, province or other political subdivision of governments. ernment, and such article or merchandise is dutiable under the provisions of this act, then upon the importation of any such article or merchandise into the United States, whether the same shall be imported directly from the the same shall be imported directly from the country of production or otherwise, and whether such article or merchandise is imported in the same condition as when exported from the country of production or has been changed in condition by remanufacture or otherwise, there shall be levied and paid, in all such cases, in addition to the duties otherwise imposed by this act, an additional duty equal to the net amount of such bounty or grant, however the same be paid or betowed. The net amount of all such bounties or grants shall be from time to time ascertained, determined and declared by the secretary of the treasury.

\*\*Marking and Stamping\*\*

#### Marking and Stamping.

Every article imported into the United States which is capable of being marked, stamped, branded or labeled without injury at the time of its manufacture or production shall be marked, stamped, branded or labeled, in legible English words, in a conspicuous place that shall not be covered or obscured by the construction of the programments of argaments. place that shall not be covered or obscured by any subsequent attachments or arrangements, so as to indicate the country of origin. Any such article held in customs custody shall not be delivered until so marked, stamped, branded or labeled, and until every such article of the importation which shall have been released from customs custody not so marked, stamped, branded or labeled, shall be marked, stamped, branded or labeled in accordance with such rules and regulations as the secretary. such rules and regulations as the secretary of the treasury may prescribe. Unless the arthe treasury may prescribe. Unless the ar-ticle is exported under customs supervision, there shall be levied, collected and paid upon every such article which at the time of im-portation is not so marked, stamped, branded or labeled, in addition to the regular duty imposed by law on such article, a duty of 10 per centum of the appraised value thereof, or if such article is free of duty there shall be levied, collected and paid upon such article a duty of 10 per centum of the appraised value thereof.

#### Power Vested in President.

In order to regulate the foreign commerce of the United States and to put into force and effect the policy of the congress by this act intended, whenever the president, upon investigation of the differences in costs of production of articles wholly or in part the growth or product of the United States and of like or similar articles wholly or in part the

growth or product of competing foreign countries, shall find it thereby shown that the dutries fixed in this act do not equalize the said differences in costs of production in the United States and the principal competing differences in costs of production in the United States and the principal competing country he shall by such investigation ascertain said differences and determine and proclaim the changes in classifications or increases or decreases in any rate of duty provided in this act shown by said ascertained differences in such costs of production necessity. differences in such costs of production necessary to equalize the same. Thirty days after the date of such proclamation or proclamations such changes in classification shall take tions such changes in classification shall take effect, and such increased or decreased duties shall be levied, collected and paid on such articles when imported from any foreign country into the United States or into any of its possessions (except the Philippine islands, the Virgin islands and the islands of Guam and Tutuila): Provided, That the total increase or decrease of such rates of duty shall not exceed 50 per centum of the rates specinot exceed 50 per centum of the rates speci-fied in title I, of this act, or in any amenda-

tory act. In order to regulate the foreign commerce of the United States and to put into force and effect the policy of the congress by this act intended, whenever the president upon investigation of the differences in costs of production of articles provided for in title I, of this act, wholly or in part the growth or product of the United States and of like or similar articles wholly or in part the growth or product of competing foreign countries, shall find it thereby shown that the duties prescribed in this act do not equalize said differences, and shall further find it thereby shown that the action of the production in the said differences in costs of production in the said differences in costs of production in the United States and the principal competing country cannot be equalized by proceeding country cannot be equalized by proceeding under the provisions of this section, he shall make such findings public, together with a description of the articles to which they apply, in such detail as may be necessary for the guidance of appraising officers. In such cases and upon the proclamation by the president becoming effective the ad valorem duty or duty based in whole or in part upon the value of the imported article in the country of arroration bull therefor he present the probability. of exportation shall thereafter be based upon or exportation shall thereafter be based upon the American selling price of any similar competitive article manufactured or produced in the United States embraced within the class or kind of imported articles upon which the president has made a proclamation.

The ad valorem rate price of duty based

upon such American selling price shall be the rate found, upon said investigation by the president, to be shown by the said differences in costs of production necessary to equalize such differences, but no such rate shall be decreased more than 50 per centum of the rate specified in title I. of this act upon such articles, nor shall any such rate be increased. Such rate or rates of duty shall become effective different departments. tive fifteen days after the date of the procla-

tive fifteen days after the date of the proclamation of the president, whereupon the duties of estimated and provided shall be levied, collected and paid on such articles, when imported from any foreign country into the United States or into any of its possessions (except the Philippine islands, the Virgin islands and the islands of Guam and Tutulla). In ascertaining the differences in costs of production the president, in so far as he finds it practicable, shall take into consideration (1) the differences in conditions in production, including wages, costs of material and other items in costs of production of such or similar articles in the United States and in competing foreign countries: (2) the differences in the wholesale selling prices of doences in the wholesale selling prices of domestic and foreign articles in the principal markets of the United States; (3) advantages

granted to a foreign producer by a foreign government or by a person, partnership, cor-poration or association in a foreign country; and (4) any other advantages or disadvantages in competition.

Investigations to assist the president in ascertaining differences in costs of production under this section shall be made by the United States tariff commission, and no proclamation shall be issued under this section until such investigation shall have been made. The commission shall give reasonable public notice of its hearings and shall give reasonable processing the programment of the commission of the co able opportunity to parties interested to be present, to produce evidence and to be heard. The commission is authorized to adopt such reasonable procedure, rules and regulations as

it may deem necessary.

The president, proceeding as hereinbefore provided for in proclaiming rates of duty, shall, when he determines that it is shown that the differences in costs of production have changed or no longer exist which led to such proclamation, accordingly as so shown, modify or terminate the same. Nothing in this section shall be construed to authorize a transfer of an article from the dutiable list to the free list or from the free list to the dutiable list, nor a change in form of duty. Whenever it is provided in any paragraph of title I. of this act that the duty or duties shall not exceed a specified ad valorem rate upon the articles provided for in such paragraph, no rate determined under the provision of this section upon such articles shall exceed the maximum ad valorem rate specified.

Unfair Competition.

Unfair methods of competition and unfair acts in the importation of articles into the United States, or in their sale by the owner, importer, consignee or agent of either, the effect or tendency of which is to destroy or substantially injure an industry efficiently and economically operated in the United States, or to prevent the establishment of such an industry, or to restrain or monopolize trade and commerce in the United States, are hereby declared unlawful. To assist the president in making any decisions under this section the United States tariff commission is hereby authorized to investigate any electron description. thorized to investigate any alleged violation hereof on complaint under oath or upon its initiative. The final findings of the commis-sion shall be transmitted with the record to the president.

whenever the existence of any such unfair method or act shall be established to the satisfaction of the president he shall determine the rate of additional duty, not exceeding 50 nor less than 10 per centum of the value of such articles, which will offset such method or act, and which is hereby imposed upon articles imported in violation of this act, or, in what he shall be satisfied and find are extreme cases of unfair methods or acts as aforesaid, he shall direct that such articles as he shall deem the interests of the United States shall require, imported by any person violating the provisions of this act, shall be violating the provisions of this act, shall be excluded from entry into the United States, and upon information of such action by the president, the secretary of the treasury shall. through the proper officers, assess such additional duties or refuse such entry; and that the decision of the president shall be conclu-

Whenever the president has reason to believe whenever the president has reason to believe that any article is offered or sought to be offered for entry into the United States in violation of this section but has not information sufficient to satisfy him thereof, the secretary of the treasury shall, upon his request in writing, forbid entry thereof until such investigation as the president may deem necessary shall be completed: Provided, That the secretary of the treasury may permit en-try under bond upon such conditions and penalties as he may deem adequate.

Any additional duty or any refusal of entry under this section shall continue in effect un-til the president shall find and instruct the secretary of the treasury that the conditions

secretary of the treasury that the conditions which led to the assessment of such additional duty or refusal of entry no longer exist.

The president when he finds that the public interest will be served thereby shall by proclamation specify and declare new or additional duties as hereinafter provided upon articles wholly or in part the growth or product of any foreign country whenever he shall find as a fact that such country.

as a fact that such country—
Imposes, directly or indirectly, upon the disposition in or transportation in transit through or re-exportation from such country disposition in or transportation in transportation from such country of any article wholly or in part the growth or product of the United States any unreasonable charge, exaction, regulation, or limitation which is not equally enforced upon the like articles of every foreign country;
Discriminates in fact against the commerce

of the United States, directly or indirectly, by law or administrative regulation or practice, by or in respect to any customs, tonnage, or port duty, fee, charge, exaction, classification, regulation, lation, condition, restriction, or prohibi-in such manner as to place the commerce of the United States at a disadvantage compared with the commerce of any foreign country

If at any time the president shall find it to be a fact that any foreign country has not only discriminated against the commerce of the United States as aforesaid, but has, after the issuance of a proclamation, maintained or increased its said discriminations against the commerce of the United States, the president commerce of the ometa series, and present is hereby authorized, if he deems it consistent with the interests of the United States, to issue a further proclamation directing that issue a further proclamation directing that such articles of said country as he shall deem the public interests may require shall be excluded from importation into the United States.

States.

Any proclamation issued by the president under the authority of this section shall, if he deems it consistent with the interests of the United States, extend to the whole of any foreign country or may be confined to any subdivision or subdivisions thereof; and the president shall, whenever he deems the public interests require, suspend, revoke, supplement or amend any such proclamation.

Whenever the president shall find as a fact that any foreign country places any burdens upon the commerce of the United States by any of the unequal impositions or discriminations aforesaid, he shall, when he finds that

tions aforesaid, he shall, when he finds that the public interest will be served thereby, by proclamation specify and declare such new or additional rate or rates of duty as he shall determine will offset such burdens, not to expend 50 per century of velocem por its course. determine will offset such burdens, not to exceed 50 per centum ad valorem or its equivalent, and on and after thirty days after the date of such proclamation there shall be levied, collected and paid upon the articles enumerated in such proclamation when imported into the United States from such foreign country such new or additional rate or rates of duty; or, in case of articles declared subject to exclusion from importation into the United States, such articles shall be excluded from importation. cluded from importation.

Whenever the president shall find as a fact that any foreign country imposes any unequal imposition or discrimination as aforesaid upon the commerce of the United States, or that any benefits accrue or are likely to accrue to any industry in any foreign country by reason of any such imposition or discrimination imposed

by any foreign country other than the for-eign country in which such industry is located, and whenever the president shall de-termine that any new or additional rate or rates of duty or any prohibition hereinbefore provided for do not effectively remove such provided for do not effectively remove such imposition or discrimination and that any benefits from any such imposition or discrimination accrue or are likely to accrue to any industry in any foreign country, he shall, when he finds that the public interest will be served thereby, by proclamation specify and declare such new or additional rate or rates of duty upon the articles wholly or no part the growth or product of any such industry as he shall determine will offset such benefits, not to exceed 50 per centum and industry as he shall determine will offset such benefits, not to exceed 50 per centum ad valorem or its equivalent, upon importation from any foreign country into the United States of such articles and on and after thirty days after the date of any such proclamation such new or additional rate or rates of duty so specified and declared in such proclamation shall be levied, collected, and paid upon such articles. upon such articles.

All articles imported contrary to the provisions of this section shall be forfeited to the United States and shall be liable to be the United States and shall be liable to be seized, prosecuted, and condemned in like manner and under the same regulations, restrictions, and provisions as may from time to time be established for the recovery, collection, distribution and remission of forfeitures to the United States by the control feitures to the United States by the several

revenue laws.

## Methods of Valuation.

For the purposes of this act the value of imported merchandise shall be-

(1) The foreign value or the export value, whichever is higher:

(2) If neither the foreign value nor the export value can be ascertained to the satisfaction of the appraising officer, then the United States value: the ex-

(3) If neither the foreign value, the export value, nor the United States value can be ascertained to the satisfaction of the appraising officers, then the cost of production;
(4) If there be any similar competitive article manufactured or produced in the United States of a class or kind upon which the president has made public a finding them

United States of a class or kind upon which the president has made public a finding, then the American selling price of such article.

The foreign value of imported merchandise shall be the market value or the price at the time of exportation of such merchandise to the United States of which analysis. the time of exportation of such merchandise to the United States, at which such or similar merchandise is freely offered for sale to all purchasers in the principal markets of the country from which exported, in the usual wholesale quantities and in the ordinary course of trade, including the cost of all containers and coverings of whatever nature, and all other certs observe and exponents included to and coverings of whatever nature, and all other costs, charges and expenses incident to placing the merchandise in condition, packed ready for shipment to the United States.

The export value of imported merchandise shall be the market value or the price, at the time of exportation of such merchandise

to the United States, at which such or similar merchandise is freely offered for sale to all purchasers in the principal markets of the country from which exported, in the usual wholesale quantities and in the ordinary course of trade, for exportation to the United States, of trade, for exportation to the United States, plus, when not included in such price, the cost of all containers and coverings of whatever nature, and all other costs, charges and expenses incident to placing the merchandise in condition, packed ready for shipment to the United States. If in the ordinary course of trade imported merchandise is shipped to the United States to an agent of the seller, or to the seller's branch house, pursuant to an

order or an agreement to purchase (whether placed or entered into in the United States or in the foreign country), for delivery to the purchaser in the United States, and if the title to such merchandise remains in the seller putil such delivery then such merchandise until such delivery then such merchandise shall not be deemed to be freely offered for sale in the principal markets of the country from which exported for exportation to the United States, within the meaning of this

subdivision.

The United States value of imported merchandise shall be the price at which such or similar imported merchandise is freely offered for sale, packed ready for delivery, in the principal market of the United States to all purchasers, at the time of exportation of the imported merchandise, in the usual whole-sale quantities and in the ordinary course of trade, with allowance made for duty, cost of transportation and insurance, and other necessary expenses from the place of shipment to the place of delivery, a commission not exceeding 6 per centum, if any has been paid or contracted to be paid on goods secured otherwise than by purchase, or profits not to exceed 8 per centum and a reasonable allowance for general expenses, not to exceed 8 per subdivision.

for general expenses, not to exceed 8 per centum on purchased goods. For the purpose of this title the cost of production of imported merchandise shall be

the sum of-

(1) The cost of materials of, and of fabrication, manipulation, or other process employed in manufacturing or producing such or similar merchandise, at a time preceding the date of exportation of the particular merchandise under consideration which would ordinarily permit the manufacture or pro-

duction of the particular merchandise under consideration in the usual course of business; (2) The usual general expenses (not less

than 10 per centum of such cost) in the case of such or similar merchandise;
(3) The cost of all containers and coverings (3) The cost of all containers and coverning of whatever nature, and all other costs, charges and expenses incident to placing the particular merchandise under consideration in condition, packed ready for shipment to the United States; and

(4) An addition for profit (not less than S

(4) An addition for profit (not less than 8 per centum of the sum of the amounts found under paragraphs (1) and (2) of this subdivision) equal to the profit which ordinarily is added, in the case of merchandise of the same general character as the particular merchandise under consideration, by manufacturers or producers in the country of manufacture or production who are engaged in the production or manufacture of merchandise of the same class or kind

the same class or kind.

the same class or kind.

The American selling price of any article manufactured or produced in the United States shall be the price, including the cost of all containers and coverings of whatever nature and all other costs charges and expenses incident to placing the merchandise in condition packed ready for delivery, at which such article is freely offered for sale to all purchasers in the principal market of the United States, in the ordinary course of trade and in the usual wholesale quantities in such market, or the price that the manufacturer, and in the usual wholesale quantities in such market, or the price that the manufacturer, producer or owner would have received or was willing to receive for such merchandise when sold in the ordinary course of trade and in the usual wholesale quantities at the time of exportation of the imported article.

## MATERNITY AND INFANCY WELFARE ACT.

Sheppard-Towner law, passed at the first session of the 67th congress and approved Nov. 23. 1921.

Be it enacted, etc., That there is hereby authorized to be appropriated annually, out of any money in the treasury not otherwise appropriated, the sums specified in section 2 of this act, to be paid to the several states for the purpose of co-operating with them in promoting the welfare and hygiene of maternity and infancy as hereinafter provided. Section 2. For the purpose of carrying out the provisions of this act, there is authorized to be appropriated, out of any money in the treasury, not otherwise appropriated, for the current fiscal year \$480,000, to be equally

provisions of this act, there is authorized to be appropriated, out of any money in the treasury, not otherwise appropriated, for the current fiscal year \$480,000, to be equally apportioned among the several states, and for each subsequent year, for the period of five years, \$240,000, to be equally apportioned among the several states in the manner hereinafter provided: Provided, That there is hereby authorized to be appropriated for the use of the states, subject to the provisions of this act, for the fiscal year ending June 30, 1922, an additional sum of \$1,000,000, and annually thereafter, for the period of five years, an additional sum not to exceed \$1,000,000: Provided, further, That the additional appropriations herein authorized shall be apportioned \$5,000 to each state and the balance among the states in the proportion which their population bears to the total population of the states of the United States, and provided further, That no payment out of the additional appropriation herein authorized small be made in any year to provide the property of the provided shall be made in any year to the provided states and the provided shall be made in any year to the provided shall be made in any year to the provided shall be made to the provided to the provision to the provided shall be made in any year to the provided shall be made in any year to the provided to the ment out of the additional appropriation herein authorized shall be made in any year to any state until an equal sum has been appropriated for that year by the legislature of such state for the maintenance of the services and facilities provided for in this act.

So much of the amount apportioned to any state for any fiscal year as remains unpaid to such state at the close thereof shall be available for expenditures in that state until the close of the succeeding fiscal year.

Sec. 3. There is hereby created a board of maternity and infant hygiene, which shall con-

Sec. 3. There is hereby created a board of maternity and infant hygiene, which shall consist of the chief of the children's bureau, the surgeon-general of the United States public health service, and the United States commissioner of education, and which is hereafter designated in this act as the board. The board shall elect its own chairman and perform the detries resided for inthic act.

board shall elect its own chairman and perform the duties provided for in this act. The children's bureau of the department of labor shall be charged with the administration of this act, except as herein otherwise provided, and the chief of the children's bureau shall be the executive officer. It shall be the duty of the children's bureau to make or cause to be made such studies, investigations and reports as will promote the efficient administration of this act.

Sec. 4. In order to secure the benefits of

Sec. 4. In order to secure the benefits of the appropriations authorized in section 2 of the appropriations authorized in section 2 of this act, any state shall, through the legislative authority thereof, accept the provisions of this act and designate or authorize the creation of a state agency with which the children's bureau shall have all necessary powers to co-operate as herein provided in the administration of the provisions of this act. Provided, That in any state having a child-welfare or child-hygiene division in its state agency of health, the said state agency of health shall administer the provisions of this act through such divisions. If the legislature of any state has not made provision for accepting the provisions of this act the governor of such state may in so far as he is authorized to do so by the laws of such state accept the provisions of this act and designate or create a state agency to co-operate with the children's bureau until six

months after the adjournment of the first regular session of the legislature in such state following the passage of this act.

Sec. 5. So much, not to exceed 5 per centum, of the additional appropriations authorized for any fiscal year under section 2 of this act, as the children's bureau may estimate to be necessary for administering the provisions of this act, as herein provided, shall be deducted for that purpose, to be available until exceeded

until expended. until expended.

Sec. 6. Out of the amounts authorized under section 5 of this act the children's bureau is authorized to employ such assistants, clerks, and other persons in the District of Columbia and elsewhere, to be taken from the eligible lists of the civil service commission, and to purchase such supplies, material, equipment, office fixtures and apparatus, and to incur such travel and other expense as it may deem necessary for carrying out the purposes of this act. this act.

Sec. 7. Within sixty days after any appropriation authorized by this act has been made, the children's bureau shall make the apportionment herein provided for and shall certify to the secretary of the treasury the amount estimated by the bureau to be necessary for administration the provisions of the sary for administering the provisions of this act, and shall certify to the secretary of the treasury and to the treasurers of the various states the amount which has been apportioned to each state for the fiscal year for which such appropriation has been made.

Sec. 8. Any state desiring to receive the benefits of this act shall, by its agency described in section 4, submit to the children's bureau detailed plans for carrying out the provisions of this act within such state, which plans shall be subject to the approval of the board: Provided, That the plans of the states under this act shall provide that no official or agent or representative in carry

states under this act shall provide that no official or agent or representative in carrying out the provisions of this act shall enter any home or take charge of any child over the objection of the parents, or either of them, or the person standing in loce parents or having custody of such child. If these plans shall be in conformity with the provisions of this act and reasonably appropriate and adequate to carry out its purposes they shall be approved by the board and due notice of such approval shall be sent to the state agency by the chief of the children's bureau. Sec. 9. No official, agent or representative of the children's bureau shall by virtue of the children's bureau shall by virtue of this act have any right to enter any home over the objection of the owner thereof, or to take charge of any child over the objection of the parents, or either of them, or of the person standing in loce parentis or having custody of such child. Nothing in this act shall be construed as limiting the power of a parent or guardian or person standing in loce parentis to determine what treatment or correction shall be provided for a child or the agency or agencies to be employed for such purpose.

the provisions of this act and designated or authorized the creation of an agency to co-operate with the children's bureau, or that the state has otherwise accepted this act, as provided in section 4 hereof; (2) the fact that the proper agency of the state has sub-mitted to the children's bureau detailed plans for corrupting out the provisions of this act mitted to the children's bureau detailed plans for carrying out the provisions of this act, and that such plans have been approved by the board; (3) the amount, if any, that has been appropriated by the legislature of the state for the maintenance of the services and facilities of this act, as provided in section 2 hereof; and (4) the amount to which the state is entitled under the provisions of this act. Such certificate, when in conformity

state is entitled under the provisions of this act. Such certificate, when in conformity with the provisions hereof, shall, until revoked as provided in section 12 hereof, be sufficient authority to the secretary of the treasury to make payment to the state in accordance therewith.

Sec. 11. Each state agency co-operating with the children's bureau under this act shall make such reports concerning its operations and expenditures as shall be prescribed or requested by the bureau. The children's bureau may, with the approval of the board, and shall, upon request of a majority of the board, withhold any further certificate provided for in section 10 hereof whenever it shall be determined as to any state that the board, withhold any further certificate provided for in section 10 hereof whenever it shall be determined as to any state that the agency thereof has not properly expended the money paid to it or the moneys herein required to be appropriated by such state for the purposes and in accordance with the provisions of this act. Such certificate may be withheld until such time or upon such conditions as the children's bureau, with the

approval of the board, may determine; when so withheld the state agency may appeal to the president of the United States, who may either affirm or reverse the action of the bureau with such directions as he shall consider proper: Provided, That before any such certificate shall be withheld from any state the chairman of the board shall give notice in writing to the authority designated to represent the state, stating specifically wherein said state has failed to comply with the provisions of this act.

provisions of this act.

Sec. 12. No portion of any moneys apportioned under this act for the benefit of the states shall be applied, directly or indirectly, to the purchase, erection, preservation or repair of any building or buildings or equipment, or for the purchase or rental of any buildings or lands, nor shall any such moneys or moneys required to be appropriated by any state for the purposes and in accordance with the provisions of this act be used for the payment of any maternity or infancy pension, stinend or gratuity. stipend or gratuity.

Sec. 13. The children's bureau shall perform Sec. 13. The children's bureau snall perform the duties assigned to it by this act under the supervision of the secretary of labor, and he shall include in his annual report to congress a full account of the administration of this act and expenditures of the moneys herein authorized.

Sec. 14. This act shall be construed as intending to secure to the various states control of the administration of this act within their respective states, subject only to the provisions and purposes of this act. (Approved Nov. 23, 1921.)

#### THE MONROE AND DRAGO DOCTRINES.

The "Monroe doctrine" was enunciated by President Morroe in his message to congress Dec. 2, 1823. Referring to steps taken to ar-range the respective rights of Russia, Great Britain and the United States on the north-west coast of this continent, the president went

on to say:
"In the discussions to which this interest has given rise, and in the arrangements by which they may terminate, the occasion has been given rise, and in the arrangements by which they may terminate, the occasion has been deemed proper for asserting, as a principle in which the rights and interests of the United States are involved, that the American continents, by the free and independent condition which they have assumed and maintained, are henceforth not to be considered as subjects for future colonization by any European power, we we we wit, therefore, to candor and to the amicable relations existing between the United States and those powers to declare that we should consider any attempt on their part to extend their system to any portion of this hemisphere as dangerous to our peace and safety. With the existing colonies or dependencies of any European power we have not interfered and shall not interfere. But with the governments who have declared their independence and maintain it, and whose independence we have, on great consideration and on just principles, acknowledged, we could not view any interposition for the purpose of oppressing them or controlling in any other manner their destiny by any European power in any other light than as the manifestation of unifficiently disposition toward the United States." States."

DRAGO DOCTRINE.

When in the winter of 1902-03 Germany, Britain and Italy blockaded the ports of Venezuela in attempt to make the latter country settle up its debts Dr. L. F. Drago, a noted jurist of Argentina, maintained that force cannot be used by one power to collect money. not be used by one power to collect money owing to its citizens by another power. Prom-

inence was given to the contention by the fact that it was officially upheld by Argentina and favored by other South American republics. The principle embodied has become generally known as the "Drago doctrine."

## LODGE RESOLUTION.

In connection with the reported attempt of Japan to obtain land for the establishment of a naval base in Magdalena bay, on the western coast of Mexico, the senate of the United States adopted the following resolution Aug.

2, 1912:
"Resolved, That when any harbor or other place in the American continents is so situated the compation thereof for naval or place in the American continents is su situated that the occupation thereof for naval or military purposes might threaten the communications or the safety of the United States, the government of the United States could not see without grave concern the possession of such harbor or other place by any corporation or association which has such relation to another government, not American, as to give that government practical power of control for national purposes."

# EARTHQUAKE IN CENTRAL WEST.

Several earth shocks were felt on the afternoon and evening of March 22, 1922, in eastern Missouri, southern Illinois, southern Indiana, northern Arkansas, western Kentucky and northern Tennessee. No serious damage was reported, though the tremors were severe enough to shake buildings, dislodge chimneys and rattle windows and dishes. The first and strongest quake was recorded on the seismograph at the St. Louis university at 4:30 p.m. It was followed by two slight tremors at 4:37 and 4:49 and another at 8:22 p.m. In December, 1811, a series of earth shocks occurred in the same region, the center then being at New Madrid, Mo.

## FIRST UNITED STATES BUDGET.

President Harding on Dec. 5, 1921, sent total estimated expenditures of that year, the first federal budget to congress with the following message:
"I submit herewith the budget of the United States for the fiscal year ending June 30, 11923. It will be noted that the estimated ordinary expenditures for 1922 show a reduction of \$1,513,537,682.20, compared with the actual ordinary expenditures for 1921; which the estimated expenditures of that year, total estimated expenditures of budget closing, but ways are previded for relatively easy adjustment without added taxation.

"For the purpose of providing a portion of the funds necessary to balance the budget of 1921; which the estimated expenditures of that year. States for the fiscal year ending June 30, 1923, It will be noted that the estimated ordinary expenditures for 1922 show a reduction of \$1,513,537,682.20, compared with the actual ordinary expenditures for 1921; the actual ordinary expenditures for 1921, and that the estimated ordinary expenditures for 1923 show a reduction of \$147,704,239 under 1922, making the estimated ordinary expenditures under the budget for 1923 \$1,961,241,921,20 less than the actual ordinary expenditures for 1921.

"Including transactions in the principal of the public debt and investments of trust funds, the total estimated expenditures for 1922 show a reduction under the total actual expenditures for 1921 of \$1,570,118,323,30, and the total estimated expenditures for 1923 show a reduction of \$462,167,639 under the total estimated expenditures for 1922, making a reduction in total expenditures in the estimated expenditures in the estimated expenditures. a reduction in total expenditures in the estimated budget for 1923, as compared with the total actual expenditures for 1921, of \$2,032,285,962.30.

"It will also be noted that the total estimated receipts for 1922 are in approximate balance with the total estimated expenditof the public debt, and that the total estimated receipts for 1923 are within approximately \$150,000,000 of a balance with the

exceed the estimated receipts by the sum of approximately \$150,000,000, I recommend approximately \$150,000,000. I recommend the following legislation in connection with the naval appropriation bill for 1923, which would result in the eventual automatic re-lease of \$100,000,000 now held in the naval

supply account of the navy department:
"Hereafter, until the naval supply account "Hereafter, until the naval supply account shall have been reduced to a maximum sum of \$150,000,000, which shall not thereafter be exceeded, one-half of all reimbursements otherwise due to the naval supply account, whether from current issues or from sales, shall be covered into the treasury as miscellaneous receipts, and only one-half shall be credited to the naval supply account." "With the continued pressure for economy in all departments and the passage of such legislation, the balancing of total receipts and total expenditures for the fiscal years 1922 and 1923 should be accomplished.
"I also transmit herewith the report of the director of the bureau of the budget on the budget of the United States and the operations of the bureau of the budget.
"WARREN G. HARDING."

#### BUDGET SUMMARY.

Exclusive of postal revenues and postal expenditures paid from postal revenues.

1923 (estimated). 1922 (estimated). 1921 (actual). ..\$3,338,182,750.00 \$3,943,453,663.00 \$5,624,932,960.91 

3,967,922,366.00 5,538,040,689.30 24,468,703.00

Excess of expenditures......\*167,571,977.00
Excess of receipts..... 86.892.271.61

\*By continued pressure for economy and account in the sum of \$100,000,000, is enif the recommended legislation in connection acted, it is estimated that funds will be with the naval appropriation bill for 1923, provided to balance the budget for 1923 as directing the reduction of the naval supply above.

PURPOSE OF THE BUDGET.

In his report accompanying the budget | Charles G. Davids director of the bureau of | the budget, said in part:

"In presenting the budget of the United States for the fiscal year 1923, covering the sequirements of the budget act, the director of the budget has prepared it upon the basis of the amount of cash which must actually be withdrawn from the treasury during the

fiscal year 1923.

"The method of appropriation of money heretofore followed has resulted in a condition of things under which it is almost impossible for either the executive, congress or the secretary of the treasury to have before them a true picture of the fiscal condition of the government at any particular time. Al-though congress has by stringent penal law prohibited the creation of deficiencies and clearly indicated that its annual appropriations were intended to limit the amount to be expended for such period, yet millions of dollars have been annually spent by the de-partments above the estimates submitted at the beginning of the fiscal year, and in recent years, due to the great sums appropriated in connection with the war, hundreds of millions of dollars have been so expended by the departments, a course made possible by deficiency and supplemental appropriations, the existence of revolving funds and unexpended balances.

"The whole habit of making continuous appropriations to which the government has been committed in the past is only an encouragement to a lack of scrutiny of public work by the head of the department under which it is carried on, and an encouragement to shiftlessness and carelessness on the part of the subordinates more directly concerned in The more rigid the system under which continuous attention to the conduct of the business of government is made mandatory on the part of congress and the business administration the more efficient will be the conduct of government.

"Finally, this system of preparing the budget

will confine the attention of the executive, of congress and of the public to the one great important question, to wit, the relation of the money actually to be spent by the government to the money actually to be received by the government in any given year, all its outstanding obligations and indefinite commitments, projects and enterprises considered. This will enable congress, with more intelligence, to determine at any time both the necessity for retrenchment and the ability of the government to engage in additional projects to be interested. initiated by congress outside of the budget-ary provisions. \* \* "The purpose of the budget act is to en-able the president, as the responsible head

of the administration of the government, to present to congress an annual business propresent to congress an annual ousness program which shall contain the necessary information concerning the financial requirements of all the departments and establishments of the government, and the resources from which this program of expenditures may be met, in such form as clearly to indicate the application of business principles to the government's administrative activities."

CO-ORDINATING AGENCIES. Mr. Dawes in his report calls attention to about a dozen serious defects in the business

methods of the corporation (government), arising mainly from the fact that the president of the corporation gave practically no attention to its ordinary routine business. He then specifies the following agencies, established by executive order, which are engaged in co-ordinating, in all matters of routine business, the activities of the ser partments and establishments: 1. The federal purchasing board. 2. The federal liquidation board. the separate de-

3. The organization of corps area co-ordinators for the entire country.

 Surveyor-general of real estate. Federal motor transport agent.

The federal traffic board. 7. The federal board of hospitalization.

The federal specifications board.

The general supply committee.

#### ACADEMY OF MEDICINE. MME. CURIE IN FRENCH

MME. CURIE IN FRENCH
Mme. Marie Curie, scientist and specialist in
radiology, was elected a member of the French
Academy of Medicine Feb. 7, 1922. It was
the first time any woman had been elected a
full member of that or any of the other
lacking French academies of the present day leading French academies of the present day. Mme. Curie, whose maiden name was Marie Sklodowska, was born in Warsaw Nov. 7, 1867. She was educated in the Warsaw lyceum and in the scientific department of the Sorbonne in Paris, France. In Paris she met and was married to Pierre Curie, a French

ACADEMY OF MEDICINE. scientist, in collaboration with whom she discovered and made known the properties of radium. Her publications include "Researches Into the Magnetic Properties of Tempered Steel" and "Researches Into Radioactive Substances." Mme. Curie visited the United States in the spring of 1920 and was honored with degrees by several universities. She was also presented at the white house in Washington with a gram of radium valued at \$100,000, purchased for her by American women.

# GOVERNMENT AID TO MERCHANT MARINE. PRESIDENT HARDING'S SPEECH BEFORE CONGRESS.

On Feb. 28, 1922, President Harding appeared before a joint session of congress and delivered the following address on the need of government aid to the American merchant

marine:

Vice-President and Members of Mr. Speaker. Congress: When addressing the congress last December I reported to you the failure of the executive to carry out the intent of certain features of the merchant marine act of 1920, notably the provision for the notice of cancellation of all commercial treaties which hindered our grant of discriminating duties on imports brought to our shores in American ships. There was no doubt about the high pursnips. There was no doubt about the high pur-pose of congress to apply this proven prac-tice to the upbuilding of our merchant ma-rine. It had proven most effective in the earlier days of American shipping; it had, at various times, demonstrated its effectiveness in the upbuilding of commercial shipping for other nations.

The success of the earlier practice for this republic came at a time when we had few treaties, when our commerce was little developed. Its supersedure by reciprocity in veloped. Its supersedure by reciprocity in shipping regulations and the adoption of other methods of upbuilding merchant marines, through various forms of government aid and the century of negotiation of commercial treaties, all combined to develop a situation which should lead to endless embarrassment if we denounced our treaties. We should not if we denounced our treaties. We should not only be quite alone in supporting a policy long since superseded through the growing intimacy of international relationships, but we should invite the disturbance of those cordial commercial relations which are the first requisite to the expansion of our commerce abroad.

Contemplating the readiness of congress to Contemplating the readiness of congress to grant a decreased duty on imports brought to our shores in American bottoms and facing the embarrassments incident to readjustment of all treaty arrangements, it seemed desirable to find a way of applying suitable aid to our shipping which the congress clearly intended and at the same time avoid the embarrassment of our trade relationships abroad.

The recommendation of to-day is based

The recommendation of to-day is on this commendable intent of con-The proposed aid of the government wholly to its merchant marine is to have its chief source in the duties collected on imports. Instead of applying the discriminating duty to the specific cargo and thus encouraging only the inbound shipment, I propose that we shall collect all import duties, without dis-crimination as between American and foreign crimination as between American and loreign bottoms, and apply the heretofore proposed reduction to create a fund for the government's aid to our merchant marine. By such a program we shall encourage not alone the sarrying of inbound cargoes subject to our tariffs, but we shall strengthen American ships in the carrying of that greater inbound townsee, on which products are leaved and tennage on which no duties are levied, and, more important than these, we shall equip our merchant marine to serve our outbound commerce, which is the measure of our eminence in foreign trade.

It is interesting to note, in connection with It is interesting to note, in connection with the heretofare proposed plan of discriminating tariffs on imports carried to our shores in American bottoms, that the total value of all dutiable imports for 1920, in all vessels, was \$1,985,865,000, while the cargoes admitted free of duty, on which no discrimination was possible, were valued at \$3,115,985,800. The actual tonnage comparison is even more significant from the viewpoint of cargo carrying because the dutiable cargoes cargo carrying because the dutiable cargoes

measured, in round numbers, 10,000,000 tons and the nondutiable cargoes were 25,000,000 tons. The larger employment, by two and

tons. The larger employment, by two and a half times, was in nondutiable shipments. Continued trade must be reciprocal. We cannot long maintain sales where we do not buy. In the promotion of these exchanges we should have as much concern for the promotion of sales as for the facilitation of our purchases. There is not a record in all history of long-maintained eminence in export trade event as the exporting nations developed. trade except as the exporting nations developed their own carrying capacity.

No story of national development is more fascinating or so full of romance as that of developing capacity for the exchanges of commerce. Expanding civilization may be traced over the recommendation of preparation of the commerce.

merce. Expanding civilization may be traced over the avenues of exchanging cargoes. No matter how materialistic it may sound, nations have developed for themselves and have influenced the world almost precisely as they have promoted their commerce. We need not refer to the armed conflicts which have been incident thereto. When commerce has been destroyed fading glories have attended. It will avail rothing to attempt even the briefest resume of our own efforts to re-establish that American importance in commerce carrying on the high seas which was recorded in the earlier days of the republic. The aspiration is nationwide. The conflict between two schools of political thought heretofore has defeated all efforts to employ the governmental aid which other nations found advantageous while we held aloof and the terms "subsidy" and "subvention" were made more or less hateful to the American made more or less hateful to the American public. But the nationwide desire to restore our merchant marine has outlived all defeats and every costly failure.

feats and every costly failure.

Eight years ago the aspiration found expression in a movement to have the government sponsor an enterprise in which individual genius seemingly had failed. It would be difficult correctly to appraise the policy, because the world war put an end to all normal activities. Before we were involved our shipyards were suddenly turned to feverish and costly activities by the calls of the allied powers for shipping, without which enterprise they could not hope to survive. American energies were applied to construction for others as we had never dreamed of doing for ourselves.

ourselves. When we were later engaged we trebled and quadrupled the output for our account. Allied resources were called upon to build to meet the destruction by submarine warfare, and ships were so essential that material for them was given priority over arms and mu-nitions. There was the call for ships and ships and yet more ships and we enlarged old sands and setablished new ones without counting the cost. We builded madly, extravagantly, impractically, and yet miraculously, but we met a pressing need and performed a

great service. A people indifferent to the vital necessity of a merchant marine to the national defense ungrudgingly expended at five times the cost of normal construction and appropriated billions where millions had been denied before. We acquired vast tonnage. Some of it, much of it, is suited to the peace service of expanded commerce. Some of it, much of it, may be charged to the peace appropriate to the peace service of expanded commerce. commerce. Some of it, much of it, may be charged to the errors and extravagances of war-time anxiety and haste. The war program and that completion of contracts which followed because such a course seemed best to those then charged with responsibility gave us something more than 12,000,000 gross tonage, not counting the folly of the wood construction at a total outlay of approximately \$3,500,000,000.

We thus are possessed of the vehicles of great merchant marine. Not all of it was We thus are possessed of the venicles of a great merchant marine. Not all of it was practical for use in the transoceanic trades; little of it was built for the speed which gives the coveted class to outstanding service. But here was vast tonnage for cargo service; and the government, in the exceptional call of commerce which immediately followed the war, sought the establishment of shipping lines in every direction calculated to enhance our force and trade and further cement our

friendly relations. The movement lacked in most cases that inherent essential to success which is found in individual initiative. It was rather a gov-ernment experiment where lines were estabm muritual initiative. It was rather a government experiment where lines were established in high hope and little assurance because the public treasury was to bear the burden. There was the mere suggestion of private enterprise, inasmuch as allocations and charters were made under which private management was to share in profits and private interests were paid to make the experi vate interests were paid to make the experiment, though the government was to bear all the losses. I forbear the detailed recital. The misadventure was so unfortunate that when the present administration came into responsibility the losses were approximately \$16,000,000 a month and to the cost of failure was added the humiliation of ships libeled

ire was added the humiliation of ships libeled in foreign perts.

In spite of all the later losses in operation, however, it is quite beyond question that our abundance of American tonnage was mainly responsible for our ability to share in the good fortunes of world trade during the two years immediately following the war. In all probability the losses we have sustained in our shipping activities were fully compensated to the American people in the saving of ocean freights in that period.

To-day we are possessed of vast tonnage, a large and very costly experience and the con-

large and very costly experience and the conviction of failure. It is fair to say that a mistaken policy was made more difficult by the mistaken policy was made more difficult by the unparalleled slump in shipping which came late in 1920 and prevailed throughout the year so recently closed. It was the inevitable reflex of the readjustments which follow a great war and there were heavy losses in operations which had to be met by long-established and heretofore successful shipping lines, and ships built at top war costs took the slump in prices below the normal levels of preace.

But we have our ships, the second largest tonnage in the world, and we have the aspira-

tonnage in the world, and we have the aspiration, aye, let me say, the determination, to establish a merchant marine commensurate with our commercial importance. Our problem is to turn the ships and our experience and aspirations into the effective development of an ocean-going shipping service, without which there can be no assurance of maintained commercial eminence, without which any future conflict at arms will send us building again willy and exwill send us building again, wildly and extravagantly, when the proper concern for this necessary agency of commerce in peace will be our guaranty of defense in case that peace is disturbed.

Out of the story of the making of great merchant marines and out of our own experience we ought to find the practical solution. Happily, we are less provincial than we once Happily, we are less provincial than we once were, happily we have come to know how inseparable are our varied interests. Nobody pretends any longer that shipping is a matter of concern only to the ports involved. Commerce on the seas is quite as vital to the great interior as it is to our coast territory, east, south or west. Shipping is no more as sectional interest than is agriculture or chant marine to a capacity comparable with

manufacturing. No one of them can be pros-

manufacturing. No one of them can be propored alone.

We have had a new manifestation of this broadened vision in the enthusiasm of the great middle west for the proposed great lakes-St. Lawrence waterway, by which it is intended to connect the great lakes ports with the marts of the world. There is farseeing vision in the proposal and this great and commendable enterprise, deserving your favorable consideration, is inseparable from a great merchant marine. great merchant marine.

great merchant marine.
What, then, is our problem? I bring to
you the suggestions which have resulted
from a comprehensive study, which are recommended to me by every member of the
United States shipping board. It is a program of direct and indirect aid to shipping
to be conducted by private enterprise. It
is proposed to apply generally the benefits
which it was designed to derive from discriminating duties to all ships engaged in foreign commerce, with such limitation of remuneration as will challenge every charge of
promoting special interests at public cost

promoting special interests at public cost.

In lieu of discriminating duties on imports brought to us in American bottoms it is proposed to take 10 per cent of all duties collected on imports brought to us in American or receive bettoms and create themfore. lean or foreign bottoms and create therefrom a merchant marine fund. To this fund shall be added the tonnage charges, taxes and fees imposed on vessels entering the ports of continental United States, also such sums

of continental United States, also such sums as are payable to American vessels by the post-office department for the transportation by water of foreign mails, parcel posts excepted. Out of this fund shall be paid the direct aid in the development and maintenance of an American merchant marine. The compensation shall be based on one-half of 1 cent for each gross ton of any vessel, recardless of speed, for each 100 miles traveled. When the speed is 13 knots or over, but less than 14 knots, two-tenths of a cent on each gross ton shall be added; for 14 knots three-tenths of a cent; for 15 knots four-tenths of a cent; for 16 knots, five-tenths; for 17 knots, seven-tenths; for 18 knots, nine-tenths; for 19 knots, eleven-tenths; for 20 knets, thirteen-tenths shall be added to the basic rate. For 23 knots the maximum is reached at 2.6 cents for each gross ton per 100 miles traveled.

the maximum is reached at 2.6 cents for each gross ton per 100 miles traveled.

I will not attempt the details of requirements or limitations, save to say that all vessels thus remunerated shall carry the United States mails, except parcel post, free of cost, and that all inch remuneration must end whenever the owner of any vessel or vessels shall have derived a net operating income in excess of 10 per cent per annum upon his actual investment, and thereafter the owner shall pay 50 per cent of such excess earnings to the merchant marine fund, until the full amount of subsidy previously received is returned to its source. In other words, it is proposed to encourage the shipping in foreign trade until the enterprise may earn 10 per cent on actual investment, whereupon direct aid extended is to cease and the amount advanced is to be returned out of a profits in amount advanced is to be returned out of a amount advanced is to be returned out of a division with the government of profits in excess of that 10 per cent. The provision makes impossible the enrichment of any special interest at public expense, puts an end to the government assumption of all losses, and leaves to private enterprise the prospective

our commerce, the total outlay may reach the limits of \$30,000,000, but it is confident-ly believed that the scale may in due time thereafter be turned, until the larger reim-bursements are restored to the treasury. Even if we accept the extreme possibility-that we shall expend the maximum and no return will ever be made, which is to confess our inability to establish an American merchant marine—the expenditure would be vastly preferable to the present unfortunate situation, with our dependence on our competitors for the delivery of our products. Moreover, the cost for the entire year would be little more than the defleit heretofore encountered in two months during the experiment of the govern-ment sponsoring the lines and guaranteeing the cost of their operation.

The proposed plan will supersede all postal subventions, postal compensations and extra compensations excepting parcel post freights, all of which combined are fast growing to approximately five millions annually. It will approximately five millions annually. It will ultimately take the government out of a business which has been, and is now, excessively costly and wasteful and involving a loss in excess of the highest subsidy proposed. It will bring to shipping again that individual initiative which is the very soul of successful enterprise. It should enable the government to liquidate its vast fleet to the highest possible advantage.

The making of a successful American mer-chant marine, which must face the stiffest possible competition by the fleets of the maritime nations, requires something more than the direct aid to which I have alluded. The direct aid proposed, even though it ultimately runs to \$30,000,000 annually, is insufficient alone to offset the advantages of competing fleets. There are more than wage costs and working conditions and the higher costs of rationing, which no considerable American sentiment will consent to have lowered to competing standards.

The men who sail the seas under our flag must be permitted to stand erect in the full-ness of American opportunity. There is the must be permitted to store is ness of American opportunity. There is construction, the larger ness of American opportunity. There is the higher cost of construction, the larger investment, the higher cost of insurance outlay even though the rate is the same. There are higher interest charges. Our problems in shipping are very much the same as are those of our industries ashore, and we should be as zealous in promoting the one as we are in protecting the other. We may and nust aid indirectly as well as directly. We need a favoring spirit, an awakened American pride and an avowed American determination that we shall become in the

American pride and an avowed American determination that we shall become in the main, the carriers of our own commerce, in spite of all competition and all discouragements. With direct and indirect aid I bring to you a definite program. Those who oppose it ought, in all fairness, to propose an acceptable alternative. There can be no dispute about the end at which we are aiming ing.

Of the indirect aids there are many practically all without draft upon the public treasury, and yet all highly helpful in promoting

American shipping.

It is a simple thing—seemingly it ought not require the action of congress—but American officials traveling on government missions at government expense ought to travel on American ships, assuming that they afford suitable accommodations. If they do not afford the requisite accommodation on the main routes of world travel, the argument that we should upbuild is strongly emphasized.

I think we should discontinue so far as practical the transport services in the army and navy and make our merchant and passen-

ger ships the agents of service in peace as well as war.

We should make insurance available at no greater cost than is afforded the ships under competing flags, and we can and will make effective the spirit of section 28 of the jones act of 1920, providing for preferential rail and steamship rates on through shipments on and steamship rates on through shipments on Amesican vessels. American railways must be brought into co-operation with American stemship lines. It is not in accord with either security or sound business practice to have our railways furthering the interests of foreign shipping lines, when the concord of American activities makes for common American good fortune.

Contemplating the compatition to be met.

Contemplating the competition to be met, there ought to be an amendment to the interstate commerce act which will permit railway systems to own and operate steam-ship lines engaged in other than coastwise trade. There is a measureless advantage in

ship lines engaged in other than coatwise trade. There is a measureless advantage in the longer shipments where rail and water transportation are co-ordinated, not alone in the service but in the solicitation of cargoes, which ever attends an expanding commerce. We may further extend our long-established protection to our coastwise trade, which is quite in harmony with the policy of most maritime powers. There is authority now to include the Philippines in our coastwise trade, and we need only the establishment of proper facilities to justify the inclusion of our commerce with the islands in our coastwise provisions. The freedom of our continental markets is well worth such a favoring policy to American ships, whenever the facilities are suited to meet all requirements. Other indirect aids will be found in the requirement that immigration shall join wherever it is found to be practical in aiding the merchant marine of our flag under which citizenship is to be sought and in the establishment of the merchant marine naview of income taxes is wholly compatible when the shipping enterprise is of direct government concern, provided that such remission is applied to the cost of new ship construction. It might well be made applicable to some special requirements in reconditioning.

fund to encourage construction. It might well be made applicable to some special re-quirements in reconditioning.

quirements in reconditioning.

It is also worth our consideration that, in view of suspended naval construction, the continued building of merchant ships is the one guaranty of a maintained shipbuilding industry, without which no nation may hope to hold a high place in the world of commerce or be assured of adequate defense.

A very effective indirect aid, a substitute for a discriminating duty which shall inure to the benefit of the American shipper, will be found in the proposed deduction on incomes, amounting to 5 per cent of the freight paid on cargoes carried in American bottoms. The benefits can have no geographical restrictions and it offers its advantages to American exporters as well as those who engage ican exporters as well as those who engage in import trade.

in import trade.

Our existing ships should be sold at prices prevailing in the world market. I am not unmindful of the hesitancy to sacrifice the values to current price levels. We constructed at the top cost of war when necessity impelled, when the building resources of many nations were drawn upon to the limit to meet a great emergency. If there had come no depression, a return to approximate normal cost would have been inevitable. But the great slump in shipping has sent tonnage prices to the other extreme, not for America alone, but throughout the world.

If we held our ships to await the recovery we should only make more difficult our re-

sponse to beckoning opportunity. One of the outstanding barriers to general readjust-ment is the tendency to await more favorable price conditions. In the widest view the na-tion will ultimately profit by selling now. We may end our losses in an enterprise for which we are not equipped and which no other government has successfully undertaken, and the low prices at which we must sell today will make a lower actual investment with which we deal in promoting permanent service.

If I were not deeply concerned with the upbuilding of our merchant marine I should nevertheless strongly urge congress to facilitate the disposal of the vast tonnage acquired or constructed in the great war emergency. or constructed in the great war emergency. The experiment we have made has been very costly. Much has been learned, to be sure, but the outstanding lesson is that the government cannot profitably manage our merchant shipping. The most fortunate changes in the personnel of management would still leave us struggling with a policy fundamentally wrong and practically impossible.

Having failed at such enormous cost, I bring fou the proposal which contemplates the re-turn to individual initiative and private enterprise, aided to a conservative success, wherein we are safeguarded against the promotion of private greed and do not discourage the hope of profitable investment, which underlies all

successful endeavor.

successful endeavor.

We have voiced our concern for the good fortunes of agriculture and it is right that we should. We have long proclaimed our interest in manufacturing, which is thoroughly sound and helped to make us what we are. In the evolution of railway transportation we have revealed the vital relationship of our rail transportation to both agriculture and commerce. We have been expending for many years large sums for deepened channels and better harbors and improved inland waterways and much of it has found abundant return in enlarged commerce. But we have ignored our merchant marine. The world war revealed our weakmarine. The world war revealed our weak-ness, our unpreparedness for defense in war,

ness, our unpreparedness for defense in war, our unreadiness for self-reliance in peace.

It would seem as though transpiring events were combining to admonish us not to fail now to reassert ourselves. In the romantic days of wooden hulls and whitened sails and the sturdiest men of the sea we outsailed the world and carried our own cargoes, revealed our flag to the marts of the world.

Up to the world war we were a debtor nation. Our obligations were held largely by the maritime powers. Apart from the advan-

tages in carrying our commerce they sought our shipments for the balances due to them. There is a different condition now. They are concerned with shipments to us, but not so interested in our shipments to them. It is There is a different condition now. They are concerned with shipments to us, but not so interested in our shipments to them. It is our high purpose to continue our exchanges, both buying and selling, but we shall be surer of our selling, notably our foodstuffs, if we maintain facilities for their transportations. tion.

Contemporaneous with the awakening we have the proposal to carry our ocean-going facilities to the great "unsalted seas," which shall place the farms of the upper Missispipi valley on a market way to the marts of the old world. We should fail to adjust our vision to the possibilities if we halted in making for American eminence on the ocean highways now awaiting our return highways now awaiting our return.

highways now awaiting our return.

We have recently joined the great naval powers in a program which not only puts an end to costly competition in naval armaent and reduces the naval forces of the world but adds to the confidence in maintained peace. The relativity of strength among the powers would be wholly one of disappointing theory if ours is to be a merchant marine inadequate for the future. I do not care to stress it as a means of defense. The war and our enforced outlay have already stressed that point.

The merchant marine is universally recognized as the second line of naval defense. It is indispensable in the time of great national emergency. It is commendable to upbuild and maintain because it is the highest agency of peace and amity and bears no threat and incites no suspicion. And yet it is a supreme assurance, without which we should be unmindful of our safety and unheeding of our need to continued growth and maintained influence. fluence.

I am thinking of the merchant marine of peace. Commerce is inseparable from progress and attainment. Commerce and its handmaidens have wrought the greater intimacy among nations, which calls for understandings and guaranties of peace. However we work it out, whatever our adjustments are to promote international trade, it is inevitable that the hundred millions here, cutstanding in genius and unrivaled in industry and incalculable in their resources, must be conspicuous in the world's exchanges. We cannot hope to compete unless we carry and our concord and our influence are sure to be measured by that unfailing standard which is found in a nation's merchant marine.

#### THEATER DISASTER IN WASHINGTON.

Nearly 100 persons were killed and more than that number were injured when the roof of the Knickerbocker moving picture theater in Washington, D. C., collapsed under a heavy weight of snow just before 9 o'clock on the evening of Saturday, Jan. 28, 1922. A cement gallery was carried away by the falling roof and part of a brick wall was torn down, burying scores under the debris. It was at first reported that more than 100 persons had lost their lives, but it developed later that the number killed outright was ninety-five. Two of the severely injured died, bringing the death list up to ninety-seven. One of those who succumbed to his injuries a short time afterward was Edward H. Shaughnessy second assistant postmaster-gen-Nearly 100 persons were killed and more injuries a short time alterward was Edward in. Shaughnessy, second assistant postmaster-general. Louis William Strayer, Washington correspondent of the Pittsburgh Dispatch and a former president of the Gridiron club in Washington, was one of those instantly killed. Another was Chauncey C. Brainerd, correspond-

ent of the Brooklyn Daily Eagle. Mrs. Brainent of the Brooklyn Daily Eagle. Mrs. Brain-erd was also killed. Andrew Jackson Barchfeld. a former congressman from Pennsylvania, and Miss Helen Barchfeld, his daughter, both lost their lives. The list of victims included others equally well known in Washington, as the theater was one of the finest of its kind in theater was one of the finest of its kind in the city and was located in a fine residence section, on the crest of a hill at Columbia road and 18th street, N. W. It was reported to have cost \$1,000,000 to build. It had a seating capacity of 1,700.

"Get-Rich-Quick Wallingford" was the play being thrown on the screen and the second show of the evening had just begun when the road-graphed.

snow of the evening had just begun when the roof crashed.

Snow had been falling for twenty-eight hours and had partly tied up traffic through-out the city. It was the worst storm of its kind experienced in Washington in more than twenty years.

## PRESIDENT HARDING'S MESSAGE TO CONGRESS. Delivered in person Dec. 6, 1921.

Mr. Speaker and Members of the Congress: It is a very gratifying privilege to come to the congress with the republic at peace with all the nations of the world. More, it is equally gratifying to report that our country is not only free from every impending menace of war but there are growing assurances of the permanency of the peace which we so deeply cherish.

For approximately ten years we have dwelt amid menaces of war or as participants in war's actualities, and the inevitable aftermath, with its disordered conditions, has added to the difficulties of government which adequately cannot be appraised except by those who are in immediate contact and know the responsibilities.

Our tasks would be less difficult if we had only ourselves to consider, but so much of the world was involved, the disordered conditions are so well-nigh universal, even among nations not engaged in actual warfare, that no permanent readjustment can be effected without consideration of our inescapable relationship to world affairs in finance and trade.

Indeed, we should be unworthy of our best traditions if we were unmindful of social, moral and political conditions which are not of direct concern to us, but which do appeal to the human sympathies and the very becoming interest of a people blessed with our national good fortune.

with our national good fortune.

It is not my purpose to bring to you a program of world restoration. In the main such a program must be worked out by the nations most directly concerned. They must themselves turn to the heroic remedies for the menacing conditions under which they are struggling; then we can help, and we mean to help. We shall do so unselfishly because there is compensation in the consciousness of assisting; selfishly, because the commerce and international exchanges in trade which marked our high tide of fortunate advancement are possible only when the nations of all continents are restored to stable order and normal relationship. order and normal relationship.

In the main the contribution of this republic to restored normalcy in the world must come through the initiative of the executive branch of the government, but the best of intentions and most carefully considered purposes would fail utterly if the sanction and the co-operation of congress were not cheer-

fully accorded.

fully accorded.

I am very sure we shall have no conflict of opinion about constitutional duties or authority. During the anxieties of war, when necessity seemed compelling, there were excessive grants of authority and an extraordinary concentration of powers in the chief executive. The repeal of wartime legislation and the automatic expirations which attended the near proclamations have put an end to and the automatic expirations which attended the peace proclamations have put an end to these emergency excesses, but I have the wish to go further than that. I want to join you in restoring, in the most cordial way, the spirit of co-ordination and co-operation and that mutuality of confidence and respect which is necessary in representative popular government. ernment.

Encroachment upon the functions of congress or attempted dictation of its pelicy are not to be thought of, much less attempted, but there is an insistent call for harmony of purpose and concord of action to speed the solution of the difficult problems confronting both the legislative and executive branches of the government

of the government.

GOVERNMENT THROUGH PARTIES.

one must be that an address to you is no less a message to all our people, for whom you speak most intimately. Ours is a popular government through political parties. We divide along political lines, and I would ever

have it so.

I do not mean that partisan preferences should hinder any public servant in the performance of a conscientious and patriotic official duty. We saw partisan lines utterly obliterated when war imperiled, and our faith in the republic was riveted anew. We ought not find these partisan lines obstruction the avreaditious solution of the urgent. the expeditious solution of the urgent ing problems of peace.

Granting that we are fundamentally a representative popular government with political parties the governing agencies, I believe the political party in power should assume responsibility, determine upon policies in the con-ference which supplements conventions and election campaigns and then strive for achievement through adherence to the accepted policy.

There is vastly greater security, immensely more of the national viewpoint, much larger and prompter accomplishment, where our divisions are along party lines, in the broad and loftier sense, than to divide geographically and lottler sense, that to divide geographically or according to pursuits or personal following. For a century and a third parties have been charged with responsibility and held to strict accounting. When they fail they are relieved of authority; and the system has brought us a national eminence no less than a world

example.

example. Necessarily legislation is a matter of compromise. The full ideal is seldom attained. In that meeting of minds necessary to insure results there must and will be accommodations and compromises, but in the estimate of convictions and sincere purposes the supreme responsibility to national interest must not be ignored. The shield to the high-minded public servant who adheres to party policy is manifest, but the higher purpose is the good of the republic as a whole.

the good of the republic as a whole.

It would be ungracious to withhold acknowledgment of the really large volume and excellent quality of work accomplished by the extraordinary session of congress which so recently adjourned. I am not unmindful of the property adjourned of the property which you so recently adjourned. I am not unmindful of the very difficult tasks with which you were called to deal, and no one can ignore the insistent conditions which during recent years have called for the continued and almost exclusive attention of your memberships to public work.

to public work.

It would suggest insincerity if I expressed complete accord with every expression recorded in your roll calls, but we are all agreed about the difficulties and the inevitable divergence of opinion in seeking the reduction, amelioration and readjustment of the

burdens of taxation.

Later on, when other problems are solved, Later on, when other problems are solved, I shall make some recommendations about renewed consideration of our tax program, but for the immediate time before us we must be content with the billion-dollar reduction in the tax draft upon the pecple and diminished irritations, banished uncertainty and improved methods of collection.

By your sustainment of the rigid economies

By your sustainment of the rigid economies already inaugurated, with honed for exten-sion of these economies and added efficiencies in administration, I believe further reduc-tions may be enacted and hindering burdens

abolished.

THE FIRST BUDGET.

In these urgent economies we shall be immensely assisted by the budget system, for It is worth while to make allusion here to mensely assisted by the budget system, for the character of our government, mindful as which you made provision in the extraordi-

nary session. The first budget is before you. nary session. The first budget is before you, the preparation is a signal achievement, and the perfection of the system, a thing impossible in the few months available for its initial trial, will mark its enactment as the beginning of the greatest reformation in governmental practices since the beginning of the republic.

the republic.

There is pending a grant of authority to the authoritative branch of the government for the funding and settlement of our vast foreign loans growing out of our grant of war credits. With the hands of the executive branch held impotent to deal with these debts, we are hindering urgent readjustment among our debtors and accomplishing nothing for ourselves.

among our debtors and accomplishing nothing for ourselves. I think it is fair for the congress to assume that the executive branch of the government would adopt no major policy in dealing with these matters which would confict with the purpose of congress in authorizing the loans, certainly not without asking congressional approval, but there are minor problems incident to prudent loan transactions and the safeguarding of our interests which cannot even be attempted without this authorization. It will be helpful to ourselves and it will improve conditions among our debtors if funding and the settlement of defaulted interest may be negotiated.

SHIPPING PLANS.

SHIPPING PLANS.

The previous congress, deeply concerned in behalf of our merchant marine, in 1920 enacted the existing shipping law, designed for the upbuilding of the American merchant marine. Among other things provided to enacted the control of the world's constitutions of the control of the world's constitutions. courage our shipping on the world's seas the executive was directed to give notice of the termination of all existing commercial treaties in order to admit of reduced duties on imports carried in American bottoms.

During the life of the act no executive has complied with this order of the congress.

When the present administration came into responsibility it began an early inquiry into the failure to execute the expressed purpose of the Jones act. Cnly one conclusion has

been possible.

Frankly, members of house and senate, eager as I am to join you in the making of an American merchant marine commensurate with our commerce, the denouncement of our commercial treaties would involve us in a chaos of trade relationships and add indescribably to the confusion of the already disordered commercial world.

Our power to do so is not disputed, but power and ships, without comity of relationship, will not give us the expanded trade which is inseparably linked with a great merchant marine. Moreover, the applied reduction of duty, for which the treaty denouncements were necessary, encouraged only the carrying of dutiable imports to our shores, while the tonnage which unfurs the flag on the seas is both free and dutiable, and the cargoes which make a nation eminent in trade are outgoing, rather than incoming,

trade are outgoing, rather than incoming. It is not my thought to lay the problem in detail before you to-day. It is desired only to say to you that the executive branch of the government, uninfluenced by the protest of any nation, for none has been made, is well convinced that your proposal, highly intended and heartily supported here, is so fraught with difficulties and so marked by tendencies to discourage trade expansion that I invite your tolerance of noncompliance for a very few weeks until a plan may be presented which contemplates no greater draft upon the public treasury, and which, though yet too crude to offer to-day, gives such promise of expanding our merchant marine that it will argue its own approval.

It is enough to say to-day that we are so It is enough to say to-day that we are poposessed of ships and the American intention to establish a merchant marine is so unalterable that a plan of reimbursement, at no other cost than is contemplated in the existing act will appeal to the pride and encourage the hope of all the American peo-

ACTION ON TARIFF

There is before you the completion of the enactment of what has been termed a "permanent" tariff law, the word "permanent" being used to distinguish it from the emergency act, which the congress expedited early in the extraordinary session and which is the law to-day. I cannot too strongly urge an early completion of this necessary legislation. It is needed to stabilize our industry at home; it is essential to make more definite our trade relations abroad. More, it is vital to the preservation of many of our own industries, which contribute so notably to the very life blood of our nation.

There is now, and there always will be, a storm of conflicting opinion about any tariff revision. We cannot go far wrong when we base our tariffs on the policy of preserv-There is before you the completion of the

we base our tariffs on the policy of preserving the productive activities which enhance employment and add to our national pros-

perity.

Again comes the reminder that we must not be unmindful of world conditions, that peoples are struggling for industrial rehabili-tation and that we cannot dwell in industrial and commercial exclusion and at the same time do the just thing in aiding world reha-bilitation and readjustment.

We do not seek a selfish aloofness and we could not profit by it were it possible. We recognize the necessity of buying wherever we sell, and the permanency of trade lies in its acceptable exchanges. In our pursuit of markets we must give as well as receive. We

markets we must give as well as receive. We cannot sell to others who do not produce, nor can we buy unless we produce at home. Sensible of every obligation of humanity, commerce and finance, linked as they are in the present world condition, it is not to be argued that we need destroy ourselves to be helpful to others. With all my heart I wish restoration to the peoples blighted by the awful world war, but the process of restoration does not lie in our acceptance of like conditions. It were better to remain on firm ground, strive for ample employment and firm ground, strive for ample employment and high standards of wages at home and point the way to balanced budgets, rigid economy and resolute, efficient work as the necessary

and resolute, efficient work as the necessary remedies to cure disaster.

Everything relating to trade among ourselves and among nations has been expanded, excessive, inflated, abnormal, and there is a madness in finance which no American policy alone can cure. We are a creditor nation, not by normal processes, but made so by war. It is not an unworthy selfishness to seek to save ourselves when the processes of that salvation are not only not denied to others but commended to them. We seek to undermine for others no industry by which they subsist: we are obligated to permit the they subsist; we are obligated to permit the

they subsist: we are obligated to permit the undermining of none of our own which make for employment and maintained activities. Every contemplation—it little matters in which direction one turns—magnifies the difficulty of tariff legislation, but the necessity of the revision is magnified with it. Doubtless we are justified in seeking a more flexible policy than we have provided heretofore, I nope a way will be found to make for flexibility and elasticity, so that rates may be adjusted to meet unusual and changing conditions which cannot be accurately anticipated

There are problems incident to unfair prac-

tices and to exchanges which madness in money have made almost unsolvable. I know of no manner in which to effect this flexibility other than the extension of the powers of tariff commissions, so that it can adapt itself to a scientific and wholly just administration of the law.

I am not unmindful of the constitutional difficulties. These can be met by giving authority to the chief executive, who could proclaim additional duties to meet conditions, which the congress may designate.

which the congress may designate.

At this point I must disavow any desire to enlarge the executive's powers or add to the responsibilities of the office. These are already too large. If there were any other plan I would prefer it.

The grant of authority to proclaim would precessirely bring the truff commission into

necessarily bring the tariff commission into new and enlarged activities, because no executive could discharge such a duty except upon the information acquired and recommenda-tions by this commission. But the plan is tions by this commission. But the plan is feasible, and the proper functioning of the board would give us a better administration of a defined policy than ever can be made possible by tariff duties prescribed without

There is a manifest difference of opinion about the American valuation. Many nations have adopted delivery valuation as the basis for collecting duties; that is, they take the cost of the imports delivered at the port of entry as the basis for levying duty. It is no radical departure, in view of the varying conditions and the disordered state of ing conditions and the disordered state of money values, to provide for American valuation, but there cannot be ignored the danger of such a valuation brought to the level of our own production costs, making our tariffs prohibitive. It might do so in many instances where im-

ports ought to be encouraged, I believe. Congress ought well to consider the desirability of the only promising alternative—namely, a provision authorizing proclaimed American valuation, under prescribed conditions, on any given list of articles imported.

In this proposed flexibility, authorizing increases to meet conditions so likely to change, there should also be provision for decreases. A rate may be just to-day and entirely out of proportion six months from to-day. If our tariffs are to be made equitable, and not our tariffs are to be made equitable, and not necessarily burden our imports and hinder our trade abroad, frequent adjustment will be necessary for years to come. Knowing the impossibility of modification by act of congress for any one of a score of lines without involving a long array of schedules, I think we shall go a long way toward stabilization if there is recognition of the tariff commission's fitness to recommend urgent changes by proclamation.

#### UNEMPLOYMENT

I am sure about public opinion favoring the early determination of our tariff policy. There have been reassuring signs of a busi-ness revival from the deep slump which all the world has been experiencing. Our unem-ployment which gave us deep concern only ployment, which gave us deep concern only a few weeks ago, has grown encouragingly less, and new assurances and renewed confi-

less, and new assurances and renewed confidence will attend the congressional deciaration that American industry will be held secure.

Much has been said about the pretective policy for curselves making it impossible for our debtors to discharge their obligations to us. This is a contention not now pressing for decision. If we must choose between a people in idleness pressing for the payment of indebtedness or a people resuming the normal ways of employment and carrying the mal ways of employment and carrying the credit. let us choose the latter.

Sometimes we appraise largest the human il most vivid in our minds. We have been giving, and are giving now, of our influence and appeals to minimize the likelihood of war and throw off the crushing burdens of armament. It is all very earnest, with a national soul impelling. But a people unemployed and gaunt with hunger-face a situation quite as disheartening as war, and our greater obligation to-day is to do the government's part toward resuming productivity and promoting fortunate and remunerativity and promoting fortunate and remunerative employment.

## NEEDS OF AGRICULTURE.

Something more than tariff protection is required by American agriculture. To the farm has come the earlier and the heavier burdens of readjustment. There is actual detarm has come the earlier and the heavier burdens of readjustment. There is actual depression in our agricultural industry, while agricultural prosperity is absolutely essential to the general prosperity of the country. Congress has sought very earnestly to provide relief. It has promptly given such temporary relief as has been possible, but the call is insistent for the permanent solution.

call is insistent for the permanent solution. It is inevitable that large crops lower the prices and short crops advance them. No legislation can cure that fundamental law. But there must be some economic solution for the excessive variation in returns for

agricultural production.

agricultural production.

It is rather shocking to be told, and to have the statement strongly supported that 9,000,000 bales of cotton raised on American plantations in a given year actually will be worth more to the producers than 13,000,000 bales would have been. Equally shocking is the statement that 700,000,000 bushels of wheat raised by American farmers would bring them more money than 1,000,000,000 bring them more money than 1,000,000,000 bushels. Yet these are not exaggerated statements. In a world where there are tens of millions who need food and clothing which they cannot get such a condition is sure to indict the social system which makes it possible.

#### CO-OPERATION SUGGESTED.

In the main the remedy lies in distribution In the main the remedy lies in distribution and marketing. Every proper encouragement should be given to the co-operative marketing programs. These have proven very helpful to the co-operative communities in Europe. In Russia the co-operative community has become a recognized bulwark of law and order and saved individualism from engulfment in social paralysis. Ultimately they will be accredited with the salvation of the Russian

There is the appeal for this experiment. Why not try it? No one challenges the right of the farmer to a larger share of the consumers' pay for his product; no one can be cannot live without the consumers' pay for his product, without the dispute that we cannot live without the farmer. He is justified in rebelling against farmer. He is fustified in rebelling against dispute the farmer without the farmer win the farmer without the farmer with the farmer without the farme farmer. He is justified in rebelling against the transportation cost. Given a fair return for his labor, he will have less occasion to appeal for financial aid; and, given assurance that his labor shall not be in vain, we reassure all the people of a production sufficient to meet our national requirement and guard against disaster.

The base of the pyramid of civilization, which rests upon the soil, is shrinking through the drift of population from farm to city. For a generation we have been expressing more or less concern about this tendency. Economists have warned and statesmen have denlored. We thought for a time that mod-

more of less concern about this tendency. Economists have warned and statesmen have deplored. We thought for a time that modern conveniences and the more intimate contact would halt the movement, but it has gone steadily on. Perhaps only grim necessity will correct it, but we ought to find a less drastic remedy.

The existing scheme of adjusting freight

rates has been favoring the basing points, until industries are attracted to some centers and repeiled from others. A great volume of uneconomic and wasteful transportation, has attended and the cost increased accordingly. The grain milling and meat packing industries afford ample illustration and the attending concentration is readily apparent.

The menaces in concentration are not to the retarding influences on agriculture. Manifestly the conditions and terms of railway transportation ought not to be permitted to be considered to the permitted to be permitted. We have to increase the undesirable tendency. We have a just pride in our great cities, but we shall find a greater pride in the nation which has a larger distribution of its population into the country, where comparatively self-sufficient smaller communities may bland agricultural smaller communities may blend agricultural and manufacturing interests in harmonious helpfulness and enhanced good fortune.

Such a movement contemplates no destruction of things wrought, of investments made or wealth involved. It only looks to a general volve or wealth involved. It only looks to a general policy of transportation, of distributed industry and of highway construction to encourage the spread of our population and restore the proper balance between city and country. The problem may well have your

earnest attention.

It has been perhaps the proudest claim of our American civilization that in dealing with our American civilization that in dealing with human relationships it has constantly moved toward such justice in distributing the product of human energy that it has improved continuously the economic state of the mass of people. Ours has been a highly productive social organization. On the way up from the elemental stages of society we have eliminated slavery and serfdom and are now far on the way to the elimination of poverty. Through the eradication of illiteracy and the diffusion of education, mankind has reached a stage where we may fairly say that in the United States equality of opportunity has been attained, though all are not prepared to embrace it.

There is, indeed, a too great divergence

not prepared to embrace it.

There is, indeed, a too great divergence between the economic conditions of the most and the least favored classes in the community. But even that divergence has now come to the point where we bracket the very poor and the very rich together as the least fortunate classes. Our efforts may well be directed to improving the status of both.

While this set of problems is commonly comprehended under the general phrase, "capital and labor," it is really vastly broader. It is a question of social and economic organization. Labor has become a large contributor, through its savings, to the stock of capital; while the people who own the largest individual aggregates of capital are themselves often hard and earnest laborers.

hard and earnest laborers.

Very often it is extremely difficult to draw
the line of demarcation between the two groups, to determine whether a particular in-dividual is entitled to be set down as laborer or as capitalist. In a very large proportion of cases he is both, and, when he is both, he is the most useful citizen.

RIGHT TO ORGANIZE.

The right of labor to organize is just as fundamental and necessary as is the right of capital to organize. The right of labor to negotiate, to deal with and solve its particular problems in an organized way, through its chosen agents, is just as essential as is the right of capital to organize, to maintain corporations, to limit the liabilities of stockhold-Indeed, we have come to recognize that the limited liability of the citizen as a mem-ber of a labor organization closely parallels the limitation of liability of the citizen as

a stockholder in a corporation for profit. Along this line of reasoning we shall make the greatest progress toward solution of our problem of capital and labor.

In the case of the corporation which entoys the privilege of limited liability of stockholders, particularly, when record in the case of the corporation which entoys the privilege of limited liability of stockholders. stockholder in

holders, particularly when engaged in the public service, it is recognized that the outside public has a large concern which must be protected, and so we provide regulations, restrictions and in some cases detailed super-

Likewise in the case of labor organizations, we might well supply similar and equally well defined principles of regulation and supervision in order to conserve the public's interests as affected by their operations.

Just as it is not desirable that a corporations about the property of the property o

tion shall be allowed to impose undue exactions upon the public, so it is not desirable that a labor organization shall be permitted to exact unfair terms of employment or subject the public to actual distresses in order

for procedures whereby to adjust and settle political differences between nations without resort to war, so we may well look about for means to settle the differences between organized capital and organized labor without resort to those forms of warfare which we recognize under the name of strikes, lockouts, boycotts and the like.

QUASI-JUDICIAL TRIBUNALS,
As we have great bodies of law carefully regulating the organization and operations of industrial and financial corporations, as we have treaties and compacts among nations which look to the settlement of differences without the necessity of conflict in arms, so we might well have plans of conference, of common counsel, of mediation, arbitration and determination in controversies bedetermination in controversies

tween labor and capital.

To accomplish this would involve the ne cessity to develop a thoroughgoing code of practice in dealing with such affairs. It might be well to frankly set forth the superior interest of the community as a whole to either the labor group or the capital group. With rights, privileges, immunities and modes of organization thus carefully defined, it should be possible to set up judicial or quasi-judicial tribunals for the consideration and determination of all disputes which menace

determination of all disputes which menace the public welfare.

In an industrial society such as ours the strike, the lockout and the boycott are as much out of place and as disastrous in their results as is war or armed revolution in the domain of politics. The same disposition to reasonableness, to conciliation, to recognition of the other side's point of view, the same provision of fair and recognized tribunals and processes ought to make it possible to solve the one set of questions as easily as the other the one set of questions as easily as the other. I believe the solution is possible.

The consideration of such a policy would necessitate the exercise of care, of deliberation in the construction of a code and a charter of elemental rights, dealing with the relations of employer and employe. This foundation in the law dealing with the modern conditions of social and economic life would hasten the building of the temple of peace in industry which excitations are formed. of peace in industry which a rejoicing nation would acclaim.

LAND RECLAMATION.

After each war, until the last, the erament has been able to give homes the govits returned soldiers, and a large part of our settlement and development has attended this generous provision of land for the nation's defenders.

There is yet unreserved approximately 200,-000,000 acres in the public domain, 20, 000,000 acres of which are known to be susceptible of reclamation and made fit for homes by provision for irrigation.

The government has been assisting in the development of its remaining lands, until the estimated increase in land values in the irrigated sections is fully \$500,000,000, and the crops of 1920 alone on these lands are estimated to exceed \$100,000,000.

Under the law authorizing these expenditures for development the dyapters are to

tures for development, the advances are to be returned, and it would be good business for the government to provide for the reclamation of the remaining 20,000,000 acres, in addition to expediting the completion of

projects long under way.
Under what is known as the coal and gas lease law, applicable also to deposits of thoslease law, applicable also to deposits of rhosphates and other minerals on the public domain, leases are now being made on the royalty basis and are producing large revenues to the government. Under this legislation, 10 per centum of all royalties is to be paid directly to the federal treasury, and of the remainder 50 per centum is to be used for reclamation of arid lands by irrigation, and 40 per centum is to be puid to the states in which the operations are located, to be used by them for school and road purposes.

These resources are so year and the develop-

These resources are so vast and the development is affording so reliable a basis of esti-mate that the interior department expresses the belief that ultimately the present law will the belief that ultimately the present law will add in royalties and payments to the treasuries of the federal government and the states containing these public lands a total of \$12,-000,000,000. This means, of course, an added wealth of many times that sum. These prospects seem to afford every justification of government advances in reclamation and irritation.

rigation.

Contemplating the inevitable and desirable increase of population, there is another phase of reclamation fully worthy of consideration. There are 79,000,000 acres of swamp and cut-over lands which may be reclaimed and made as valuable as any farm lands we possess. These acres are largely located in southern states and the greater proportion. sess. These acres are largely located in Souniern states, and the greater proportion is owned by the states or by private citizens. Congress has a report of the survey of this field for reclamation and the feasibility is established. I gladly commend federal aid, by way of advances where state and private participation is assured.

Homemaking is one of greater benefits which government can bestow. Measures are pending embodying this scund policy to which we may well adhere. It is easily possible to make available permanent homes which will provide, in turn, for prosperous American families without injurious competition with established activities or imposition on wealth already acquired

wealth already acquired.

# AID FOR RUSSIA.

AID FOR RUSSIA.

While we are thinking of promoting the fortunes of our own people I am sure there is room in the sympathetic thought of America for fellow human beings who are suffering and dying of starvation in Russia. A severe drought in the valley of the Volga has plunged 15.000.000 people into grievous famine. Our voluntary agencies are exerting themselves to the utmost to save the lives of children in this area, but it is now evident that unless relief is afforded the loss of life will extend into many millions. America cannot be deaf to such a call as that.

We do not recognize the government of

traditions of Russian friendship. We may put aside our consideration of all interna-tional politics and fundamental differences in government. The big thing is the call of the suffering and the dying.

Unreservedly I recommend the appropriation necessary to supply the American relief administration with 10,000,000 bushels of corn and 1,000,000 bushels of seed grains, not alone to halt the wave of death through starvation, but to enable spring planting in

starvation, but to enable spring planting in areas where the seed grains have been exhausted temporarily to stem starvation. The American relief administration is directed in Russia by former officers of our own armies and has fully demonstrated its ability to transport and distribute relief through American hands without hindrance or loss. The time has come to add the government support to the wonderful relief already wrought out of the generosity of the American private purse. American private purse.

I am not unaware that we have suffering and privation at home. When it extends the capacity for the relief within the states concerned it will have federal consideration. It seems to me we should be indifferent to our manufacture of accord with own heart promptings and out of accord with the spirit which acclaims the Christmastide if we do not give out of our national abundance to lighten this burden of wee upon a people blameless and helpless in famine's peril.

#### NONTAXABLE BONDS.

There are a full score of topics concerning which it would be becoming to address you, and on which I hope to make report at a later time. I have alluded to the things requiring your earlier attention. However, I cannot end this limited address without a suggested amendment to the organic law. Many of us belong to that school of thought which is hesitant about altering the fundamental law. I think our tax problems, the tendency of wealth to seek nontaxable investment and the menacing increase of public

tendency of wealth to seek homewhat we westment and the menacing increase of public debt—federal, state and municipal—all justify a proposal to change the constitution so as to end the issue of nontaxable bonds. No to end the issue of nontaxable bonds. No action can change the status of the many billions outstanding, but we can guard against future encouragement of capital paralysis, while a halt in the growth of public indebt-edness would be beneficial throughout our whole land.

Such a change in the constitution must be such a canage in the constitution must be very thoroughly considered before submission. There ought to be known what influence it will have on the inevitable refunding of our vast national debt, how it will operate on the necessary refunding of state and municipal debt, how the advantages of national over state and municipal or the contrary may be avoided.

Clearly the states would not ratify to their own apparent disadvantage. I suggest the consideration because the drift of wealth into nontaxable securities is hindering the flow of large capital to our industries, manufacturing, agricultural and carrying, until we are discouraging the very activities which make our wealth.

our wealth.

Agreeable to your expressed desire and in complete accord with the purposes of the legislative branch of the government, there is in Washington, as you happily know, an international conference now most earnestly at work on plans for the limitation of armament, a naval holiday and the just settlement of problems which might develop into causes of international disagreement.

It is easy to believe a world hope is con-

We do not recognize the government of Russia nor tolerate the propaganda which tered on this capital city. A most gratify-emanates therefrom, but we do not forget the

## WORK OF THE 67TH CONGRESS-SECOND SESSION. Session began Dec. 5, 1921; ended Sept. 22, 1922.

Act for the relief of the distressed and starying people of Russia; passed by house Dec. 17, 1921; by senate Dec. 20; approved

Act to authorize the president to transfer certain medical supplies for the relief of the distressed and famine-stricken people of Russia; passed by senate Dec. 6, 1921; by house Jan. 16, 1922; approved Jan. 20.

Act to authorize the coinage of a Grant memorial gold collar and sliver half dollar in commemoration of the centenary of the birth of Gen. Ulysses S. Grant; passed by house Oct. 17, 1921; by senate Jan. 23, 1922; approved Feb. 2, 1922.

Joint resolution to prohibit the exportation of arms or munitions of war from the United States to certain countries; passed by senate Nov. 11, 1921; by house Jan. 16, 1922; approved Jan. 31.

Act to create a commission authorized under certain conditions to refund or convert obligations of foreign governments held by the United States of America; passed by house Oct. 24, 1921; by senate Jan. 31, 1922; approved Feb. 9. Act to amend act for the retirement of em-

ployes in the classified civil service; passed

proyes in the classified civil service; passed by senate Dec. 15, 1921; by the house Feb. 6, 1922; approved Feb. 14, 1922. Act to authorize associations of producers of agricultural products; passed by house May 4, 1921; by senate Feb. 8, 1922; approved

Feb. 18.

public grounds in the city of Washington, D. C., of a memorial to Jeanne d'Arc; passed Joint by senate Aug. 24, 1921; by house March 6, 1922; approved March 20.

Act authorizing modification of Indiana harbor project; passed by senate Feb. 16, 1922; by house March 6; approved March 20.

Act to appropriate \$1,500,000 for the purchase

of seed grain to be supplied to farmers in crop-failure areas of the United States; of seed grain to be supplied to farmers in crop-failure areas of the United States; passed by senate Feb. 23, 1922; by house March 10; approved March 20. Joint resolution authorizing the purchase of land for cemeteries for American military dead in Europe and improvement thereof; passed by house Feb. 28, 1922; by senate March 24; approved April 1. Joint resolution extending time for payment of

Joint resolution extending time for payment of Austrian debt for a period not exceeding twenty-five years; passed by senate March 15, 1922; by house March 29; approved April 6.

Joint resolution extending operation of immigration act of May, 1921; passed by house Feb. 20, 1922; by senate April 15; approved May 11.

Act authorizing use of special canceling stamps or postmarking dies; passed by house April 3, 1922; by senate May 6; approved May 11.

Act making appropriations for additional hospital facilities for patients of the United States veterans' bureau; passed by house May 5, 1922; by senate May 6; approved May 11.

Act to authorize an appropriation to enable the director of the United States veterans' bureau to provide for the construction of additional hospital facilities; passed by house March 31, 1922; by senate April 14; approved April 20.

Joint resolution authorizing erection on public grounds in Washington, D. C., of a statue of Edmund Burke; passed by senate Feb. 24, 1922; by house April 17; approved April 25.

Joint resolution to authorize presentation of a tablet to the national society of the Daughters of the American Revolution; passed by senate April 14, 1922; by house April 17; approved April 21, 1922.

Joint resolution making available funds for protecting Mississippi river levees not under jurisdiction of Mississippi river commission: passed by house and senate May 2, 1922; approved same day.

Joint resolution appropriating \$1,000,000 for the protection of levees under jurisdiction of the Mississippi river commission; passed by house and senate April 21, 1922; ap-

proved same day.

Act to provide for the monthly payment of pensions; passed by house June 21, 1921; by senate April 18, 1922; approved May 3

Act to readjust the pay and allowances of the commissioned and enlisted personnel of the army, navy, marine corps, coast guard, coast and geodetic survey and public health service; passed by house May 12, 1922; by senate May 22; approved June 10.

Act to amend the act prohibiting the impor-tation and use of opium for other than medicinal purposes; passed by house May 4, 1922; by senate May 12; approved May 26.

Act making an appropriation to enable the department of justice to investigate and prosecute war frauds; passed by house May 15, 1922; by senate May 16; approved May 22.

Act to amend the federal reserve act of Dec. 23, 1913; passed by senate Jan. 17, 1922; by house May 23; approved June 3.

Joint resolution making available funds for repairing leves on the Mississippi above Cairo, Ill.; passed by house June 2, 1922; by senate June 3; approved June 10.

Joint resolution to designate depositaries of multili moreus; in foreign countries present

public moneys in foreign countries; passed by senate April —, 1921; by house June 7, 1922; approved June 19.

19:22; approved June 19.

Joint resolution authorizing the president to appoint a special mission to represent the United States at the Brazil centennial celebration; passed by senate March 5, 1922; by house June 5; approved June 15.

Act creating the positions of second assistant

secretary and private secretary in the department of labor; passed by senate May 27, 1922; by house June 30; approved June 30.

Joint resolution authorizing the president to scrap certain vessels in conformity with the treaty limiting naval armament; passed by house May 17, 1922; by senate June 30; approved July 1.

Joint resolution requesting the president call a conference of maritime nations on the pollution of navigable waters by the dump-

pointulor of navigable waters by the dumping of oil waste; passed by house June 5, 1922; by senate June 21; approved July 1. Act to amend interstate commerce act so as to permit the issuing of interchangeable mileage tickets on railroads; passed by senate Jan. 21, 1922; by house June 29; approved 18. Aug.

Act authorizing the secretary of the interior to set apart as a national monument certain lands in Riverside county. California: passed by house Feb. 6, 1922; by senate July 12; approved Aug. 26.

Act to provide revenue, to regulate commerce with foreign nations and to encourage the industries of the United States (tariff act); passed by house July 21, 1921; by the senate Aug. 19, 1922; approved Sept. 21.

Act for the prevention and removal of ob-

structions and burdens upon interstate commerce in grain by regulating transactions in June 27, 1922; by senate Sept 14; approved Sept. 21. ## READJUSTMENT OF ARMY AND NAVY PAY.

PAY.

Be it enacted, etc., that, beginning July 1, 1922, for the purpose of computing the annual pay of the commissioned officers of the regular army and marine corps below the grade of brigadier-general, of the navy below the grade of rear-admiral, of the coast guard, of the coast and geodetic survey, and of the public health service below the grade of surgent-general pay neriods are prescribed and puolic health service below the grade of surgeon-general, pay periods are prescribed, and the base pay for each is fixed as follows:
The first period, \$1,500; the second period, \$2,000; the third period, \$2,400; the fourth period, \$3,000; the fifth period, \$3,500; and the sixth period, \$4,000.
The pay of the sixth period shall be paid to

colonels of the army, captains of the navy colonis of the arms, captains of the law and officers of corresponding grade who have completed twenty-six years' service, or whose first appointment in the permanent service was in a grade above that corresponding to captain in the army, or who were appointed to the regular army under the provisions of the first sentence of section 24, act of June 3, 1916, as amended by the act of June 4, 1920;

to officers of the staff corps of the navy advanced by selection under existing laws to the vanced by selection under existing laws to the rank or pay of captain; to lieutenant-colonels of the army, commanders of the navy, and officers of corresponding grade, and lieutenant-commanders of the line and engineer corps of the coast guard who have completed thirty years; service; and to the chief of chaplains of the army.

The pay of the fifth period shall be paid to The pay of the fifth period shall be paid to colonels of the army, captains of the navy and officers of corresponding grade who are not entitled to the pay of the sixth period; to lieutenant-colonels of the army, commanders of the navy, and officers of corresponding grade who have completed twenty years service, or whose first appointment in the permanent service was in a grade above that corresponding to captain in the army, or who were appointed to the regular army under the provisions of the first sentence of said section 24; to officers of the staff corps of the navy advanced by selection under existing laws advanced by selection under existing laws to the rank or pay of commander; and to majors of the army, lieutenant-commanders of the navy, and officers of corresponding grade who have completed twenty-three years service: Provided, That lieutenant-commanders of the staff corps of the navy who were appointed between the dates of March 4, 1913, and June 7, 1916, in a grade above that of ensign, shall receive the pay of this pay period after completing twenty years' service.

The pay of the fourth period shall be paid to lieutenant-colonels of the army, com-

paid to lieutenant-colonels of the army, commanders of the navy, and officers of corresponding grade who are not entitled to the pay of the fifth or sixth period; to majors of the army, lieutenant-commanders of the navy, and officers of corresponding grade who have completed fourteen years' service, or whose first appointment in the permanent service was in a grade above that corresponding to second lieutenant in the army, or who were appointed to the regular army under the provisions of the first sentence of said section 24; to captains of the army, lieutenants of the navy and officers of corresponding grade who have completed seventeen years' service, who have completed seventeen years' service, except those whose promotion is limited by law to this grade and who are not entitled under existing law to the pay and allow-

under existing law to the pay and allowances of a higher grade; and to lieutenants of the staff corps of the navy, and lieutenants and lieutenants (junior grade) of the line and engineer corps of the coast guard whose total commissioned service equals that of lieutenant-commanders of the line of the navy drawing the pay of this period.

The pay of the third period shall be paid to majors of the army, lieutenant-commanders of the navy and officers of corresponding grade who are not entitled to the pay of the fourth, fifth, or sixth period; to captains of the army, lieutenants of the navy and officers of corresponding grade who have completed seven years' service, or whose first appointment in the permanent service was in a grade above the permanent service was in a grade above that corresponding to second lieutenant in the army, or whose present rank dates from July army, or whose present rank dates from July 1, 1920, or earlier; to first lieutenants of the army, lieutenants (junior grade) of the navy and officers of corresponding grade who have completed ten years' service; and to lieutenants (junior grade) of the line and engineer corps of the coast guard whose total commissioned service equals that of lieutenants of the line of the navy drawing the pay of this remind period.

The pay of the second period shall be paid to captains of the army, lieutenants of the navy and officers of corresponding grade who are not entitled to the pay of the third or fourth period; to first lieutenants of the army, lieutenants (junior grade) of the navy and

officers of corresponding grade who have completed three years' service, or whose first appointment in the permanent service was in a grade above that corresponding to second lieutenant in the army; and to second lieutenants of the army, ensigns of the navy, and officers of corresponding grade who have completed five years' service.

The pay of the first period shall be paid to all other officers whose pay is provided for

in this section.

During the existence of a state of war, formally recognized by congress, officers of grades corresponding to those of colonel, lieutenantcorresponding to those of coloner, heutehalf-colonel, major, captain, and first lieutenants of the army, holding either permanent or temporary commissions as such, shall receive the pay of the sixth, fifth, fourth, third, and second periods, respectively, unless entitled under the foregoing provisions of this section

under the foregoing provisions of this section to the pay of a higher period.

Every officer paid under the provisions of this section shall receive an increase of 5 per centum of the base pay of his period for each three years of service up to thirty years: Provided, That the base pay plus pay for length of service of no officer below the grade of colonel of the army, captain of the navy or corresponding grade, shall exceed \$5.750. Nothing contained in the first sentence of section 17 or in any other section of this act shall authorize an increase in the pay of officers or warrant officers on the retired list on June 30, 1922.

For officers appointed on and after July 1,

on June 30, 1922.

For officers appointed on and after July 1, 1922, no service shall be counted for purposes of pay except active commissioned service under a federal appointment and commissioned service in the national guard when called out by order of the president. For officers in the service on June 30, 1922, there shall be included in the computation all service which is now counted in commuting land ice which is now counted in computing lonice which is now counted in computing longevity pay, and service as a contract surgeon serving full time; and also 75 per centum of all other periods of time during which they have held commissions as officers of the organized militia between Jan. 21, 1903, and July 1, 1916, or of the national guard, the naval militia, or the national naval volunteers since June 3, 1916, and service as a contract surgeon serving full time, shall be included in the computation

the computation. in the computation.

The provisions of this act shall apply equally to those persons serving not as commissioned officers in the army, or in the other services mentioned in the title of this companies of the co act, but whose pay under existing law is an amount equivalent to that of a commissioned amount equivalent to that of a commissioned officer of one of the above grades, those receiving the pay of colonel, lieutenant-colonel, major, captain, first lieutenant, and second lieutenant being classified as in the sixth, fifth, fourth, third, second, and first periods, respectively. Pay clerks of the marine corps shall receive the pay of second lieutenants of the army of the same length of service. Contract surgeons serving full time shall have tract surgeons serving full time shall have the pay and allowances for subsistence and rental authorized for officers serving in their second pay period. Commissioned warrant of-ficers on the active list with creditable records shall, after six years' commissioned service, receive the pay of the second period, and after twelve years' commissioned service, receive the pay of the third period: Provided, That a commissioned warrant officer promoted from the grade of warrant officer shall suffer no reduction of pay by reason of such promotion. Army field clerks and field clerks, quarter-master corps, shall have the allowances for

subsistence and rental authorized for officers receiving the pay of the first period.

Sec. 2. That no commissioned officer while on field or sea duty shall receive any increase

of his pay or compensation by reason of such

Sec. That when officers of the national Sec. 3. That when officers of the national guard or of the reserve forces of any of the services mentioned in the title of this act are authorized by law to receive federal pay, those serving in grades corresponding to those of colonel, lieutenant-colonel, major, captain, first lieutenant, and second lieutenant of the army shall receive the pay of the sixth, fifth, fourth, third, second, and first periods, respectively. In computing the increase of pay for each period of three years' service, such officers shall be credited with full time for all periods during which they have held commissions as officers of any of the services mentioned in the title of this act, or in the organized militta prior to July 1, 1916, or in the national guard, or in the national guard, or in the national guard, or in the naval militia, or in the national guard, or in the naval militia, or in the naval reserve force or marine corps reserve force, when confirmed in grade and qualified for all general service, with full time for all periods during which they have performed active duty under reserve commissions, and with one-half time for all other periods during which they have held reserve reserves. which they have held reserve commissions. Sec. 4. That the term "dependent" as used

in the succeeding sections of this act shall include at all times and in all places a lawful wife and unmarried children under 21 years of age. It shall also include the mother of the officer provided she is in fact dependent

on him for her chief support.

on him for her chief support.

Sec. 5. That each commissioned officer on the active list, or on active duty below the grade of brigadier-general or its equivalent, in any of the services mentioned in the title of this act, shall be entitled at all times, in addition to his pay, to a money allowance for subsistence, the value of one allowance to be determined by the president for each fiscal year in accordance with a certificate furnished by the secretary of labor showing the comparative retail cost of food in the Iurnished by the secretary of labor showing the comparative retail cost of food in the United States for the previous calendar year as compared with the calendar year 1922. The value of one allowance is hereby fixed at 60 cents per day for the fiscal year 1923, and this value shall be the maximum and shall be used by the president as the standard in fiving the spread bloom value for exhect shall be used by the president as the standard in fixing the same or lower values for subsequent years. To each officer of any of the said services receiving the base pay of the first period the amount of this allowance shall be equal to one subsistence allowance, to each officer receiving the base pay of the second, third, or sixth period the amount of this allowances shall be equal to two subsistence allowances and to each officer receiving the allowances, and to each officer receiving the base pay of the fourth or fifth period the amount of this allowance shall be equal to three subsistence allowances: Provided, That an officer with no dependents shall receive one subsistence allowance in lieu of the above

one subsistence anowance in nea or the accordallowances.

Sec. 6. That each commissioned officer on the active list or on active duty below the grade of brigadier-general or its equivalent, in any of the services mentioned in the title of any of the services mentioned in the title of this act, if public quarters are not available, shall be entitled at all times in addition to his pay to a money allowance for rental of quarters, the amount of such allowance to be determined by the rate for one room fixed by the president for each fiscal year in accordance with a certificate furnished by the secretary of labor showing the comparative cost of rents in the United States for the preceding calendar year as compared with the calendar year 1922. Such rate for one room is hereby fixed at \$20 per month for the fiscal year 1923, and this rate shall be the maximum and 1923, and this rate shall be the maximum and shall be used by the president as the standard in fixing the same or lower rates for subse-

quent years. To each officer receiving the base pay of the first period the amount of this allowance shall be equal to that for two rooms, to each officer receiving the base pay rooms, to each officer receiving the base pay of the second period the amount of this allowance shall be equal to that for three rooms, to each officer receiving the base pay of the third period the amount of this allowance shall be equal to that for four rooms, to each officer receiving the base pay of the fourth period the amount of this allowance shall be equal to that for five rooms and to each officer receiving the base pay of the fifth or sixth period the amount of this allowance shall be equal to that for five rooms. The sixth period the amount of this allowance shall be equal to that for six rooms. The rental allowance shall accrue while the officer is on field or sea duty, temporary duty away from his permanent station, in hospital, on leave of absence or on sick leave, regardless of leave or absence or on sick leave, regardless of any shelter that may be furnished him for his personal use, if his dependent or dependents are not occupying public quarters during such period. In lieu of the above allowances an officer with no dependents receiving the base pay of the first or second period shall receive the allowance for two rooms, that such an officer receiving the base pay of the third or fourth period shall receive the allowance for three rooms, and that such an officer ance for three rooms, and that such an officer receiving the base pay of the fifth or sixth period shall receive the allowance for four rooms, but no rental allowance shall be made to any officer without dependents by reason of his employment on field or sea duty.

ns employment on held or sea duty.
Sec. 7. That when the total of base pay, pay for length of service and allowances for subsistence and rental of quarters, authorized in this act for any officer below the grade of brigadier-general or its equivalent, shall exceed \$7.200 a year the amount of the allowances to which such officer is entitled shall be reduced by the amount of the excess above \$7.200: Provided, that this section shall not apply to the cantain commandant of the apply to the captain commandant of the coast guard nor to the director of the coast

and geodetic survey.

coast guard nor to the director of the coast and geodetic survey.

See. 8. That commencing July 1, 1922, the annual base pay of a brigadier-general of the annual base pay of a brigadier-general of the army and of the marine corps, rear-admiral (lower half) of the navy, commodore of the navy and surgeon-general of the zmy and of the marine corps, and rear-admiral (upper half) of the navy shall be \$8,000. Every such officer shall be entitled to the same money allowance for subsistence as is authorized in section 5 of this act for officers receiving the pay of the sixth period and to the same money allowance for rental of quarters as is authorized in section 6 of this act for officers receiving the pay of the sixth period and to the same money allowance for rental of quarters as is authorized in section 6 of this act for officers receiving the pay of the sixth period: Provided, that when the total of base pay, subsistence and rental allowances exceeds \$7,500 for officers serving in the grade of the marine corps, rear-admiral (lower half) of the may, commodore of the hary and surgeon-general of the army and of the renew, commodore of the hary and surgeon-general of the army and of the marine corps, and rear-admiral (upper half) of the navy, and rear-admiral (upper half) of the navy, and rear-admiral (upper half) of the navy, commodore of the allowances to which such officer is entitled shall be reduced by the amount of the excess above \$7,500 or \$9,700 officer is entitled shall be reduced by the amount of the excess above \$7,500 or \$9,700 amount of the excess above \$7,500 or \$9,700 respectively. Rear-admirals of the navy serving in higher grades shall be entitled, while so serving, to the pay and allowances of a rear-admiral (upper half) and to a personal money allowance per year as follows: When serving in the grade of vice-admiral, \$500: when serving in the grade of admiral or as chief of naval operations, \$2,200.

Sec. 9. That commencing July 1, 1922, the monthly base pay of warrant officers and en-

listed men of the army and marine corps shall be as follows: Warrant officers of the army and marine corps, \$148; warrant officers, army mine planter service, master, \$185; first mate, \$141; second mate, \$109; engineer, \$175; assistant engineer, \$120; enlisted men of the first grade, \$326; enlisted men of the first grade, \$34; enlisted men of the third grade, \$72; enlisted men of the fifth grade, \$42; enlisted men of the fifth grade, \$42; enlisted men of the seventh grade, \$31; and the pay for specialists' ratings shall be as follows: First class, \$30; second class, \$25; third; sixth class, \$30; second class, \$25; third; sixth class, \$30; second class, \$25; third; class, \$20; fourth class, \$15; fifth class, \$6; ixth class, \$3. Existing laws authorizing continuous-service pay for each five years of service are hereby repealed, effective June 30, 1922. Commencing July 1, 1922, warrant officers of the army mine planter service and enlisted men of the army and marine corps, shall receive, as a permanent addition to their pay, an increase of 5 per centum of their base pay for each four years of service in any of the services mentioned in the title of this act not to exceed 25 per centum. On and after July 1, 1922, an enlistment allowance equal to \$50, multiplied by the number of years served in the enlistment period from which he has last been discharged, shall be paid to every honorably discharged enlisted man of the first three grades who re-enlists within a period of three months from the date of his discharged, and an enwho re-enlists within a period of three months from the date of his discharge, and an enlistment allowance of \$25, multiplied by the number of years served in the enlistment period from which he has last been discharged. number of years served in the enlistment period from which he has last been discharged shall be paid to every honorably discharged shall be paid to every honorably discharged enlisted man of the other grades who re-enlists within a period of three months from the date of his discharge. Nothing contained herein shall operate to reduce the pay now being received by any transferred member of the fleet marine corps reserve. On and after July 1, 1922, retired enlisted men of the army and marine corps shall have their retired pay computed as now authorized by law on the basis of pay provided in this act. Sec. 10. That on and after July 1, 1922, the monthly base pay of warrant officers of the navy and coast guard shall be as follows: During the first six years of service—at sea, \$153; on shore, \$135; during the second six years of service—at sea, \$168; on shore, \$147; after twelve years' service—at sea, \$189; on shore, \$168. On and after July 1, 1922, for purposes of pay, enlisted men of the navy and coast guard shall be distributed in seven grades, with monthly base rates of pay as follows: First grade, \$126; second grade, \$84; third grade, \$72; fourth grade, \$80; fifth grade, \$54; sixth-grade, \$36; seventh grade, \$21. Chief petty officers under acting appointment shall be included in the first grade at a monthly base pay of \$99.

That the secretary of the navy is authorized to fix the pay grade of the various ratings of enlisted men of the navy; and the secretary of the treasury is authorized to fix the pay grade for the various ratings of enlisted men of the coast guard. Mates shall receive the pay of enlisted men of the first grade of the navy. Nothing contained herein shall operate to reduce the pay now being received by any transferred member of the fleet naval reserve. transferred member of the neet haval reserve. In lieu of all permanent additions to pay now authorized for enlisted men of the navy and coast guard, they shall receive, as a permanent addition to their pay, an increase of 10 per centum on the base pay of their rating upon completion of the first four years of the first four years of the enlisted service, and an additional increase of per centum for each four years' service thereafter, the total not to exceed 25 per

centum. All transient additions to pay or enlisted men of the navy and coast guard are hereby repealed, except as provided for in section 21 of this act.

The rates of pay of the insular force of the navy shall be one-half the rates of pay premitted for enlisted men of the navy in scribed for enlisted men of the navy in corresponding ratings. Existing laws auscribed for enlisted men of the navy in corresponding ratings. Existing laws authorizing a re-enlistment gratuity to enlisted men of the navy and coast guard are hereby repealed, and an enlistment allowance equal to \$50 multiplied by the number of years served in the enlistment period from which he has last been discharged, but not to exceed \$200, shall be paid to every honorably discharged enlisted man of the first three grades who re-enlists within a period of three months from the date of his discharge; and an enfrom the date of his discharge; and an en-listment allowance of \$25 multiplied by the number of years served in the enlistment period from which he has last been discharged, but not to exceed \$100, shall be paid to every honorably discharged enlisted man of the other grades who re-enlists within a of the other grades who re-emiss whim a period of three months from the date of his discharge. On and after July 1, 1922, retired enlisted men of the navy and coast guard shall have their retired pay computed as now authorized by law on the basis of pay provided by this act.

Sec. 11. That warrant officers of the army, including those of the army mine planter service, of the navy, marine corps and coast guard, shall be entitled at all times to the same money allowance for subsistence as is authorized in section 5 of this act for officers receiving the pay of the first period, and to the same money allowance for rental of quarters as is authorized in section 6 of this act ters as is authorized in section 6 of this act for officers receiving the pay of the first period. To each enlisted man not furnished quarters or rations in kind there shall be granted, under such regulations as the president may prescribe, an allowance for quarters and subsistence, the value of which shall depend on the conditions under which the duty of the man is being performed, and shall not exceed \$4 per day. These regulations shall exceed \$4 per day, These regulations shall be uniform for all the services mentioned in the title of this act. Subsistence for pilots shall be paid in accordance with existing regulations, and rations for enlisted men may be

commuted as now authorized by law.

Sec. 12. That officers of any of the services mentioned in the title of this act, when traveling under competent orders without troops, shall receive a mileage allowance at the rate of 8 cents per mile, distance to be computed by the shortest usually traveled route and existing laws providing for the issue of transportation requests to officers of the army portation requests to officers of the army traveling under competent orders, and for de-duction to be made from mileage accounts when transportation is furnished by the United States, are hereby made applicable to all the services mentioned in the title of this act, but in cases when orders are given for travel to be performed repeatedly between two or more places in the same vicinity, as determined by the head of the executve de-partment concerned, he may, in his discretion, direct that actual and necessary expenses only be allowed. Actual expenses only shall be paid for travel under orders outside the limits of the United States in North America. Unless otherwise expressly provided by law, no officer of the services mentioned in the title of this act shall be allowed or paid any sum in excess of expenses actually incurred for subsistence while traveling on duty away from his designated post of duty, nor any sum for such expenses actually incurred in excess of \$7 per day. The heads of the executive departments concerned are authorbe allowed. Actual expenses only shall be executive departments concerned are authorized to prescribe per diem rates of allowance,

not exceeding \$6, in lieu of subsistence to

not exceeding \$6, in lieu of subsistence to officers traveling on official business and away from their designated posts of duty. In lieu of the transportation in kind authorized by section 12 of an act entitled "An act to increase the efficiency of the commissioned and enlisted personnel of the army, navy, marine corps, coast guard, coast and geodetic survey and public health service," approved May 18, 1920, to be furnished by the United States for dependents, the president may authorize the payment in money of amounts equal to such commercial transpormay authorize the payment in money of amounts equal to such commercial transportation costs when such travel shall have been completed. Dependent children shall be such as are defined in section 4 of this act.

as are defined in section 4 of this act.
Sec. 13. That, commencing July 1, 1922, the annual pay of female nurses of the army and navy shall be as follows: During the bright three years of service, \$\$40; from the beginning of the fourth year of service until the completion of the sixth year of service, \$1,080; from the beginning of the seventh year of service, \$1,380; from the beginning of the tenth year of service, \$1,380; from the beginning of the tenth year of service, \$1,560. Superintendents of the nurse corps shall receive a money allowance at the rate of \$2,500 a year, assistant superintendents, directors and assistant superintendents, directors and year, assistant directors at the rate of \$1,500 a year, and chief nurses at the rate of \$600 a year, in addition to their pay as nurses. Nurses shall be entitled to the same allow-Nurses shall be entitled to the same allowance for subsistence as is authorized in section 5 of this act for officers receiving the pay of the first period, and to the same allowance for rental of quarters as is authorized in section 6 of this act for officers receiving the pay of the first period.

Sec. 14. That officers of the national guard receiving federal pay, except for armory drill, and reserve officers of any of the services mentioned in the title of this act while on active duty shall receive the allowances, herein predicts.

duty shall receive the allowances herein pre-scribed for officers of the regular services in sections 5 and 6 of this act. Hereafter, in ad-dition to the pay authorized in section 109, act of June 3, 1916, as amended by the act of June 4, 1920, field officers and lieutenants of the national guard commanding organiza-tions less than a brigade and having admirtions less than a brigade and having administrative functions shall receive \$240 per year for the faithful performance of the administrative duties connected therewith; and war-rant officers of the national guard shall re-ceive not more than four-thirtieths of the monthly base pay of their grade for satisfac-tory performance of their appropriate duties, under such regulations as the secretary of war

may prescribe.

On and after July 1, 1922, the armory drill pay for enlisted men of the national guard of the sixth grade shall be \$1.15, and for those of the seventh grade shall be \$1, in lieu of that authorized in section 110, act of June 4, 1920; and the pay of enlisted men of the national guard of the sixth and seventh grades shall be \$1.15 and \$1 per day respectively whenever they are participating in exercises provided for by sections 94, 97 and 99 of the national defense act, approved June 3, 1916.

3, 1916. Sec. 15. That existing laws authorizing in-

Sec. 15. That existing laws authorizing increase of pay for foreign service and commutation of quarters, heat and light are hereby repealed, effective July 1, 1922.

Sec. 16. That nothing contained in this act shall operate to reduce the pay of any officer on the active list below the pay to which he is entitled by reason of his grade and length of service on June 30, 1922, not including additional pay authorized by the and length of service of June 30, 1922, not including additional pay authorized by the act entitled "An act to increase the efficiency of the commissioned and enlisted personnel

of the army, navy, marine corps, coast guard, coast and geodetic survey and public health service," approved May 18, 1920; and nothing contained in this act shall operate to reduce the total of the pay and allowances which any enlisted man of the army, navy, marine corps or coast guard is now receiving during his current enlistment and while he holds his present crade or rating present grade or rating.

The provisions of this section shall apply in like manner to each person not commissioned whose pay is based by law on that of a commissioned officer.

commissioned officer.
Sec. 17. That on and after July 1, 1922, retired officers and warrant officers shall have their retired pay or equivalent pay computed as now authorized by law on the basis of pay provided in this act: Provided, That nothing contained in this act shall operate to reduce the present pay of officers, warrant officers and enlisted men now on the retired list or officers or warrant officers in an equiv omeers and efficient men now on the retired list or officers or warrant officers in an equivalent status of any of the services mentioned in the title of this act. Active duty performed after June 30, 1922, by an officer on the retired list or its equivalent shall not entitle such officer to promotion: Provided, That officers and former officers of the Philippine scouts who were placed on the retired list prior to June 4, 1920, shall be entitled to promotion on the retired list for active duty heretofore performed subsequent to retirement, in accordance with the provisions of section 127a of the act of June 3, 1916, as amended by the act of June 4, 1920, and to the same pay and benefits received by other officers of the army, navy, marine corps, coast guard and coast and geodetic survey below the grade of brigadier-general or commodore and retired warrant officers and enlisted men of those services shall, when on active duty, receive full pay and allowances.

See 18 That under such regulations as the list or officers or warrant officers in an equivand allowances.

Set 1 or more than \$5 per month for than \$1 or more than \$5 per month for special qualification in the use of the arm or arms which they may be required to use. All

arms which they may be required to use. All laws and parts of laws authorizing extra pay for qualification in the use of arms or instruments or for holding rated positions, except as otherwise specifically provided herein, are hereby repealed, to take effect July 1, 1922. Sec. 19. That cadets at the military academy and cadets and cadet engineers of the coast guard shall receive the same pay and allowances as are now or may hereafter be provided by law for midshipmen in the navy. Sec. 20. That all officers, warrant officers and enlisted men of all branches of the army, navy, marine corps and coast guard, when detailed to duty involving flying, shall receive the same increase of their pay and the same the same increase of their pay and the same the same increase of their pay and the same allowance for traveling expenses as are now authorized for the performance of like duties in the army. Exclusive of the army air service and student aviators and qualified aircraft pilots of the navy, marine corps and coast guard the number of officers of any of the services mentioned in the title of this act detailed to duty involving flying shall not at any one time exceed one half of 1 per at any one time exceed one-half of 1 per centum of the total authorized commissioned

pine scouts, marine band, naval academy band, Indian scouts or flying cadets; nor the al-lowances in kind for rations, quarters, heat and light for enlisted men; nor allowances in kind for quarters, heat, and light for officers mind for quarters, heat, and light for officers and warrant officers; nor allowances for private mounts for officers; nor transportation in kind for officers and warrant officers and enlisted men and their dependents; nor transportation and packing allowances for baggage or household effects of officers and warrant officers and enlisted men; nor additional pay for aids; nor extra pay to enlisted men serving as stenographic reporters or employed as cooks or messmen or mail clerks or asas cooks or messmen or mail clerks or assistant mail clerks or engaged in submarine

sistant mail clerks or engaged in submarine diving or service on submarines; nor money allowances granted to enlisted men on account of awards of medals or decorations expressly authorized by congress.

Sec. 22. That the provisions of this act shall be effective beginning July 1, 1922, and all laws and parts of laws which are inconsistent herewith or in conflict with the provisions hereof are hereby repealed as of that date. (Aproved June 10, 1922.)

FEDERAL RESERVE ACT AMENDED. Section 10 of the federal reserve act, approved Dec. 23, 1913, is amended to read as

follows:

Sec. 10. A federal reserve board is hereby created which shall consist of eight members, including the secretary of the treasury and the comptroller of the currency, who shall be members ex officio, and six members appointed by the president of the United States by and with the advice and consent of the pointed by the president of the United States by and with the advice and consent of the senate. In selecting the six appointive members of the federal reserve board, not more than one of whom shall be selected from any one federal reserve district, the president shall have due regard to a fair representation of the financial, agricultural, industrial and companied interests and geographical divisions mercial interests and geographical divisions of the country. The six members of the of the country. The six members of the federal reserve board appointed by the president and confirmed as aforesaid shall devote their entire time to the business of the federal reserve board and shall each receive, an annual salary of \$12,000, payable monthly, together with actual necessary traveling expenses, and the comptroller of the currency, as ex officio member of the federal reserve board, shall, in addition to the salary now paid him as comptroller of the currency, receive the sum of \$7,000 annually for his services as a member of said board.

ceive the sum of \$7,000 annually for his services as a member of said board. The secretary of the treasury and the comptroller of the currency shall be ineligible during the time they are in office and for two years thereafter to hold any office, position or employment in any member bank. The appointive members of the federal reserve board shall be ineligible during the time they are in office and for two years thereafter to hold any office, position or employment in any member bank, except that this restriction shall not apply to a member who has served the full term for which he was appointed. Of the six members thus appointed by the the full term for which ne was appointed of the six members thus appointed by the president one shall be designated by the president to serve for two, one for four, one for six, one for eight and the balance of the members for ten years, and thereafter each member so appointed shall serve for a term centum of the total authorized commissioned member so appointed shall serve for a term strength of such service. Regulations in execution of the provisions of this section shall be made by the president and shall be uniform for all the services concerned.

Sec. 21. That nothing in this act shall operate to change in any way existing laws or regulations made in pursuance of law governing pay and allowances of the reneral of the federal reserve board, subject to or regulations made in pursuance of law governing pay and allowances of the reneral of the federal reserve board, subject to or filed from the federal reserve board, subject to or filed from the federal reserve board, subject to officer. The secretary of the treasury may the armies, the enlisted men of the Philipury for the use of the federal reserve board. Each member of the federal reserve board shall within fifteen days after notice of appointment make and subscribe to the oath

of office.

The federal reserve board shall have power to levy semiannually upon the federal reserve banks, in proportion to their capital stock and surplus, an assessment sufficient to

serve banks, in proportion to their capital stock and surplus, an assessment sufficient to pay its estimated expenses and the salaries of its members and employes for the half year succeeding the levying of such assessment, together with any deficit carried forward from the preceding half year.

The first meeting of the federal reserve board shall be held in Washington, D. C., as soon as may be after the passage of this act, at a date to be fixed by the reserve bank organization committee. The secretary of the federal reserve board. No member of the federal reserve board shall be an officer or director of any bank, banking institution frust company or federal reserve bank nor hold stock in any bank, banking institution or trust company; and before entering upon his duties as a member of the federal reserve board he shall certify under oath to the secretary of the treasury that he has complied with this requirement. Whenever a vaccincy shall occur, other than by expiration vacancy shall occur, other than by expiration of term, among the six members of the federal reserve board appointed by the president as dent as above provided, a successor shall be appointed by the president with the advice and consent of the senate to fill such vacancy,

and consent of the senate to fill such vacancy, and when appointed he shall hold office for the unexpired term of the member whose place he is selected to fill.

The president shall have power to fill all vacancies that may happen on the federal reserve board during the recess of the senate by granting commissions which shall expire with the next session of the senate. Nothing in this act contained shall be construed as taking away any powers heretofore vested by law in the secretary of the treasury which relate to the supervision, management

vested by law in the secretary of the treasury which relate to the supervision, management and control of the treasury department and bureaus under such department, and wherever any power vested by this act in the federal reserve board or the federal reserve agent appears to conflict with the powers of the secretary of the treasury such powers shall be exercised subject to the supervision and control of the secretary.

control of the secretary.

The federal reserve board shall annually make a full report of its operations to the speaker of the house of representatives, who shall cause the same to be printed for the

snan cause the same to be printed for the information of the congress.
Section 324 of the revised statutes of the United States shall be amended so as to read

as follows: "Sec. 324. There shall be in the department of the treasury a bureau charged with the execution of all laws passed by congress relating to the issue and regulation of national currency secured by United States bonds and currency secured by United States boling and, under the general supervision of the federal reserve board, of all federal reserve notes, the chief officer of which bureau shall be called the comptroller of the currency and shall perform his duties under the general direction of the secretary of the treasury.

"No federal reserve bank shall have authority bereffer the proper jute any contract or

ity hereafter to enter into any contract or contracts for the erection of any building of any kind or character, or to authorize the erection of any building, in excess of \$250,-000, without the consent of congress having previously been given therefor in express terms: Provided, That nothing herein shall apply to any building now under construction." (Approved June 3, 1922.)

PROTECTION OF RIVER LEVEES.

Resolved, etc., That there be appropriated the sum of \$1,000,000 to be immediately available as an emergency fund to be expended by the Mississippi river commission during the present flood in the Mississippi river for the purpose of precessing. river for the purpose of preserving, protecting and repairing the levees under its jurisdiction: Provided, that the secretary of the treasury shall deduct \$1,000,000 from the appropriation that shall first hereafter be made for the use of said Missispini vive compriation that shall first hereafter be made for the use of said Mississippi river com-mission under the terms of the flood control act of March 1, 1917, and said \$1,000,000 be carried to the surplus fund and covered into the treasury: Provided further, That any unexpended balance of the sum hereby ap-propriated remaining after the present flood emergency has passed may be expended by the Mississivary river community. Mississippi river commission under the authority and subject to the provisions of the flood control act. (Approved April 1922.)

Resolved, etc., That a sum not to exceed \$200,000 from funds heretofore appropriated for improvement of rivers and harbors and which remain in the treasury unexpended because the works or projects for which the same were appropriated have been completed or have been recommended for abandonment is hereby made available for expenditure by

or have been recommended for abandonment is hereby made available for expenditure by and under the direction of the secretary of war and the supervision of the chief of engineers for the purpose of protecting life and property by preserving and maintaining during the present flood emergency the levees not under government control on the Missispipi river, its tributaries and outlets. (Approved May 2, 1922.)
Resolved, etc., That an amount not exceeding \$100,000 of the funds authorized to be expended by public resolution approved May 2, 1922. is hereby made available as an emergency fund to be expended by the Mississippi river commission, under the direction of the secretary of war, for repairing and restoring any levees on the Mississippi river above Cairo, Ill., which have been destroyed or seriously injured by the recent floods of the Mississippi river and which are not now within, but may before June 15, 1922, be brought within, the provisions of the act entitled "An act to provide for the control floods of the Mississippi river and of the Sacramento river and for other purposes." approved March 1, 1917: Provided, That if the Mississippi river commission finds that the levee or drainage district in which the approved March 1, 1917: Provided, That if the Mississippi river commission finds that the levee or drainage district in which the broken levee is situated cannot legally, by or before June 15, 1922, comply with section (b) of such act of March 1, 1917, the commission may accept, in this emergency, bonds of standing approved by it in amount sufficient to cover not less than one-third of the cost involved: Provided further, That nothing in this resolution shall be construed as an in this resolution shall be construed as authorizing a departure from the established practice of the commission except so far as may be necessary to permit the restoration of broken levees in districts which are willing but can not legally comply with said method of procedure in time to avoid another threat-ened overflow this year. (Approved June 10, 1922.)

# NARCOTIC DRUGS IMPORT AND EXPORT

ACT.
Sections 1 and 2 of the act entitled "An act to prohibit the importation and the use of opium for other than medicinal purposes," approved Feb. 9, 1909, as amended, are amended to read as follows:

"That when used in this act—
"(a) The term 'narcotic drug' means opium, coca leaves, cocaine or any salt, derivative preparation of opium, coca leaves or

cocaine; "(b) The term 'United States,' when used in a geographical sense, includes the several states and territories and the District of Columbia:

(c) The term 'board' means the federal narcotics control board established by section

2 of this act: and "(d) The term 'person' means individual,

"(d) The term 'person' means individual, partnership, corporation or association.
"Sec. 2. (a) That there is hereby established a board to be known as the 'federal naicotics control board' and to be composed of the secretary of state, the secretary of the treasury and the secretary of commerce. Except as otherwise provided in this act or by other law the administration of this act is vested in the department of the treasury.

is vested in the department of the treasury.

"(b) That it is unlawful to import or bring any narootic drug into the United States or any territory under its control or jurisdiction; except that such amounts of crude opium and coca leaves as the board finds to be necessary to provide for medical and legitimate uses only may be imported and brought into the United States or such territory under such regulations as the board shall prescribe, All narcotic drugs imported under such regulations shall be subject to the duties regulations shall be subject to the duties which are now or may hereafter be imposed upon such drugs when imported.

upon such drugs when imported.

"(c) That if any person fraudulently or knowingly imports or brings any narcotic drug into the United States or any territory under its control or jurisdiction contrary to law, or assists in so doing, or receives, conceals, buys, sells or in any manner facilitates the transportation, concealment or sale of any such narcotic drug after being imported or brought in, knowing the same to have been imported contrary to law such person shall imported contrary to law, such person shall upon conviction be fined not more than \$5,000 and imprisoned for not more than

without the necessity of instituting forfeiture proceedings of any character; or (2), if any other narcotic drug, be seized and forfeited to the United States government, without regard to its value, in the manner provided by sections 3075 and 3076 of the Revised Statutes, or the provisions of law hereafter enacted which are amendatory of or in substitution for such sections.

Any narcotic states of the provisions of law hereafter enacted which are amendatory of or in substitution for such sections. stitution for such sections. Any narcotic drug which is forfeited in a proceeding for condemnation or not claimed under such sections, or which is summarily forfeited as provided in this subdivision, shall be placed in the custody of the board and in its discretion be destroyed or delivered to some agency of the United States government for use for medical or scientific purposes.

"(e) Any alien who at any time after his entry is convicted under subdivision (c) shall, upon the termination of the imprisonment

upon the termination of the imprisonment imposed by the court upon such conviction and upon warrant issued by the secretary of labor, be taken into custody and deported in accordance with the provisions of sections 19 and 20 of the act of Feb. 5, 1917, entitled the contract of the impristic of the contract of the imprisonments. titled 'An act to regulate the immigration of aliens to and the residence of aliens in the United States,' or provisions of law hereafter enacted which are amendatory of or in sub-

stitution for such sections.

"(f) Whenever on trial for a violation of subdivision (c) the defendant is shown to have or to have had possession of the narcotic drugs such possession shall be deemed

sufficient evidence to authorize conviction

sufficient evidence to authorize conviction unless the defendant explains the possession to the satisfaction of the jury.

"(g) The master of any vessel or other water craft, or a person in charge of a railroad car or other vehicle, shall not be liable under subdivision (c) if he satisfies the jury that he had no knowledge of and used due diligence to prevent the presence of the narcotic drug in or on such vessel, water craft, railroad car or other vehicle; but the narcotic drug shall be seized, forfeited and disposed of as provided in subdivision (d)."

See 2 That sections 5 and 6 of such act

Sec. 2. That sections 5 and 6 of such act of Feb. 9, 1909, as amended are amended to read as follows:

read as follows:

"Sec. 5. That no smoking opium or opium prepared for smoking shall be admitted into the United States or into any territory under its control or jurisdiction for transportation to another country or be transferred or transhipped from one vessel to another vessel within any waters of the United States for immediate exportation or for any other purpose; and except with the approval of the board no other narcotic drug may be so admitted, transferred or transhipped.

"Sec. 6. (a) That it shall be unlawful for any person subject to the jurisdiction of the United States government to export or cause to be exported from the United States, or from territory under its control or jurisdiction,

to be exported from the United States, of from territory under its control or jurisdiction, or from countries in which the United States exercises extraterritorial jurisdiction, any narrounders to any other country. Provided, cotic drug to any other country: Provided, That narcotic drugs (except smoking opium and opium prepared for smoking, the exportation of which is hereby absolutely prohibited) may be exported to a country only miortea) may be exported to a country only which has ratified and become a party to the convention and final protocol between the United States government and other powers for the suppression of the abuses of opium and other drugs, commonly known as the international opium convention of 1912, and then only if (1) such country has instituted and maintains, in conformity with that convention, a system which the board deems adequate of permits or licenses for the control of imported each propertied of importance. trol of imports of such narcotic drugs; the narcotic drug is consigned to an authorized permittee; and (3) there is furnished to the board proof deemed adequate by it that to the board proof deemed adequate by it that the narcotic drug is to be applied exclusively to medical and legitimate uses within the country to which exported, that it will not be re-exported from such country and that there is an actual shortage of and a demand for the narcotic drug for medical and legitimate uses within such country.

"(b) The secretary of state shall request all foreign governments to communicate through the diplomatic channels copies of the laws and regulations promulgated in their respective countries which prohibit or regulate the importation and shipment in transit of any narcotic drug and when received advise the

narcone drug and when received advise the board thereof.

"(c) The board shall make and publish all proper regulations to carry into effect the authority vested in it by this act."

Sec. 3. That section 8 of such act of Feb.

9, 1909, as amended is amended to read as

follows:

follows:
"Sec. 8. (a) That a narcotic drug that is found upon a vessel arriving at a port of the United States or territory under its control or jurisdiction and is not shown upon the vessel's manifest, or that is landed from any such vessel without a permit first obtained from the collector of customs for that purpose, shall be seized, forfeited and disposed of in the manner provided in subdivision (d) of the manner provided in subdivision (d) of section 2, and the master of the vessel shall be liable, (1) if the narcotic drug is smoking opium, to a penalty of \$25 an ounce, and (2) if any other narcotic drug to a penalty equal to the value of the narcotic drug.

to the of the harcotte drag.

Such penalty shall constitute a lien
the vessel which may be enforced by
dings by libel in rem. Clearance of the upon the vessel which may be enforced by proceedings by libel in rem. Clearance of the vessel from a port of the United States may be withheld until the penalty is paid or until there is deposited with the collector of customs at the port a bond in a penal sum double the amount of the penalty, with sureties approved by the collector, and conditioned on the payment of the penalty (or so much thereof as is not remitted by the secretary of the treasury) and of all costs and other expenses to the government in proceedsecretary of the treasury) and of all costs and other expenses to the government in proceedings for the recovery of the penalty in case the master's application for remission of the penalty is denied in whole or in part by the secretary of the treasury.

"(c) The provisions of law for the mitigation and remission of penalties and for richture; incurred for violations of the cus-

feitures incurred for violations of the customs laws shall apply to penalties incurred for a violation of the provisions of this section."

That such act of Feb. 9, 1909, as Sec. Sec. 4. That such act of Feb. 9, 1909, as amended is amended by adding at the end thereof a new section to read as follows: "Sec. 9. That this act may be cited as the 'Narcotic Drugs Import and Export Act." (Approved May 26, 1922.)

GRAIN FUTURES ACT.

Be it enacted, etc., This act shall be known by the short title of "The Grain Futures Act." Sec. 2. (a) For the purposes of this act "contract of sale" shall be held to include "contract of sale" shall be held to include sales, agreements of sale and agreements to sell. The word "person" shall be construed to import the plural or singular, and shall include individuals, associations, partnerships, corporations and trusts. The word "grain" corporations and trusts. The word construct to mean wheat, corn, oats, barley, rye, flax and sorghum. The term "future delivery" as used herein shall not include any sale of cash grain for deferred shipment or delivery. The words "board of shipment or delivery. The words "board of trade" shall be held to include and mean any exchange or association, whether incorporated or unincorporated, of persons who shall be engraded in the business of buying or selling grain or receiving the same for sale on consignment. The act, omission or failure of any official, agent or other person acting for any individual, association, partnership, corpora-tion or trust within the scope of his employ-ment or office shall be deemed the act, omis-sion or failure of such individual, association, sion or failure of such maryandar, as well as partnership, corporation or trust, as well as of such official, agent or other person. words "interstate commerce" shall be words interstate commerce shall be con-strued to mean commerce between any state, territory or possession, or the District of Co-lumbia, and any place outside thereof; or between points within the same state, territory or possession or the District of Columbia, but through any place outside thereof, or within any territory or possession or the District of Columbia. (b) For the purposes of this act (but not

in any wise limiting the foregoing definition of interstate commerce) a transaction in respect to any article shall be considered to be in interstate commerce if such article is part of that current of commerce usual in the grain trade whereby grain and grain products and by-products thereof are sent from one state with the expectation that they will end their transit, after purchase, in another, in-cluding in addition to cases within the above general description, all cases where purchase general description, all cases where purchase or sale is either for shipment to another state or for manufacture within the state and the shipment outside the state of the products

resulting from such manufacture. resulting from such manufacture. Articles normally in such current of commerce shall not be considered out of such commerce through resort being had to any means or device intended to remove transactions in respect thereto from the provisions of this act. Articles For the purpose of this paragraph the word "state" includes territory, the District of Columbia, possession of the United States and foreign nation.

Sec. 3. Transactions in grain involving the sale thereof for future delivery as commonly conducted on boards of trade and known as "futures" are affected with a national public "Intures" are affected with a national public interest; that such transactions are carried on in large volume by the public generally and by persons engaged in the business of buying and selling grain and the products and byproducts thereof in interstate commerce; that the prices involved in such transactions are generally quoted and disseminated throughout the United States and in familiar countries of the United States and in foreign countries as a basis for determining the prices to the producer and the consumer of grain and the products and by-products thereof and to facilitate the movements thereof in interstate commerce; that such transactions are utilized by shippers, dealers, millers, and others engaged in handling grain and the products and byproducts thereof in interstate commerce as means of hedging themselves against possible loss through fluctuations in price; that the transactions and prices of grain on such boards of trade are susceptible to speculation, manipulation and control, and sudden or un-reasonable fluctuations in the prices thereof frequently occur as a result of such specula-tion, manipulation or control which are detrimental to the producer or the consumer and the persons handling grain and products and by-products thereof in interstate commerce, and that such fluctuations in prices are an obstruction to and a burden upon interstate commerce in grain and the products and by-products thereof and render regulation im-perative for the protection of such commerce and the national public interest therein.

Sec. 4. It shall be unlawful for any person to deliver for transmission through the mails or in interstate commerce by telegraph, telephone, wireless or other means of communi-cation any offer to make or execute, or any confirmation of the execution of, or any quotation or report of the price of, any contract of sale of grain for future delivery on or subject to the rules of any board of trade in the United States, or for any person to make or execute such contract of sale, which is or may be used for (a) beging any trapaction in be used for (a) hedging any transaction in the used for (a) negging any transaction in interstate commerce in grain or the products or by-products thereof, or (b) determining the price basis for any such transaction in interstate commerce, or (c) delivering grain sold, shipped or received in interstate commerce for the fulfillment thereof, except—

for the fulfillment thereor, except (a) Where the seller is at the time of the making of such contract the owner of the actual physical property, covered thereby, or is the grower thereof, or in case either party to the contract is the owner or renter of land on which the same is to be grown, or is an association of such owners, or growers of grain, or of such owners or renters of land; or

(b) Where such contract is made by or through a member of a board of trade which has been designated by the secretary of agri-culture as a "contract market," as hereinafter provided, and if such contract is evidenced by a record in writing which shows the date, the parties to such contract and their addresses, the property covered and its price, and the terms of delivery: Provided. That each board member shall keep such record for a period of three years from the date thereof, or for a longer period if the secretary of agriculture shall so direct, which record shall at all times be open to the inspection of any repre-sentative of the United States department of agriculture or the United States department of justice.

Sec. 5. The secretary of agriculture is here-by authorized and directed to designate any board of trade as a "contract market" when, and only when, such board of trade complies with and carries out the following conditions

and requirements:

(a) When located at a terminal market where cash grain of the kind specified in the contracts of sale of grain for future delivery to be executed on such board is sold in sufficient volumes and under such conditions as fairly to reflect the general value of the grain and the differences in value between the variations. and the differences in value between the various grades of such grain, and where there is available to such board of trade official inspection service approved by the secretary of agriculture for the purpose.

(b) When the governing board thereof provides for the making and filing by the board

vides for the making and filing by the board or any member thereof, as the secretary of agriculture may direct, of reports in accordance with the rules and regulations, and in such manner and form and at such times as may be prescribed by the secretary of agriculture, showing the details and terms of all transactions entered into by the board or the members thereof, either in cash transactions consummated at, on or in a board of trade, or transactions for future delivery, and when such governing board provides, in accordance with such rules and regulations, for the keeping of a record by the board or the members of the board of trade, as the secretary of agriculture may direct, showing the details and bers of the board of trade, as the secretary of agriculture may direct, showing the details and terms of all cash and future transactions entered into by them, consummated at, on or in a board of trade, such record to be in permanent form, showing the parties to all such transactions, including the persons for whom made, any assignments or transfers thereof, with the parties thereto, and the manner in which said transactions are fulfilled discharged or said transactions are fulfilled, discharged or terminated. Such record shall be required to terminated. Such record shall be required to be kept for a period of three years from the date thereof, or for a longer period if the secretary of agriculture shall so direct, and shall at all times be open to the inspection of any representative of the United States department of agriculture or United States department of justice.

vice When the governing board thereof pro-vides for the prevention of dissemination by the board or any member thereof of false or misleading or knowingly inaccurate reports concerning crop or market information or conditions that affect or tend to affect the price

of grain in interstate commerce.

of grain in interstate commerce.

(d) When the governing board thereof provides for the prevention of manipulation of prices or the cornering of any grain by the dealers or operators upon such board.

(e) When the governing board thereof does not exclude from membership in, and all privileges on, such board of trade any duly authorized representative of any lawfully formed and conducted co-operative association of producers having adequate financial responsibility which is engaged in cash grain busisibility which is engaged in cash grain business, if such association has complied, and ness, it such association has complied, and agrees to comply, with such terms and conditions as are or may be imposed lawfully on other members of such board: Provided, That no rule of a contract market shall forbid or be construed to forbid the return on a patronage basis by such co-operative association to its bona fide members of moneys collected in express of the corpuse of conduct. collected in excess of the expense of conducting the business of such association.

(1) When the governing board provides for making effective the final orders or decisions

entered pursuant to the provisions of paragraph (b) of section 6 of this act.

Sec. 6. Any board of trade desiring to be esignated a "contract market" shall make apdesignated a "contract market" shall make application to the secretary of agriculture for such designation and accompany the same with a showing that it complies with the above conditions, and with a sufficient assurance that it will continue to comply with the above

requirements.

(a) A commission composed of the secretary of agriculture, the secretary of commerce and of agriculture, the secretary of commerce and the attorney-general is authorized to suspend for a period not to exceed six months or to revoke the designation of any board of trade as a "contract market" upon a showing that such board of trade has failed or is failing to comply with any of the above requirements or is not enforcing its rules of government made a condition of its designation as set forth in section 5. Such suspension or revoforth in section 5. Such suspension or revo-cation shall only be after a notice to the offi-cers of the board of trade affected and upon a hearing: Provided, That such suspension or revocation shall be final and conclusive unless within fifteen days after such suspension or revocation by the said commission such board of trade appeals to the Circuit Court of Ap-peals for the circuit in which it has its prin-cipal place of business by filing with the cipal place of business by filing with the clerk of such court a written petition praying that the order of the said commission be set aside or modified in the manner stated set aside or modined in the manner states in the petition, together with a bond in such sum as the court may determine, conditioned that such board of trade will pay the costs of the proceedings if the court so directs. The clerk of the court in which such a petition is a cled shell immediately asign a copy thereof filed shall immediately cause a copy thereof to be delivered to the secretary of agriculture, to be delivered to the secretary of agriculture chairman of said commission, or any member thereof, and the said commission shall forthwith prepare, certify and file in the court a full and accurate transcript of the record in such proceedings, including the notice to the board of trade, a copy of the charges, the evidence and the report and order. The testimony and evidence taken or submitted before the said commission duly certified and filed as aforesaid as a part of the record shall be considered by the court as the evidence in the case. The proceedings in such cases in the Circuit Court of Appeals shall be made a preconsidered by the court as the evalence in the case. The proceedings in such cases in the Circuit Court of Appeals shall be made a preferred cause and shall be expedited in every way. Such a court may affirm or set aside the order of the said commission or may direct it to modify its order. No such order of the said commission shall be modified or set aside by the Circuit Court of Appeals unless it is shown by the board of trade that the order is unsupported by the weight of the evidence or was issued without due notice and a reasonable opportunity having been afand a reasonable opportunity having been afand a reasonable opportunity having been afforded to such board of trade for a hearing, or infringes the constitution of the United States, or is beyond the jurisdiction of said commission: Provided further, That if the secretary of agriculture shall refuse to designate as a contract market any board of trade that has made application therefor, then such board of trade may appeal from such refusal to the commission described therein, consisting of the secretary of agriculture, the secretary of commerce and the attorney-general of the United States, with the right to appeal as provided for in other cases in this section, the decision on such appeal to be final and binding on all parties interested.

(b) If the secretary of agriculture has rea-(b) If the secretary of agriculture has rea-

son to believe that any person is violating any of the provisions of this act, or is attempting to manibulate the market price of any grain in violation of the provisions of section 5 hereof, or of any of the rules or regulations made pursuant to its requirements, he

may serve upon such person a complaint stating his charge in that respect, to which complaint shall be attached or contained therein a notice of hearing, specifying a day and place not less than three days after the service thereof, requiring such person to show cause why an order should not be made directing that all contract markets until further notice of the said commission refuse all rading privileges thereon to such person. Said hearing may be held in Washington, D. C., or elsewhere before the said commission, or before a referee designated by the secretary of agriculture, who shall cause all evidence to be reduced to writing and forthwith transmit the same to the secretary of agriculture. dence to be reduced to writing and forthwith transmit the same to the secretary of agriculture as chairman of the said commission. That for the purpose of securing effective enforcement of the provisions of this act the provisions, including penalties, of section 12 of the interstate commerce act, as amended, relating to the attendance and testimony of witnesses, the production of documentary evidence and the immunity of witnesses, are made amplicable to the witnesses, the production of documentary evidence and the immunity of witnesses, are made applicable to the power, jurisdiction and authority of the secretary of agriculture, the said commission, or said referee in proceedings under this act and to persons subject to its provisions. Upon evidence received the said commission may require all contract markets to refuse such person all trading privileges thereon for such period as may be specified in said order. Notice of such order shall be sent forthwith by registered mail or delivered to the offending person and to the governing beards of said contract markets. Afterning beards of said contract markets. livered to the offending person and to the governing boards of said contract markets. After the issuance of the order by the commission as aforesaid the person against whom it is issued may obtain a review of such order or such other equitable relief as to the court may seem just by filing in the United States Circuit Court of Appeals of the circuit in which the petitioner is doing business a written petition praying that the order of the commission be set aside. A copy of such petition shall be forthwith served upon the commission by delivering such copy to its chairman or to any member thereof, and therechairman or to any member thereof, and there-upon the commission shall forthwith certify upon the commission shall forthwith certify and file in the court a transcript of the record theretofore made, including evidence received. Upon the filing of the transcript the court shall have jurisdiction to affirm, to set aside or modify the order of the commission, and the findings of the commission as to the facts, if supported by the weight of evidence, shall in like manner be conclusive. In proceedings under paragraphs (a) and (b) the shall in like manner be conclusive. In pro-ceedings under paragraphs (a) and (b) the judgment and decree of the court shall be final, except that the same shall be subject to review by the Supreme court upon certiorari, as provided in section 240 of the judicial code.

Sec. 7. Any board of trade that has been designated a contract market in the manner herein provided may have such designation vacated and set aside by giving notice in writing to the secretary of agriculture requesting that its designation as a contract market be vacated, which notice shall be served at least ninety days prior to the date named therein as the date when the vacation of designation shall take effect. Upon receipt of such notice he secretary of agriculture shall forthwith order to vacation of the designation of such beard of trade as a contract market, effective upon the day named in the notice, and shall orthwith send a copy of the notice and his order to all other contract markets. From and after the date upon which the vacation became effective the said board of trade can athereafter be designated again a contract market by making application to the secretary of agriculture in the manner herein provided for an original application.

Sec. 8. For the efficient execution of the provisions of this act, and in order to provide information for the use of congress, the secretary of agriculture may make such investigations as he may deem necessary to ascertain the facts regarding the operations of boards of trade, whether prior or subsequent to the enactment of this act, and may publish from time to time in his discretion the result of such investigation and such statistical information gathered therefrom as he may deem of interest to the public, except data and information sathered therefrom as he may deem of interest to the public, except data and information which would separately disclose the business transactions of any person and trade secrets or names of customers: Provided, That nothing in this section shall be construed to prohibit the secretary of agriculture from making or issuing such reports as he may deem necessary relative to the conduct of any berson found guilty of violating the provisions of this act under the proceedings prescribed in section 6 of this act: Provided further, That the secretary of agriculture in any report may include the facts as to any actual transaction. The secretary of agriculture in unvertigate marketing conditions of grain and grain products and by-products, including supply and demand for these commodities, cost to the consumer and handling and transportation charges. He shall likewise compile and furnish to producers, consumers and distributors, by means of regular or special reports, or by such methods as he may deem most effective, information respecting the grain markets, together with information on supply, demand, prices and other conditions in this and other countries that affect the

markets.

Sec. 9. Any person who shall violate the provisions of section 4 of this act, or who shall fail to evidence any contract mentioned in said section by a record in writing as therein required, or who shall knowingly or carelessly deliver for transmission through the mails or in interstate commerce by telegraph, telephone, wireless or other means of communication false or misleading or knowingly inaccurate reports concerning crop or market information or conditions that affect or tend to affect the price of grain in interstate commerce, shall be deemed guilty of a misdemeanor, and upon conviction thereof be fined not more than \$10,000 or imprisoned for not more than one year, or both, together with the costs of prosecution.

more than one year, or both, together with the costs of prosecution.

Sec. 10. If any provision of this act or the application thereof to any person or circumstances is held invalid, the validity of the remainder of the act and of the application of such provision to other persons and circumstances challenges.

stances shall not be affected thereby.

Sec. 11. No fine or imprisonment shall be imposed for any violation of this act occurring before the first day of the second month

Sec. 12. The secretary of agriculture may co-operate with any department or agency of the government, any state, territory, district or possession, or department, agency or political subdivision thereof, or any person, and shall have the power to appoint, remove and fix the compensation of such officers and employes, not in conflict with existing law, and make such expenditures for rent outside the District of Columbia, printing, telegrams, telephones, lawbooks, books of reference, periodicals, furniture, stationery, office equipment, travel and other supplies and expenses as shall be necessary to the administration of this act in the District of Columbia and elsewhere, and there are hereby authorized to be appropriated, out of any moneys in the treas-

ury not otherwise appropriated, such sums as may be necessary for such purposes. proved Sept. 21, 1922.)

#### ADDITIONS TO PENSION ROLL.

ADDITIONS TO PENSION ROLL.

The widow of any officer or enlisted man who served ninety days or more in the army, navy or marine corps of the United States during the war with Spain, the Chinese Boxer rebellion or the Philippine insurrection, between April 21, 1898, and July 4, 1902, inclusive, service to be computed from date of enistment to date of discharge, and was honorably discharged from such service, or, regardless of the length of service was discharged for or died in service was discharged for or died in service of a disability incurred in the service and line of duty, such widow having married such soldier, sailor or marine prior to the passage of this act, shall, upon due proof of her husband's death, without proving his death to be the result of his army or navy service, be placed upon the pension roll from the date of the filing of her application therefor under this act, at the rate of \$20 per month during her widowhood. And this section shall apply to a former widow of any officer or enlisted man who rendered service as hereinbefore described and who was honorably discharged, or died in service due to disability or disease incurred in the service, such widow having remarried either once or more than once after the death of the soldier. such widow having remarried either once or more than once after the death of the soldier, sailor or marine, if it be shown that such subsailor or marine, if it be shown that such subsequent or successive marriage or marriages has or have been dissolved, either by the death of the husband or husbands, or by divorce without fault on the part of the wife; and any such former widow shall be entitled to and be paid a pension at the rate of \$20 per month; and any widow or former widow as mentioned in this section shall also be paid \$4 per month for each child of such officer or enlisted man under the age of 16 years, and in case of the death or remarriage of the widow leaving a child or children of such officer or enlisted man under the age of 16 years, such pension shall be paid such child or children until the age of 16 years: Provided, That in case a minor child is insane, idiotic or otherwise mentally or physically helpless, the pension shall continue during the life of such child or during the period of such disability; and this proviso shall apply to all pensions heretofore granted or hereafter to be granted under this or any former statute: Provided further, That in case of any widow whose name has been dropped from the pension has been granted to an insane, idiotic or otherwise helpless child or to a child or children under the age of 16 years, she shall not be entitled to remeal of pension under this act until the pension to such child or children terminates, unless such child or children terminates, unless such child or children to a member of her family and cared for by her, and upon renewal of pension to such child or children be an ember of her family and cared for by her, and upon renewal of pension to such widow payment of pension to such child or children bear members of her family and cared for by her, and upon renewal of pension to such widow payment of pension to such child or children bear members. sequent or successive marriage or marriages has

payment of possibilities. Sec. 2. from service of any nurse, chief nurse or superintendent shall operate as if she had re-ceived an honorable discharge, it being the intent and purpose to give to said nurses, chief nurses, and superintendents of the nurse corps nurses and superintendents of the nurse corps (female) the same status in all respects as members of said corps who served after Feb. 2, 1901: Provided. That no person shall receive more than one pension for the same period: Provided further, That all dependent parents of any officer or enlisted man who served in the war with Spain, the Philippine insurrection or the Chinese Boxer rebellion. whose names are now on the pension roll or who are now entitled to pension under any existing law, shall be entitled to and shall be paid a pension at the rate of \$20 per month.

Sec. 3. From and after the approval of this Sec. 3. From and after the approval of this act all persons whose names are on the pension roll and all persons hereafter granted a pension, who while in the military or naval service of the United States under the provision of this act and all other acts relating to pensions of soldiers who served in the war with Spain, the Philippine insurrection or the Chinese Boxer rebellion and in line of duty shall have lost both hands or both feet or been totally disabled therein or who while in such totally disabled therein, or who while in such service and in like manner sustained injuries that proved the direct cause of the subsequent total disability of both hands or both feet, shall receive a pension at the rate of \$100 per month.

Sec. 4. The pension or increase of pension herein provided for, as to all persons whose names are now on the pension roll or who are now in receipt of a pension under existing law, shall commence at the rates herein provided from the date of the approval of this act; and as to persons whose names are not now on the pension roll or who are not now in receipt of pension under existing law but who may be entitled to pension under the provisions of this act, such pensions shall commence from the date of filing application therefor in the bureau of pensions in such form as may be prescribed by the secretary of the interior,

Sec. 5. In the adjudication of claims arising under section 1 of this act and claims arising under the provisions of the act entitled "An act to pension soldiers and sailors of the war with Spain, the Philippine insurrection and the China relief expedition." approved June 5, China Fellet expedition, approved June 5, 1920, all leaves of absence and furloughs under general orders numbered 130, Aug. 29, 1898, war department, shall be included in determining the period of pensionable service: Provided, That as to any claimant who filed an application for pension under the act of July 16, 1918, or the act of June 5, 1920, and where conflicting in attil program in the 16, 1918, or the act of June 5, 1920, whose application is still pending in bureau of pensions or has been rejected on the ground that ninety days' service was not shown exclusive of the leave of absence or furlough under the order herein referred to. furlough under the order herein referred to, the pension shall commence from the date when the original application was filed in the bureau of pensions, and as to claims under the act of July 16, 1918, the pension shall be at the rate provided in that act, with increase at the rate provided herein from the date of the approval of this act. Provided further. That persons who are now receiving pensions under evisiting laws or whose claims are pending. under existing laws or whose claims are pending in the bureau of pensions may, by application to the commissioner of pensions, in such from as he may prescribe, showing themselves entitled thereto, receive the benefits of this act; and nothing therein shall be so construed as to prevent any pensioner thereunder from prosecuting his claim under any other general or special act; And provided further. That this act shall not be so construed as to reduce any pension under any act, public or private; Prohowever. That no person shall receive

vided, however, That no person shall receive more than one pension for the same period. Sec. 6. The second section of the act entitled "An act to pension the survivors of certain Indian wars from Jan. 1, 1859, to January, 1891, inclusive, and for other purposes," approved March 4, 1917, be so amended as to

read as follows:

"Sec. 2. That the period of service per-formed by beneficiaries under this act shall be formed by benenciaries under this act shall be determined: First, by reports from the records of the war department, where there are such records; second, by reports from the records of the treasury department showing payment by the United States, where there is no record of regular enlistment or muster into the United States military service; and, third, when there is no record of cruice or payment for same States mintary service; and, third, when there is no record of service or payment for same in the war department or the treasury department, by satisfactory evidence from muster rolls on file in the several state or territorial archives; fourth, where there is no muster roll or pay roll on file in the several state or territorial the several state or territorial states. ritorial archives showing service of the beneficiary or same has been destroyed by fire or otherwise lost, and no record of service has been made in the war department or treasury department, the applicant may make proof of service by furnishing evidence satisfactory to the commissioner of pensions; Provided, That the want of a certificate of discharge shall not deprive any applicant of the benefits of this act."

Sec. 7. That no claim agent or attorney or other person shall be recognized in the adjustment of claims under this act except in claims ment of claims under this act except in claims for original pension, and in such cases no more than the sum of \$10 shall be allowed for services in preparing, presenting or prosecuting any such claim, which sum shall be payable only on the order of the commissioner of pensions; and any person who shall violate any of the provisions of this section, or shall wrongfully withhold from the pensioner or claimant the whole or any part of a pension allowed or due to such pensioner or claimant. claimant the whole or any part of a pension allowed or due to such pensioner or claimant under this act, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall, for each and every such offense, be fined not exceeding 5500 or be imprisoned not exceeding one year, or both in the discretion of the court. (Approved Sept. 1, 1922.)

## ADDITIONAL FEDERAL JUDGES.

The president is authorized to appoint, by and with the advice and consent of the senate, the following number of district judges for the United States District courts in the districts specified in addition to those now authorized by law:

authorized by law;

For the district of Massachusetts, two; for the eastern district of New York, one; for the southern district of New York, two; for the district of New Jersey, one; for the eastern district of Pennsylvania, one; for the western district of Pennsylvania, one; for the northern district of Texas, one; for the southern district of Florida, one; for the eastern district of Michigan, one; for the northern district of Michigan, one; for the northern district of Tennessee, one; for the eastern district of Illinois, one; for the eastern district of Illinois, one; for the for the eastern district of Illinois, one; for the district of Minnesota, one; for the eastern district of Missouri, one; for the western district of Missouri, one; for the eastern district of Oklahoma, one; for the district of Montana, one; for the northern district of California, one; for the southern district of California, one; for the district of New Mexico, one; and for the district of New Mexico, one; and for the district of Arizona, one.

A vacancy occurring, more than two years after the passage of this act, in the office of any district judge appointed pursuant to this act, except for the middle district of Ten-

nessee, shall not be filled unless congress shall nessee, shall not be filled unless congress shall so provide, and if an appointment is made to fill such a vacancy occurring within two years a vacancy thereafter occurring in said office shall not be filled unless congress shall so provide: Provided, however, That in case a vacancy occurs in the district of New Mexico at any time after the passage of this act, there shall thereafter be but one judge for said district until otherwise provided by law.

Every judge shall reside in the district or

circuit or one of the districts or circuits for which he is appointed.

Sec. 2. It shall be the duty of the chief justice of the United States, or in case of his disability of one of the other justices of the Supreme court, in order of their seniority, as soon as may be after the passage of this act, and annually thereafter, to summon to a condand annually thereafter, to summon to a conference on the last Monday in September, at Washington, D. C., or at such other time and place in the United States as the chief justice, or, in case of his disability, any of said justices in order of their seniority, may designate, the senior circuit judge of each judicial circuit. If any senior circuit judge is unable to attend, the chief justice, or in case of his disability, the justice of the Supreme of his disability, the justice of the Supreme court calling said conference, may summon any other circuit or district judge in the judicial support of the supremental processing circuit judge is unable cial circuit whose senior circuit judge is unable cial circuit whose senior circuit judge is unable to attend, that each circuit may be adequately represented at said conference. It shall be the duty of every judge thus summoned to attend said conference, and to remain throughout its proceedings, unless excused by the chief justice, and to advise as to the needs of his circuit and as to any matters in respect of which the administration of justice in the courts of the United States may be improved.

courts of the United States may be improved.
The senior district judge of each United
States District court, on or before the first
day of August in each year, shall prepare and submit to the senior circuit judge of the judicial circuit in which said district is situated a report setting forth the condition of business in said district court, including the number and character of cases on the docket, the business in arrears, and cases disposed of, and such other facts pertinent to the business dispatched and pending as said district judge may deem proper, together with recommenda-tions as to the need of additional judicial assistance for the disposal of business for the year ensuing. Said reports shall be laid beyear ensuing. Said reports shall be laid be-fore the conference herein provided, by said senior circuit judge, or in his absence by the judge representing the circuit at the conference, together with such recommendations as he may deem proper.

The chief justice. or in his absence the senior associate justice, shall be the presiding officer of the conference. Said conference shall make a comprehensive survey of the con-dition of business in the courts of the United States and prepare plans for assignment and transfer of judges to or from circuits or dis-tricts where the state of the docket or condition of business indicates the need therefor, and shall submit such suggestions to the various courts as may seem in the interest of uniformity and expedition of business.

The attorney-general shall, upon request of

the chief justice, report to said conference on matters relating to the business of the several courts of the United States, with particular

reference to causes or proceedings in which the United States may be a party.
The chief justice and each justice or judge summoned and attending said conference shall be allowed his actual expenses of travel and his necessary expenses for subsistence, not to exceed \$10 per day, which payments shall be made by the marshal of the Supreme court of the United States upon the written certificate of the judge incurring such expenses, ap-

proved by the chief justice.

Sec. 3. Section 13 of the judicial code is

hereby amended to read as follows: "Sec. 13. Whenever any district hereby amended to read as follows:
"Sec. 13. Whenever any district judge by reason of any disability or necessary absence from his district or the accumulation or urgency of business is unable to perform speedily the work of his district, the senior circuit judge of that circuit, or, in his absence, the circuit justice thereof, may, if in his judgment the public interest requires, designate and assign any district judge of any District court within the same judicial circuit to act as district judge in such district and to discharge all trict judge in such district and to discharge all the judge in such attack and to discharge and the judge thereof for such time as the business of the said District court may require. Whenever it is found impracticable to designate and assign another district judge within the same judicial circuit as above provided and a certificate of the needs of any provided and a certificate of the needs or any such district is presented by said senior circuit judge or said circuit justice to the chief justice of the United States, he, or in his absence the senior associate justice, may, if in his judg-ment the public interest so requires, designate ment the public interest so requires, designate and assign a district judge of an adjoining judicial circuit if practicable, or if not practicable, then of any judicial circuit, to perform the duties of district judge and hold a District court in any such district as above provided: Provided, however, That before any such designation or assignment is made the senior circuit judge of the circuit from which the designated or assigned judge is to be taken shall consent thereto. All designations and assignments made hereunder shall be filed in assignments made hereunder shall be filed in the office of the clerk and entered on the minutes of both the court from and to which a judge is designated and assigned."

Sec. 4. Section 15 of the judicial code is

a judge is designated and assigned."

Sec. 4. Section 15 of the judicial code is hereby amended to read as follows:

"Sec. 15. Each district judge designated and assigned under the provisions of section 13 may hold separately and at the same time a District court in the district or territory to which such judge is designated and assigned and discharge all the judicial duties of the district or territorial judge therein."

Sec. 5. Section 18 of the judicial code is hereby amended to read as follows:

"Sec. 18. The chief justice of the United States, or the circuit justice of any judicial circuit, or the sensor circuit judge thereof, may, if the public interest requires, designate and assign any circuit judge of a judicial circuit to hold a District court within such circuit. The judges of the United States Court of Customs Appeals, or any of them, whenever the business of that court will permit, may, if in the judgment of the chief justice of the United States the public interest requires, be designated and assigned by him for service from time to time, and until he shall otherwise direct, in the Supreme court of the District of Columbia or the Court of Appeals of the District of Columbia or the Court of Appeals of the District of Columbia or the Court of Appeals of the District of Columbia or the Court of Appeals of the District of Columbia, when requested of sesignated and assigned under this act he shall have all the powers, and rights, and perform all the duties, of a judge of the district, or a

have all the powers, and rights, and perform all the duties, of a judge of the district, or a justice of the court, to which he has been assigned (excepting the power of appointment to a statutory position or of permanent designation of powerspaper or decesters of funds.) ignation of newspaper or depository of funds): Provided, however, That in case a trial has been entered upon before such period of service has expired and has not been concluded, the period of service shall be deemed to be extended until the trial has been concluded.

"Any designated and assigned judge who has held court in another district than his own shall have power, notwithstanding his absence from such district and the expiration of the

time limit in his designation, to decide all time limit in his designation, to decide all matters which have been submitted to him within such district, to decide motions for new trials, settle bills of exceptions, certify or authenticate narratives of testimony, or perform any other act required by law or the rules to be performed in order to prepare any case so tried by him for review in an appellate court, and his action theseen in writing fluc court; and his action thereon in writing filed with the clerk of the court where the trial or hearing was had shall be as valid as if such action had been taken by him within that district and within the period of his designation.

Sec. 6. Section 118 of the judicial code, as amended, is hereby further amended to read

as follows:

as follows:

"Sec. 118. There shall be in the second, seventh, and eighth circuits, respectively, four circuit judges; and in each of the other circuits, three circuit judges, to be appointed by the president, by and with the advice and consent of the senate. All circuit judges shall receive a salary of \$8,500 a year each, payable monthly. Each circuit judge shall reside within his circuit, and when appointed shall be a resident of the circuit for which he is appointed. The circuit judges in each circuits appointed. shall be a resident of the circuit for which he is appointed. The circuit judges in each circuit shall be judges of the Circuit Court of Appeals in that circuit, and it shall be the duty of each circuit tudge in each circuit to sit as one of the judges of the Circuit Court of Appeals in that circuit from time to time according to law: Provided, That nothing in this section shall be construed to prevent any circuit judge holding District court or otherwise, as provided by other sections of the judicial code."

Sec. 7. All laws or parts thereof inconsistent or in conflict with the provisions of this act are hereby repealed. (Approved Sept. 14,

are hereby repealed. (Approved Sept. 14,

#### NUMBER OF OFFICERS IN ARMY.

The president, upon the recommendation of the board of general officers convened to carry out the elimination provisions of the act en-titled "An act making appropriations for the military and nonmilitary activities of the war department for the fiscal year ending June 30, 1923, and for other purposes," approved June 1923, and for other purposes." approved June 30, 1922, is authorized to determine the number of officers below the grade of lieutenant-colonel that shall be discharged and recommissioned in the next lower grade notwith-standing the limitation of 800 in said act: Provided, That the president is authorized, upon the recommendation of said board, to increase the authorized strength of various grades are prescribed in said act by not more increase the authorized strength of various grades as prescribed in said act by not more than fifty colonels, 150 majors and 300 captains, and to decrease by a total of not to exceed 500, apportioned among the grades as the president may determine, the authorized strength of the two lowest grades as prescribed by said act: Provided further, That on and after Jan. 1, 1923, there shall be not to exceed a total of 12,000 officers in the army and on and after that date the authorized number in each grade shall be as prescribed in said act or as modified and prescribed in said act or as modified and prescribed in said act or as modified and pre-scribed by the president in accordance with the provisions of the preceding proviso, and on that date there shall not be any promo-tion list officers in any grade in addition to these prescribed numbers: Provided further, That the discharge and recommission of offi-That the discharge and recommission of officers in the next lower grade shall not operate to reduce the pay or allowances which they are now receiving or to deprive them of credit for service now counted for purposes of pay or retirement: And provided further. That in discharging and recommissioning officers in inverse order of standing on the promotion list any officer who is once discharged from

the grade he now holds and is recommissioned

the grade he now holds and is recommissioned in the next lower grade shall be passed over. Sec. 2. The retired general officers who have been called to active duty for service on the said elimination board shall be entitled from date of detail and while so serving to the active pay and allowances of their grade.

Sec. 3. That the first proviso under the heading "Arms, uniforms, equipment and so forth, for field service, national guard" in title I, of said act is amended to read as follows: "That members of the national guard and officers' reserve corps who have or shall become entitled for a continuous period of less than one month to federal pay at the rates fixed for the regular army, whether by virtue of a call by the president, of attendance at school or maneuver, or of any other cause, and whose accounts have not yet been settled, shall receive such pay for each day of, such shall receive such pay for each day of such period; and the thirty-first day of a calendar month shall not be excluded from the compu-tation."

Sec. 4. That all laws and parts of laws in so far as they are inconsistent with this act are hereby repealed. (Approved Sept. 14.

## COAL DISTRIBUTION AND PRICES.

Be it enacted, etc. That by reason of the prolonged interruption in the operation of a prolonged interruption in the operation of a substantial part of the coal-mining industry in the United States and of the impairment in the service of certain carriers engaged in commerce between the states and by reason of the disturbance in economic and industrial conditions caused by the world war a national emergency exists which endangers the public health and general welfare of the people of the United States, injures industry and business generally throughout the United States, furnishes an opportunity for the disposition of coal and other fuel at unreasonably high prices, limits the supply of heat, light and power, threatens to obstruct and hamper the operation of the government of the United States and of its several departments, the transportation of the mails, the operation and efficiency of the army and the navy and the operation of carriers engaged in commerce among the several states and with foreign countries. countries.

Sec. 2. That the powers of the interstate commerce commission under the act entitled "An act to resultate commerce," approved Feb. 4. 1887, as amended, including the transportation act, 1920, and especially under section 402 of said transportation act, 1920. section 402 of said transportation act, 1920, are, during the aforesaid emergency enlarged to include the authority to issue in transportation of coal or other fuel orders for priorities in car service, embargoes and other suitable measures in favor of or against any carrier, including vessels suitable for transportation of coal on the inland waters of the United States which for such purpose shall be subject to the interstate commerce of or region municipality community or act, or region, municipality, community or person, copartnership or corporation, and to take any other necessary and appropriate steps for the priority in transportation and for the equitable distribution of coal or other fuels on as best to meet the emergency and to promote the general welfare, and to prevent upon the part of any person, partnership, association or corporation the purchase or sale of coal or other fuel at prices unjustly or unreasonably high. This act shall not be construed as repealing any of the powers heretofore granted by law to the interstate commerce commission, but shall be construed as conferring supplementary and additional powers to said commission and as an amendment to section 1 of the interstate commerce act, and subject to the limitations and defiequitable distribution of coal or other fuel

nitions of commerce controlled by said act, and all powers given said interstate commerce commission shall be applicable in the execution of this act.

sec. Sec. 3. Because of such emergency and to assure an adequate supply and an equitable distribution of coal and other fuel and to facilitate the movement thereof between the several states and with foreign countries, to supply the army and navy the government of the United States and its several departments and carriers engaged in interstate comments and carriers engaged in interstate commerce with the same during such an emergency, and for other purposes and for the further purpose of assisting in carrying into effect the orders of the interstate commerce commission made under existing law or under section 2 hereof, there is hereby created and established an agency of the United States to be known as federal fuel distributor, whose appointment shall be made and compensation appointment shall be made and compensation fixed by the president of the United States, Said distributor shall perform his duties under the direction of the president.

Sec. 4. It shall be the duty of the federal fuel distributor to ascertain—

(a) Whether there exists within the United

States or any part thereof a shortage of coal or other fuel and the extent of such shortage;

(b) The fields of production of coal and other fuel and the principal markets to which such production is or may be transported and distributed and the means and methods of distribution:

(c) The prices normally and usually charged for such coal and other fuel and whether current prices, considering the costs of production and distribution, are just and reason-

able; and
(d) The nature and location of the consumers; what persons, copartnerships, corporations, regions, municipalities or communities should, under the acts to regulate commerce administered by the interstate commerce mission, including the transportation act, 1920, in time of shortage of coal and other fuel, or the transportation thereof, receive priority in transportation and distribution, and the degree thereof and any other facts relating to the production, transportation and distribution of coal and other fuel; and when so ascertained the federal fuel distributor shall make appropriate recommendations pertaining thereto to the interstate commerce commis-sion from time to time either on his own motion or upon the request of the commis-sion, to the end that an equitable distribution of coal and other fuel may be secured so as best to meet the emergency and promote the general welfare. All facts and data within the possession of the federal fuel distributor shall be at all times accessible and furnished shall be at all times accessible and furnished to the interstate commerce commission upon its request. The interstate commerce commission is hereby authorized and directed to receive and consider the recommendation of the federal fuel distributor, based upon his reports upon the foregoing subjects and any other information which it may secure in any manner authorized by law.

Sec. 5. The federal fuel distributor may make such rules, regulations and orders as he may deem necessary to carry out the duties imposed upon him by this act and may co-operate with any department or agency of the government, any state, territory, dis-

co-operate with any department or agency of the government, any state, territory, district or possession, or department, agency, or political subdivision thereof, or any person or persons and may avail himself of the advice and assistance of any department, commission or board of the government, and may appoint or create any agent or agency to facilitate the power and authority herein conferred upon him; and he shall have the power to appoint, remove and fix the com-

pensation of such assistants and employes, not in conflict with existing laws, and make not in conflict with existing laws, and make such expenditures for rent, printing, telegrams, telephones, furniture, stationery, office equipment, travel and other operating expenses as shall be necessary for the due and effective administration of this act. All facts, data and records relating to the production, supply, distribution and transportation of coal and other fuel in the possession of any commission, board, agency or department of the government shall at all times be available to the federal fuel distributor and the interstate commerce commission, and the person having custody of such facts, data and son having custody of such facts, data and records shall furnish the same promptly to the federal fuel distributor or his duly authorized agent or to the commission on request therefor.

Sec. 6. That whenever the president shall be of the opinion that the national emergency hereby declared has passed he shall by proclamation declare the same and thereupon, except as to prosecutions for offenses, this act shall no longer be in force or effect and in no event shall it continue in force and effect for longer than twelve months from

the passage thereof.

effect for longer than twelve months from the passage thereof.

Sec. 7. Every person or corporation who shall knowingly make any false representation to the interstate commerce commission or the federal fuel distributor, or to any person acting in their behalf or the behalf of either of them, respecting the price at which coal or other fuel has been, is being or is to be sold or bought, the inquiry being made for the purposes of this act, or whoever having obtained coal or other fuel through a priority order or direction shall dispose of the same for purposes other than those for which said priority order or direction was issued without the consent of the interstate commerce commission, shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not less than \$1,000 nor more than \$20,000: Provided, That any person or any officer or director of any corporation subject to the provisions of this act or the interstate commerce act and the acts amendatory therefore. commerce act and the acts amendatory therecommerce act and the acts amendatory thereof, or any receiver, trustee, lessee, agent or
person acting for or employed by any such
corporation who shall be convicted as aforesaid, shall, in addition to the fine herein provided for, be liable to imprisonment in the
penitentiary for a cream of exceeding two years, in the discretion of the court. Every violation of this section may be prosecuted in any court of the United States having jurisdiction of crimes within the district in which such violation is committed, or through which such violation is committed, or through which the transportation is conducted, or in which the car service is performed, or in which such concession or discrimination is granted, or given, or solicited, or accepted, or received; and whenever the offense is begun in one jurisdiction and completed in another it may be dealt with, inquired of, tried, determined and punished in either jurisdiction in the same manner as if the offense had been actually and wholly committed therein.

In the same manner as 11 the offense had been actually and wholly committed therein.

Sec. 8. There is hereby authorized to be appropriated the sum of \$250.000, available until expended for the purposes of this act, including payment of personal services in the District of Columbia and elsewhere and all expenses incident to executive the work of expenses incident to organizing the work of the president's fuel distribution committee, and not exceeding \$50,000 thereof shall be available for reimbursement and navment upon specific approval of the president of expenses incurred since May 15, 1922, in connection with the work of the president's fuel distribution committee organized for the pur-pose of helping to meet the emergency existing in the matter of fuel. (Approved Sept. 22, 1922.)

## UNITED STATES COAL COMMISSION.

Be it enacted, etc. That for the purpose of securing information in connection with questions relative to interstate commerce in coal and all questions and problems arising out of and connected with the coal industry, there is hereby established a governmental agency to be known and designated as the United to be known and designated as the United States coal commission, to be composed of not more than seven members, appointed by the president of the United States, by and with the advice and consent of the senate. No member of the United States senate or of the house of representatives shall be eligible to serve on said commission. Said commission shall elect a chairman by majority vote of its snail elect a charman by majority vote of its members, shall maintain central offices in the District of Columbia, but may whenever it deems it necessary meet at such other places as it may determine. A member of the commission may be removed by the president for neglect of duty or malfeasance in office but for no other cause. Each member of said commission shall receive a salary of \$7,500 a year. Any vacancy on the commission shall be filled in the same manner as the original appointment. Said commission shall cease to exist one year after the taking effect of this act

The term "person" as used in this means any individual, partnership, corporation or association; the term "coal" means anthracite, bituminous and other coal, lignite, coke and culm whether in place, extracted or

banked.

It shall be the duty of said commission to investigate and ascertain fully the facts and conditions and study the problems and questions relative to the coal industry with a view to and for the purpose of aiding, assisting and advising congress in matters of legislation which will insure a supply of this commodity to the industries and the people generally throughout the country and maintain the uninterrupted flow of commerce among the states, or any legislation which congress may, after said investigation, deem wise and which under the constitution congress has the power to enact.

To this end said commission shall ascertain To this end said commission shall ascertain and report to the president and congress: As to the ownership and titles of the mines; prices of coal; the organizations and persons connected with the coal industry; cost of production; profits realized by the operators or owners of said mines during the last ten years; profits of other persons or corporations having to do with production, distribution, or sale of coal; labor costs; wages paid; wage contracts; irregular production; waste of coal; contracts; irregular production; waste of coal; and suggestions as to the remedy for the same; the conditions generally under which coal is produced; distribution; the causes which from time to time induce strikes, thereby depriving interstate carriers of their fuel supply and otherwise interrupting the flow of interstate commerce; and all facts, circumstances or conditions which would be deemed helpful in determining and establishing a wise and efficient policy by the government relative to said industry. ment relative to said industry.

Said commission shall, under the provisions Said commission shall, under the provisions of this act, make a separate investigation and report for the anthracite industry, which investigation and report shall cover all of the matters specified in the last preceding paragraph, and shall cover also every other phase of the anthracite industry including the production, transportation and distribution of anthracite and the organized or other relations. thracite, and the organized or other relation-ships, if any, among the mine operators or the mine workers, or among any persons engaged in the production, transportation or distribution of coal.

Said commission shall also submit recom-

mendations relative to:

(a) Standardizing the mines upon the basis of their economic productive capacity and regarding the closing down of mines which, by reason of their natural limitations or other conditions, fall below the standard.

(b) Ascertaining and standardizing the cost living for mine workers and the living conof hving for mine workers and the living conditions which must be supplied or afforded in order to surround the workmen with reasonable comforts, and standardizing also as far as practicable the amount of work a man shall perform for a reasonable wage, recognizing the value and effect of such surroundings in respect of their efficiency.

(c) Standardizing a basis of arriving at the overhead cost of producing and distributing the coal including delivery at the door of the consumer, recognizing in this compilation that the standardized cost of living to the miners should be the first and irreducible item of ex-

pense.
(d) The advisability of any legislation having to do with government or private owner-ship, regulation or control in the coal indus-

Said commission shall render its first report and recommendations to the congress and to the president not later than Jan. 15, 1923. Said commission shall render its separate re-Said commission shall render its separate report on the anthracite industry on or before July 1, 1923, and shall endeavor, in said separate report and in the recommendations contained therein, regarding wages in the anthracite industry, to take into consideration the conditions obtaining up to the time when said separat is mode. report is made.

That any officer or employe of the commission who shall make public any information obtained by the commission without its auobtained by the commission without its authority, unless directed by a court, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine

deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine not exceeding \$5,000, or by imprisonment not exceeding one year, or by both such fine and imprisonment, in the discretion of the court. That any member of said commission shall have power to administer oaths, to subpcena and examine witnesses, and to compel the production of any book, paper, document or other evidence from any place in the United States at any designated place of hearing, and to take or authorize the taking of the deposition of any person before any person having power to administer oaths. In the case of a deposition of any person taking the deposition runder his direction and be subscribed to by the deponent. The same fees and mileage as are paid in the courts of the United States shall be paid in the case of witnesses subpensed or depositions taken under this act. No person shall be excused from so attending and testifying and deposing or from so producing any book, paper, document or other vidence on the ground that the testiment or

ing and testifying and deposing, or from so producing any book, paper, document or other evidence on the ground that the testimony or evidence documentary or otherwise, may tend to incriminate him or subject him to a penalty or forfeiture; but no natural person shall be proceeded. be prosecuted or subjected to any penalty or forfeiture for or on account of any transaction, matter or thing as to which, in obedience to a subpcena and under oath, he may be compelled to testify or produce in evidence: except that no person shall be exempt from prosecution and punishment for perjury committed in so testifying.

mitted in so testifying.

Any member of the commission, officer or employe thereof, duly authorized in writing by the commission, shall at all reasonable times for the purpose of examination, have access to and the right to copy any book, account,

record, paper or correspondence relating to any matter which the commission is author-ized by this act to investigate.

That every officer or employe of the United States whenever requested by the commission shall supply it with any data or information shall supply it with any data or information pertaining to any investigation by the commission which may be contained in the records of the office of such officer or employe. That any person who shall willfully neglect or refuse to attend and testify or depose, or the producer promit access to any book age.

or retuse to attend and testify or depose, or to produce or permit access to any book, account, record, document, correspondence or paper, as herein provided for, shall be guilty of an offense, and upon conviction thereof be punished by a fine of not more than \$5.000 or by imprisonment for not more than one year, or by both such fine and imprisonment.

That the commission may appoint and remove such officers employes and agents; and make such expenditures for rent, printing, telegrams, telegrams, telephone, law books, books or reference, periodicals furniture, stationery, office equipment and other supplies and expenses, equipment and other supplies and expenses, including salaries, traveling expenses of its members, secretary, officers, employes and agents, and witness fees, as are necessary for the efficient execution of the functions vested in the commission by this act and as may be provided for by congress from time to time, and make such rules and regulations as may be necessary for the efficient administration of this act. All of the expenditures of the commission shall be allowed and paid upon the presentation of itemized vouchers therefor an presentation of itemized vouchers therefor an presentation of itemized vouchers therefor approved by the chairman of the commission. No salary or compensation of any employe shall exceed 57,500 per year.

That there is hereby authorized to be ap-

propriated, out of any money in the treasury not otherwise appropriated, the sum of \$200,000 or so much thereof as may be necessary to be available until expended for carrying out the provisions of this act. (Approved Sept. 22, 1922.)

# NATIONAL DEFENSE ACT AMENDED.

Be it enacted, etc., That the second paragraph of section 5 of the act entitled "An act for making further and more effectual profor making further and more effectual provision for the national defense, and for other purposes," approved June 3, 1916, as amended by the act entitled "An act to amend an act entitled 'An act for making further and more effectual provision for the national defense, and for other purposes," approved June 3, 1916, and to establish military justice," approved June 4, 1920, hereinafter referred to as the national defense act of June 4, 1920, be and the same is bereby amended to read and the same is hereby, amended to read

as follows:
"After the completion of the initial general staff corps eligible list the name of no officer shall be added thereto unless, upon graduation from the general staff school, he is specifically recommended as qualified for general staff duty, and hereafter no officer of the general staff corps, except the chief of staff, shall be assigned as a member of the war department general staff unless he is a graduate of the general staff college or his name is borne on the initial eligible list: Provided, That the name of any national guard or reserve officer who has demonstrated by actual service with war department general staff during a period of not less than six months, as hereinafter provided for, that he is qualified for general staff duty, may, upon the recommendation of a board consisting of the general offition of a doard consisting of the general om-cers of the war department general staff, as-sistants to the chief of staff, be added to said elizible list at any time. The secretary of war shall publish annually the list of officers eli-gible for general staff duty, and such eligibility shall be noted in the annual army register. If

at any time the number of officers available at any time the number of officers available and eligible for detail to the general staff is not sufficient to fill all vacancies therein majors or captains may be detailed as acting general staff officers under such regulations as the president may prescribe: Provided, That in order to insure intelligent co-operation between the general staff and the several noncombatant branches officers of such branches may be detailed as additional members of the may be detailed as additional members of the general staff corps under such special regula-tions as to eligibility and redetail as may be prescribed by the president, but not more than two officers from each such branch shall be detailed as members of the war department general staff."

Sec. 2. That section 37 of said act, as contained in section 32 of the national defense act of June 4, 1920, be, and is hereby, amended

act of June 4, 1920, be, and is hereby, amended to read as follows:

"Sec. 37. Officers' reserve corps: For the purpose of providing a reserve of officers available for military service when needed there shall be organized an officers' reserve corps, consisting of general officers of sections corresponding to the various branches of the regular army and of such additional sections as the president may direct. The grades in each section and the number in each grade shall be as the president may prescribe. Reshall be as the president may prescribe. Re-serve officers shall be appointed and commissioned by the president alone, except general officers, who shall be appointed by and with advice and consent of the senate. pointment in every case shall be for a period of five years, but an appointment in force at the outbreak of war or made in time of war shall continue in force until six months after its termination. Any reserve officer may be discharged at any time in the discretion of the president. A reserve officer appointed during the existence of a state of war shall be entitled to discharge within six months after its termination if he makes application therefor. termination it ne makes application therefor. In time of peace a reserve officer must at the time of his appointment be a citizen of the United States or of the Philippine islands, between the ages of 21 and 60 years. Any person who has been an officer of the army at any time between April 6, 1917, and June 20, 1919, or an officer of the regular army at any time must be appointed as a reserve officer. time may be appointed as a reserve officer in the highest grade which he held in the army or any lower grade. Any person commissioned in the national guard and recognized as a na-tional guard officer by the secretary of war may upon his own application be appointed as a reserve officer in the grade held by him in the national guard. No other person shall in time of peace be originally appointed as a reserve officer of infantry, cavalry, field artillery, coast artillery or air service in a grade above that of second lieutenant. In time of peace appointments in the infantry, cavalry, field artillery, coast artillery and air service shall be limited to former officers of the army, officers of the national guard recognized as such by the secretary of war, graduates of the reserve officers' training corps, as provided in section 47b hereof, warrant officers and enlisted men of the regular army, national guard and enlisted reserve corps and enserved in the army at some time persons who served in the army at some time between April 6, 1917, and Nov. 11, 1918. Promotions and transfers shall be made under such rules as may be prescribed by the president and shall be based so far as practicable ident and shall be based so far as practicable upon recommendations made in the established chain of command. So far as practicable reserve officers shall be assigned to units in the locality of their places of residence. Nothing in this act shall operate to deprive a reserve officer of the reserve commission he now holds. Any reserve officer may hold a commission in the national guard

without thereby vacating his reserve commission.

Sec. 3. That the second paragraph of section 67 of said act be, and is hereby, amended

to read as follows:

"The appropriation provided for in this section shall be apportioned among the several states and territories under just and equitable procedure to be prescribed by the secretary of war and in direct ratio to the number of enlisted men in active service in the national guard existing in such states and territories at the date of apportionment of said appropriation, and to the District of Columbia, under such regulations as the president may prescribe: Provided That the sum so apportioned among the several states, territories and the District of Columbia shall be available under such rules as may be prescribed by the secretary of war for the actual and necessary expenses incurred by officers and enlisted men of the regular army when traveling on duty in connection with the national guard; for the transportation of supplies furnished to in connection with the national guard; for the transportation of supplies furnished to the national guard for the permanent equip-ment thereof; for office rent and necessary office expenses of officers of the regular army on duty with the national guard; for the ex-penses of the militia bureau including on duty with the national guard; for the expenses of the militia bureau, including clerical services; for expenses of enlisted men of the regular army on duty with the national guard, including an allowance for quarters and subsistence provided in section 11 of the pay readjustment act of June 10, 1922, medicine and medical attendance; and such expenses shall constitute a charge against the whole sum annually appropriated for the support of the national guard and shall be paid therefrom and not from the allotment duly apportioned to any particular state, territory or the District of Columbia; for the promotion of rifle practice, including the acquisition. tion of rife practice, including the acquisition, construction, maintenance and equipment of shooting galleries and suitable tarset ranges; for the hiring of horses and draft animals for use of mounted troops, batteries and use of mounted troops, batteries and ons; for forage for the same and for other incidental expenses in connection wagons: wagons, for lorage for the same and the such other incidental expenses in connection with lawfully authorized encampments, ma-neuvers and field instruction as the secretary of war may deem necessary and for such other expenses pertaining to the national guard as are now or may hereafter be author-ized by law."

sized by law."

Sec. 4. That section 81 of said act. as contained in section 44 of the national defense act of June 4, 1920, be, and is hereby, amended to read as follows:

"Sec. 81. Militia bureau of the war department. The militia division of the war department shall hereafter be known as the militia bureau of the war department. After Jan, 1, 1921, the chief of the militia bureau shall be appointed by the president by and with the advice and consent of the senate, by selection from lists of present and former national guard officers, recommended by the governors of the several states and territories as suitable for such appointment, who hold commissions in the officers' reserve corps and have had ten or more years' commissioned commissions in the omicers' reserve corps and have had ten or more years' commissioned service in the national guard, at least five of which have been in the line and who have attained at least the grade of major. He shall hold office for four years unless sooner removed for cause and shall have the grade removed the property of the sooner removed for cause and shall have the rank, pay and allowances of a major-general of the regular army during his tenure of office, but shall not be entitled to retirement or retired pay. While serving as chief his reserve commission shall continue in force and shall not be terminated except for cause assigned. Until the chief is appointed, as provided in this section, the president may assign an officer of the regular army, not below the grade of colonel, to perform the duties of chief. For duty in the militia bureau and for the instruction of the national guard the president shall assign such number of officers and enlisted men of the regular army officers and enlisted men of the regular army as he may deem necessary. He may also assign for duty in the militia bureau three officers who hold or have held commissions in the national guard and who at the time of assignment are reserve officers, and any such officer while so assigned shall receive out of the whole fund appropriated for the support of the national guard the pay and allowances provided in the pay readjustment act of June 10, 1922, for officers of the national guard when authorized by law to receive federal pay. The president may also assign, with their consent, and within the limits of the appropriations previously made for this specific purpose, not exceeding 500 officers the appropriations previously made for this specific purpose, not exceeding 500 officers of the national guard who hold reserve commissions to duty with the regular army in addition to those attending service schools, and while so assigned they shall receive the pay and allowances authorized in the preceding sentence, to be paid out of the whole fund appropriated for the support of the militia."

See 5. That section 90 of a state of the support of the

Sec. 5. That section 99 of said act be, and is hereby, amended to read as follows:

"Sec. 99. National guard officers and men at service schools and so forth: Under such at service schools and so forth: Under such regulations as the president many prescribe the secretary of war may, upon the recommendation of the governor of any state or territory or the commanding seneral of the national guard of the District of Columbia, authorize a limited number of selected officers or enlisted men of the national guard to attend and pursue a regular course of study at any military service school of the United States, except the United States Military academy, or to be attached to an organization of the same arm, corps or department to academy, or to be attached to an organization of the same arm, corps or department to which such officer or enlisted man shall belong for routine practical instruction at or near an army post during a period of field training or other outdoor exercises; and any such officer shall receive out of any national guard allotment of funds available for the purpose the pay and allowances provided in the pay readjustment act of June 10, 1922, for officers of the national guard when authorized by law to receive federal pay and the for officers of the national guard when authorized by law to receive federal pay and the travel allowances provided in section 12 thereof, and any such enlisted man shall receive therefrom, except as otherwise provided in section 14 of the pay readjustment act of June 10, 1922, the same pay and allowances, including allowances for quarters, subsistence and travel, to which an enlisted man of the regular army of like grade would be entitled for attending such school, college or practical course of instruction under orders from proper military authority, while in actual attendance rollitary authority, while in actual attendance at such school, college or practical course of instruction and for the necessary period of travel from and to his home station."

Sec. 6. That section 110 of said act, as amended by section 48 of the national defense act of June 4, 1920, be, and is hereby, provided to read eas follows:

amended to read as follows:

"Sec. 110. Pay for national guard enlisted men: Each enlisted man belonging to an organization of the national guard, other than enlisted men of the sixth and seventh grades, enlisted men of the sixth and seventh grades, shall receive compensation at the rate of one-thirtieth of the initial monthly pay of his grade in the regular army for each drill ordered for his organization where he is officially present and in which he participates for not less than one and one-half hours, not exceeding eight in any one calendar month and not exceeding sixty drills in one year; Provided, That no enlisted man shall receive any

pay under the provisions of this section for any month in which he shall have attended less than sixty per centum of the drills or other exercises prescribed for his organization: Provided further, That the provise contained in section 92 of this act shall not operate to prevent the payment of enlisted men actually present at any duly ordered drill or other exercise: And provided further, That periods of any actual military duty equivalent to the drills herein prescribed (exert those periods of service for which memequivalent to the drills herein prescribed (except those periods of service for which members of the national guard may become lawfully entitled to the same pay as officers and enlisted men of the corresponding grades in the regular army) may be accepted as service in lieu of such drills when so provided by the secretary of war.

"All accounts comprehend for the purpose

"All amounts appropriated for the purpose of this and the last preceding section shall be disbursed and accounted for by the offices and agents of the finance department of the army, and all disbursements under the foregoing provisions of this section shall be made as soon as practicable after the 31st day of March, the 30th day of June, the 30th day of September and the 31st day of December of each year upon pay rolls prepared and authenticated in the manner to be prescribed by the secretary of war: Provided That stop-pages may be made against the compensation payable to any officer or enlisted man here-under to cover the cost of public property lost or destroyed by and chargeable to such officer or enlisted man.

"Except as otherwise specifically provided herein no money appropriated under the provisions of this or the last preceding section shall be paid to any person not on the active list, nor to any person over 64 years of age, nor to any person who shall fail to qualify as to fitness for miliatry service under regulations as the secretary of war shall prescribe nor to any state, territory or district, or officer or enlisted man in the national guard thereof unless and until such state, territory or district provides by law that staff officers, including officers of the finance, inspection, quartermaster and medical departments, hereafter appointed shall have had previous military experience and shall hold their positions until they shall have reached the age of 64 years, unless retired prior to that time by reason of resignation, disability or for cause to be determined by a court-martial legally convened for that purpose, and that regulations as the secretary of war shall prelegally convened for that purpose, and that vacancies among said officers shall be filled by appointment from the officers of the militia of such state, territory or district." (Approved Sept. 22, 1922.)

RETIREMENT OF EMPLOYES IN CIVIL SERVICE.

The act entitled "An act for the retirement of employes in the classified civil service, and for other purposes," approved May 22, 1920, is hereby amended as follows:

"That any employe 55 years of age or over to whom the act of May 22, 1920, applies, who shall have served for a total period of not less than fifteen years and who, before reaching the retirement age as fixed in section 1 of said act, shall become involunted to converge from the service, unless removed for cause on charges of misconduct or delinquency preferred against him, shall be granted an annuity certificate in the manner provided in section 7 of said act which will entitle said employe, upon reaching retirement age, to an annuity as provided in section 2 thereof equal to the annuity he would have received upon such separation from the service had he been of full retirement age: Provided, That the deductions made under the provisions of section 8 of said act of May 22, 1920, from such employe's salary. pay or compensation prior to separation from the service shall remain in the 'civil service retirement and disability fund' subject to the provisions of section II of said act governing the return of deductions in the case of a

deceased annuitant or employe.

"Sec. 2. That any employe coming within the provisions of section 1 of this act shall have the right to apply for an immediate annuty in lieu of deferred annuity at the age of retirement; and, if otherwise entitled, such immediate annuity shall be granted under the

following conditions:
"If the employe is eligible for retirement upon The employers engine for retirement upon reaching the age of 70 years, his immediate annuity which he would receive were he then 70 years of age by the decimal 0.951945 raised to a power the exponent of which is the number of years his age at such separation from the service is less than seventy years.

For mechanics, city and rural letter carriers and postoffice clerks, who are eligible for retirement at 65 years of age, the immediate annuity is found by deducting 47-900 of the annuity he would receive were he then 65 years of age for each year his age at such separation is less than 65 years.

For multway mostal clerks, who are eligible

For railway postal clerks, who are eligible for retirement at 62 years of age, the immediate annuity is to be found by deducting 47-630 of the annuity he would receive were he then 62 years of age for each year his age at separation is less than 62 years.

For the purpose of computing annuities as provided in this section fractional parts of a year in respect to the age of the applicant shall be disregarded.

Sec. 3. That in case such former employe be re-employed by the government in a position affected by the provisions of the act of May ancetted by the provisions of the act of May 222, 1920, the annuity certificate issued under the provisions of this act shall be canceled and all rights and benefits under this act shall terminate from and after the date of

such re-employment.

shall terminate from and after the date of such re-employment.

Sec. 4. That this act shall include former employes coming within the provisions of the act of May 22, 1920, who have been separated from the service subsequent to Aug. 20, 1920, under the conditions defined in section 1 hereof: Provided. That in the case of an employe who has withdrawn from the "civil service retirement and disability fund" his deductions under the provisions of section 11 of the act of May 22, 1920, such employe shall be required to return the amount so withdrawn with interest compounded at the rate of 4 per centum per annum before he shall be entitled to the benefits of this act.

Sec. 5. That any employe otherwise entitled to the benefits of the act of May 22, 1920, who, prior to the passage of this act, has been continued in the service without the approval of the civil service without the approval of the civil service without the re-employed in section 6 thereof, or who has been enterement, shall be entitled to credit for such subsequent service and to receive salary, pay, or compensation therefor at the regular rates, but shall not be entitled to annuity

pay, or compensation therefor at the regular rates, but shall not be entitled to annuity covering the same time; and this act shall operate as a direction to the commissioner of pensions to remove suspension of annuity in all such cases, and shall be warrant for the proper fiscal officer of the government to make navment or adjustment of select pays pays. make payment or adjustment of salary, pay, or compensation earned by such employe.

Sec. 6. That nothing contained in this act shall modify the provisions of section 5 of the act of May 22, 1920. (Approved Sept. 22, 1922.)

MEMORIAL TO JEANNE D'ARC. Resolved, etc., That the chief of engineers, United States army, be and he is hereby

authorized and directed to grant the Societe des Femmes de France a New York permis-sion to erect on public grounds of the United States in the city of Washington, D. C., United States in the city of Washington, D. C., other than those of the capitol, the library of congress and the white house, a copy of the statue of Jeanne d'Arc by Paul Dubois: Provided, That the site chosen and the design of the pedestal shall be approved by the National Commission of Fine Arts, and that the United States shall be put to no expense in or by the erection of the said memorial. (Approved March 20, 1922.)

Suit against the corporation may be brought in the United States court for China or in the Supreme court of the District of Columbia or in the federal District court for any district in which the companion has an agant trict in which the corporation has an agent and is engaged in doing business.

1921 is amended by adding at the thereof a new section to read as follows: "China Trade Act Corporations.

"Sec, 264. (a) That for the purpose only of the tax imposed by section 230 there shall be allowed, in the case of a corporation organized under the China trade act, 1922, a credit of an amount equal to the proportion of the net income derived from sources within China (determined in a similar manner to that provided in section 217) which the par value of the shares of stock of the corporation owned the shares of stock of the corporation owned on the last day of the taxable year by individual citizens of the United States or China, resident in China, bears to the par value of the whole number of shares of stock of the corporation outstanding on such date: Provided, That in no case shall the amount by which the tax imposed by section 230 is diminished by reason of such credit exceed the amount of the special dividend certified under sublivision (h) of this section. subdivision (b) of this section.

"(b) Such credit shall not be allowed unless the secretary of commerce has certified to the commissioner (1) the amount which, during the year ending on the date of filing the return, the corporation has distributed as a special dividend to or for the benefit of such individuals as on the last day of the taxable year were citizens of the United States or Ohine resident in China and winds there of othina, resident in China, and owned shares of stock of the corporation, (2) that such special dividend was in addition to all other amounts, payable or to be payable to such individuals or for their benefit, by reason of their interest in the corporation, and (3) that such distribution has been made to or for the benefit of tion has been made to or for the benefit of such individuals in proportion to the par value of the shares of stock of the corporation owned by each; except that if the corporation has more than one class of stock the certificate shall contain a statement that the articles of incorporation provide a method for the apportionment of such special dividend among such individuals, and that the amount certified has been distributed in accordance with the method so provided.

"(c) For the purposes of this section shares of stock of a corporation shall be considered to be owned by the person in whom the equitable right to the income from such shares

equitable right to the income from such shares is in good faith vested.

"(d) As used in this section the term "China' shall have the same meaning as when used in the China trade act, 1922."

Sec. 22. Subdivision (b) of section 230 of the revenue act of 1921 is amended to read as

"(b) For each calendar year thereafter, 124 per centum of the amount of the net income in excess of the credits provided in sections 236 and 264."

Sec. 23. Subdivision (f) of section 238 of the revenue act of 1921 is amended by adding after the figures "262" the word and figures "or 264". or 264

Sec. 24. Subdivision (c) of section 240 of the revenue act of 1921 is amended by adding at the end thereof a new sentence to read as follows: "A corporation organized under the China trade act, 1922, shall not be deemed to be affiliated with any other corporation within the meaning of this section." Sec. 25. That section 2 of the revenue act of 1921 is amended by adding at the end thereof a new pagarganh to read as follows:

of 1921 is amended by adding at the end thereof a new paragraph to read as follows:
"(12) A corporation organized under the China trade act, 1922, shall, for the purposes of this act, be considered a domestic corporation."

rict in which the corporation has an agent of sec. 26. Subdivision (b) of section 213 of the revenue act of 1921 is amended by striking out the period at the end of paragraph (12) thereof and inserting in lieu thereof a

semicolon, and by adding after paragraph (12)

a new paragraph to read as follows:
"(13) In the case of an individual, amounts by a corporation organized under the China trade act, 1922, if, at the time of such distribution, he is a citizen of China resident therein and the equitable right to the income of the shares of stock of the corporation is in good faith vested in him."

Sec. 27 Substitution (1) distributed as dividends to or for his benefit

Subdivision (a) of section 216, paragraph (6) of subdivision (a) of section paragraph (6) of subdivision (a) of section 234, and paragraph (3) of subdivision (a) of section 245, of the revenue act of 1921, are amended by inserting in each after the word and figures "section 262" a comma and the words "and other than a corporation organized under the China trade act, 1922."

Reservation of Right to Amend.

Sec. 28. The congress of the United States reserves the right to alter, amend or repeal any provision of this act. (Approved Sept. 19

any provision of this act. (Approved Sept. 19, 1922.)

CITIZENSHIP OF MARRIED WOMEN.

Be it enacted, etc., That the right of any woman to become a naturalized citizen of the United States shall not be denied or abridged because of her sex or because she is a married woman.

Sec. 2. That any woman who marries a citizen of the United States after the passage of this act, or any woman whose husband is naturalized after the passage of this act, shall not become a citizen of the United States by reason of such marriage or naturalization. The state of the sta ization; but, if eligible to citizenship, she may be naturalized upon full and complete compliance with all requirements of the naturalization laws, with the following exceptions:

(a) No declaration of intention shall be re-

quired;
(b) In lieu of the five-year period of residence within the United States and the oneyear period of residence within the state or territory where the naturalization court is held, she shall have resided continuously in the United States, Hawaii, Alaska or Porto Rico for at least one year immediately pre-

seeding the filing of the petition.

Sec. 3. That a woman citizen of the United States shall not cease to be a citizen of the United States by reason of her marriage after the passage of this act, unless she makes a formal denunciation of her citizenship before formal denunciation of her citizenship before a court having jurisdiction over naturalization of aliens: Provided, That any woman citizen who marries an alien ineligible to citizenship shall cease to be a citizen of the United States. If at the termination of the marital status she is a citizen of the United States she shall retain her citizenship regardless of her residence. If during the continuance of the marital status she resides continuously for two years in a foreign state of tinuously for two years in a foreign state of which her husband is a citizen or subject, or for five years continuously outside the United States, she shall thereafter be subject to the same presumption as is a naturalized citizen same presumption as is a naturalized citizen of the United States under the second paragraph of section 2 of the act entitled "An act in reference to the expatriation of citizens and their protection abroad," approved March 2, 1907. Nothing herein shall be construed to repeal or amend the provisions of revised statutes 1999 or of section 2 of the expatriation act of 1907 with reference to expatriation.

Sec. 4. That a woman who, before the passage of this act, has lost her United States citizenship by reason of her marriage to an alien eligible for citizenship, may be naturalized as provided by section 2 of this act: Provided, That no certificate of arrival shall be required to be filed with her petition if dur-

ing the continuance of the marital status she shall have resided within the United States. After her naturalization she shall have the same citizenship status as if her marriage had

taken place after the passage of this act.
Sec. 5. That no woman whose husband is not eligible to citizenship shall be naturalized during the continuance of the marital

status. Sec. 6.

Sec. 6. That section 1994 of the revised statutes and section 4 of the expatriation act of 1907 are repealed. Such repeal shall not terminate citizenship acquired or retained under either of such sections nor restore citizenship lost under section 4 of the expatriation

act of 1907.
Sec. 7. That section 3 of the expatriation act of 1907 is repealed. Such repeal shall not restore citizenship lost under such section nor terminate citizenship resumed under such section. A woman who has resumed under such section citizenship lost by marriage shall, upon the passage of this act, have for all purposes the same citizenship status as immediately preceding her marriage. (Approved Sept. 22, 1922.)

## WORLD WAR FOREIGN DEBT COMMISSION.

Be it enacted, etc., That a world war foreign debt commission is hereby created consisting of five members, one of whom shall be the secretary of the treasury, who shall serve as chairman, and four of whom shall be appointed by the president by and with the ad-

vice and consent of the senate.

That, subject to the approval of the president, the commission created by section 1 is hereby authorized to refund or convert and to extend the time of payment of the principal or the interest, or both, of any obligation of any foreign government now held by the United States of America, or any obligation of any foreign government hereafter received by the United States of America (including obligations held by the United States grain corporation, the war department, the navy department on the American policy administration. partment or the American relief administrapartment or the American relief administra-tion), arising out of the world war, into bonds or other obligations of such foreign govern-ment in substitution for the bonds or other obligations of such government now or here-after held by the United States of America, in such form and of such terms, conditions, date or dates of maturity and rate or rates of in-terest, and with such security, if any, as shall be deemed for the best interests of the United betest, and with such security, if any, as shall be deemed for the best interests of the United States of America: Provided, That nothing contained in this act shall be construed to authorize or empower the commission to extend the time of maturity of any such bonds or other obligations due the United States of America by any foreign government beyond June 15, 1947, or to fix the rate of interest at less than 4% per centum per annum: Pro-vided further, That when the bond or other obligation of any such government has been refunded or converted as herein provided the . authority of the commission over such re-funded or converted bond or other obligation shall cease.

Sec. 3. That this act shall not be construed authorize the exchange of bonds or other obligations of any foreign government for those of any other foreign government, or can-cellation of any part of such indebtedness ex-cept through payment thereof.

Sec. 4. That the authority granted by this act shall cease and determine at the end of three years from the date of the passage of

this act. Sec. 5. That the annual report of this commission shall be included in the annual report of the secretary of the treasury on the state of the finances, but said commission shall immediately transmit to the congress copies of any refunding agreements entered into, with the approval of the president, by each foreign government upon the completion of the author-ity granted under this act. (Approved Feb. 9, 1922.)

[President Harding appointed Secretaries Hughes and Hoover, Senator Reed Smoot and Congressman Theodore E. Burton as members of the commission.]

#### REFUND TO EX-CIVIL SERVICE EMPLOYES.

Be it enacted, etc., That section 11 of the act entitled "An act for the retirement of employes in the classified civil service, and for other purposes," approved May 22, 1920, is hereby amended by adding at the end thereof three new paragraphs to read as follows:

"Each executive department and each independent establishment of the government not within the jurisdiction of any executive department shall establish and maintain such record as will enable it to determine the amount deducted within each fiscal year from the basic salary, pay or compensation of each employe within its jurisdiction to whom this When such employe is transferred act applies. from one office to another a certified abstract of his official record shall be transmitted to the office to which the transfer is made.

'When application is made to the commissioner of pensions for return of deductions and accrued interest, as provided in this secand accrued interest, as positive in this section, such application shall be accompanied by a certificate from the proper officer showing the complete record of deductions by

ing the complete record of deductions by fiscal years and other data necessary to the proper adjustment of the claim.

"The commissioner of pensions, with the approval of the secretary of the interior, shall establish rules and regulations for crediting and reporting deductions and for computing interest hereunder."

interest hereunder.

Sec. 2. That section 13 of such act of May 22, 1920, is amended to read as follows:
"Sec. 13. That it shall be the duty of the head of each executive department and the head of each independent establishment of the government not within the jurisdiction of any executive department to report to the civil service commission, in such manner as said commission may prescribe, the name and grade of each employe to whom this act applies in or under said department or establishment who shall be at any time in a nonpay status, showing the dates such employe was in a nonpay status and the amount of salary, in a nonpay status and the amount of salary, pay or compensation lost by the employe by reason of such absence. The civil service commission shall keep a record of appointments, transfers, changes in grade, separations from the service, reinstatements, loss of pay and such other informations concerning individual service as may be deemed essential to a proper determination of rights under this act, and shall furnish the commissioner of pensions pensions such reports therefrom as he shall from time to time request as necessary to the proper adjustment of any claim for annuity hereunder, and shall prepare and keep all needful tables and records required for carrying out the provisions of this act, including data the most the most like average of the contract of the showing the mortality experience of the employes in the service and the percentage of withdrawal from such service, and any other information that may service, and any other information that may serve as a guide for future valuations and adjustments of the plan for the retirement of employes under this act.

"The commissioner of pensions shall make a detailed comparative report annually show in all precipits and dishusements on account

ing all receipts and disbursements on account of refunds, allowances and annuities, to-gether with the total number of persons re-ceiving annuities and the amounts paid them." (Approved Feb. 14, 1922.)

AGRICULTURAL ASSOCIATIONS AUTHOR-IZED.

Be it enacted, etc., That persons engaged in the production of agricultural products, as farmers, planters, ranchmen, dairymen, nut or fariners, planters, rancimen, carrymen, nut or fruit growers, may act together in associations, corporate or otherwise, with or without capital stock, in collectively processing, preparing for market, handling and marketing in interstate and foreign commerce such products of the control of ucts of persons so engaged. Such associations may have marketing agencies in common; and such associations and their members make the necessary contracts and agreements to effect such purposes: Provided, however, That such associations are operated for the mutual benefit of the members thereof as such producers and conform to one or both of the following requirements:

First. That no member of the association is allowed more than one vote because of the amount of stock or membership capital he

may own therein, or,

Second. That the association does not pay ividends on stock or membership capital in dividends excess of 8 per centum per annum.

And in any case to the following:

Third. That the association shall not deal in the products of nonmembers to an amount greater in value than such as are handled by it for members.

Sec. 2. That if the secretary of agriculture shall have reason to believe that any such association monopolizes or restrains trade in interstate or foreign commerce to such an extent that the price of any agricultural prod-uct is unduly enhanced by reason thereof he shall serve upon such association a complaint shall serve upon such association a complaint stating his charge in that respect, to which complaint shall be attached or contained therein a notice of hearing, specifying a day and place not less than thirty days after the service thereof, requiring the association to show cause why an order should not be made directing it to cease and desist from monopolization or restraint of trade. An association lization or restraint of trade. An association so complained of may at the time and place so fixed show cause why such order should not be entered. The evidence given on such a hearing shall be taken under such rules and regulations as the secretary of agriculture may prescribe, reduced to writing and made a part of the record therein. If upon such hearing of the record therein. If upon such hearing the secretary of agriculture shall be of the opinion that such association monopolizes or restrains trade in interstate or foreign commerce to such an extent that the price of any agricultural product is unduly enhanced thereby he shall issue and cause to the served upon the association an order reciting the facts found by him, directing such association to cease and desist from monopolization or restraint of trade. On the request of such association to the request of ciation or if such association fails or neglects for thirty days to obey such order the secretary of agriculture shall file in the District court, in the judicial district in which such association has its principal place of business, a certified copy of the order and of all the records in the proceeding, together with a petition asking that the order be enforced, and shall give notice to the attorney-general and to said association of such filing. Such District court shall thereupon have jurisdiction to enter a decree affirming, modifying or setting aside said order, or enter such other decree as the court may deem equitable, and may make rules as to pleadings and proceedings to be had in considering such order. The place of trial may for cause or by consent of portion trial may, for cause or by consent of parties, be changed as in other causes.

The facts found by the secretary of agriculture and recited or set forth in said order

shall be prima facie avidence of such facts, but either party may adduce additional evi-dence. The department of justice shall have charge of the enforcement of such order. After the order so filed in such District court, and while pending for review therein the court may issue a temporary writ of injunction for-bidding such association from violating such order or any part thereof. The court may, upon conclusion of its hearing, enforce its decree by a permanent injunction or other propriate remedy. Service of such complaint and of all notices may be made upon such association by service upon any officer or agent thereof engaged in carrying on its business or on any attorney authorized to appear in such proceeding for such association, and such service shall be binding upon such asso-clation, the officers and members thereof. (Approved Feb. 18, 1922.)

#### SEED GRAIN FOR FARMERS.

The secretary of agriculture is authorized, for the crop of 1922, to make advances or loans to farmers, where he shall find that special need for such assistance exists, for the purchase of wheat, oats, barley, and flaxseed for seed purposes, and, when necessary, to procure such seed and sell same to such farmers. Such advances, loans, or sales shall be made upon such terms and conditions and subject to such pregulations as the snail be made upon such terms and condi-tions and subject to such regulations as the secretary of agriculture shall prescribe, in-cluding an agreement by each farmer to use the seed thus obtained by him for the produc-tion of grain or flaxseed. A first lien on the crop to be produced from seed obtained through a loan, advance, or sale made under this section shall, in the discretion of the secretary of agriculture, be deemed sufficient security therefor. The total amount of such advances, loans or loans shall be made through such advances or loans shall be made through such agencies as the secretary of agriculture shall designate. For carrying out the purposes of this section there is harply appropriated. shall designate. For carrying out the purposes of this section there is hereby appropriated, out of any moneys in the treasury not otherwise appropriated, the sum of \$1,500,000, to be immediately available, and not more than \$20,000 may be used in the District of Columbia and elsewhere by the secretary of

Columbia and elsewhere by the secretary of agriculture in the administration of this act. Sec. 2. Any person who shall knowingly make any false representation for the purpose of obtaining an advance, loan or sale under this act shall, upon conviction thereof, be punished by a fine of not exceeding \$1,000, or by imprisonment not exceeding six months, or both. (Approved March 20, 1922.)

## BURIAL PLACES IN EUROPE FOR AMER-ICAN MILITARY DEAD.

(Approved April 1, 1922.)

#### INDIANA HARBOR PROJECT.

The project adopted in the river and harbor act of June 25, 1910, for the improvement and maintenance of Indiana harbor, Indiana, is hereby so modified as to eliminate that part of the projected inner canal extending from the northwest corner of the sou quarter of section 20, township 37 guarter of section 20, township 37 north, range 9 west of the second principal meridian, westwardly to Lake George; and the secretary of war is hereby authorized to quitclaim and convey to local interests, on such terms and conditions as he may deem just and equitable, the rights of way which have been heretofore donated by local interests to the United States for the said section of the canal and for connecting the said Lake George with Wolf lake. (Approved March 20, 1922.)

## EXTENSION OF AUSTRIAN DEBT.

Whereas, the economic structure of Austria is approaching collapse and great numbers of the people of Austria are in consequence in imminent danger of starvation and threatened by diseases growing out of extreme privation

Whereas, this government wishes to co-operate in relieving Austria from the im-mediate burden created by her outstanding debts: Therefore be it

Resolved, by the senate and house of representatives of the United States of America in congress assembled. That the secretary of the treasury is hereby authorized to extend, for a period not to exceed twenty-five years, the treasury is hereby authorized to extend, for a period not to exceed twenty-five years, the time of payment of the principal and interest of the debt incurred by Austria for the purchase of flour from the United States Grain chase of flour from the United States Grain corporation and to release Austrian assets pledged for the payment of such loan, in whole or in part, as may in the judgment of the secretary of the treasury be necessary for the accomplishment of the purposes of this resolution: Provided, however, That substantially all the other creditor nations, to-wit: Czecho-Slovakia, Denmark, France, Great Britain, Greece, Holland, Italy, Norway, Rou-mania, Sweden, Switzerland and Jugo Slavia, shall take action with regard to their respective claims against Austria similar to that herein set forth. The secretary of the treas-ury shall be authorized to decide when this proviso has been substantially complied with. (Approved April 6, 1922.)

# EXTENSION OF IMMIGRATION ACT.

Resolved, etc., That the operation of the act entitled "An act to limit the immigration of aliens into the United States," approved May 19, 1921, is extended to and including June 30, 1994

May 19, 1921, is extended to and including June 30, 1924. Sec. 2. That clause (7) of subdivision (a) of section 2 of such act of May 19, 1921, is amended to read as follows: "(7) aliens who have resided continuously for at least five years immediately preceding the time of their application for admission to the United States in the dominion of Canada, Newfoundland, the republic of Cuba, the republic of Mexico, countries of Central and South America or adjacent islands:"

Sec. 3. That such act of May 19, 1921, is amended by adding at the end thereof a new section to read as follows: "Sec. 6. That it shall be unlawful for any

person, including any transportation company other than railway lines entering the United States from foreign contiguous territory, or the owner master, agent or consignee of any States from foreign configuous territory, or the owner, master, agent or consignee of any vessel, to bring to the United States either from a foreign country or any insular pos-session of the United States any alien not admissible under the terms of this act or regulations made thereunder, and if it appears

to the satisfaction of the secretary of labor that any alien has been so brought such person or transportation company or the master, agent, owner or consignee of any such vessel shall pay to the collector of customs of the customs district in which the port of arrival is located the sum of \$200 for each have the arthrough a sum of \$200 for each alien so brought and in addition a sum equal to that paid by such alien for his transportation from the initial point of departure, indicated in his ticket, to the port of arrival, such latter sum to be delivered by the colsuch latter sum to be delivered by the col-lector of customs to the alien on whose ac-count assessed. No vessel shall be granted clearance papers pending the determination of the liability to the payment of such fine or while the fine remains unpaid; except that clearance may be granted prior to the deter-mination of such question upon the deposit of a sum sufficient to cover such fine. Such fine shall not be remitted or refunded unless it appears to the satisfaction of the secretary of labor that such inadmissibility was not known to and could not have been ascertained by the exercise of reasonable diligence by such person or the owner, master, agent or consignee of the vessel prior to the departure of the vessel from the last seaport in a foreign country or insular possession of the United States." (Approved May 11, 1922.)

# HOSPITALS FOR WAR VETERANS.

Be it enacted, etc., That the director of the United States veterans' bureau, subject to the approval of the president, is hereby authorized to provide additional hospital and outpatient dispensary facilities for persons who served in the world war and are patients of the United States veterans' bureau, by purchase and remodeling or extension of existing plants and by construction on sites now owned by the government or on sites to be acquired by purchase, condemnation, gift or otherwise, such hospitals and out-patient dispensary fa-cilities to include the necessary buildings and cilities to include the necessary buildings and auxiliary structures, mechanical equipment, approach work, roads and trackage facilities leading thereto, vehicles, live stock, furniture, equipment and accessories, and also to provide accommodations for officers, nurses and attending personnel; and also to provide proper and suitable recreational centers; and the director of the United States veterans' bureau is authorized to accept gifts or donations for any of the purposes named herein. Such hospital plants shall be of fireproof construction and the location and nature thereof, whether for the treatment of tuberculosis, neuropsychiatric or general medical and surgical cases, shall be, in the discretion of the director of the United States veterans' bureau, subject to the approval of the president: Provided, however, That the director with the approval of the president may utilize such southly the United States and grounds now awared by the United States. may utilize such suitable buildings, structures and grounds now owned by the United States and the president is hereby authorized by executive order to transfer any such buildings. structures and grounds to the United States veterans' bureau upon the request of the director thereof.

Sec. 2. That the construction of new hospitals or dispensaries or the extension, altera-tion, remodeling or repair of all hospitals or dispensaries heretofore or hereafter constructed shall be done in such manner as the president may determine, and he is authorized to remay determine, and he is authorized to require the architectural, engineering, constructing or other forces of any of the departments of the government to do or assist in such work and to employ individuals and agencies not now connected with the government if in his opinion desirable at such

compensation as he may consider reasonable. Sec. 3. That for carrying into effect the preceding paragraphs relating to additional hospital and out-patient dispensary facilities there is hereby authorized to be appropriated, out of any money in the treasury not otherwise appropriated, the sum of \$17,000,000, to wise appropriated, the sum of \$17,000,000, to be immediately available and to remain available until expended. That not to exceed 3 per centum of this sum shall be available for the employment in the District of Columbia and in the field of necessary technical and clerical assistants at the customary rates of compensation, exclusively to aid in the preparation of the plans and specifications for the projects authorized herein and for the supervision of the execution thereof and for traveling expenses, field-office equipment and supeling expenses, field-office equipment and supplies in connection therewith, Sec. 4. That all hospital fac

Sec. 4. That all hospital facilities under the control and jurisdiction of the United States veterans' bureau shall be available for veterans of the Spanish-American war, the Philippine insurrection and the Boxer rebellion suffering from neuropsychiatric and tubercular ailments and diseases. (Approved April 20,

Be it enacted, That for carrying out the provisions of the act entitled "An act to authorize an appropriation to enable the director of the United States veterans' bureau to provide for the construction of additional hospital facilities and to provide medical, surgical and hospital services and supplies for persons who served in the world war, the Spanish-American war, the Philippine insurrection and the Boxer rebellion and are patients of the United States veterans' bureau," approved April 20, 1922, there is appropriated out of any money in the treasury not otherwise appropriated the sum of \$12,000.000, and in addition to this amount the director of the United States veterans' bureau, subject to the approval of the president, may incur obligations for the purposes herein set forth not to exceed in the aggregate \$5,000,000. 1922.) (Approved May 11,

## STATUE OF EDMUND BURKE.

Resolved, etc., That the chief of engineers, Resolved, etc., That the chief of engineers, United States army, is hereby authorized and directed to select a suitable site and to grant permission to the Sulgrave institution for the erection as a gift to the people of the United States, on public grounds of the United States in the city of Washington, D. C., other than those of the capitol, the library of congress, Potomac park and the white house, of a monument to the memory of Edmund Burke, champlon of American liberty: Provided, That the site chosen and the design of the methe site chosen and the desirn of the me-morial shall be approved by the joint library committee of congress, with the advice of the commission of fine arts, and it shall be erected under the supervision of the chief of engineers, and that the United States shall be put to no expense in or by the erection of said monument. (Approved April 25, 1922.)

## SPECIAL CANCELING STAMPS

The postmaster is hereby authorized, under such rules and regulations as he may prescribe, to grant permission for the use in first and second class postoffices of special canceling stamps or postmarking dies for advertising purposes in the following cases only: First, where the event to be advertised is for some national purpose for which congress has made an appropriation; second, where the event to be advertised is of general public interest and importance and is to endure for a definite period of time and is not to be conducted for private gain or profit: Provided, That such permit shall not be for a longer period than six months and the dura-The postmaster is hereby authorized, under

tion of the event to be advertised: Provided further, That nothing in this act shall be construed to authorize the expenditure of any postal funds or appropriation either for the purchase of special canceling stamps or postmarking dies or for adapting canceling ma-chines for the use of such stamps or dies or for installing the same, but all expense shall be prepaid by the permittee.

prepaid by the permittee.

Sec. 2. Any permission granted under this act is hereby revocable in the event the government shall find it expedient or necessary to use special canceling stamps or postmarking dies for its own purposes. (Approved May 11, 1922.)

Resolved, etc., That the president is hereby authorized to present a tablet in the name of the government of the United States to the the government of the United States to the officers of the national society of the Daughters of the American Revolution as a token of appreciation for making available Continental Memorial hall for the sessions of the conference on limitation of armament, and there is hereby appropriated the sum of \$350 for the expenses of producing a suitable tablet in conformity with this resolution. (Approved April 21, 1922.)

## MONTHLY PAYMENT OF PENSIONS.

The payment of pensions shall be made monthly, on the fourth day of each month, beginning not later than September, 1922: Provided, That the provisions of this act shall

not apply to civil pensions.

Sec. 2. All acts or parts of acts inconsistent with the provisions of this act are hereby repealed. (Approved May 3, 1922.)

## SCRAPPING OF NAVAL VESSELS.

For the purpose of giving effect to the provisions in the treaty limiting naval armament, visions in the treaty limiting naval armament, concluded Feb. 6, 1922, between the United States of America, the British Empire, France, Italy and Japan, the president of the United States is authorized to demolish or otherwise make such disposition in accordance therewith as in his judgment may be proceed. as in his judgment may be proper of the capital ships of the navy, built or building, which are not to be retained by the terms of

the said treaty.

The president of the United States is hereby The president of the United States is hereby authorized to discontinue the construction of and to cancel or modify any contract entered into for and on behalf of the United States for the construction of seven first-class battleships and six battle cruisers authorized in the act entitled "An act making appropriations for the naval service for the fiscal year ending June 30. 1917, and for other purposes," approved Aug. 29, 1916, and for the machinery materials, equipment, armor, armament and proved Aug. 29, 1916, and for the machinery materials, equipment, armor, armament and ordnance equipment therefor: Provided, That whenever any such contract is canceled or modified settlement of claims arising therefrom shall be made by the president upon a fair and equitable basis, as he may determine out of any funds hereafter to be appropriated for that purpose: Provided, That if the terms of such settlement are unsatisfactory to any of such settlement are unsatisfactory to any claimant such claimant shall be paid 75 per centum of the amount awarded by the presi-dent and shall be entitled to sue the United States to recover such further sums as added to the said 75 per centum shall make up such amount as will be just compensation for such claims, in the manner provided by section 24, paragraph 20, and section 145 of the judicial

of the battle cruisers authorized in the act entitled "An act making appropriations for the naval service for the fiscal year ending June 30, 1917, and for other purposes," ap-

proved Aug. 29, 1916, the president of the United States is authorized to undertake the conversion of the Lexington and Saratoga into airplane carriers, within the limits of cost heretolore authorized for said battle cruisers.

The limits of cost of the vessels heretofore authorized and herein below enumerated are increased as follows: Battleships West Virginia and Colorado, from \$15,000,000 to \$17,000.000; scout cruisers, numbered 4 to 10, inclusive, from \$7,500,000 to \$8,250,000. (Approved July 1, 1922.)

## POLLUTION OF NAVIGABLE WATERS.

Whereas, the careless casting of oil refuse into the sea from oil-burning and oil-carrying steamers has become a serious menace to the maritime and the fishing industries of the

Whereas, the fire hazard created by the ac-cumulation of floating oil on the piles of piers and bulkheads into harbor waters is a growing

source of alarm; and,

Whereas, most serious is the destruction of ocean fisheries resulting from the constant discharge into territorial waters of the waste discharge into territorial waters of the waste products of the oil used for fuel on many steamers in place of coal, which threatens to exterminate the food fish, oysters, clams, crabs and lobsters, which are a vital part of our various national food supplies; and, Whereas, the dumping of this oil refuse is not only ruining the bathing beaches situate on the territorial waters of the various countries, which during the summer attract bursters.

tries, which during the summer attract hundreds of thousands of people to the seashore resorts, but the depreciation in value of millions of dollars of seashore property is most alarming; and,

Whereas, this pollution takes place on the high seas as well as within territorial waters:

Now, therefore, be it Resolved, by the senate and house of representatives of the United States of America in congress assembled. That the president is requested to call a conference of maritime na-tions with a view to the adoption of effective means for the prevention of pollution of navigable waters. (Approved July 1, 1922.)

## NEW POSITIONS IN DEPARTMENT OF LABOR.

There shall be in the department of labor an There shall be in the department of labor an additional secretary, who shall be designated as second assistant secretary of labor. He shall be appointed by the president and shall receive a salary of \$5,000 a year. There shall be in the department of labor one private secretary to the second assistant secretary of labor at a salary of \$2.100 a year.

year.

## INDEPENDENCE SESQUICENTENNIAL CELEBRATION.

Whereas, preliminary steps have been taken by the mayor and council and a citizens' committee of Philadelphia to celebrate in that city in 1926 the one hundred and fiftieth anniversary of the signing of the Declaration of Independence by holding an exhibition in which it is expected that the various states of the union, the federal government and all the nations of the world will be represented;

Whereas, the legislature of the common-wealth of Pennsylvania unanimously passed a resolution April 28, 1921, that the com-monwealth should prepare for and participate in such, sesquicentennial celebration by making

monwealth should prepare for and participate in such sesquicentennial celebration by making a suitable exhibit therein on the part of the commonwealth and requested that the federal government should approve the holding of such an exhibition in Philadelphia in 1926 and that appropriate steps should be taken to invite the participation and co-operation of the states of the union and the nations of the world; and Whereas, the governor of the commonwealth of Pennsylvania, in the name and by the authority of that commonwealth, has issued letters patent incorporating The Sesquicentennial Exhibition association, May 9, 1921, for the purpose of educating the public by exhibiting artistic, mechanical, agricultural, and horticultural products and providing public instruction in the arts and sciences, thereby celebrating the one hundred and fiftieth anniversary of the signing of the Declaration of Independence by holding in the city of Philadelphia, in the state of Pennsylvania, an exhibition of the progress of the United States in art, science and industry, in trade and commerce and in the development of the products of the air, the soil, the mine, the forest and the seas, to which exhibition the and commerce and in the development of the products of the air, the soil, the mine, the forest and the seas, to which exhibition the people of all other nations shall be invited to contribute evidences of their own progress to the end that better international understanding and more data to the commercial relativistics of the commercial relativistics of the commercial relativistics of the commercial relativistics.

standing and more intimate commercial relationships may hasten the coming of universal peace: Therefore, be it
Resolved, by the senate and house of representatives of the United States of America in congress assembled, That the holding of a national and international exhibition in the city of Philadelphia in 1928 upon the Reimwouth work and resolvers to the conditional conditions of the Fairmount park and parkway site selected by The Sesquicentennial Exhibition associa-tion and lands contiguous thereto which may be acquired for that purpose be approved as an appropriate celebration of the one hun-dred and fiftieth anniversary of the signing of the Declaration of Independence, and that such steps be taken as the president may deem proper to invite the participation and co-operation of the states of the union and

nations of the world.

Sec. 2. That a copy of this resolution be forwarded to all the states of the union requesting co-operation upon their part. (Approved Aug. 29, 1922.)

## DISCIPLINE OF RURAL CARRIERS.

The postmaster-general is authorized in his discretion, whenever for disciplinary purposes he deems it advisable to do so, to reduce temporarily the pay of rural carriers: Provided. That in no case shall such a reduction in pay be of more than one grade as fixed by the act of June 5, 1920, nor extend over a greater period of time than one year. (Ap-proved Sept. 21, 1922.)

## WHITE HOUSE POLICE FORCE.

There is established for the protection of the executive mansion and grounds in the the executive mansion and grounds in the District of Columbia a permanent police force to be known as the white house police. Such force shall be under the sole control of the president and under the direct supervision of such officer as he may designate. The members of such force shall possess privileges and powers and perform duties similar to those of the members of the metropolitan police of the District of Columbia, and such additional privileges, powers and duties as the president may prescribe. The white house police force shall consist of one first sergeant with grade

corresponding to that of detective-sergeant (metropolitan police), two sergeants with grade corresponding to that of sergeant (metropolitan police), and thirty privates with strade corresponding to that of private, class three (metropolitan police), appointed under the direction of the president from the members of the metropolitan police force and the United States park police force from lists furnished by the officers in charge of such forces. Vacancies shall be filled in the same manner. (Approved Sept. 14, 1922.) corresponding to that of detective-sergeant

## ORGANIC ACT OF HAWAII AMENDED.

Sections 34 and 40 of the organic act of Sections 34 and 40 of the organic act of the territory of Hawaii, being an act entitled "An act to provide a government for the territory of Hawaii," approved April 30, 1900, be amended by deleting therefrom the word "male," so that said sections when amended bell mad as follows:

"Sec. 34. That in order to be eligible to election as a senator a person shall—
"Be a citizen of the United States;
"Have attained the age of 30 years; "Have resided in the Hawaiian islands not

"Have resided in the Hawaiian islands not less than three years and be qualified to vote for senators in the district from which he or she is elected."
"Sec. 40. That in order to be eligible to be a member of the house of representatives the person shall, at the time of election—"Have attained the age of 25 years; "Be a citizen of the United States; "Have resided in the Hawaiian islands not less than three years and shall be qualified to vote for representatives in the district from which he or she is elected." (Approved Sept. 15. 1922.)

(Approved Dec. 22, 1921.)

## Medical Supplies for Russians.

Be it enacted, etc., That the president be and he is hereby authorized to transier, without charge therefor, out of the surplus supplies of the war and other departments of the government, to American relief organizations to be selected by him, medicines, medical, surgical and hospital supplies for the relief of the discounting the selected by him and nospital supplies for the relief of the dis-tressed and famine-stricken people of Russia, in an amount not to exceed \$4,000,000 orig-inal cost to the United States and as may be delivered to and accepted by such relief organ-izations, without cost for transportation to the United States, within four months of the date of the passage of this act.
Jan. 20, 1922.)

#### INTERCHANGEABLE MILEAGE TICKETS.

Section 22 of the interstate commerce act is amended by adding two new paragraphs to read as follows:

"(2) The commission is directed to require, after notice and hearing, each carrier by rall subject to this act to issue at such offices as may be prescribed by the commis-sion interchangeable mileage or scrip coupon tickets at just and reasonable rates, good tickets at just and reasonable rates, good for passenger carriage upon the passenger trains of all carriers by rail subject to this act. The commission may in its discretion exempt from the provisions of this amendatory act either in whole or in part any carrier where the particular circumstances shown to the commission shall justify such exemption to be made. Such tickets may be required to be issued in such denominations as the commission may prescribe. Before making any order requiring the issuance of any ing any order requiring the issuance of any such tickets the commission shall make and publish such reasonable rules and regulations for their issuance and use as in its judgment the public interest demands; and especially it shall prescribe whether such tickets are transferable or nontransferable and if the latter what identification may be required; and

nerable or nontransferable, and if the latter what identification may be required; and especially, also, to what baggage privileges the lawful holders of such tickets are entitled.

"(3) Any carrier which, through the act of any agent or employe, willfully refuses to issue or accept any such ticket demanded or presented under the lawful requirements of

this act, or willfully refuses to conform to the rules and regulations lawfully made and published by the commission hereunder, or any person who shall willfully offer for sale or carriage any such ticket contrary to the said rules and regulations shall be deemed guilty of a misdemeanor and upon conviction shall be fined not to exceed \$1.000." (Approved Aug. 18, 1922.)

#### EXPORTATION OF ARMS RESTRICTED.

Resolved, etc., That whenever the president finds that in any American country, or in any country in which the United States exercises country in which the chirac conditions of domestic violence exist, which are or may be promoted by the use of arms or munitions of Citats and promoted by the use of arms or munitions of war procured from the United States, and makes proclamation thereof it shall be unlawful to export, except under such limitations and exceptions as the president prescribes, any arms or munitions of war from any place in the United States to such countries the such countries of the president of the countries of the co try until otherwise ordered by the president or by congress.

Sec. 2. Whoever exports any arms or munitions of war in violation of section 1 shall, on conviction, be punished by fine not exceeding \$10,000 or by imprisonment not exceeding two years, or both.

two years, or both. Sec. 3. The joint resolution entitled "Joint

resolution to prohibit the export of coal or other material used in war from any seaport of the United States." approved April 22, 1898, and the joint resolution entitled "Joint resolution to amend the joint resolution to prohibit the export of coal or other material used in war from any seaport of the United States," approved March 14, 1912, are repealed. (Approved Jan. 31, 1922.)

PALM CANYON NATIONAL MONUMENT.

PALM CANYON NATIONAL MONUMENT. The secretary of the interior is authorized to set aside 1,600 acres of land in Riverside county, California, as a national monument which shall be under the exclusive control of the secretary of the interior, who shall administer and protect the same under the provisions of the act of congress approved June 8, 1906, entitled "An act for the preservation of American antiquities." Before such reservation and dedication shall Before such reservation and dedication shall become effective the consent of the Agua Caliente band of Indians shall be obtained and payment for the land to the Indians on a per capita basis be made. 26, 1922.) (Approved Aug.

per capita users of the comprises 26, 1922.)
[The land set aside by the act comprises three canyons about sixty miles southeast of Riverside, Cal. They contain what is said to be the only group of wild Washington palms in existence. They are to be protected from destruction, as they are of botanical interest.]

## POPULAR NAMES OF RECENT LAWS.

Jones act—Also known as merchant-marine act of 1920; approved June 5, 1920; created United States shipping board and extended American coastwise laws to island posses-sions of the United States. (See page 172. The Daily News Almanac and Year-Book for 1921.)

Adamson act—Approved Sept. 3 and 5, 1916; established an eight-hour day for employes of carriers engaged in interstate and for-eign commerce. (See page 239, The Daily News Almanac and Year-Book for 1917.)

News Admands and real-book for 1917.9
Borah amendment—Amendment to naval appropriation act approved July 12, 1921; authorized the president to propose a conference on reduction of naval armament. (See page 686, The Daily News Almanac and Year-Book for 1922.)

and lear-Book for 1922.)

Capper-Tincher acts—Also known as "the future trading act" and also as "the grain futures act." approved Aug. 24, 1921, and Sept. 21, 1922; established regulations for boards of trade. (See page 392, The Daily News Almanac and Year-Book for 1922. "The grain futures act" is given in this issue) issue.)

illingham act—Approved May 19, 1921; limited immigration of aliens. (See page 380, The Daily News Almanac and Year-Book for 1922.) Dillingham

Fordney act—Approved May 27, 1921; imposed temporary duties upon certain agricultural products to meet emergencies, (See page 382. The Daily News Almanac and Year-Book for 1922.) The tariff act of 1922 is also known as the Fordney-Mc-Cumber law.

Cumper 1aw. Volstead act—Passed over president's veto Oct. 27 and 28, 1919: provided for enforcement of national prohibition amendment. (See page 756, The Daily News Almanac and Year-Book for 1920.)

McCormick act—Approved June 10, 1921: provided for a national hydrot average 27 provided for a national hydrotal hydro

vided for a national budget system and an independent audit of government accounts. (See page 375, The Daily News Almanac and Year-Book for 1922.) independent

Sweet act-Approved Aug. 9, 1921; established a veterans' bureau and amended the war-risk insurance act. (See page 395, The Daily News Almanac and Year-Book for 1922.) Sherman law—Approved July 2, 1890; pro-

vided for punishment of persons forming trusts or combinations in restraint of trade. (See current issue of The Daily News Almanac and Year-Book.)

nac and Year-BOOK.)
Esch-Cummins act (also known as "Transportation act of 1920")—Approved Feb. 28, 1920; provided for the termination of federal control of railroads and systems of transportation. (See page 111, The Daily

News Almanac and Year-Book for 1921.)
Sheppard-Towner act — Approved Nov. 23, 1921: designed to promote the welfare and hygiene of maternity and infancy. (See current issue of The Daily News Almanac and Year-Book.)

## WHEAT HARVEST CALENDAR.

January-Australia, New Zealand, Chile, Ar- | gentine Republic.

February and March-Upper Egypt, India. April—Lower Egypt, India, Syria, Cyprus, Persia, Asia Minor, Mexico, Cuba.

May—Texas, Japan, Morocco. -Texas, Algeria, Central Asia, China,

Japan, Morocco. June—California, Oregon, Mississippi, Ala-bama, Georgia, North Carolina, South Caro-lina, Tennessee, Virginia, Kentucky, Kansas, Arkansas, Utah, Colorado, Missouri, Turkey, Greece, Italy, Snain, Portugal, south of France. July—New England, New York, Pennsyl-

vania, Ohio, Indiana, Michigan, Illinois, Iowa, Wisconsin, southern Minnesota, Nebraska, up-per Canada, Roumania, Bulgaria, Austria per Canada, Roumania, Bulgaria, Austria, Hungary, south of Russia, Germany, Switzer-land, south of England.

August—Central and northern Minnesota, Dakotas, Manitoba, lower Canada, British Co-lumbia, Belgium, Holland, Great Britain, Denlumbia, Belgium, Holland, Gremark, Poland, central Russia.

September and October—Scotland, Sweden, Norway, north of Russia.

November—Peru, South Africa. December—Burma, New South Wales.

#### PROPOSED BONUS FOR WORLD-WAR VETERANS.

Though a bill "to provide adjusted com-pensation for veterans of the world war" passed both houses at the second session of the 57th congress it failed to become a law. President Harding vetoed the measure, and President Harding vetoed the measure, and though the house passed it over his objections the senate failed to do so. The bill was originally passed by the house on March 23, 1922, by a vote of 333 to 70, and by the senate on Aug. 31, the vote standing 47 for and 22 against. Many changes were made in conference, but in substance it was the same as when it first was sent to the senate from the house. As the bill was framed it provided that a cash bonus should be given only to those veterans entitled to less than \$50 under the scale of adjusted service compensation providing for \$1 per day of home service tion providing for \$1 per day of home service and \$1.25 per day of overseas service, after and \$1.25 per day of overseas service, after deducting the \$60 which was paid to ex-service men when they were being demobilized. Veterans who would be entitled to a greater sum had the option of four kinds of compensation. adjusted service certificate, vocational —an adjusted service certificate, vocational training aid, farm or home aid and land settlement aid. The chief feature of the bill was the adjusted service certificate, which was the equivalent of a twenty-year endowment insurance policy. As a substitute for the cash boaus it provided that veterans might borrow from banks immediately up to 50 per cent of the original face value of the adjusted service certificates. Interest on these loans was limited to the federal reserve hank rediscount rate to the federal reserve bank rediscount rate plus 2 per cent.

The senate finance committee estimated that the cost of the soldiers' bonus would be \$3,845,659,481, spread over a period of about twenty years. Those who were opposed to the measure believed that the cost would be considerably greater. The bill as finally passed did not provide for any means of meeting the expenses involved, though it was frequently suggested that the interest on the foreign debts suggested that the interest on the loreign debts to the United States might be so used. President Harding and the secretary of the treasury, Andrew W. Mellon, were opposed to the measure from the beginning because of the absence of any plan for raising the required revenue. In a letter to Chairman Fordney of the house ways and means committee on Each 16 Mr. Harding words:

Feb. 16 Mr. Harding wrote:

## SALES TAX SUGGESTED.

"In accordance with the promise made to yourself and your assistants on the senate and house committees charged with the responsibility of formulating proposed bonus legislation, I have carefully looked into the program of taxation which has been suggested.

"In addition thereto I have made inquiry into the feasibility of issuing either short-time treasury notes or long-time bonds to meet the financial obligations which the proposed legis.

financial obligations which the proposed legis-lation will impose. It is not possible to com-

mend to you either of the plans suggested.
"It continues to be my best judgment that
any compensation legislation enacted at this time ought to carry with it the provisions for raising the needed revenues, and I find myself unable to suggest any commendable plan other than that of a general sales tax. Such a tax will distribute the cost of rewarding the be ex-service men in such a manner that it will be borne by all the people whom they served, and does not commit the government to class imposition of taxes or the resumption of the burdens recently repealed, the maintenance of which can be justified only by a great was which can be justified only by a great war emergency.

"It is fully realized how great is the diffi-culty which confronts the congress in solving this difficult problem. I am aware of the strong sentiment in congress in favor of this ad-

justed compensation. I have spoken approvingly myself, always with the reservation that the bestowal shall be made when it may be done without such injury to the country as will nullify the benefits to the ex-service men themselves, which the expression of gratitude is designed to bestow.

"It is not an agreeable thing to suggest that action be postponed again, but frankly, I do not find myself favorable to the piecemeal payment plan, which is manifestly designed to avoid embarrassment to the treasury. The long drawn out payments will not afford an effective helpfulness to the service men. "We have no serious problem in beginning the allotments of public lands and the immediate issue of paid-up insurance. The real difficulty lies in the payment of the cash bonus. Rather than provide that the maximum cash payments shall extend over a period of two and one-half years it would be a vastly better bestowal if we could await the day when we may safely undertake to pay at once in full, so that the award may be turned to real advantage."

VETO MESSAGE.

President Harding stated his objections to the bonus bill more in detail in the following message, which he sent to the house of representatives on Sept. 19:

Herewith is returned, without approval, H. R. 10874, a bill "to provide adjusted compensation for the veterans of the world war, and for other purposes."

With the ayowed purpose of the bill to give

expression of a nation's gratitude to those who served in its defense in the world war I am in accord, but to its provisions I do not subscribe. The United States never cease to be grateful; it cannot and never will cease giving expression to that gratitude. In legislating for what is called adjusted compensation congress fails, first of all, to

provide the revenue from which the bestowal is to be paid. Moreover, it establishes the very dangerous precedent of creating a treasury covenant to pay which puts a burden variously estimated between four and five billions upon the American people, not to discharge an obligation which the government always must pay but to bestow a bonus which the soldiers themselves while serving in the

the soldiers themselves while serving in the world war did not expect.

It is not to be denied that the nation has certain very binding obligations to those of its defenders who made real sacrifices in the world war, and who left the armies injured, disabled or diseased so that they could not resume their places in the normal activities of life, These obligations are being gladly and generously met. Perhaps there are here and there inefficiencies and injustices and some distressing instances of neglect, but they are distressing instances of neglect, but they are distressing instances of neglect, but they are all unintentional and every energy is being directed to their earliest possible correction. In meeting this obligation there is no complaint about the heavy cost. In the current fiscal year we are expending \$510,000,000 on hospitalization and care of sick and wounded, on compensation and vocational training for the disabled and for insurance. The figures do not include the more than \$35,000,000 in the disabled and for insurance. The figures do not include the more than \$35,000,000 in process of expenditure on hospital construction. The estimates for the year to follow are approximately \$47,000,000, and the figures may need to be made larger. Though the peak in hospitalization may have passed there is a growth in domicilization and the discharge in full of our obligations to the discharge in full of our obligations to the discharge in the figure of the government's care, with insurance liability added, will probably reach a total sum in excess of \$25,000,000,000.

More than 99,000 veterans are now enrolled

in some of the 445 different courses in vo-cational training. Fifty-four thousand of them are in schools or colleges, more than 38,000 are in industrial establishments, and a few more than 6,000 are being trained in schools oversted by the veterans' burgan

schools operated by the veterans' bureau.

Approximately 19,000 have completed their Approximately 19,000 have completed their courses and have employment in all cases where they desire it, and 53,000 have deferred for the present time their acceptance of training. The number eligible under the law may reach close to 400,000, and facilities will continue to be afforded unministical of the continue to be afforded, unmindful of the necessary cost, until every obligation is ful-

Two hundred and seventy-six thousand patients have been hospitalized, more than a quarter of a million discharged, and 25,678 patients are in our hospitals to-day.

Four hundred and sixteen thousand awards of compensation have been made on account of death or disability, and \$480,000,000 have been paid to disabled men or their dependent relatives. One hundred and seventy-five thousand disabled exercise men are now received. sand disabled ex-service men are now receiving compensation along with medical or hospital care where needed, and a quarter of a million checks go out monthly in distributing the \$8.00.000 payment on indisputable ob-

ligations. I recite the figures to remind the congress how generously and how properly it has opened the treasury doors to discharge the obligations of the nation to those to whom it indimntably averagements. indisputably owes compensation and care. Though undying gratitude is the meed of every one who served, it is not to be said that a material bestowal is an obligation to those who emerged from the great conflict not only unharmed but physically, mentally and spiritually richer for the great experience. He anobligation were to be admitted it would be to charge the adjusted compensation bill with inadequacy and stinginess wholly unbecoming our republic. Such a bestowal, to be worth while, must be generous and without apology. Clearly the bill returned herewith takes cognizance of the inability of the government wisely to bestow, and says, in substance. "We indisputably owes compensation and care. nizance of the inability of the government wisely to bestow, and says, in substance, "We do not have the cash: we do not believe in a tax levy to meet the situation, but here is our note; you may have our credit for half its worth." This is not compensation but rather a pledge by the congress, while the executive branch of the government is left to provide for payments falling due in everincreasing amounts.

When the bill was under consideration in the house I expressed the conviction that any grant of bonus ought to provide the means of

grant of bonus ought to provide the means of paying it, and I was unable to suggest any plan other than that of a general sales tax. Such a plan was unacceptable to the congress, and the bill has been enacted without even a suggested means of meeting the cost. Indeed, the cost is not definitely known, either for the immediate future of interpretation. the immediate future or in the ultimate lement. The treasury estimates, based on what seems the most likely exercise of the options, figures the direct cost at approximately \$145.00.000 for 1923, \$225.000.000 for 1924, \$114.000.000 for 1925, \$312.000.000 for 1925, making a total of \$795.000.000 for the first four years of its operation and a total cost in excess of \$4.000.000.000. No estimate of the large indirect cost ever has been made. The certificate plan sets up no reserve against the ultimate liability. The plan avoids any considerable direct outlay by the government during the earlier years of the bill's proposed operations, but the loans on the certificates would be floated on the credit of the nation. This is borrowing on the nation's credit just as truly as though the loans were made by direct government borwhat seems the most likely exercise of the op-

rowing, and involves a dangerous abuse of public credit. Moreover, the certificate plan of payment is little less than certified in-ability of the government to pay, and invites a practice in sacrificial barter which I cannot sanction.

It is worth remembering that the public credit is founded on the popular belief in the credit is founded on the popular belief in the defensibility of public expenditure as well as the government's ability to pay. Loans come from every rank in life, and our heavy tax burdens reach, directly or indirectly, every element in our citizenship. To add one-sixth of the total sum of our public debt for a distribution among less than 5,000,000 out of 110,000,000, whether inspired by grateful sentiment or political expediency, would unsertiment or political expediency, would undermine the confidence on which our credit is builded and establish the precedent of distributing public funds whenever the proposal and the numbers affected make it seem politically appealing to do so. ically appealing to do so.

Congress clearly appraised the danger of borrowing directly to finance a bestowal which is without obligation, and manifestly recognized the financial problems with which recognized the inflancial problems with which the nation is confronted. Our maturing promises to pay within the current fiscal year amount to approximately \$4.000,000,000, most of which will have to be refunded. Within the next six years more than \$10.000.000 of debt will mature and will have to be financed. These outstanding and maturing conditional and within the property of the state of th obligations are difficult enough to meet with-out the complication of added borrowings, every one of which threatens higher interest and delays the adjustment to stable govern-ment financing and the diminution of federal

taxes to the defensible cost of government. It is sometimes thoughtlessly urged that it is a simple thing for the rich republic to add four billions to its indebtedness. This imis a simple thing for the rich republic to add four billions to its indebtedness. This impression comes from the readiness of the public response to the government's appeal for funds amid the stress of war. It is to be remembered that in the war everybody was ready to give his all. Let us not recall the comparatively few exceptions. Oitizens of every degree of competence loaned and sacrificed, precisely in the same spirit that our armed forces went out for service. The war spirit impelled. To a war necessity there was but one answer, but a peace bestowal on the ex-service men, as though the supreme offering could be paid for with cash, is a perversion of public funds, a reversal of the policy which exalted patriotic service in the past, and suggests that future defense is to be inspired by compensation rather than consciousness of duty to flag and country.

The pressing problem of the government is that of diminishing our burdens rather than adding thereto. It is the problem of the world. War inflations and war expenditures have unbalanced budgets and added to indebtedness until the whole world is stages.

world. War inflations and war expenditures have unbalanced budgets and added to indebtedness until the whole world is staggering under the load. We have been driving in every direction to curtail our expenditures and establish economies without impairing the essentials of governmental activities. It has been a difficult and unpopular task. It is vastly more applauded to expend than to deny. After nearly a year and a quarter of insistence and persuasion, with a concerted drive to reduce government expenditure in every quarter possible, it would wipe out everything thus far accomplished to add now this proposed burden, and it would rend the commitment to economy and saving so essential mitment to economy and saving so essential

miltent to economy and saving so essential to our future welfare.

The financial problems of the government are too little heeded until we are face to face with a great emergency. The diminishing income of the government, due to the receding tides of business and attending incomes, has been overlooked momentarily, but cannot be

The latest budget figures for long ignored. the current fiscal year show an estimated deficit of more than \$650,000,000 and a further deficit for the year succeeding, even after counting upon all interest collections on foreign indebtedness which the government is likely to receive. To add to our pledges to pay, except as necessity compels, must seem no less than governmental folly. Inevitably it means increased taxation, which congress was unwilling to levy for the purposes of this bill, and will turn us from the course toward economy so essential to promote the activities which contribute to common wel-

fare. It is to be remembered that the United States played no self-seeking part in the world war, and pursued an unselfish policy after the cause was won. We demanded no world war, and pursued an unselfish policy after the cause was won. We demanded no reparations for the cost involved, no payments out of which obligations to our soldiers could be met. I have not magnified the willing outlay in behalf of those to whom we have a sacred obligation. It is essential to remember that a more than \$4.000.000.000 pledge to the able-bodied ex-service men now will not diminish the later, obligation which will have to be met when the younger veterans of to-day shall contribute to the rolls of the area. Indigent and dependent. It is of the aged, indigent and dependent. It is as inevitable as that the years will pass that pension provision for world-war veterans will pension provision for world-war veterans will be made, as it has been made for those who served in previous wars. It will cost more billions than I venture to suggest. There will be justification when the need is apparent, and a rational financial policy to-day is necessary to make the nation ready for the expenditure which is certain to be required in the coming years. The contemplation of such a policy is in accord with the established practice of the nation, and puts the service men of the world war on the same plane as the millions of men who fought the previous battles of the republic. battles of the republic.

I confess a regret that I must sound a note of disappointment to the many ex-service men seventeen democrats voted who have the impression that it is as simple a matter for the government to bestow bil- crats voted to sustain it.

lions in peace as it was to expend billions in war. I regret to stand between them and the pitiably small compensation proposed. I dislike to be out of accord with the majority of congress which has voted the bestowal. The simple truth is that this bill proposes a government obligation of more than four billions without a provision of funds for the extraordinary expenditure, which the executive branch of the government must finance in the face of difficult financial problems and the complete defeat of our complems finance in the face of difficult financial problems and the complete defeat of our commitment to effect economies. I would rather
appeal, therefore, to the candid reflections of
congress and the country, and to the ex-service
men in particular, as to the course better
suited to further the welfare of our country.
These ex-soldiers who served so gallantly in
war and who are to be so conspicuous in
the progress of the republic in the half century before us must know that nations can
only survive where taxation is restrained
from the limits of oppression, where the public treasury is locked against class legislation, but ever open to public necessity and
prepared to meet all essential obligations.
Such a policy makes a better country for
which to fight, or to have fought, and affords a surer abiding place in which to live
and attain. WARREN G. HARDING.

The White House, Sept. 19, 1922.

The White House, Sept. 19, 1922.

Passes House: Fails in Senate. The bill was brought up in the house on Sept. 20 and without debate was passed, the objections of the president notwithstanding, by a vote of yeas 258, nays 54, not voting 119. On party lines the division was: To sustain the veto, republicans 35 and democrats 19: to override the year prophilars 188 demo. to override the veto, republicans 188, demo-crats 69 and socialist 1.

The senate on the same day voted 44 to 28

in favor of passing the bill over the veto, but the affirmative vote fell four short of the re-quired two-thirds and so the bill failed to be-come a law. Twenty-seven republicans and seventeen democrats voted to override the veto, while twenty-one republicans and seven demo-

independent republics and autonomous states and districts, federated by mutual choice, each state retaining the right to secede if it desires. In actual practice, however, Moscow is suppreme. The first group around central Russia includes the independent republics Azerbaidjan, Ukrainia, Georgia, Armenia, White Russia, Chiva and Buchara. Chiva and Buchara, being almost entirely agricultural, enjoy a special degree of independence. They are called "special agreement federated states."

The agreements with the remaining states, while differing in minor details, are all simple. They consist, as a rule, of six or seven clauses, providing for a unification of the military, financial and economic systems of the two countries. The unification of military systems does not prevent these republics

tary systems does not prevent these republics from having their own armies, but the su-

from having their own armies, but the su-preme command is consolidated.

In foreign affairs the states are nominally independent, but in practice they accept the direction of Russia. They maintain their own representatives in the foreign office in Moscow. They all follow the Russian monetary system and taxation imposed by Moscow is obliga-tory for the whole federation, each republic, however, having power to impose further tax-ation within its borders for local purposes. The Far Eastern Republic, which extends from near the east of Lake Baikal to the Pacific, stands by itself. It was created as a

In theory Russia consists of a group of buffer state between Russia and Japan, with independent republics and autonomous states and districts, federated by mutual choice, each state retaining the right to secede if it desires. In actual practice, however, Moscow is stitutional assembly, and not by soviets. It supreme, The first group around central Russiant of communist, and encourages foreign entering the control of the c terprise to a much greater degree than does Russia. It has not adopted and does not use

Russia. It has not adopted and does not use soviet currency. It sends its own missions, when necessary, to foreign powers. At the same time it works in closest co-operation with Moscow and largely under its direction. The second group of states is the autonomous republics Bashkiria, Turkestan, Tartar, Kirshiz, Crimea, Gorskaya, Jatusky and Dagestan. In foreign affairs these are under the direction of Moscow. For military affairs they are under the nearest military agraphical

direction of Moscow. For military affairs they are under the nearest military provincial commissar. Their foreign trade is entirely in the hands of the central government.

The third group—the autonomous states and provinces—consists of localities inhabited by non-Russian tribes and nationalities, including Utsk, Mariinsk, Choovashi, Kalmuk, Buriat-Mongol, Kabardino, Karachay, the Germans of the Volga, Zirian and Karelia. The policy here has been to give the tribes and non-present the supersum of the control of the tribus and nonhere has been to give the tribes and non-Russian nationalities the utmost freedom in the observance of their customs and the use of their own languages. No attempt is made to force Russian speech on them or to make Russian obligatory in courts or schools.

## Conference on Limitation of Armament.

The conference in Washington, D. C., on the question of limitation of armament, called by President Harding, began its labors Nov. 12, 1921, and concluded them on Feb. 6, 1922. Agreement was reached on some of the more important subjects mentioned in the tentative agenda submitted to the invited powers, including limitation of naval armament and rules for the control of nava armament and rules for the control of naval armament. cluding limitation of naval armament and rules for the control of new agencies of warfare. No action was taken as to the reduction of land armaments. An understanding was also reached on various Pacific and far eastern questions, particularly with reference to the mandated islands and China. All these agreements or treaties are given in full, beginning on page 372, and in connection with them will be found the names of the delegates who took be found the names of the delegates who took part in framing and signing them.

#### REPORT OF AMERICAN DELEGATION.

The story of the conference is told lucidly in a report submitted by the American delegation to President Harding on Feb. 9, 1922. It was signed by Charles E. Hughes, Henry Cabot Lodge, Oscar W. Underwood and Elihu Root.

This report, in part, is as follows:

"On July 8, 1921, by direction of the president, the department of state addressed an informal inquiry to the group of powers known as the principal allied and associated powers—that is, Great Britain, France, Italy and Japan—to ascertain whether it would be agreeable to them to take part in a conference on the subject of limitation of armament, to be held in Washington at a time to be mutually agreed upon. In making this inquiry it was stated to be manifest that the question of imitation of armament had a close relation limitation of armament had a close relation to Pacific and far eastern problems, and the president suggested that the powers especially interested in these problems should undertake, in connection with the conference, the consideration of all matters bearing upon their solueration of all matters bearing upon their solution, with a view to reaching a common understanding with respect to principles and policies in the far east. The suggestion having been favorably received, formal invitations were issued to the powers above mentioned to participate in a conference on limitation of armament to be held in Washington on Nov. 11 1091 and an invitation was also extended. armament to be need in Washington on Nov. 11, 1921, and an invitation was also extended to Belgium, China, the Netherlands and Por-tugal to participate in the discussion of Pacific and far eastern questions in connection with the conference.

"These invitations were formally accepted and the first session of the conference was held in Continental hall in the city of Washington on the twelfth day of November, 1921, the time of the first session being postponed in order to permit the delegates to attend the ceremonies upon the burial of the unknown soldier at Arlington cemetery on Nov. 11."

After naming the members of the various delegations and their technical staffs and quoting President Harding's opening address the

report continues:

"Following the address of the president the conference, on motion of Mr. Balfour, elected the secretary of state of the United States as chairman of the conference and of each committee of which he should be a member. The Hon. John W. Garrett of Baltimore, Md., was elected secretary-general. A committee on program and procedure was appointed conprogram and procedure was appointed, consisting of the heads of the delegations or such representatives as each power might select for the purpose.

"As the conference was to concern itself with two groups of questions which, though related, required separate investigation and discussion

-that, is. (1) the question of limitation of armament and (2) Pacific and lar eastern questions—it became necessary to provide a course of procedure which would facilitate the work of the conference in both fields. In the public discussions which preceded the conference there were apparently two competing views: That the consideration of armament should await the result of the discussion of the far eastern questions and another that the latter discussion should be postponed until an agreement for the limitation of armament had been reached. It was not thought necessary to adopt either of these extreme views. It was proposed that the conference should proceed at once to consider the question of the limitation of armament, but this was not deemed to require the postponement of the examination of far accommendation of the conference of deemed to require the postponement of the examination of far eastern questions. In order to serve both purposes two committees were set up. (1) consisting of the plenipotentiary delegates of the five powers—the United States of America, the British empire, France, Italy and Japan—to deal with questions of armament, and (2) consisting of the delegates of the nine powers—that is, the United States of America, Belgium, the British empire, China, France, Italy, Japan, the Netherlands and Portugal—to deal with Pacific and far eastern questions. questions.

"The work of the two committees proceeded along parallel lines without interference with along parallel lines without interference with each other and the conclusions reached in each were reported, from time to time, to the con-ference in plenary session for its adoption. Each committee provided itself with the neces-sary subcommittees dealing with technical cuestions and drafting so that in the most questions and drafting, so that in the most expeditious manner all questions before the conference were thoroughly considered.

"The conference held seven plenary or public sessions, at the last of which, on Feb. 6, 1922, the treaties approved by the conference

were signed.

"While the sessions of the committees were not public, a complete record was kept of all their proceedings, and at the close of each session of the committees on armament and on Pacific and far eastern questions, respectively a communical was made to the press. on Facilic and far eastern questions, respectively, a communique was made to the press, which, generally, stated all that had taken place in the committee and in all cases set forth whatever matters of importance had received attention. Thus full publicity was given to the proceedings of the conference."

The report gives a statement of the agenda submitted to the invited powers and adds that while this statement was not formally adopted by the conference the proceedings closely fol-

lowed the lines thus indicated.

"The following treaties," continues the re-ort, "were approved by the conference and signed at the closing session on Feb. 6, 1922:

"(1) A treaty between the United States of America, the British empire, France, Italy and Japan limiting naval armament.

"(2) A treaty between the same powers in relation to the use of submarines and noxious gases in warfare.

"(3) A treaty between all nine powers relating to principles and policies to be followed in matters concerning China.

"(4) A treaty between the nine powers re-lating to Chinese customs tariff.

"The following treaties were notified to the conference:

"(1) A treaty between the United States of America, the British empire, France and Japan, signed Dec. 13, 1921, relating to their insular

possessions and insular dominions in the Pa-

"(2) A treaty between the same powers, supplementary to the above, signed Feb. 6,

"(3) A treaty between China and Japan, signed Feb. 4, 1922, providing for the restoration to China of rights and interests in the province of Shantung.

"In addition, while the conference was in session the government of the United States and the government of Japan reached an agreement in relation to the island of Yap and the mandated islands in the Pacific ocean neath of the counter, which is to be embedded. north of the equator, which is to be embodied in a formal convention.

[The Yap treaty was signed Feb. 11 and ratified March 1, 1922, by the United States senate. It will be found in full in this volume.]

#### Limitation of Armament.

The report first takes up the limitation of armament negotiations. It says:

"It was recognized at the outset that it would be difficult, if not impossible, to provide at this conference for the limitation of land forces. So far as the army of the United States was concerned there was no question presented. It has always been the policy of the United States to have the regular military establishment upon the smallest possible basis. At the time of the armistice there were in the field and in training in the American army up-ward of 4,000,000 men. At once, upon the signing of the armistice, demobilization began and it was practically completed in the course of the following year, and to-day our regular establishment numbers less than 160,000 men. The British government has also reduced its army to a minimum."

The report quotes parts of the speeches made by M. Briand for France, Senator Schan-zer for Italy and Baron Kato for Japan in opposition to any action being taken by the conference with respect to land armaments

"Further consideration made it quite clear that no agreement for the limitation of land forces could be had at this time.

"A different condition existed in relation to naval armament. It was believed by the gov-ernment of the United States that an agree-ment providing for a sweeping reduction and for an effective limitation for the future was outlingly, feecible. It was posited out after for an effective limitation for the future was entirely feasible. It was pointed out, after considering the failure of earlier endeavors for limitation of armaments, that the powers could no longer content themselves with investigations, with reports, with the circumlocution of inquiry: that the time had come and the conference had been called, not for general resolutions or mutual advice, but for action. The following general considerations were deemed to be pertinent:

"The first is that the core of the difficulty is to be found in the competition in naval programs and that in order appropriately to limit naval armament competition in its production must be abandoned. Competition will not be remedied by resolves with respect to the method of its continuance. One program in-evitably leads to another, and if competition continues its regulation is impracticable. There is only one adequate way out, and that

is to end it now.

"'It is apparent that this cannot be accomplished without serious sacrifices. Enormous sums have been expended upon ships under construction and building programs which are now under way cannot be given up without heavy loss. Yet if the present construction of capital ships goes forward other ships will institute the built to wirel these roll the control to the control of the construction and building programs which are navies and a proportionate allowance of now under way cannot be given up without heavy loss. Yet if the present construction of capital ships goes forward other ships will inevitably be built to rival them, and this will lead to still others. Thus the race will connow completing its program of 1916 calling

tinue so long as ability to continue lasts. The efforts to escape sacrifices are futile. We must

eflorts to escape sacrinces are tune, we must face them or yield our purpose.

"It is also clear that no one of the naval powers should be expected to make the sacrifice alone. The only hope of limitation of naval armament is by agreement among the nations concerned, and this agreement should be en-tirely fair and reasonable in the extent of the agridues required of each of the powers. In sacrifices required of each of the powers. In considering the basis of such agreement the commensurate sacrifices to be required it is necessary to have regard to the existing naval strength of the great naval powers, including the extent of construction already effected in the case of ships in process. This follows from the fact that one nation is as free to compete as another and each may find grounds for its action. What one may do another may demand the opportunity to rival, and we remain in the thrall of competitive effort.

"But it was necessary to go beyond general observations. It was apparent that, in this field of opportunity, it was essential that the American government, as the convener of the conference, should be prepared with a definite and practicable plan. After the most the conterence, should be prepared with a definite and practicable plan. After the most careful consideration and detailed examination of the problem, with the aid of the experts of the American navy, a plan was prepared and, under instructions of the president, was presented to the conference by the American delegation.

"It was clear at the outset, and the negotiations during the conference put it beyond doubt. that no agreement for the limitation of naval armament could be effected which or naval armament could be eliected which did not embrace the navies of France and Italy. At the same time it was recognized that neither of these nations, in view of the extraordinary conditions due to the world war affecting their existing naval strength, could be expected to make the sacrifices which necessarily would lie at the basis of an agreement for limitation. These sacrificates well decorate here the sacrification of the sacrification o an agreement for infinitation. These sacrifices could, however, be reasonably expected of the United States, the British empire and Japan, and these were the powers then actually Japan, and these were the powers then actually engaged in the competitive building of warships. The American plan, therefore, temporarily postponed the consideration of the navies of France and Italy and definitely proposed a program of limitation for the United States, the British empire and Japan. The proposal was one of renunciation of building programs, of scrapping of existing ships and of establishing an agreed ratio of naval programs, of scrapping of existing ships and of establishing an agreed ratio of naval strength. It was a proposal of sacrifices, and the American government, in making proposal, at once stated the sacrifices w it was ready to make and upon the basis of which alone it asked commensurate sacrifices from others.

## The American Plan.

"The American plan rested upon the application of these four general principles:

"'(1) That all capital shipbuilding programs, either actual or projected, should be

abandoned. "(2) That further reduction should be made through the scrapping of certain of the

older ships.

"'(3) That in general regard should be had to the existing naval strength of the powers

concerned.
"'(4) That the capital-ship tonnage should be used as the measurement of strength of navies and a proportionate allowance of

for ten new battle ships and six battle cruisers. One battle ship has been completed. The ers. One battle snip has been con-others are in various stages of con-struction; in some cases from 60 to 80 per cent of the construction has been done. On cent of the construction has been done. On these fifteen capital ships now being built over \$330,000,000 have been spent. Still the United States is willing, in the interest of an immediate limitation of naval arma-ments, to scrap all these ships.

"The United States proposes, if this plan

is accepted:

"'(1) To scrap all capital ships now under construction. This includes six battle cruisers and seven battle ships on the ways and in the course of building and two battle ships launched.

"(2) The total number of new capital ships thus to be scrapped is fifteen. The total tonnage of the new capital ships when completed would be 618,000 tons.

""(3) To scrap all of the older battle ships up to, but not including, the Delaware and North Dakota. The number of these old battle ships to be scrapped is fifteen. Their total tonnage is 227,740.

tal tonnage is 227,740.

"Thus the number of capital ships to be scrapped by the United States if this plan is accepted is thirty, with an aggregate tonnage (including that of ships in construction, if completed) of 845,740.

"Great Britain: The plan contemplates that Great Britain and Japan shall take action which is fairly commensurate with this action on the part of the United States.

""It is proposed that Great Britain.

'It is proposed that Great Britain-"'(1) Shall stop further construction of the

four new Hoods, the new capital ships not laid down but upon which money has been spent. The four ships, if completed, would have a tonnage displacement of 172,000.

"(2) Shall, in addition, scrap her dread-noughts, second-line battle ships and first-line battle ships up to, but not including, the King George V. class.

"'These, with certain predreadnoughts which it is understood have already been scrapped, would amount to nineteen capital ships and a tonnage reduction of 411,375.

"'The total tonnage of ships thus to be scrapped by Great Britain (including the tonnage of the four Hoods, if completed) would

be 583,375.

" 'Japan: It is proposed that Japan-"(1) Shall abandon her program of ships not yet laid down—viz., the K-11, Owari No. 7 and No. 8 battle ships and Nos. 5, 6, 7 and 8 battle cruisers.

'It should be observed that this does not involve the stopping of construction, as the construction of none of the ships has been

begun.

"(2) Shall scrap three capital ships (the Mutsu, launched; the Tosa, the Kogo, in course of building) and four battle cruisers (the Amagi and Akagi, in course of building, and the Atoga and Takao, not yet laid down, but for which certain material has been asbegun. sembled)

"'The total number of new capital ships to

"The total number of new capital ships to be scrapped under this paragraph is seven. The total tonnage of these new capital ships when completed would be 289,100.

"(3) Shall scrap all predreadnoughts and battle ships of the second line. This would include the scrapping of all ships up to, but not including, the Settsu; that is, the scrapping of ten old ships with a total tonnage of 159,823.

"The total reduction of tonnage on vessels existing, laid down or for which material has

"'Thus, under this plan there would be immediately destroyed of the navies of the three powers sixty-six capital fighting ships built and building, with a total tonnage of

It is proposed that it should be agreed by the United States, Great Britain and Japan that their navies, with respect to capital ships, within three months after the making of the agreement shall consist of certain ships

of the agreement snail consist of certain snips designated in the proposal, and number for the United States, eighteen; for Great Britain, twenty-two; for Japan, ten.

"The tonnage of these ships would be as follows: Of the United States, 500,650; of Great Britain, 604,450; of Japan, 299,700. follows: Of the United States, 500,650: of Great Britain, 604,450; of Japan, 299,700. In reaching this result, the age factor in the case of the respective navies has received

appropriate consideration.

" 'Replacement:

"'With respect to replacement, the United States proposes:

"'(1) That it be agreed that the first replacement tonnage shall not be laid down until ten years from the date of the agreement.

"'(2) That replacements be limited by an agreed maximum of capital-ship tonnage as follows:

"For the United States, 500,000 tons.
"For Great Britain, 500,000 tons.
"For Japan, 300,000 tons.
"(3) That, subject to the ten-year limitation above fixed, the maximum standard capital ships may be replaced when they are twenty years old by new capital ships' construction.

"'(4) That no capital ship shall be built

"'(4) That no capital ship shall be built in replacement with a tonnage displacement of more than 35,000 tons."

"This proposal was presented on behalf of the American delegation at the first session of the conference, and at once evoked from the other delegates expressions of assent in principle. The question of a definite agreement, however, presented many difficulties requiring protracted negotiations, in which a conclusion was not finally reached until Jan. 31, 1922, when the draft of the proposed naval treaty was adopted in the committee on limitation of armament.

#### Capital-Ship Ratio.

"It was obvious that no agreement for limitation was possible if the three powers were not content to take as a basis their actual existing naval strength. General considerations of national need, aspirations and expectations, policy and program, could be brought forward by each power in justification of some hypothetical relation of naval strength, with no result but profitless and interminable discussion. The solution was to take what the powers actually had, as it was manifest that neither could better its relative position unless it won in the race which it maniest that bether could better its relative position unless it won in the race which it was the object of the conference to end. It was impossible to terminate competition in naval armament if the powers were to condition their agreement upon the advantages they hoped to gain in the competition itself. Accordingly, when the argument was presented by Japan that a better ratio—that is one sented by Japan that a better ratio—that is, one more favorable to Japan than that assigned by the American plan—should be adopted and emphasis was laid upon the asserted needs of Japan, the answer was made that if Japan usule snips of the second line. This would not he have made that if Japan include the scrapping of all ships up to, but not including, the Settsu; that is, the scrapol of 159,823.

"The total reduction of tonnage on vessels existing, laid down or for which material has been assembled (taking the tonnage of the ships when completed) would be 448,928 tons.

"There was a general agreement that the American rule for determining existing naval strength was correct—that is, that it should be determined according to capital-ship tonnage. There was, however, a further question and that was as to what should be embraced and that was as to what should be embraced for that purpose within the capital-ship tonnage of each nation. It was the position of the American government that ships in course of construction should be counted to the extent to which construction had already progressed at the time of the convening of the conference. The latter position was attackless that the conference of the convening of the conference. progressed at the me of the convening of the conference. The latter position was strongly contested by Japan upon the ground that a ship wals not a ship unless it was completed and ready to fight. It was pointed out, however, that in case of an emergency a warship which was 90 per cent completed was to that extent ready and that only the remaining 10 per cent of construction was necessary; and, similarly, in the case of a ship 70 per cent or 50 per cent or other per cent completed the work done was so much of naval strength in hand. It was also pointed out that it did not follow that because a ship had been completed it was ready for action; it might be out of repair; its engines, boilers, apparatus, armament, might need replacement. It was idle to attempt to determine naval strength on supposed readiness for action at a given day. Objections could be made to any standard of measurement, but the most practicable standard. ougetions could be made to any standard of measurement, but the most practicable standard was to take the existing capital-ship tonnage, including the percentage of construction already effected in the case of ships which were being built. It was added that the American government, while ready to sacrifice, in accordance with the terms of its preposal its battle ships and battle entires. proposal, its battle ships and battle cruisers in course of construction, was not willing to ignore the percentage of naval strength represented by over \$300,000,000 expended on the unfinished ships.

"The American government submitted to the British and Japanese naval experts its records with respect to the extent of the work which had been done on the ships under construction, and the negotiations resulted in an acceptance by both Great Britain and Japan of the ratio which the American government

had proposed.

### Fortifications in the Pacific.

"Before assenting to this ratio the Japanese government desired assurances with regard to the increase of fortifications and naval bases in the Pacific ocean. It was insisted that while the capital-ship ratio proposed by the American government might be acceptable under the existing conditions it could not be regarded as acceptable by the Japanese government if the government of the United States should fortify or establish additional naval bases in the Pacific ocean.

"The American gevernment took the posi-tion that it could not entertain any question as to the fortifications of its own coasts or of the Hawaiian islands, with respect to which it must remain entirely unrestricted. Despite it must remain entirely unrestricted. Despite the fact that the American government did not entertain any aggressive purpose whatever it was recognized that the fortification of other insular possessions in the Pacific might be regarded from the Japanese standpoint as creating a new naval situation and as constituting a menace to Japan, and hence the American delegation expressed itself as willing to maintain the status quo as to fortifications and naval bases in its insular possessions in the Pacific, except as above stated, if Japan and the British empire would ot the like. It was recognized that no limitation should be made with respect to the main islands of Japan or Australia and New

Zealand, with their adjacent islands, any more zealand, with their adjacent islands, any most than with respect to the insular possessions adjacent to the coast of the United States, including Alaska and the Panama Canal Zone or the Hawaiian islands, The case of the Aleutian islands, stretching out toward Japan, was a special one and had its coulterpart in was a special one and had its counterpart in that of the Kurile islands belonging to Japan and reaching out to the northeast toward the Aleutians. It was finally agreed that the status quo should be maintained as to both of these groups.

"After prolonged negotiations the three powers—the United States, the British empire and Japan-made an agreement that the status quo at the signing of the naval treaty with regard to fortifications and naval bases should be maintained in their respective territories and possessions, which were specified as iollows

(naval treaty, article 19);

"'(1) The insular possessions which the United States now holds or may hereafter acourse in the Pacific ocean, except (a) those adjacent to the coast of the United States. Alaska and the Panama Canal Zone, not including the Alcutian islands and (b) the Hawaiian islands:

waiian isianus;
"'(2) Hongkong and the insular possessions which the British empire now holds or may hereafter acquire in the Pacific ocean east of the meridian of 110 degrees east Jongitude, except (a) those adjacent to the coast of Canada, (b) the commonwealth of Australia and the continuous and (c) New Zealand: Canada, (b) the commonwealth of Australia and its territories and (c) New Zealand;

"(3) The following insular territories and

possessions of Japan in the Pacific ocean to wit: The Kurile islands, the Bonin islands, Amami-Oshima, the Loochoo islands, Formosa and the Pescadores, and any insular territories or possessions in the Pacific ocean which Japan may hereafter acquire.

"The same article of the treaty also contains the following provision with respect to the meaning of the maintenance of the status

"The maintenance of the status quo under the foregoing provisions implies that no new fortifications or naval bases shall be established in the territories and possessions speci-fied; that no measures shall be taken to in-crease the existing naval facilities for the re-pair and maintenance of naval forces, and that no increase shall be made in the coast defenses of the territories and possessions above specified. This restriction, however, does not preclude such repair and replacement of worn-out weapons and equipment as is customary in naval and military establishments in time of peace.

### The Case of the Mutsu.

"Among the ships which the American government proposed should be scrapped by Japan was the Mutsu. It was the understanding of the American government that this ship was still incomplete at the time of the meeting of the conference, although it was nearly com-pleted—that is, to the extent of about 98 per cent. It was proposed to be scrapped as all other ships which were in course of construcother ships which were in course of construction; thus the government of the United States included among its own ships which were to be scrapped two ships which were about 90 per cent completed.

"The Japanese delegation, however, insisted that the Mustu had been actually finished, was commissioned and fully manned before the conference met. Apart from this point this

was commissioned and turn mainted before the conference met. Apart from this point this latest accession to the Japanese navy was the especial pride of the Japanese people. It was their finest war vessel and, it is understood, had been built, in part at least, through popular subscriptions and in circumstances evoking patriotic pride in the highest degree.

"It was deemed by the Japanese delegation to be quite impossible to induce the consent of to be quite impossible to induce the consent of their government to any proposal of limitation which would involve the scrapping of the Mutsu. Its retention, however, created seri-ous difficulties because of the disproportion of advantage that would accrue to Japan through the possession of such a ship. Japan offered advantage that would accrue to Japan through the possession of such a ship. Japan offered to scrap the Settsu, one of the older ships that was to have been retained by Japan under the American plan, and also recognized that the gain to Japan through the Mutsu should be offset by the completion on the part of the United States of two of her bat-tle ships under construction and by the con-struction on the part of Great Britain of two struction on the part of Great Britain of two

new ships,
"It was accordingly agreed that the government of the United States should finish two ships of the West Virginia class that were under construction and on their completion should scrap the North Dakota and the Delaware, which under the original plan were to have been retained. Great Britain, on her part, was to scrap four of the older ships which would otherwise have been retained. In this way the balance of the three navies was kept. Nor was there any serious change in the final agreement establishing the maximum limits of the replacement tonnage. The original American plan had called for the foloriginal American plan had called for the following:

"United States, 500,000 tons; "British empire, 500,000 tons; "Japan, 300,000 tons.

"The plan as modified became: "United States, 525,000 tons; "Great Britain, 525,000 tons; "Japan, 315,000 tons.

"Thus maintaining the ratio of 5-5-3.

"An important concession was made by Great Britain with respect to the two new ships which she was permitted to build. Great Britain, as stated in the American proposal, had already planned four new Hoods. These had already planned four new Hoods. These ships had been designed and considerable time would have been saved in proceeding to build the two new ships according to the existing plans, but the new ships were designed greatly to exceed in tonnage any existing ship; their tonnage displacement, it is understood, was to be about 49,000 tons. Great Britain agreed not only to abandon her program for four new Hoods, but in building the two new ships that they should not exceed 35,000 tons standard displacement respectively.

standard displacement, respectively.
"Thus, with respect to capital ships, the
United States, the British empire and Japan were able to reach an agreement, but this was tentative and depended upon a suitable agreement being reached with France and Italy.

### France and Italy.

"The scheme of reduction accepted by the United States, Great Britain and Japan involved the scrapping of capital ships to the extent of approximately 40 per cent of the existing strength. It was recognized that no such reduction could be asked of either France or Italy and that the case of their navies required special consideration.

"France had seven dreadnoughts with a tonnage of 164,500 tons, and three predread-noughts, making a total of about 221,000 tons. In the case of the United States, Great Britain and Japan it was provided that their predreadnoughts should be scrapped without any provision for replacement, and there was to be in addition a reduction of about 40 per cent of the naval strength represented by dreadnoughts and superdreadnoughts. Reduc-ing in the same proportion as the United for light cruisers, torpedo boats and sub-States has reduced, France's tonnage of capi-tal ships would be fixed at 102,000 tons, or, accepted for capital ships. Accordingly, France

if the predreadnoughts of France were taken into calculation on her side, although omitted on the side of the United States, the total tonnage of France's capital ships being taken at 221,000 tons, a reduction on the same basis would leave France with only 136,000 tons. This was deemed to be impracticable. It was thought entirely fair, however, that France, in the replacement schedule, should be allowed a maximum tonnage equivalent to the existing tonnage of her seven dreadif the predreadnoughts of France were taken

France, in the replacement schedule, should be allowed a maximum tonnage equivalent to the existing tonnage of her seven dreadnoughts with a slight increase—that is, that the maximum limit of capital ships, for the purpose of replacement, should be fixed at 175,000 tons.

"Italy sought parity with France, and this principle having been accepted in the course of the discussion, it was likewise proposed that Italy should be allowed 175,000 tons of capital ships in replacement. The present tonnage of Italy is about 182,000 tons. The proposed maximum limit of 175,000 tons was at once accepted by Italy.

"France expressed a desire to be allowed ten capital ships, which, at a tonnage of 35,000 tons each, would have given her 350,000 tons. This was deemed to be excessive as a part of a plan for limitation of armament, and had it been insisted upon would probably have made impossible an agreement for an effective limitation of capital ship tonnage. But, after discussion, France consented to the maximum limit of 175,000 tons for capital ships. for capital ships.

### Auxiliary Craft.

"In the original American proposal it was stated that the allowance of auxiliary combatant craft to each power should be in proportion to the capital-ship tonnage. The batant craft to each power should be in proportion to the capital-ship tonnage. The proposal for the three powers—the United States, Great Britain and Japan—was that the total tonnage of cruisers, flotille leaders and destroyers allowed each power should be as follows:

"United States, 450,000 tons.
"Great Britain, 450,000 tons.
"Japan, 270,000 tons.
"And that the total tonnage of submarines allowed each of these powers should be:
"United States, 90,000 tons.
"Great Britain, 90,000 tons.
"Japan, 54,000 tons.

"In the same proportion as the capital-ship tonnage, this would have left for France and Italy, in the case of cruisers, flotilla leaders and destroyers, a maximum of 150,000 tons for each of these powers; and, in the case of submarines, a maximum of 30,000 tons each.

"The American delegation felt that original proposal for submarines was too high and, aided by the advice of our naval experts, proposed that the maximum limit for the United States and Great Britain should be perts, proposed the United States and Great Britain should the United States and Great Britain should of 60,000 tons each; and that France, Japan and Italy should retain the tonnage in submarines that they now have, that is, should maintain the status quo as regards submarine tonnage. It was understood that the present tonnage of France was 31,391 submarine tonnage of France was 31,391 tons; of Japan 31,452 tons, and of Italy somewhat less, about 21,000 tons. This proposition was not accepted, being opposed both by Japan and France. Japan stated her willingness to adhere to the original proposal, which allowed her 54,000 tons in submarines.

"In accepting the allowance for capital ships, France had made a distinct reservation. It was said that it would be impossible for

maintained that her necessities required that she should be allowed 330,000 tons for cruisers, etc., and 90,000 tons for submarines.

"M. Sarraut thus stated the position of the

French government:

"'After examining, on the other hand, the composition of the forces needed by France composition of the forces needed by france in auxiliary craft and submarines, which are especially intended for the protection of her territory and its communications, the cabinet and the supreme council of national defense have reached the conclusion that it is impossible to accept a limitation below that of 330,000 tons for auxiliary craft and 90,000 for compressing without impeding the vital for submarines without imperiling the vital interests of the country and of its colonies and the safety of their naval life.

"'The French delegation has been instructed to consent to no concession on the above

figures.

"'To sum up, France accepts, as regards capital ships, the sacrifice which she must face in order to meet the views of the conference and which represents an important reduction of her normal sea power. She limits the program of the future establishment of her fleet to 330.000 tons for auxiliary craft and to 90,000 tons for submarines.

"In view of the insistence on the part of the French delegates that they could not abate their requirements as to auxiliary craft and submarines, the British delegates stated that they were unable to consent to a limitation of auxiliary craft adapted to meet submarines.

"For this reason it was found impossible to carry out the American plan so far as limitation of auxiliary craft and submarines

was concerned.

Naval Treaty Analyzed.

"The agreement finally reached was set forth in the naval treaty signed on Feb. 6, 1922.

"With respect to capital ships, while there are certain changes in detail, the integrity of the plan proposed on behalf of the American government has been maintained and the spirit in which that proposal was made, and in which it was received, dominated the entire negotiations and brought them to a successful conclusion.

"The treaty is in three chapters:

"(1) A chapter containing the general principles or provisions relating to the limitation of naval armament.

"(2) A chapter containing rules for the

execution of the agreement.

"(3) A chapter containing miscellaneous provisions.

"Without following the order of this arrangement the substance of the treaty may

be thus stated:

"The first subject with which the treaty deals is that of the limitations as to capital

ships, which are defined as follows:
"'A capital ship, in the case of ships hereafter built, is defined as a vessel of war, not an aircraft carrier, whose displacement exceeds 10,000 tons (10,160 metric tons) standard displacement or which carries a gun with a caliber exceeding 8 inches (203 millime-

"The treaty specifies the capital ships which "The treaty specines the capital snips which each of the five powers may retain. Thus the United States of America is to retain eighteen capital ships, with a tonnage of 500,-650 tons; the British empire, twenty-two capital ships with a tonnage of 580,450 tons; France, ten ships of 221,170 tons; Italy, ten ships of 182,000 tons; Japan, ten ships of 301,320 tons. (Chapter II., part I.)
"In reaching this result the age factor in the case of the respective navies has received consideration.

consideration.

"The treaty provides that all other capital ships of these powers, either built or building, are to be scrapped or disposed of as provided in the treaty. (Article II.)

"It is provided that the present building programs are to be abandoned and that there is to be no building of capital ships here-after except in replacement as the treaty pro-

vides. (Article III.)

"It may be useful to make a comparison of this result with the proposal which was made at the beginning of the conference on behalf of the American delegation. That proposal set forth that eighteen ships were to be re-tained by the United States with a tonnage of 500,650 tons. In this treaty the same ships are to be retained.

"In that proposal there were set forth twenty-two capital ships to be retained by the British empire. Under the treaty the same number of ships is to be retained, in fact, the same ships, with the single exception of the substitution of the Thunderer for the Erin, with a total tonnage of 580,450, as against the calculation in the original new against the calculation in the original proposal of 604,450 tons for ships to be retained.

"In the case of Japan the proposal set forth "In the case of Japan the proposal set forth ten ships to be retained. By the treaty the same number of ships is to be retained, the difference being that the Mutsu is to be retained and the Settsu (which was to have been retained) is to be scrapped. The tonage retained by Japan, as calculated in the original proposal, was 299,700 tons. The tonnage retained under the treaty is 301,320.

"The effect of the retention of the Mutsu by Japan was to make necessary certain changes to which reference has already been made and for which the treaty provides. These changes are:

"In the case of the United States it is provided that two ships of the West Virginia class, now under construction, may be completed and that on their completion two of the ships which were to have been retained, the North Dakota and the Delaware, are to be scrapped.

be scrapped.
"In the case of the British empire two new ships may be built, not exceeding 35,000 tons each; and on completion of these two ships four ships—the Thunderer, King George V., the Ajax and the Centurion—are to be

scrapped.

"In the case of Japan, as has been said, the difference is that the Mutsu is retained and

the Settsu scrapped.

"Aside from these changes the principles set forth in the American proposal in relation to capital ships have been applied and the capital ship program is in its essence carried out.
"A further comparison may be made with

respect to ships to be scrapped.
"In the case of the United States it was proposed to scrap all capital ships now under construction. Instead thirteen of these ships are to to be scrapped or disposed of. The total number of capital ships which were to be scrapped by the United States, or disposed of, was stated to be thirty. Under the treaty

of, was stated to be thirty. Under the treaty the number is twenty-eight, with a very slight difference in total tonnage.
"In the case of Great Britain the construction of the four great Hoods has been abandoned, and while Great Britain is to have two new ships, limited to 35,000 tons each, four of the retained ships are to be scrapped, as already stated, when these two ships are completed. pleted.

"It was also provided in the original pro-posal that Great Britain should scrap her predreadnoughts, second-line battle ships

first-line battle ships up to and not including King George V. These ships, with certain predreadnoughts which it was understood had already been scrapped, would amount to nneteen capital ships with a tonnage reduction on this account of 411,375 tons. This provision is substantially unaffected by the treaty, the fact being that under the treaty twenty ships are to be scrapped instead of nineteen ships are to be scrapped instead of nineteen that were mentioned in the proposal.

"In the case of Japan, the proposal was that

Japan-

"(1) Shall abandon her program of ships not yet laid down, viz., the Kii, Owari, No. 7 and No. 8 battle ships, and Nos. 5, 6, 7 and 8, battle cruisers.

"This proposal has been carried out and the program has been abandoned by Japan.

"(2) Shall scrap three capital ships (the Mutsu, launched; the Tosa and Kago, in course of building); the four battle cruisers (the Amari and Akagi, in course of building, and the Atoga and Takao not yet laid down but for which certain material has been assembled). The total number of new capital ships to be scrapped under this program is assembled). The total number of new capital ships to be scrapped under this program is seven. The total tonnage of these capital ships when completed would be 289.100 tons. "Under the treaty Japan is to scrap all the ships mentioned with the exception of the

Mutsu.

"'(3) Shall scrap all predreadnoughts and battle ships of the second line. This would include the scrapping of all ships up to but not including the Settsu; that is, the scrapping of ten older ships with a total tonnage of 159,828 tons.

"Under the treaty ten ships are scrapped including the Settsu instead of excluding it.

"There are certain special provisions with regard to capital ships which should be mentioned in order that there may be no misapprehension, although the matter itself is singinificant. In the tables in section 2 of significant. In the tables in section 2 of chapter II., part 3, it is provided that the United States may retain the Oregon and Illinois for noncombatant purposes after they have been emaculated in accordance with certain provisions of the treaty. There is a sentimental reason for the retention of the Oregon, which it is understood the state of Oregon desires to possess.

"The British empire is permitted to retain the Colossus and the Collingswood for non-combatant purposes after they have been emasculated. They have already been with-drawn from combatant use.

"There is also a provision in the case of Japan that two of her older ships, over 20 years old, the Shikashima and the Asahi, which were to be scrapped, may be retained for noncombatant purposes, after they have been emasculated, as stated.

### Scrapping Defined.

"The matter of scrapping is not left to conjecture or the decision of each of the powers taken separately, but is carefully defined by the treaty in part 2 of chapter II., as follows:

"I. A vessel to be scrapped must be placed in such a condition that it cannot be put to combatant use.

"'II. This result must be finally effected in

"II. This result must be finally effected in any one of the following ways:

"'(a) Permanent sinking of the vessel:
"'(b) Breaking the vessel up. This shall always involve the destruction or removal of all the machinery, boilers and armor and all deck, side and bottom plating;
"'(c) Converting the vessel to target use exclusively. \* \* Not more than one capital ship may be retained for this purpose at one time by any of the contracting nowers."

one time by any of the contracting powers."

"There is a special provision in the case of France and Haly that they may severally retain two seagoing vessels for training purposes exclusively; that is, as gunnery or torpedo schools. The treaty describes the vessels, or the class to which they belong, and France and Italy undertake to remove and destroy their conning towers and not to use them as vessels of war.

"There is also provision as to two stages of scrapping. The first stage is intended to ren-der the ship incapable of further warlike service and to be immediately undertaken. The process is set forth in great detail in respect to removal of guns or machinery for working hydraulic or electric mountings, or fire-control instruments and range finders, or ammunition, explosives and mines, or torpedoes, wer-heads and torpedo tubes, or wireless telegraphy installations, the conning tower and all side armor, etc. (Chapter II., part 2,

section III., subdivision A.)

section III., subdivision A.)

"In the case of vessels that are to be immediately scrapped the work of rendering them incapable of further warlike service is to be completed within six months from the time of the coming into force of the treaty and the scrapping is to be finally effected within eighteen months from that time. In the case of vessels which are to be scrapped after the completion of the new ships which may be completion of the new ships which may be built by the United States and the British empire, respectively, the work of rendering the vessel incapable of further warlike service is to be commenced not later than the date of the completion of its successor and is to be finished within six months from that time. The vessel is to be finally scrapped within eighteen months from that date.

"The treaty provides the maximum replacement limits as follows:

"United States, 525,000 tons, "British empire, 525,000 tons,

"France. 175.000 tons. "Italy, 175.000 tons. "Japan, 315,000 tons.

"The size of each of the capital ships is limited to 35.000 tons. It is also provided that no capital ship shall carry a gun of a caliber in excess of sixteen inches. The provisions for replacements of capital ships are

visions for replacements of capital ships are set forth in charts which form section II. of part 3 of chapter II. of the treaty.

"In the case of the United States, the British empire and Japan, aside from the two ships that may be completed by the United States and the two which may be built by the British empire, the first replacement is to begin with the laying down of ships in 1931, for completion in 1934, and replacement takes place therefor according to the age of the place thereafter according to the age of the ships.

"In the case of France and Italy the first replacement is permitted for laying down in 1927 for completion in the case of France and in 1931 in the case of Italy,

### Aircraft Carriers.

"The treaty also deals with aircraft carriers. "'An aircraft carrier is defined as a vessel "An aircraft carrier is defined as a vessel of war with a displacement in excess of 10,000 tons (10,160 metric tons) standard displacement designed for the exclusive purpose of carrying aircraft. It must be so constructed that aircraft can be launched therefrom and landed thereon and not designed and constructed for carrying a more powerful armament than that allowed to it under article IX. or article X., as the case may be.' (Chapter II., part 4.)

"The total tonnage allowed for aircraft carriers is limited as follows:

"For the United States, 135,000 tons, "British empire, 135,000 tons.

"France. 60,000 tons.

"Italy, 60.000 tons. "Japan, 81,000 tons.

"In view of the experimental nature of the existence of aircraft carriers that fact is recognized and there is a provision for replacement without regard to age. (Article VIII.)

"The maximum limit of each aircraft carrier is 27,000 tons. There is, however, a special exception which permits contracting powers to build not more than two aircraft careach of a tonnage of not more than riers.

33.000 tons.

"What has been said with regard to the disposition of the existing capital ships and their scrapping is to be qualified by the statement straighing is not effect economy any of the contracting powers may use, for the purpose of constructing aircraft carriers as defined, any two of their ships, whether constructed or in course of construction, each of a ton-

or in course of construction, each of a consequence of not more than 33,000. (Article IX.)

"The general provision as to the armament of an aircraft carrier is that if it has guns exceeding six inches the total number of guns shall not exceed ten. It cannot carry a gun It may carry within excess of eight inches. out limit five-inch guns and antiaircraft guns. (Article X.)

"With respect to auxiliary craft the treaty provides that no vessels of war exceeding 10.000 tons, other than capital ships or aircraft carriers, shall be acquired by or constructed by, for or within the jurisdiction of any of the contracting powers. Vessels not specially built as fighting ships nor taken in time of peace under government control for fighting purposes, which are employed on fleet duties or as troop transports, or in some other way for the purpose of assisting in the prose-cution of hostilities otherwise than as fight-ing ships, are not within this limitation. (Article XI.)

"The treaty contains provisions of a protective nature—that is, for the purpose of securing the faithful execution of the agree-

ment.

"Thus it is provided that no vessel of war of any of the contracting powers hereafter laid down, except a capital ship, shall carry guns in excess of eight inches (article XII.): that no ship designated in the treaty to be scrapped may be reconverted into a vessel of war (article XIII.); that no preparations shall be made in merchant ships in time of peace for the installation of warlike armament for the purpose of converting such ships into vessels of war, other than the necessary stiffening of the decks for the mounting of guns not exceeding six inches. (Article XIV.)

"There are also provisions with respect to the building of vessels for foreign powers. Thus, no vessel of war constructed within the jurisdiction of any of the contracting powers for a noncontracting powers shall exceed the limits as to displacement, and armament prescribed by the treaty for vessels of a similar type constructed by or for any of the contracting powers: Provided, however, That the displacement for gaingraft carriers condisplacement for aircraft carriers constructed for a noncontracting power shall not exceed 27,000 tons. (Article XVI.)

"It is provided that a contracting power within the jurisdiction of which a vessel of war is constructed for a noncontracting power shall give suitable information to the other contracting powers. (Article XVI.)

"Further, in the event of the contracting power being engaged in a war such power is not to use as a vessel of war any vessel of war which may be under construction within its jurisdiction for any other power, or which may have been constructed within its jurisdic-

tion for another power and not delivered. (Article XVII.)

"Each of the contracting powers undertakes not to dispose, by gift, sale or any mode of transfer, of any vessel of war in such a manner that such vessel may become a vessel of war in the navy of any foreign power. (Article XVIII.) It is recorded in the proceedings of the conference that this undertaking is recorded as binding as a matter of taking is regarded as binding as a matter of honor upon the powers from the date of the signing of the treaty.

"Reference has already been made to the provision relating to the maintenance of the status quo as to fortifications and naval bases

in the Pacific ocean.

"If during the term of the treaty, which is fifteen years, the requirements of the national security of any of the contracting powers in respect of self-defense are, in the opinion of that power, materially affected by any change of circumstances, the contracting powers agree, at the request of such power, to meet in conference with a view to the reconsideration of the provisions of the treaty and its amendment by mutual agreement. (Article XXI.)

"It is further provided that in view of possible technical and scientific developments the United States. after consultation with other contracting powers, shall arrange for a conference of all the contracting powers, which shall convene as soon as possible after the expiration of eight years from the coming into force of the treaty, to consider what changes if any, may be necessary to meet such developments. (Article XXI.)

"There is a special provision as to the effect of an outbreak of war. The mere fact that one of the contracting parties becomes engased in war does not affect the obligations of the treaty. But if a contracting party becomes engaged in a war which, in its opinion, affects the naval defense of its national security, such power may, after notice to the other contracting powers, suspend for the other contracting powers, suspend for the period of hostilities its obligations under the present treaty, other than certain specified obligations, provided that such power shall ligations, provided that such power shall notify the other contracting powers that the emergency is of such a character as to require such suspension. In such case the remaining contracting powers agree to consult together and ascertain what temporary modifications may be required. If such consultation does not produce an agreement, duly made in accordance with the constitutional methods of the respective powers, any one of the contracting powers may, by giving notice the contracting powers may, by giving notice to the other contracting powers, suspend for the period of hostilities its obligations under the present treaty, except as specified. On the cessation of hostilities the contracting powers agree to meet in conference to con-sider what modifications, if any, should be made to the provisions of the treaty. (Article XXII.)

"The treaty is to remain in force until Dec. 31, 1936, and in case none of the contracting powers shall have given notice two years be-fore that date of its intention to terminate the treaty it is to continue in force until the the treaty it is to continue in force until the expiration of two years from the date on which notice of termination shall be given by one of the contracting powers; whereupon the treaty shall terminate as regards all the contracting powers. (Article XXIII.)

"This is a summary of the engagements of the naval treaty. Probably no more signifi-cant treaty was ever made. Instead of dis-cussing the desirability of diminishing the burdens of naval armament the conference has succeeded in limiting them to an impor-

tant degree.

"It is obvious that this agreement means ultimately an enormous saving of money and the lifting of a heavy and unnecessary burden. The treaty absolutely stops the race in competition in naval armament. At the same time it leaves the relative security of the great naval powers unimpaired. No national interest has been sacrificed; a wasteful production of unnecessary armament has been

"While it was desired that an agreement should be reached for the limitation of auxiliary craft and submarines, should not be overestimated. and submarines, its importance be overestimated. Limitation has should not be overestimated. Limitation has been effected where it was most needed, both with respect to the avoidance of the heaviest outlays and with reference to the promptings to war, which may be found in excessive preparation. Moreover, it is far from probable that the absence of limitation in the other field will lead to production of either auxiliary craft or submarines in excess of their normal relation to capital ships. Peoples are not in a mood for unnecessary naval expenditures. expenditures.

"The limitation of capital ships, in itself, substantially meets the existing need and its indirect effect will be to stop the inordinate production of any sort of naval craft.

Rules for Control of New Agencies of Warfare.

"Submarines—The British delegation submit-ted a proposition for the abolition of sub-marines. The proposal was put in the records in the following form:

"The British empire delegation desires formally to place on record this opinion that the use of submarines, whilst of small value for defensive purposes, leads inevitably to acts which are inconsistent with the laws of war and the dictates of humanity, and the delegation desires that united action should be taken by all nations to forbid their maintaken by all nations to forbid their maintenance, construction or employment.

"This proposal was discussed at length, the British delegation bringing forward in its support arguments of great force, based upon the experience of Great Britain in the recent war. It met with opposition from France, Italy and Japan.

"The American delegation not only had the opinion of their naval advisers in opposition to the proposal but also had received a careful report upon the subject from the advisory committee of twenty-one appointed by the President. This report was presented by the American delegation as setting forth in a succinct manner the position of their govern-In this report it was stated:

"Unlimited submarine warfare should be outlawed. Laws should be drawn up prescribing the methods of procedure of submarines against merchant vessels, both neutral and belligerent. These rules should acord with the rules observed by surface craft. Laws should also be made which prohibit the Laws should also be made which prohibit the use of false flags and offensive arming of merchant vessels. The use of false flags has already ceased in land warfare. No one can prevent an enemy from running amuck, but immediately he does he outlaws himself and invites sure defeat by bringing down the wrath of the world upon his head. If the submarine is required to operate under the same rules as combatant surface vessels no objection can be raised to its use against merchant vessels. The individual captains of submarines are no more likely to violate instructions from their government upon this point than are captains of any other type of point than are captains of any other type of ship acting independently.

"'Against enemy men-of-war the rubma-

rine may be likened to the advance guard on land which hides in a tree or uses un-derbrush to conceal itself. If the infantry in its advance encounters an ambuscade, it in its advance encounters an amouscade, it suffers greatly even if it is not totally annihilated. However, an ambuscade is entirely legitimate. In the same fashion a submarine strikes the advancing enemy from concealment and no nation cries out against this form of attack as illegal. Its navy simply becomes more vigilant, moves faster and uses its surface scouts to protect itself \*\* tits surface scouts to protect itself. \* \* \*
The submarine as a man-of-war has a very vital part to play. It has come to stay. \* \*\* As a scout the submarine has great possibilities—it is the one type of vessel able to proceed unsupported to distant enemy waters and maintain itself to observe and report enemy movements. \* \* \* Here again the submarine Here again the submarine movements, \* \* Here again the submarine has come to stay—it has great value, a legitimate use, and no nation can decry its employment in this fashion. \* \* The committee is of the opinion that unlimited warfare by submarines on commerce should be outlawed. The right of visit and search must be exercised by submarines under the same rules as for surface vessels. It does not approve limitation in size of submarines

Illegal Submarine Warfare—Use of Submarines Against Merchant Ships—Poison Gas.

"While the conference was unable either to abolish or limit submarines, it stated with clarity and force the existing rules of inter-national law which condemned the abhorrent practices followed in the recent war in the practices followed in the recent war in the use of submarines against merchant vessels. The resolutions adopted by the conference as to the use of submarines against merchant vessels, and with respect to the use of poison gas, were put in the form of a treaty which was signed on Feb. 6, 1922."

[The report quotes the substantive portions of this treaty, but as the full text of the agreement is given elsewhere in this volume the portions quoted are not repeated here.]

"Mr. Root, in presenting this treaty for the approval of the conference, said:

"'You will observe that this treaty does not undertake to codify international law in respect of visit, search or seizure of merchant vessels. What it does undertake to do is to state the most important and effective provisions of the law of nations in regard to the treatment of merchant vessels by belligerent warships and to declare that submarines are. under no circumstances, exempt from these humane rules for the protection of the life of innocent noncombatants.

"'It undertakes further to stigmatize violation of these rules and the doing to death of women and children and noncombatants by the wanton destruction of merchant vessels upon which they are passengers and by a violation of the laws of war, which as between these five great powers and all civilized nations which shall give their adherence shall be henceforth punished as an act of piracy.

"It undertakes further to prevent temptation to the violation of these rules by the use of submarines for the capture of merchant vessels and to prohibit that use altographs of the capture of the captu gether. It undertakes further to denounce the use of poisonous gases and chemicals in war as they were used to the horror of all civilization in the war of 1914-1918.

"'Cynics have said that in the stress of war these rules will be violated. Cynics are always near-sighted and often, and usually, the decisive facts lie beyond the range of their vision.

"We may grant that rules limiting the use of implements of warfare made between dip-

lomats will be violated in the stress of conflict. We may grant that the most solemn obligation assumed by governments in respect to the use of implements of war will be violated in the stress of conflict; but beyond diplematists and beyond governments there rests the public opinion of the civilized world and the public opinion of the world can punish. It can bring its sanction to the support of a prohibition with as terrible consequences as any criminal statute of congress or of parliament.

"'We may grant that in matters which are complicated and difficult, where the facts are disputed and the argument is sophistic, public opinion may be confused and ineffective, yet when a rule of action, clear and simple, is based upon the fundamental ideas of humanity and right conduct and the public opinion of the world has reached a decisive judgment upon it, that rule will be enforced by the greatest power known to human history, the power that is the hope of the world, will be a hope justified."

### Aircraft.

After quoting resolutions for the appointment of a commission to examine the rules made necessary by recent experience with respect to new agencies of warfare the delegation ends the first part of its report as follows:

"It was found impracticable to adopt rules for the limitation of aircraft in number, size or character in view of the fact that such rules would be of little or no value unless the production of commercial aircraft were similarly restricted. It was deemed inadvisable thus to hamper the development of a facility which could not fail to be important in the progress of civilization."

### Pacific and Far Eastern Questions.

Taking up the Pacific and far eastern questions, the report of the American delegation proceeds:

"When the conference was called there exsted with regard to the far east causes of misunderstanding and sources of controversy which constituted a serious potential danger. These difficulties centered principally about China, where the developments of the past quarter of a century had produced a situation in which international rivalries, jealousies, distrust and antagonism were fostered. "The people of China are the inheritors of

"The people of China are the inheritors of the oldest extant civilization of the world, but it is a civilization which has followed a course of development different from that of the west. It has almost wholly ignored the material, the mechanical, the scientific and industrial mastery of natural resources which has so characterized our western civilization in its later growth, and has led among us to the creation of an intricate industrial system. The spirit of Chinese civilization has, moreover, been pacifist and lacking in the consciousness of nationality as we understand that term. \* \*

"It is perhaps one of the tragedies of human evolution that the fine civilization which had developed in China and which had spread to other lands of eastern Asia was of necessity withered by contact with our more material western system of living. The Asiatic nations seem to have been conscious of this in their early contacts with the European world, and for a time they sought to exclude the new influences. Failing in that, they met the problem in different ways. Japan, with its highly centralized system, which, in marked contrast with the political ideals of China, had instilled into its people a national consciousness and loyalty and obedience in a sin-

gular degree, had found it possible within a comparatively few decades to adapt itself to membership in the family of modern nations; and by what is doubtless the most extraordinary transformation in history took on so much of the material development and political tradition of the west as enabled her empire to become what it is to-day, one of the foremost nations in the world. \*\*\*

"Against the organized commercial and industrial enterprises of the west China had no similar organizations to oppose and no means of exploiting on any adequate scale the coveted latent wealth of the country. It was melancholy but perhaps inevitable that a realization of this situation should have led to a scramble among the powers of greatest military and industrial strength with a view to obtaining the fullest possible opportunity to profit by the riches and the weakness of China. \* \* \*

"It was in the midst of this scramble, in the year 1899, that Secretary Hay sought to establish the principle of the open door and to obtain general acceptance for certain concrete applications of it which at least would minimize the existing danger. And when in the following year a portion of the Chinese people were beguiled into the futile antiforeign protest that we know as the Boxer uprising, Secretary Hay joined with the opendoor principle its corollary, that is, the preservation of Chinese territorial and administrative integrity. These two related principles have since had their influence in restraint of the temptation to encroach upon the rights of China or upon the rights of other friendly states in China. But it is unfortunately the fact that these principles, helpful as they might have been, were never a matter of binding international obligation among all the powers concerned. \* \* \* For approximately ten years China has been exhibiting the weakness and political disturbance which seem to be the price that must be paid for the institution of popular government. In these circumstances the weakening of the restraints upon the action of foreign nations seeking to participate in the economic development of China has perhaps not unnaturally led to greater indifference to China's rights and interests and to a greater disregard of the dangers arising out of international rivalries. \* \*

"Throughout considerable areas of the territory of China claims were made to so-called spheres of interest, which not only placed a check upon the normal economic development of the country and interfered with its administration but also sought to restrict the free commercial intercourse of those peoples which, like ourselves, considered that they had a full right, with the sanction of treaty engagements, to deal without control or interference with the Chinese people in whatever part of China and in whatever sort of legitimate business or enterprise they might find mutually profitable.

"Such was the unhealthy situation that had come to exist in the far east; and those who regarded it with a view to its effects upon the relationships of the several nations concerned could not but be conscious that plans for the limitation of armaments could scarcely have more than a temporary success if it were not possible to dispel the growing sense of uneasiness and mutual distrust which had arisen out of these conditions.

"It may be stated without reservation that one of the most important factors in the far eastern situation was the Anglo-Japanese alliance. This alliance has been viewed by the people of the United States with deep concern. Originally designed as a measure of protection

in view of the policies of Russia and Germany in far eastern affairs, the continuance of the alliance after all peril from these sources had ceased could not fail to be regarded as seriously prejudicial to our interests. Without reviewing the reasons for this disquietude it was greatly increased by the 'state of international tension' which had arisen in the Pacific area. The question constantly recurred:
The original sources of danger having been removed, against whom and for what purposes was the alliance maintained? The difficulty lay in the fact that the treaty was not one that had to be renewed. It ran until it was formally denounced by one of the two parties. Great Britain accordingly found itself, as Balfour expressed it, between the possibilities of two misunderstandings—a misunderstanding if they retained the treaty, a misunderstanding if they denounced the treaty.'

"It was therefore a matter of the greatest gratification that the American delegation found that they were able to obtain an agreement by which the Anglo-Japanese alliance should be immediately terminated. No greater step could be taken to secure the unimpeded influence of liberal opinion in promoting peace in the Pacifia perion."

in the Pacific region.

### Four-Power Treaty.

The report quotes the text of the agreement between the United States, the British empire, France and Japan, signed Dec. 13, 1921, and known as the "four-power treaty," together with the accompanying statement signed at the same time. The treaty and supplemental declaration will be found in full elsewhere in Commenting on this treaty the this volume. report says in part:

'Under article I. the parties do not agree to give any support to the claims, but only to respect rights that actually exist. When controversies arise of the character stated in the article the powers merely agree to confer together concerning them. No power binds itself to anything further, and any consents or agreements must be reached in accordance with its constitutional methods.

"As Senator Lodge said in communicating

the terms of the treaty to the conference:
"To put it in a few words, the treaty provides that the four signatory powers will agree as between themselves to respect their insular possessions and dominions in the re-gion of the Pacific and that if any contro-versy should arise as to such rights all the high contracting parties shall be invited to a joint conference looking to the adjustment of such controversy. They agree to take similar action in the case of aggression by any other power upon these insular possessions or do-minions. \* \* \* Each signer is bound to respect the rights of the others and before taking action in any controversy to consult with them. There is no provision for the use of force to carry out any of the terms of the agreement and no military or naval sanction lurks anywhere in the background or under cover of these plain and direct clauses.

"This statement was made in open conference, in the presence of all the delegates who signed the treaty, and must be regarded as an authoritative and accepted exposition of its

import.

A question arose as to whether the main islands of Japan were within the scope of the treaty. This had been considered while the treaty was being negotiated and it had been understood that they had been included. The words 'insular possessions and insular domin ions' were deemed comprehensively to embrace all islands of the respective powers in the regions described.
"The American delegation did not regard it

as important whether the main islands of Japan were included or excluded, save that it was understood that their exclusion might give rise to difficulties with respect to Australia and New Zealand. After the treaty was signed it became apparent that in view of the sentiment both in this country and Japan it would be preferable to exclude the main islands of Japan from the treaty and it was ascertained that Australia and New Zealand would not object to this course.

"It was thought desirable that specific mention should be made of the Japanese islands

"Accordingly, on Feb. 6, 1922, the four powers signed a treaty, supplementary to the treaty of Dec. 13, 1921, providing—

The term insular possessions and insular dominions used in the aforesaid treaty shall, in its application to Japan, include only Karafuto (or the southern portion of the island of Sakhalin), Formosa and the Pescadores and the islands under the mandate of Japan.

### The Shantung Controversy.

"The most acute question, perhaps, in the far east was that relating to Shantung, was also apparently the most difficult to settle satisfactorily.

"At the outbreak of the European war Japan, as the ally of Great Britain, dispatched to Germany an ultimatum requiring the German government to deliver over to the Japanese authorities, without condition or compensation, and with a view to its eventual restoration to China, the Kiaochow territory for which Germany had obtained from China a lease of ninety-nine years by virtue of a convention signed in 1898. Upon this ulticonvention signed in 1898. Upon this ulti-matum being disregarded by Germany, Japan landed forces in the province of Shantung, besieged and captured the city of Tsingtao and in November, 1914, took possession of the whole leased territory of Kiaochow and of the German-owned Shantung railway running from that territory to the city of Tsinanfu, the capital of Shantung province.

"During the following year, as the result of ne so-called 'twenty-one demands' which so-called Japan presented to China, there was signed on May 25, 1915, a treaty by which the Chinese government agreed 'to give full assent to all matters upon which the Japanese government may hereafter agree with the German government relating to the disposition of all rights, interests and concessions which Germany, by virtue of treaties or otherwise, possesses in relation to the province of Shaptung'; and it was further agreed that the whole of Klaochow bay should be opened as a commercial port, with a municipal concesa commercial port, with a municipal concession to be established under the exclusive jurisdiction of Japan at a place to be designated by the Japanese government, while an international concession might be established if the other foreign nations should so desire.

"By a further exchange of notes, dated Sept. 1918, it was arranged that the Shantung railway should be operated jointly by Japan and China and that it should thereafter be protected, not by Japanese troops, but by a special police force composed of Chinese under Japanese direction.

"This latter arrangement. however, never ratified by China, which continued to protest against Japan's claim to have suc-ceeded to the position of Germany with re-spect to the leased territory of Kiaochow, the Shantung railway and other matters in the province of Shantung.

"This question was raised at the peace conference at Paris, China insisting upon the restitution to itself of all rights and privileges which

Germany had possessed in Tsingtao. The decision of the conference was, however, adverse to this claim; and by articles 156, 157 and 158 of the treaty of Versailles it was provided that Germany should renounce in favor of Japan all her rights, title and privileges relative to the property of the proper tive to the province of Shantung, particularly those concerning the leased territory of Kiaothose concerning the leased territory of halo-chow and the movable and immovable property of the German government therein, the Shan-tung railway, the mines operated by German nationals and the submarine cables to Chefoo and to Shanghai, which were the property of the German state. The cession that made by the treaty was nevertheless qualified by a declara-tion made on behalf of the Japanese delegation tion made on behalf of the Japanese delegation to the effect that the policy of Japan consists in handing back the Shantung peninsula in full sovereignty to China, retaining only the economic privileges granted to Germany and the right to establish a settlement under the usual conditions at Tsingtao. By reason of this dissatisfaction with the disposition of the Shantung question made by the Versilles Shantung question made by the Versailles treaty the Chinese government not only withtreaty the Chinese government not only withheld its signature to that treaty but declined to entertain any proposals made by the Japanese government for the adjustment of the question upon what it deemed to be the vague and arbitrary basis of restoring to China the 'political sovereignty' (which China contended had not been affected by Japan's taking over the German position), while retaining for Japan the economic privileges including the Japan the economic privileges, including the only deep-water harbor in the province, the only railway thence to the interior, the only coal and iron mines of the province which proved to be of value, so as to leave Japan in effective domination of the economic life of the province of Shantung.

"The question could not be brought, technically, before the Washington conference, as all the nations represented at the conference table, save the United States, China and the Netherlands, were bound by the treaty of Versailles. Japan could, of course, at once oppose any action by any of these powers at the conference which could be regarded as a departure from the terms of that treaty.

"It was quite clear, however, that the con-ference furnished a most favorable opportunity for negotiations between China and Japan in which by mutual concessions a solution of the difficulty might be found. In order that the parties might be brought together the good offices of Mr. Balfour and Mr. Hughes, individually, were tendered to both parties, with their consent, and conversations looking to a settlement were begun. These conversations lasted many weeks and had the happy result of a complete agreement, which was embodied in a treaty signed on the part of China and Japan on Feb. 4, 1922.

"The main outlines of this treaty are as follows:

"'Japan will, within six months from the date of the treaty, restore to China the former German leased territory of Kiaochow and all public properties therein, without charge except for such additions and improvements as may have been made by Japan during the period of her occupation:

"'All Japanese troops are to be withdrawn as soon as possible-from the line of the railway within six months and from the leased territory not later than thirty days from the date of its transfer to China;

"The custom house at Tsingtao is at once to be made an integral part of the Chinese maritime customs:

"The Shantung (Tsingtao-Tsinanfu) railway and appurtenant properties are to be trans-

ferred to China, the transfer to be completed within nine months at the latest from the coming into force of the treaty; the value of the property to be determined by a commission upon the basis of approximately 53,000,000 gold marks, already assessed against Japan by the reparations commission as the value of the railway property taken by Japan from Germany in 1914; the value fixed being paid by China to Japan by Chinese govenment treasury notes secured on the properties and revenues of the railway and running ties and revenues of the railway and running for a period of fifteen years, but redeemable either in whole or in part at any time after five years from the date of payment; pending the complete redemption of such treasury notes the Chinese government to employ a Japanese subject as one of two joint chief accountants under the authority and control of the Chinese managing director of the railway:

"The rights in the construction of two extensions of the Shantung railway, reserved in 1914 for German enterprise and subsequently granted to a Japanese syndicate, are to be opened to the activities of an international financial group on terms to be arranged batween China and that group:

"The coal and iron mines formerly owned by the German Shantung Railway company are to be handed over to a company to be formed under a special charter of the Chinese government, in which Japanese capital may participate equally with Chinese capital:

"'Japan relinquishes its claim to the estab-lishment of an exclusive Japanese settlement in the leased territory and China opens the whole of that territory to foreign trade, un-dertaking to respect all valid vested rights therein;

"'China is enabled to purchase for incorporation in its salt monopoly the salt fields now operated in the leased territory by Japanese subjects on the understanding that it will allow the export on reasonable terms of salt to meet the shortage in Japan;

"Japan relinquishes to China all claims with respect to the Tsingtao-Chefoo and Shanghai cables, except such portions as were utilized by Japan during the war for the laying of the cable from Tsingtao to Sasebo; "Japan is to transfer to China fer fair compensation the wireless stations at Tsing-

tao and Tsinanfu:

"'Japan renounces all preferential rights in respect of foreign assistance in persons, capi-tal and material stipulated in the Kiaochow convention of 1898 between China and Germany,"

### Weihaiwei.

The report refers to the offer by the British government to restore Weihaiwei to China, according to an announcement made by Mr. Balfour, whose speech is reproduced in part.

Principles and Policies in Relation to China.

"The work of the conference with far eastern matters was largely devoted to the effort to give new vigor and reality to the co-ordi-nated principles of territorial and administra-tive integrity of China and of the 'open door' or equality of opportunity for all nations in China. \*\* China.

"As the foundation of its work in relation to China the conference adopted the following fundamental principles in agreeing:

"'1. To respect the sovereignty, the independence and the territorial and administrative integrity of China;

"'2. To provide the fullest and most un-

embarrassed opportunity to China to develop and maintain for herself an effective and stable government;

"3. To use their influence for the purpose of effectually establishing and maintaining the principle of equal opportunity for the commerce and industry of all nations throughout the territory of China;

"4. To refrain from taking advantage of conditions in China in order to seek special rights or privileges which would abridge the rights of subjects or citizens of friendly states and from countenancing action inimical to the security of such states.'

"Thus were reaffirmed the postulates of the American policy which were no longer to be left to the exchange of diplomatic notes, but were to receive the sanction of the most solemn undertaking of the powers."

The report quotes from the resolutions adopted regarding the open-door principle, the abolition of spheres of influence and the recetion of safeguards against unjust discrimination in connection with the Chinese railways and adds:

"The agreements evidenced by these resolutions and constituting a magna charta for China were embodied in the treaty signed on Feb. 6, 1922."

The resolutions referred to and others relating to the treaty in question as well as the treaty itself will be found elsewhere in this volume. The report further mentions the declarations made and resolutions adopted with respect to alienation of territory, the abolition of extraterritoriality and foreign postal agencies in China, the withdrawal of foreign troops in China, the control of radio stations and unification of the railways in China under the control of the government.

the control of the soverment.

Considerable space is given in the report to the treaty between nine powers relating to the Chinese customs tariff. In presenting the treaty to the conference Senator Underwood reviewed the history of the Chinese customs and stated the effect and purpose of the treaty.

"The Chinese delegation presented for the consideration of the conference the questions arising upon what are called the 'twenty-one demands,' including the Sino-Japanese treaties and notes of 1915. The position of the Japanese government, the Chinese government and the American government was set forth in statements on behalf of each, which were placed upon the records of the conference."

These statements were made by Baron Shidehara for Japan, Chief Justice Wang for China and Secretary of State Hughes for the United States.

### Japan's Special Interests in China.

"This review of the action of the conference in relation to China," the report continues, "cannot properly be closed without referring to the important declaration made by Baron Shidehara on behalf of the Japanese delegation at the close of the conference. In this declaration Baron Shidehara made clear what is meant by Japan in referring to her 'special interests' in China. As thus defined these special interests are not claimed to connote either political domination or exclusive privileges or any 'claim or pretension prejudicial to China or to any other foreign nation, or any antagonism to the principle of the open door and equal opportunity. Baron Shidehara said:

"We are vitally interested in the speedy establishment of peace and unity in China and in the economic development of her vast

natural resources. It is, indeed, to the Asiatic mainland that we must look primarily for raw materials and for the markets where our manufactured articles may be sold. Neither the raw materials nor the markets can be had unless order, happiness and prosperity reign in China, under good and stable government. With hundreds of thousands of our nationals resident in China, with enormous amounts of our capital invested there and with our own national existence largely dependent on that of our neighbor, we are naturally interested in that country to a greater extent than any of the countries remotely situated.

"'To say that Japan has special interests in China is simply to state a simple and actual fact. It intimates no claim or pretension of any kind prejudicial to China or any other

foreign nation.

"Yor are we actuated by any intention of securing preferential or exclusive economic rights in China. Why should we need them? Why should we be afraid of foreign competition in the Chinese market provided it is conducted squarely and honestly? Favored by geographical position and having fair knowledge of the actual requirements of the Chinese people, our traders and business men can well take care of themselves in their commercial, industrial and financial activities in China without any preference or exclusive rights.

"'We do not seek any territory in China, but we do seek a field of economic activity beneficial as much to China as to Japan, based always on the principle of the open door and equal opportunity.'

### Siberia.

"Questions directly affecting the Russian (or Siberian) interests were only two, viz.: the question of the continued presence of Japanese troops in certain Russian territory and that relating to the affairs of the Chinese Eastern railway.

railway.

"With respect to the first, statements were made by Japan and the United States and spread upon the minutes of the conference. M. Sarraut, on behalf of France, also made a statement supporting in general terms the position of the United States and expressing confidence that Japan would fulfill its promises eventually to withdraw its forces from Japanese territory and in general to respect the integrity of Russia."

Baron Shidehara made a long statement on behalf of Japan in which he recited the details of the military expedition to Siberia in 1918 and the circumstances which compelled Japan to maintain a number of troops in the southern part of the Maritime province around Vladivostok and Nikolsk. He maintained that it was not a military occupation, as no civil administration had been set up to displace the local authorities. In conclusion he said:

"The Japanese delegation is authorized to declare that it is the fixed and settled policy of Japan to respect the territorial integrity of Russia and to observe the principle of nonintervention in the internal affairs of that country, as well as the principle of equal opportunity for the commerce and industry of all nations in every part of the Russian possessions."

In his statement on behalf of the United States Secretary of State Hughes said in part: "The purpose of this government is to inform the Japanese government of is own conviction that, in the present time of disorder in Russia, it is more than ever the duty of those who look forward to the tranquilization of the Russian people and a restoration of

normal conditions among them to avoid all action which might keep alive their antagonism and distrust toward outside political agencies. Now, especially, it is incumbent upon the friends of Russia to hold aloof from the domestic contentions of the Russian people, to be scrupulous to avoid inflicting what may appear to them a vicarious penalty for may appear to tnem a vicarious penalty for apporadic acts of violence and, above all, to abstain from even the temporary and conditional impairment by any power of the teritorial status which for them, as for other peoples, is a matter of deep and sensitive national feeling transcending perhaps even the issues at stake among themselves."

Chinese Eastern Railway

"The other question affecting Siberian interests directly," says the report of the American delegation, "that of the Chinese Eastern railway, was also of the nature of a continuity diplomatic problem insusceptible of definite disposition at the conference. This railway involves a great complexity of international interests; that of the United States is to assure its continued operation as a free avenue of commerce, to discharge the responsibility for the railroad which the United States assumed to some extent in 1919 in co-operation with Japan and four other more in and the content of disposition at the conference. assumed to some extent in 1919 in co-opera-tion with Japan and four other powers in an arrangement for the supervision and assist-ance of this and other links in the Trans-Siberian system and to recover its just claims for advances. \* \* \* It was finally found impossible to do more than to adopt a reso-lution that the subject should be dealt with immediately through the proper displomatic channels. \* \* \* channels.

"While, as thus appears, it was necessary to leave these questions for future diplomatic adjustment, not a little was accomplished in ascertaining and clarifying the views of the various governments. The disviews of the various governments. cussions established unanimity a among the powers, other than China, as to the immediate powers, other than China, as to the immediate need for more adequate protection of the railway and the impracticability of obtaining financial support without effective financial control, assuring the economical operation of the railway. \* \* \* It may prove possible to arrive at practical results in this way while preserving Chinese sovereignty and amour propre. General assent was obtained at the conference to the continuance in force of the agreement of 1919 for the supervision of the railway." the railway.'

### General Summary.

After giving the points in the agreement made between the United States and Japan relating to the mandated islands in the Pacific ocean north of the equator, and noting the fact that no action was taken with respect to electrical communications in the Pacific, the report ends with the following general summary:

"To estimate correctly the character and value of these several treaties, resolutions and formal declarations they should be considered as a whole. Each one contributes its part in combination with the others toward the estab-lishment of conditions in which peaceful security will take the place of competitive preparation for war.

"The declared object was, in its naval aspect, to stop the race of competitive building of warships which was in process and which was so distressingly like the competition that immediately preceded the war of 1914. Competitive armament, however, is the result of a state of mind in which a national expectation of attack by some other country causes preparation to meet the attack. To stop competition it is necessary to deal with the state

of mind from which it results. A belief in the pacific intentions of other powers must be substituted for suspicion and apprehension.

"The negotiations which led to the four-power treaty were the process of attaining that new state of mind and the four-power treaty itself was the expression of that new state of mind. It terminated the Angio-Jap-anese alliance and substituted friendly conference in place of war as the first reaction from any controversies which might arise in the region of the Pacific; it would not have been possible except as part of a plan including a limitation and a reduction of naval armaments, but that limitation and reduction would not have been possible without the new relations established by the four-power treaty or something equivalent to it.

"The new relations declared in the four-power treaty could not, however, inspire con-fidence or be reasonably assured of continu-ance without a specific understanding as to the relations of the powers to China. Such an understanding had two aspects. One re-lated to securing fairer treatment of China and the other related to the competition for trade and industrial advantages in China be-tween the outside powers. tween the outside powers.

"An agreement covering both these grounds in a rather fundamental way was embodied in the first article of the general nine-power treaty regarding China. In order, however, to bring the rules set out in that article out of the realm of mere abstract propositions and make them practical rules of conduct it was necessary to provide for applying them so far as the present conditions of government and social order in China permit. This was done by the remaining provisions of the general nine-power treaty and Chinese customs treaty and the series of formal declarations made a part of the record of the conference. in a rather fundamental way was embodied in

"The scope of action by the conference in dealing with Chinese affairs was much limited by the disturbed conditions of government in China which have existed since the revolution of 1911, and which still exist, and which render effective action by that government exceedingly difficult and in some directions improved the property of the exceedingly difficult and in some directions impracticable. In every case the action of the conference was taken with primary reference to giving the greatest help possible to the Chinese people in developing a stable and effective government really representative of the people of China. Much was accomplished enective government really representative of the people of China. Much was accomplished in that direction and the rules of conduct set forth in the first article of the general treaty regarding China have not merely received the assent of the powers, but have been accepted and applied to concrete cases.

"The sum total of the action taken in the conference regarding China, together with the return of Shantung by direct agreement between China and Japan, the withdrawal of the most unsatisfactory of the so-called 'twenty-one demands' and the explicit declaration of Japan regarding the closely related territory of centern Sheer's invitor the relation of ritory of eastern Siberia, justify the relation of confidence and good will expressed in the fourpower treaty and upon which the reduction of armament provided in the naval treaty may be contemplated with a sense of security."

PRESIDENT HARDING'S CLOSING ADDRESS. President Harding, in an address at the closing session of the conference, said:

"Nearly three months ago it was my privi-lege to utter to you sincerest words of wel-come to the capital of our republic, to sug-gest the spirit in which you were invited and to intimate the atmosphere in which you were asked to confer. In a very general way, perhaps, I ventured to express a hope for the things toward which our aspirations led us.

"To-day it is my greater privilege, and even greater pleasure, to come to make acknowledgment. It is one of the supreme compensations of life to contemplate a worth-while accomplishment.

"This conference has wrought a truly great achievement. It is hazardous sometimes to speak in superlatives and I will be restrained. But I will say, with every confidence, that the faith plighted here to-day, kept in national house, where the same of th honor, will mark the beginning of a new and better epoch in human progress.

"Stripped to the simplest fact, what is the spectacle which has inspired a new hope for

the world?

"Gathered about this table nine great nations of the earth—not all, to be sure, but those most directly concerned with the problems at hand—have met and have conferred on questions of great import and common concern, on problems menacing their peaceful relationship, on burdens threatening a common peril.

"In the revealing light of the public opinion of the world without surrender of sover-eignty, without impaired nationality or of-fended national pride, a solution has been found in unanimity and to-day's adjournment is marked by rejoicing in the things accomplished.

"If the world has hungered for new assurance it may feast at the banquet which the

conference has spread.

And you have agreed in spite of all difficulties and the agreements are proclaimed to the world. No new standards of national honor have been sought, but the industments of national dishonor have been drawn and the world is ready to proclaim the odiousness of perfidy or infamy.

"It is not pretended that the pursuit of peace and the limitations of armament are new conceits or that the conference is a new conception either in settlement of war or in writing the conscience of international rela-

tionship.

"Indeed, it is not new to have met in the realization of war's supreme penalties. The Hague conventions are examples of the one, the conference of Vienna, of Berlin, of Versailles are outstanding instances of the other.

"The Hague conventions were defeated by the antagonism of one strong power whose in-disposition to co-operate and sustain led it to one of the supreme tragedies which have come to national eminence. Vienna and Berlin sought peace founded on the injustices of war and sowed the seeds of future conflicts, and hatred was armed where confidence was stifled.

"Your achievement is supreme because no seed of conflict has been sown; no reaction in regret or resentment ever can justify resort to arms.

"You have written the first deliberate and effective expression of great powers, in the consciousness of peace, of war's utter futility and challenged the sanity of competitive prep-

aration for each other's destruction.

"You have halted folly and lifted burdens and revealed to the world that the one sure way to recover from sorrow and ruin and staggering obligations of a world war is to end the strife in preparation for more of it and turn human energies to the constructiveness of peace.

"Not all the world is yet tranquilized. But here is the example, to imbue with new hope all who dwell in apprehension. At this table came understanding, and understanding brands armed conflict as abominable in the eyes of

enlightened civilization.

"I once believed in armed preparedness. I advocated it. But I have come now to believe there is better preparedness in a public mind and a world opinion made ready to grant justice precisely as it exacts it. And justice is better served in conferences of peace than in conflicts at arms.

"How simple it all has been! When you met here twelve weeks ago there was not a commitment, not an obligation except that which each delegation owed to the government commissioning it. But human service was calling, world conscience was impelling

and world opinion directing.

"No intrigue, no offensive or defensive alli-ances, no involvements have wrought your agreements, but reasoning with each other to common understanding has made new relationships among governments and peoples, new securities for peace and new opportunities for achievement and attending happiness.

"It may be that the naval holiday here contracted will expire with the treaties, but I do not believe it. Those of us who live another decade are more likely to witness a growth of public opinion, strengthened by the new experience, which will make nations more concerned with living to the fulfillment of God's high intent than with agencies of warfare and destruction.

"Since this conference of nations has pointed with unanimity to the way of peace to-day, like conferences in the future, under appropriate conditions and with aims both well conceived and definite, may illumine the highways and byways of human activity. The torches of understanding have been lighted and they ought to glow and encircle the globe."

# TREATIES LAID BEFORE SENATE.

Seven treaties negotiated at the limitation of armament conference were laid before the United States senate by President Harding in person on Feb. 10. The documents submitted

The covenant of limitation to naval armament between America, the British empire,

France, Italy and Japan.

The treaty between the same powers in re-lation to the use of submarines and noxious gases in warfare.

The treaty between the United States, the British empire, France and Japan relating to their insular possessions and their insular dominions in the Pacific.

A declaration accompanying the four-power treaty reserving American rights in mandated territory.

An agreement supplementary to the four-power treaty defining the application of the term "insular possessions and insular domin-

term "insular possessions and insular domin-ions" as relating to Japan.

A treaty between the mine powers in the conference relating to principles and policies to be followed in matters concerning China.

treaty between the nine powers relating

A treaty between the fine powers relating to Chinese customs tariff.

President Harding also submitted the minutes of the conference, including both plenary sessions and committee meeting the report of the American delegates. meetings and

PRESIDENT HARDING'S SPEECH.

Following is the full text of President Harding's address in presenting the treaties to the senate:
"Mr. President and Gentlemen of the Senate:

I have come to make report to you of the conclusions of what has been termed the Washington conference on the limitation of armament and to lay before you the series of treaties which the United States and the other powers participating in the conference have negotiated and signed and have announced to the world.

"Apart from the very great satisfaction in reporting to the senate, it is a privilege as well as a duty to ask that advice and consent which the constitution requires to make these

covenants effective.

"Accompanying the treaties I bring to you the complete minutes of both plenary sessions and committee meetings, and a copy of the official report made to me by the American delegation to the conference.

"Both the complete minutes and the official report of the American delegation are new accompaniments to the executive report of a treaty or treaties, but they are fitting testimonials to that open and simpler diplomacy for which the world has asked, and the practice of which contributed largely to the success of the conference so recently adjourned. I trust they will facilitate that ample and helpful understanding which is desirable in the senate, and reflect that understanding which was the keynote of the conference itself.

"The whole transaction is quite out of the ordinary. I am not thinking of the achievement, which I hope the senate will come to appraise highly as I do and as the world seems to do. I am not thinking of the commendable processes by which agreements were wrought, though this was a conference wholly of free nations, exercising every national right and authority, in which every agreement was stamped with unanimity.

"Indeed, it was a conference of friends, proceeding in deliberations and sympathy, appraising their friendly and peaceful relations and resolved to maintain them, and give to the world new assurances of peace and actual relief from the burdens of excessive and competitive armament. But the out of the ordinary phases which I have in mind are that the senate—indeed the congress—has already advised in favor of one—and inferentially of two—of the treaties laid before you to-day, and the naval pact negotiated and signed is in accordance with your expressed wish.

Halt in Navy Building.

"It calls a halt in the competitive construction of capital ships in the great navies of the world, and affords the first actual relief from naval burdens which peoples have been able to acclaim since steam and steel combined to add to naval strength in warfare.

"But though the treaty recommended to the congress marks the beginning of a naval holiday and that limitation of naval armament which accords with a world aspiration, the particular justification of this progressive and highly gratifying step was the settlement of the international problems of the Pacific, attended by new understandings in place of menacing disagreements, and established sureties instead of uncertainties which easily might lead to conflict.

"Much as it was desirable to lift the burdens of naval armament and strike at the menace of competitive construction and consequent expenditure, the executive branch of the government, which must be watchful for the nation's safety, was unwilling to covenant a reduction of armament until there could be plighted new guaranties of peace, until there could be removed the probable menaces of

conflict. Therefore, all the treaties submitted for your approval have such important relationship one to another that, though not interdependent, they are the covenants of harmony, of assurance, of conviction, of conscience and of unanimity. These we have believed to be essential to perfect the fulfillment which the congress has in mind.

ment which the congress has in minu.

"As a simple matter of fact, all of the agreements, except those dealing directly with the limitation of armaments, take the place of various multipower treaties, arrangements, or understandings, formal or informal, expressed or implied, relating to matters in the Pacific ocean, in which all the powers signatory were essentially, if not equally, concerned. The new agreements serve to put an end to contradictions, to remove ambiguities and establish clear understandings.

"No matter what mental reservations may have existed or what doubts may have prevailed, because here was an experiment new in many phases, all of the powers came to the conference knowing it was to deal with very practical situations affecting their international relations. There was mutual interest, quite apart from the greate achievement for world peace, and a way to common understanding was found to be practical and speedilty arranged.

"If it has developed a new world school of diplomacy, let it be so called. It revealed the ends aimed at in the very beginning and pointed the way to their attainment. The powers in conference took the world of the Pacific as they found it in fact. They dealt with actualities by voluntary and unanimous agreement, and have added to mankind assurances and hopefully advanced international peace.

"It is worth while saying that the powers in this conference sought no concert to dispossess any power of its rights or property. All the signatories have given up certain rights which they had as their contribution to concord and peace, but at no sacrifice of national pride, with no regret or resentment to later flame in conflict.

"Some relinquished certain rights or preroga-

"Some relinquished certain rights or prerogatives which they had asserted, notably in the settlement of the Shantung controversy, dealt with in a covenant quite apart from the group herewith submitted. But every concession was a willing one, without pressure or con-

"The conference record is quite unparalleled not alone because there was the maximum of good feeling and neighborliness throughout the session but common rejoicing in the results; and the separations in departure were marked by genuine cordiality, good will and new hopes.

"It is not necessary to remind you that the conference work was not directed against any power or group of powers. There were no punishments to inflict, no rewards to bestow. Mutual consideration and the common welfare and the desire for world peace impelled. The conclusions reached and the covenants written neither require nor contemplate compulsive measures against any power in the world, signatory or nonsignatory. The offerings are free will; the conscience is that of world opinion; the observance is a matter of national honor.

No Power Despoiled.

"These treaties leave no power despoiled. The delegates of every power participating adjourned with every right and every authority with which they came, except that which was willingly and gladly given up to further the common welfare.

"I can assure you the nine powers have

been brought more closely together, they are stancher neighbors and friends, they have clearer and better estimates of one another, they have seen suspicion challenged and selfthey have seen suspicion challenged and self-ishness made to retreat, they have keener and more sympathetic understandings, and they are more strongly willed for right and justice in international relations than ever before. I believe, with all my heart, the powers in con-ference have combined to make the world safer and better and a more hopeful place in which to live.

which to live.

"It was a helpful thing to have the conference reveal how common our human aspirations are and how easy it is, when the task is properly approached, to reconcile our national aspirations. There are mutual and peace of all nations, and they cannot be promoted by force. They can be revealed and magnified in that understanding which, it is now proved, the conference of peace promotes, and the same understanding makes compulsion and despoilment hateful in the eves of mankind." eyes of mankind."

### Approval Is Asked.

Here the president quoted the list of seven treaties and continued:

"I invite your prompt approval of all of them. It is quite impossible to readjust our naval program until the naval treaty has your sanction, even though you urged its negotia-tion. It is not possible to make the read-justment in full confidence until the whole program has commended itself to your approval.

"I am not unmindful, nor was the conference, of the sentiment in this chamber against old world entanglements. Those who made the treaties have left no doubt about their the treates have left no doubt about their true import. Every expression in the conference has emphasized the purpose to be served and the obligations assumed. Therefore I can bring you every assurance that nothing in any of these treaties commits the United States or any other power to any kind of an alliance, entanglement or involvement.

"It does not require us or any power to surrender a worth-while tradition. It has been said if this be true these are mere meaning-less treaties and therefore valueless. Let us accept no such doctrine of despair as that.

"If nations may not establish by mutual understanding the rules and principles which are to govern the relationship; if a sovereign and solemn plight of faith by leading nations of the earth is valueless; if nations may not rust one another, then, indeed, there is little on which to hang our faith in advancing civiliration. ization or the furtherance of peace.

"Either we must live and aspire and achieve under a free and common understanding among peoples, with mutual trust, respect forbearance, and exercising full sov-nty, or else brutal, armed force will nate, and the sorrows and burdens of ereignty, or dominate. war in this decade will be turned to the chaos and hopelessness of the next. We can no more do without international negotiations and agreements in these modern days than we could maintain our orderly neighborliness at home without the prescribed rules of conduct, which are more the guaranties of free-dom than the restraint thereof.

has been expressed. That unwillingness has been kept in mind and the treaties submitted to-day have no semblance of relationships save as the wish to promote peace has been common inspiration.

"The four-power treaty contains no war commitment. It covenants the respect of each nation's rights in relation to its insular possessions. In case of controversy between the covenanting powers it is agreed to confer and seek adjustment, and if rights are threatened by the aggressive action of any outside power these friendly powers, respecting one another, are to communicate, perhaps confer, in order are to communicate, perhaps confer, in order to understand what action may be taken, jointly or separately, to meet a menacing situation.

"There is no commitment to armed force, no alliance, no written or moral obligation to join in defense, no expressed or implied commitment to arrive at any agreement except in

accordance with our constitutional methods.

"It is easy to believe, however, that such a conference of the four powers is a moral warning that an aggressive nation, giving affront to the four great powers ready to focus world opinion on a given controversy, would be embarking on a hazardous enterprise.

would be embarking on a hazardous enterprise.
"Frankly, senators, if nations may not safely agree to respect each other's rights, and may not agree to confer if one party to the compact 'threatens trespass, or may not agree to advise if one party to the pact is threatened by an outside power, then all concerted efforts to tranquilize the world and stabilize peace must be flung to the winds. Either these treaties must have your cordial sanction or every proclaimed desire to promote peace and prevent war becomes a hollow mockery.

### Menaces in Pacific.

"We have seen the eyes of the world turned to the Pacific. With Europe prostrate and penitent, none feared the likelihood of early conflict there. But the Pacific had its menaces, and they deeply concerned us. Our territorial interests are larger there."

"Its waters are not strange seas to us, its farther shores not unknown to our citizens. Our earlier triumphs of commerce were there. We began treaty relationships with China full eighty years ago, in the youthful vigor of our republic, and the sallings of our clipper ships were the romance of our merchant marine when it successfully challenged the competition of the world.

"Seventy years ago Commodore Perry revealed Japan to commerce, and there followed that surpassing development of the island empire, with whom our unbroken peace found a most gratifying reflex in the conference just

"A century ago we began planting the seeds of American friendship in Hawaii, and seventy years ago Webster told the senate that the United States could 'never consent to see these

islands taken possession of by either of the great commercial powers of Europe. "Whether it was destiny or the development of propinquity, or the influence of our colonists, or faith in our institutions. Hawaii came

nists, or fatth in our institutions. nawait came under the flag in 1898 and rejoices to-day as a part of our republic.

"The lure of the waters, or the march of the empire, or the call of commerce, or inscrutable destiny led us on, and we went to the call of the day in Survey. "The world has been hungering for better relationship for centuries since it has attained its larger consciousness. The conception of the league of nations was a response to a manifest world hunger. Whatever its fate, whether it achieves the great things hoped for, or comes to supersedure, or to failure, the American unwillingness to be a part of it remiss in performing a national duty if we did not covenant the relations which tend to

guarantee it.

"For more than a half century we have had a part in influencing the affairs of the Pacific and our present proposed commitments are not materially different in character nor materially greater in extent, though franchts with work like it. acter nor materially greater in extent, though fraught with vastly less danger, than

our undertakings in the past.

"We have convinced the onlooking and in-"We have convinced the onlooking and interested powers that we covet the possessions of no other power in the far east and we know for ourselves that we crave no further or greater governmental or territorial responsibilities there. Contemplating what is admittedly ours, and mindful of a long-time and reciprocal friendship with China, we do wish the opportunity to continue the development of our trade peacefully and on equality with other nations, to strengthen our ties of friendship and to make sure the righteous and friendship and to make sure the righteous and

friendship and to make sure the righteous and just relationships of peace.

"Holding the Possessions we do, entertaining these views and confessing these ambitions, why should we not make reciprocal engagements to respect the territory of others and contract their respect of ours and thus quiet apprehension and put an end to susplcion? "There has been concern. There has been apprehension of territorial greed, a most fruitful cause of war. The conference has dissipated both and your ratification of the breaking of which there is not a shadow of reason or real excuse.

reason or real excuse.

"We shall not have less than before. No one of us shall have less than before. There is no narrowed liberty, no hampered indeis no narrowed noerty, no nampered inde-pendence, no shattered sovereignty, no added obligations. We will have new assurances, new freedom from anxiety and new mani-festations of the sincerity of our own inten-tions, a new demonstration of that honesty which proclaims a righteous and powerful republic.

wil am ready to assume the sincerity and the dependability of the assurances of our neighbors of the old world that they will respect our rights, just as I know we mean to respect theirs. I believe there is an inviolable national honor and I bring to you this particular covenant in the confident belief this particular covenant in the confident belief that it is the outstanding compact of peace for the Pacific which will justify the limitation of armament and prove a new guaranty to peace and liberty and maintained sovereignty and free institutions.

"No allusion has been made to the treaty restraining and limiting the use of the submarine and the prohibition of noxious gases in warfare. Since we are asking the world's

marine and the prohibition of noxious gases in warfare. Since we are asking the world's adherence it is easily assumed that none in America will hold aloof.

"Nor need I dwell on the nine-power treaty relating to principles and policies to be followed in the relationship of the signatory powers to China. Our traditional friendship for the ancient empire, our continued friendship for the new republic, our commitment of more than twenty years to the open door and our avowed concern for Chinese integrity and unanimously assent. China's own satisfaction in the restorations covenanted here has been officially expressed quite apart from the testifying signatures. fying signatures.
"Perhaps I may fittingly add a word which

"Pennaps I may nutingly add a word which is suggested by my relationship as a former member of the senate. I had occasion to learn of your proper jealousy of the senate's part in contracting foreign relationships. Frankly, it was in my mind when I asked representatives of both the majority and minority to serve on the American delegation.

It was designed to have you participate. And you were ably represented.

Freedom from Entanglements.
"The senate's concern for freedom from entanglements, for preserved traditions, for maintained independence, was never once forgotten by the American delegates. If I did not believe these treaties brought us not only never these treaties of the senate of new guaranties of peace but greater assurances of freedom from conflict I would not

ances of freedom from conflict I would not submit them to your consideration.
"Much depends on your decision. We have joined in giving to the world the spectacle of nations gathering about the conference table, amid the convictions of peace, free from all passion, to face each other in the contacts of reason, to solve menacing problems and end disputes and clear up misunderstandings. They have agreed to confer again when desirable and turn the revealing light of world opinion on any menace to peace among them. Your government encouraged and has signed the compacts which it had much to do in fashioning.

ioning.
"If to these understandings for peace, if to these advanced expressions of the conscience of leading powers, if to these concords to guard against conflict and lift the burdens of armament, if to all of these the senate will not advise and consent, then it will be futile to try again. Here has been exercised every caution consistent with accomplishment. Here was a beginning on your advice, no matter when conceived, and the program was enlarged only because assurances of tranquilenlarged only because assurances of tranquillity were deemed the appropriate concomitants of the great experiment in arms limitation.
"I alluded a moment ago to my knowledge

of the viewpoint of the senate from personal experience. Since that experience I have come to know the viewpoint and inescapable responsibility of the executive. To the executive comes the closer view of world relationship and a more impressive realization of the menaces, the anxieties and the apprehensions to be met

sions to be met.

sions to be met.

"We have no rivalries in our devotion to the things we call American because that is a common consecration. None of us means to endanger, none of us would sacrifice, a cherished national inheritance. In mindfulness of this mutuality of interest, common devotion and shared authority I submit to the senate that if we cannot join in making effective these covenants for peace and stamp this conference with America's approval we this conference with America's approval we shall discredit the influence of the republic, render future efforts futile or unlikely and write discouragement where to-day the world

is ready to acclaim new hope.
"Because of this feeling, because I believe
in the merits of these engagements, I submit
them to the senate with every confidence
that you will approve."

### SENATE ACTION ON TREATIES.

The treaties were referred to the committee on foreign relations. On Feb. 27 they were reported back by Senator Lodge with resoluon loreign relations. On Feb. 27 they were reported back by Senator Lodge with resolutions that the senate advise and consent to their ratification. They were placed on the calendar and on March 1 the treaty signed by the United States, the British empire, France and Japan, generally known as the "four-power treaty," was taken up in open executive session. It was debated until March 24, when it was ratified by a vote of 67 to 27, or four more than the required two-thirds. Most of the opposition came from a small group of republican senators known as "irreconcilables," the most active being Borah of Idaho, Johnson of California and La Follette of Wisconsin. They were assisted by a number of democrats led by Robinson of Arkansas. The leading champions of the treaty

were Lodge of Massachusetts, republican, and Underwood of Alabama, democrat, both members of the American delegation at the Washington conference.

### DELEGATES NOT DECEIVED.

In the course of the debate the charge was made by the opponents of the treaty that the American delegates had been imposed upon and that they had been induced to accept a plan cunningly devised by others to work injury to the interests of the United States. This point was pressed so vigorously that on March 11 Secretary of State Hughes sent the following letter to Mr. Underwood, who read it in the senate: it in the senate:

"I understand that in the course of debate in the senate upon the four-power treaty questions have been raised with respect to its authorship. It seems to be implied that in some way the American delegates have been imposed upon, or that they were induced to accept some plan cunningly contrived by others and opposed to our interests. Apart from the reflection upon the competency of the American delegates, such intimations betray a very poor and erroneous conception of the work in connection with the conference, no part of which—whether within or outside the conference meetings-was begun, prosecuted, or concluded in intrigue. Nothing could be further from the fact.

"It is, of course, wholly inconsistent with the amenities of international intercourse that the informal and confidential suggestions and conversations incident to negotiations should be stated, but the senate may be assured that a full disclosure of everything said or done in the course of the negotiations would reveal nothing derogatory to the part taken by any of the American delegates, or involve any consideration or acceptance of any position not entirely consistent with the traditional not entirely consistent with policies of this government.

"It should be remembered that the four-The should be remembered that the rourpower treaty dealt with a subject—the AngloJapanese alliance—which, as an agreement
between two powers competent to make and
continue it, was not, and in the nature of
things could not be, appropriately placed upon
the conference agenda. Technically it was a the conference agenda. Technically it was a matter outside the conference, although the conference furnished an excellent opportunity

for conversations regarding it.

"While I cannot, of course, undertake to state what was proposed or suggested in confidence by any of the delegates, I think it entirely proper to say that the negotiations relating to the four-power treaty were conducted within limitations defined by the American government. The views of this government as to the importance of the termination of the Anglo-Japanese alliance had been communicated long before the conference met and it had also been clearly stated that this government could enter into no alliance or make any commitment to the use of arms or which would impose any sort of obligation as to its decisions in future contingencies. It must deal with any exigency according to its constitutional methods. In preparation for the conference the American delegates reviewed the matter thoroughly and delegates reviewed the matter thoroughly and the entire course of the negotiations in con-nection with the four-power treaty were in accord with these principles, and, as I have said, within the limits which we defined.

"The treaty itself is very short and simple and is perfectly clear. It requires no commentify. Its engagements are easily understood and no ingenuity in argument or hostile criticism can add to them or make them other or greater than its unequivocal language

sets forth There are no secret notes or understandings.

"In view of this, the question of authorship is unimportant. It was signed by four powers, whose delegates, respectively, adopted powers, whose delegates, respectively, ado it. all having made various suggestions. it, all naving made various suggestions, I may say, however, with respect to the general course of negotiations that after assent had been given by Great Britain and Japan that France should be a party to the agreement, I prepared a draft of the treaty based upon the various suggestions which had been within the company of the control exchanged between the celegates. This draft was first submitted to Senator Lodge and Mr. This draft Root, as you were then absent on account of the death of your mother. After the approval of the American delegates who were here the draft was submitted to the representatives other powers and became the subject of dis-cussion between the heads of the delegations concerned, and, with a few changes, which were approved by the American delegates and which did not affect the spirit or substance of the proposed treaty, an agreement was reached. Immediately upon your return I went over the whole matter with you and the proposed agreement received your approval. I should add that, in order to avoid any misunderstanding, I prepared a memorandum to accompany the treaty with respect to its effect in relation to the mandated islands and reserving domestic questions.

"At this stage, while it was not strictly a conference matter, in order to insure publicity at the earliest possible moment, the treaty, as thus agreed upon, and before it had been signed, was presented by Senator Lodge to the conference in plenary session and its import and limitations stated. His statement met with the acquiescence of all.

"The treaty as thus drawn and notified was deemed to embrace the main islands of Japan. Later, in view of the sentiment both in this country and Japan, it was deemed to be preferable to exclude these main islands and a supplementary treaty was pre-pared to this effect, which designated the islands of Japan which it was to include.

"There is not the slightest mystery about the treaty or basis for suspicion regarding it. It is a straightforward document which attains one of the most important objects the American government has had in view and is of the highest importance to the maintenance of friendly relations in the far east upon a sound basis. As the president recently said, in his communication to the senate, it is on mis communication to the senate, it is an essential part of the plan to create conditions in the far east at once favorable to the maintenance of the policies we have long advocated and to an enduring peace.

"In view of this, and in view of the relation of the treaty to the results of the conference, its failure would be nothing short of a national calmity."

of a national calamity.

"CHARLES E. HUGHES."

# NO SECRET UNDERSTANDING.

The next point raised by the opponents of the treaty was that there was a secret understanding between the United States and Great Britain with reference to far eastern and Pacific questions prior to the negotiation of Pacific questions prior to the negotiation of the four-power treaty that they would cooperate against Japan if it became necessary to do so. Senator Borah referred to this 
alleged secret understanding as an "alliance" 
and in support of his contention quoted a 
speech made by Paul D. Cravath, a New York lawyer. Mr. Cravath declared that he had been misquoted and had not intended to con-vey any such meaning as that imputed to him. Senator Lodge read a telegram of denial from Mr. Cravath in the senate on March 21 and also the following letter from Secretary of State Hughes:

"My Dear Senator: I notice that the latest charge in the course of the debate over the four-power treaty is that there is a secret agreement or understanding between this gov-ernment and Great Britain with respect to Pacific matters. Any such statement is absolutely false. We have no secret understandings or agreements with Great Britain in relation to the four-power treaty or any other

"In my letter to Senator Underwood on March 11, in treaty, I said; in relation to the four-power

"There are no secret notes or understandings."

"Permit me to express the hope that the American delegates will be saved further aspersions upon their veracity and honor. "CHARLES E. HUGHES."

### FOUR-POWER TREATY RATIFIED.

On March 24, before the vote on the treaty itself was reached, the opposing senators offered twenty-two amendments to the various articles of the treaty and to the resolution of ratification, but all were rejected by substantial majorities. The committee amendment or so-called Brandegee reservation to the ratification resolution was adopted by a vote of 92 to 2. This made the resolution read as follows:

"Resolved (two-thirds of the senators present concurring therein). That the senate advise and consent to the ratification of Executive N, sixty-seventh congress second session, a treaty between the United States, the British empire, France and Japan relating to their insular possessions and insular dominons in the Pacific ocean, concluded at ashington, Dec. 13, 1921, subject to the ollowing reservation and understanding, following reservation and understanding, which is hereby made a part and condition of this resolution of ratification:

"The United States understands that under the statement in the preamble or under the terms of this treaty there is no commitment to armed force, no alliance, no obligation to join in any defense."

The amendment consisted of all that part of the resolution after "1921."

On the question of agreeing to resolution of ratification as amended the vote stood: Yeas-67.

Not Voting-2. Jones. N. Mex.

Of those voting for the ratification of the treaty 55 were republicans and 12 democrats. and of those voting against ratification 23 were democrats and 4 republicans. These four were Borah, France, Johnson and La Follette.

### SUPPLEMENTARY PACT APPROVED.

On March 27 the senate by a vote of 73 to 0 ratified the treaty supplementary to the four-power treaty. The resolution of ratification, after some discussion, was amended by the addition of a reservation offered by Sen ator Lodge, making the whole read:

"Resolved (two-thirds of the senators present concurring therein), That the senate advise and consent to the ratification of Executive O, sixty-seventh congress, s. cond session, an agreement between the United States, the British empire, France and Japan, supplementary to the treaty between the same four powers relating to their insular possessions. and insular dominions, and defining the ap-plication of the term insular possessions and insular dominions as relating to Japan, signed at Washington Feb. 6, 1922, subject to the following reservation and understanding, at Washington Feb. 6, 1922, subject to the following reservation and understanding, which is hereby made a part and condition of this resolution of ratification and which repeats the declaration of intent and understanding made by the representatives of the powers signatories of the four-power treaty relating to their insular possessions and insular dominions in the Pacific ocean.

"1. That the four-power treaty relating to Pacific possessions shall apply to the mandated islands in the Pacific ocean: Provided, however, That the making of the treaty shall not be deemed to be an assent on the part of the United States of America to the mandates and shall not preclude agreements between the United States of America and the mandatory powers, respectively, in relation to the mandated islands.

"2. That the controversies to which the second paragraph of article 1 of the four-power treaty relating to Pacific possessions refers shall not be taken to embrace questions which. according to principles of international law, lie exclusively within the domestic jurisdiction of the respective powers."

### NAVAL AND OTHER TREATIES RATIFIED.

The treaty limiting naval armament met with little opposition and was ratified on March 29 by a vote of 74 to 1, Senator France of Maryland, a republican, casting the negative vote. On the same day by a vote of 71 to 0 the senate ratified the treaty relating to the use of submarines and noxious gases in warfare. The nine-power treaty embracing principles and policies to be followed in matters relating to China was ratified on March 30 by a vote of 65 to 0 and on the same day the treaty between the nine power relating to the Chinese customs tariff was approved by a vote of 58 to 1. This completed the work of ratifying all the treaties adopted by the Washington conference.

### Armament Conference Treaties.

Following is the complete text of the treaties and resolutions approved and adopted by the Washington conference on the limitation of armament:

(1) A TREATY BETWEEN THE UNITED STATES OF AMERICA, THE BRITISH EM-PIRE, FRANCE, ITALY, AND JAPAN, LIMITING NAVAL ARMAMENT.

The United States of America, the British |

empire, France, Italy and Japan:

Desiring to contribute to the maintenance of the general peace, and to reduce the burdens

of competition in armament:

Have resolved, with a view to accomplishing these purposes, to conclude a treaty to limit their respective naval armament, and to that end have appointed as their plenipotentiaries:

The President of the United States of Amer-

and Freshuent of the United States of America: Charles Evans Hughes, Henry Cabot Lodge, Oscar W. Underwood, Elihu Root, citizens of the United States:
His Majesty the King of the United Kingdom of Great Britain and Ireland and of the British Dominions Revond the Seas Empages of or treat britain and freiand and of the British Dominions Beyond the Seas, Emperor of India: The Right Honorable Arthur James Balfour, O. M., M. P., Lord President of His Privy Council; the Right Honorable Baron Lee of Fareham, G. B. E., K. C. B., First Lord of His Admiralty; the Right Honorable Sir Auckland Campbell Geddes, K. C. R. His. Ambasedor Extraordinary and orable Sir Ambassador Extraordinary and Plenipotentiary to the United States of America; and for the Dominion of Canada: the Right Honorable Sir Robert Laird Borden, G. C. M. G., K. C.; for the Commonwealth of Australia: Senator the Right Honorable Sir Robert Laird Borden, G. C. M. G., K. C.; for the Commonwealth of Australia: Senator the Right Honorable Sir Roberts William States and States a wealth of Australia; Senator the Right Honorable George Foster Pearce, Minister of Home and Territories; for the Dominion of New Zealand: the Honorable Sir John William Salmond, K. C., Judge of the Supreme Court of New Zealand; for the Union of South Africa: the Right Honorable Arthur James Balfour, O. M., M. P.; for India: the Right Honorable Valingman Sankaranarayana Srinivasa Sastri, member of the Indian

yana Srinivasa Sastri, member of the Indian Council of State.
The President of the French Republic: Mr. Albert Sarraut, Deputy, Minister of the Colonies; Mr. Jules J. Jusserand, Ambassador Extraordinary and Plenipotentiary to the United States of America, Grand Cross of the National Order of the Legion of Honor. His Majesty the King of Italy: The Honorable Carlo Schanzer, Senator of the Kingdom; the Honorable Vittorio Rolandi Ricci, Senator of the Kingdom, His Ambassador Extraordinary and Plenipotentiary at Washington; the Honorable Luigi Albertini, Senator of the Kingdom.

ton; the Honorable Luigi Albertini, Senutor of the Kingdom.

His Majesty the Emperor of Japan: Baron Tomosaburo Kato, Minister for the Navy, Junii, a member of First Class of the Imperial Order of the Grand Cordon of the Rising Sun with the Paulownia Flower: Baron Kijuro Shidehara, His Ambassador Extraordinary and Plenipotentiary at Washington, Joshii, a member of the First Class of the Imperial Order of the Rising Sun: Mr. Masanao Hanihara, Vice-Minister for Foreign Affairs, Jushii, a member of the Second Class of the Imperial Order of the Rising Sun: Rising Sun.

Who, having communicated to each other their respective full powers, found to be in good and due form, have agreed as follows:

CHAPTER I. General Provisions Relating to the Limitation

of Naval Armament.

Article I.
The contracting powers agree to limit their respective naval armament as provided in the present treaty.

Article II.

The contracting powers may retain respectively the capital ships which are specified in

Chapter II., Part 1. On the coming into force of the present treaty, but subject to the following provisions of this article, all other capital ships, built or building, of the United States, the British Empire and Japan shall be disposed of as prescribed in Chapter II., Part

In addition to the capital ships specified in Chapter II., Part 1, the United States may complete and retain two ships of the West Virginia class now under construction. On the completion of these two ships the North Dakota and Delaware shall be disposed of as prescribed in Chapter II., Part 2.

prescribed in Chapter II., Part 2.

The British empire may, in accordance with the replacement table in Chapter II., Part 3. construct two new capital ships not exceeding 35,000 tons (35,560 metric tons) standard displacement each. On the completion of the said two ships the Thunderer, King George V., Ajax and Centurion shall be disposed of as prescribed in Chapter II., Part 2.

Article III.

Subject to the provisions of Article II., the contracting powers shall abandon their respective capital ship-building programs, and no new capital ships shall be constructed or acquired by any of the contracting powers except replacement tonnage which may be contracting powers except replacement tonnage which may be constructed or acquired as specified in Chapter II., Part 3.

Ships which are replaced in accordance with Chapter II., Part 3, shall be disposed of as prescribed in Part 2 of that chapter.

Article IV. The total capital ship replacement tonnage of each of the contracting powers shall not exceed in standard displacement, for the United States 525,000 tons (533,400 metric tons); for the British empire 525,000 tons (533,400 metric tons); for France 175,000 tons (177,800 metric tons); for Japan 315,000 tons (177,800 metric tons); for Japan 315,000 tons (200,000 tons); for Japan 315,000 metric tons); tons (320,040 metric tons).

Article V.

No capital ship exceeding 35,000 tons (35,560 metric tons) standard displacement shall be acquired by or constructed by, for or within the jurisdiction of any of the contracting powers.

Article VI. No capital ship of any of the contracting powers shall carry a gun with a caliber in excess of 16 inches (406 millimeters).

Article VII. The total tonnage for aircraft carriers of each of the contracting powers shall not exceed in standard displacement, for the United States 135,000 tons (137.160 metric tons); for the British empire 135,000 tons (137.160 metric tons); for the British empire 135,000 tons (137.160 metric); for the British empire 135,000 metric tons); for France 60.000 tons (60.960 metric tons); for Japan 81.000 tons (82.296 metric tons).

Article VIII.
replacement of aircraft carriers shall The replacement of aircraft carries shall be effected only as prescribed in Chapter II., Part 3, provided, however, that all aircraft carrier tonnage in existence or building on Nov. 12, 1921, shall be considered experimental, and may be replaced, within the total tonnage limit prescribed in Article VII., without regard to its age.

Article IX. No aircraft carrier exceeding 27.000 tons (27.432 metric tons) standard displacement shall be acquired by, or constructed by, for or within the jurisdiction of any of the con-

tracting powers.

However, any of the contracting powers may, provided that its total tonnase allowance of aircraft carriers is not thereby exceeded, build not more than two aircraft carriers, each of a tonnage of not more than 33,000 tons (33,528 metric tons) standard displacement, and in order to effect economy than contracting powers may use for any of the contracting powers may use for this purpose any two of their ships, whether constructed or in course of construction, which would otherwise be scrapped under the provisions of Article II. The armament of any aircraft carriers exceeding 27,000 tons (27,432) metric tons) standard displacement shall be in accordance with the requirements of Ar-ticle X., except that the total number of guns to be carried in case any of such guns be of a caliber exceeding 6 inches (152 millimeters), except antiaircraft guns and guns not exceeding 5 inches (127 millimeters), shall not exceed eight.

Article X.

No aircraft carrier of any of the contract-No aircraft carrier of any of the contracting powers shall carry a gun with a caliber in excess of 8 inches (203 millimeters). Without prejudice to the provisions of Article IX., if the armament carried includes guns exceeding 6 inches (152 millimeters) in caliber the total number of guns carried except antiaircraft guns and guns not exceeding 5 inches (157 millimeters) then the exceeding 5 inches (127 millimeters), shall not exceed ten. If alternatively the armament contains no guns exceeding 6 inches (152 millimeters) in caliber, the number of guns is not limited. In either case the number of antiaircraft guns and of guns not exceeding 5 inches (127 millimeters) is not limited.

Article XI.

No vessel of war exceeding 10,000 tons (10,160 metric tons) standard displacement, other than a capital ship or aircraft carrier, shall be acquired by or constructed by for or within the jurisdiction of any of the contracting powers. Vessels not specifically built as fighting ships nor taken in time of peace under government control for fighting purposes, which are employed on fleet duties or set treen transports (or in some other way for as troop transports or in some other way for the purpose of assisting in the prosecution of hostilities otherwise than as fighting ships, shall not be within the limitations of this article.

Article XII.

No vessel of war of any of the contracting powers, hereafter laid down, other than a cap-ital ship, shall carry a gun with a caliber in excess of 8 inches (203 millimeters).

Article XIII.

Except as provided in Article IX, no ship designated in the present treaty to be scrapped may be reconverted into a vessel of war.

Article XIV.

No preparations shall be made in merchant ships in time of peace for the installation of warlike armaments for the purpose of converting such ships into vessels of war, other than the necessary stiffening of decks for the mounting of guns not exceeding 6 inch (152 millimeters) caliber.

Article XV. No vessel of war constructed within the jurisdiction of any of the contracting powers jurisdiction of any of the contracting powers for a noncontracting power shall exceed the limitations as to displacement and armament prescribed by the present treaty for vessels of a similar type which may be constructed by or for any of the contracting powers; provided, however, that the displacement for aircraft carriers constructed for a noncontracting power shall in no case exceed 27,000 tons (27,432 metric tons) standard displacement. Article XVI.

Article XVI.

If the construction of any vessel of war for a noncontracting power is undertaken within the jurisdicticn of any of the contracting powers, such power shall promptly inform the other contracting powers of the date of the signing of the contract and the date on which the keel of the ship is laid; and shall also communicate to them the particulars relating to the ship prescribed in Chapter II., Part 3, Section 1 (b), (4) and (5).

Article XVII.

In the event of a contracting power being engaged in war, such power shall not use as a vessel of war any vessel of war which may be under construction within its jurisdiction for any other power, or which may have been constructed within its jurisdiction for another power and not delivered.

Article XVIII.

Each of the contracting parties undertakes not to dispose by gift, sale or any mode of transfer of any vessel of war in such a man-ner that such vessel may become a vessel of war in the navy of any foreign power.

Article XIX.

The United States, the British empire and Japan agree that the status quo at the time of the signing of the present treaty with regard to fortifications and naval bases shall

gard to fortifications and naval bases shall be maintained in their respective territories and possessions specified hereunder: (1) The insular possessions which the United States now holds or may hereafter acquire in the Pacific ocean, except (a) those adjacent to the coast of the United States, Alaska and the Panama Canal Zone, not in-cluding the Aleutian islands, and (b) the

cluding the Aleutian islands, and (b) the Hawaiian islands.

(2) Hongkong and the insular possessions which the British empire now holds or may hereafter acquire in the Pacific ocean east of the meridian of 110 degrees east longitude, except (a) those adjacent to the coast of Canada, (b) the Commonwealth of Australia and its territories, and (c) New Zealand;

(3) The following insular territories and possessions of Japan in the Pacific ocean, to wit: The Kurile islands, the Bonin islands, Amami-Oshima, the Loochoo islands, Formosa and the Pescadores, and any insular terri-

and the Pescadores, and any insular territories or possessions in the Pacific ocean which

Japan may hereafter acquire.

The maintenance of the status quo under the foregoing provisions implies that no new fortifications or naval bases shall be established in the territories and possessions specified; that no measures shall be taken to increase the existing naval facilities for the repair and maintenance of naval forces, and that no increase shall be made in the coast defenses of the territories and possessions above specified. This restriction, however, does not preclude such repair and replacement of worn-out weapons and equipment as is customary in naval and military establish-ments in time of peace.

Article XX.

The rules for determining tonnage displacement prescribed in chapter II., part 4, shall apply to the ships of each of the contracting powers.

CHAPTER II.

Rules Relating to the Execution of the Treaty -Definition of Terms.

Capital Ships Which May Be Retained by the Contracting Powers.

In accordance with article H, ships may be retained by each of the contracting powers as specified in this part.

Rules for Scrapping Vessels of War.

The following rules shall be observed for the scrapping of vessels of war which are to be disposed of in accordance with articles II. and III.

I. A vessel to be scrapped must be placed in such condition that it cannot be put to combatant use.

II. The result must be finally effected in any one of the following ways:

(a) Permanent sinking of the vessel. (b) Breaking the vessel up. This shall always involve the destruction or removal of all machinery, boilers and armor, and all deck, side and bottom plating;

side and bottom plating;
(c) C. neverting the vessel to target use exclusively. In such case all the provisions of paragraph 111. of this part, except subparagraph (6) in so far as may be necessary to enable the ship to be used as a mobile target, and except subparagraph (7), must be previously complied with. Not more than one capital ship may be retained for this purpose at one time by any of the contracting nowers.

powers.

(d) Of the capital ships which would otherwise be scrapped under the present treaty in or after the year 1931, France and Italy may each retain two seagoing vessels Italy may each retain two seagoing vessels for training purposes exclusively—that is, as gunnery or torpedo schools. The two vessels retained by France shall be of the Jean Bart class, and of those retained by Italy one shall be the Dante Alighieri, the other of the Giulio Cesare class. On retaining these ships for the purpose above stated, France and Italy respectively unde take to remove and destroy their coming towers, and not to use the said ships as vessels of war.

III. (a) Subject to the special exceptions contained in article IX, when a vessel is due for scrapping, the first stage of scrapping, which consists in rendering a ship incapable of further warlike service, shall be immediately undertaken.

ately undertaken.

(b) A vessel shall be considered incapable (8) A vessel shall be considered incapable of further warlike service when there shall have been removed and landed or else destryed in the ship: (1) All guns and essential portions of guns, fire control tops and revolving parts of all barbettes and turrets; (2) all machinery for working hydraulic or electric mountings; (3) all fire control instruments and range finders; (4) all ammuninition, expicsives and m.nes; (5) all torpedoes, war-heads and torpedo tubes; (6) all wireless telegraphy installations; (7) the coming tower and all side armor, or alternatively all main propelling machinery; and (8) all landing and flying-off platforms and all other aviation accessories.

(8) all landing and flying-on partoring and all other aviation accessories.

IV. The periods in which scrapping of vessels is to be effected are as follows:

(a) In the case of vessels t. be scrapped under the first paragraph of article II, the work of rendering the vessels incapable of further warlike service, in accordance with accessionable III of this part, shall be completed baragraph III. of this part, shall be completed within six months from the coming into force of the present treaty, and the scrapping shall be finally effected within eighteen months

of the present treaty, and the scrapping shall be finally effected within eighteen months from such coming into force.

(b) In the case of vessels to be scrapped under the second and third paragraphs of article II, or under article III, the work of rendering the vessel incapable of further warlike service in accordance with paragraph III, of this pact shall be commenced not later than the date of completion of its successor, and shall be finished within six months from the date of such completion. The vessel shall be finish scrapped in accordance with parathe date of such completion. The vessel shall be finally scrapped, in accordance with paragraph II, of this part, within eighteen months from the date of completion of its successor. If, however, the completion of the new vessel be delayed, then the work of rendering the old vessel incapable of further warlike service old vessel incapacite of further warfike service in accordance with paragraph III, of this part shall be commenced within four years from the laying of the keel of the new vessel, and shall be finished within six months from the date on which such work was commenced, and the old vessel shall be six . finally scrapped in accordance with paragraph II, of this part within eighteen months from the date when the work of rendering it incapable of further warlike service was commenced

### Part 3. Replacement.

The replacement of capital ships and aircraft carriers shall take place according to the rules in section I. and the tables in section II. of this part.

Section I. Rules for Replacement.

Section I. Rules for Replacement.

(a) Capital ships and aircraft carriers twenty years after the date of their completion may, except as otherwise provided in article VIII. and in the tables in section II. of this part, be replaced by new construction, but within the limits prescribed in article IV. and article VII. The keels of such new construction may, except as otherwise provided in article VIII. and in the tables in section II. of this part, be laid down not searlier than seventeen years from the date of completion of the tonnage to be replaced, provided, however, That no capital ship tonnage with the exception of the ships referred to in the third paragraph of article II. and the replacement tonnage specifically mentioned in section II. of this part, shall be laid down until ten years from Nov. (b) Each of the contracting powers shall

(b) Each of the contracting powers shall communicate promptly to each of the other contracting powers the following information. (1) The names of the capital ships and air-

craft carriers to be replaced by new construction;
(2) The date of governmental authorization

of replacement tonnage:

metric tons of each new ship to be laid down, and the principal dimensions—namely, length at waterline, extreme beam at or below waterline, mean draft at standard displace-

waterine, hear draft at standard displacement;

(5) The date of completion of each new ship and its standard displacement in tone and metric tons, and the principal dimensions—namely, length at waterline, extreme beam at or below waterline, mean draft at standard waterline, waterline, mean draft at standard waterline, waterline,

at or below waterline, mean draft at standard displacement—at time of completion.

(c) In case of loss or accidental destruction of capital ships or aircraft carriers, they may immediately be replaced by new construction subject to the tonnage limits prescribed in articles IV. and VII. and in conformity with the other provisions of the present treaty, the regular replacement program being deemed to be advanced to that extent

gram being deemed to be advanced to that extent.

(d) No retained capital ships or aircraft carriers shall be reconstructed except for the purpose of providing means of defense against air and submarine attack, and subject to the following rules: The contracting powers may, for that purpose, equip existing tonage with bulge or blister or anti-air-attack deck protection, providing the increase of displacement thus effected does not exceed 3.000 tons (3,048 metric tons) displacement for each ship. No alterations in side armor, number or general type of mountin caliber, number or general type of mounting of main armament shall be permitted ex-

cept:

(1) In the case of France and Italy, which countries within the limits allowed for bulge countries within the minus anowae for onge may increase their armor protection and the caliber of guns now carried on their existing capital ships so as not to exceed 16 inches (406 millimeters), and (2) The British empire shall be permitted

(3) The date of laying the keels of re-placement tonnage; (4) The standard displacement in tons and commenced but temporarily suspended.

\*Japan may retain the Shikishima and capital ships of 35,000 tons standard displace-Asahi for noncombatant purposes, after comment, laid down and completed in the years plying with the provisions of part 2, III. (b). specified. [Note applicable to all the tables Note.—A, B, C, D, etc.. represent individual in section II.]

The order above prescribed in which ships are to be scrapped is in accordance with their age. It is understood that when replacement begins according to the above tables the order of scrapping in the case of the ships of each of the contracting powers may be varied at its option. Provided however, That such power shall scrap in each year the number of ships above stated.

### Part 4. Definitions.

For the purpose of the present treaty, the following expressions are to be understood in the sense defined in this part.

### Capital Ship.

A capital ship, in the case of ships here-after built, is defined as a vessel of war, not an aircraft carrier, whose displacement ex-ceeds 10,000 tons (10,160 metric tons) stand-ard displacement, or which carries a gun with a caliber exceeding 8 inches (203 millimeters).

### Aircraft Carrier.

An aircraft carrier is defined as a vessel of An aircraft carrier is defined as a vessel of war with a displacement in excess of 10,000 tons (10,160 metric tons) standard displacement designed for the specific and exclusive purpose of carrying aircraft. It must be so constructed that aircraft can be launched thereform and landed thereon, and not designed and constructed for carrying a more

powerful armament than that allowed to it under article IX. or article X., as the case may be.

### Standard Displacement.

The standard displacement of a ship is the displacement of the ship complete, fully manned, engined and equipped ready for sea, manned, engined and equipped ready for sea, including all armament and ammunition, equipment, outfit, provisions and fresh water for crew, miscellaneous stores and implements of every description that are intended to be carried in war, but without fuel or reserve feed water on board.

The word "ton" in the present treaty, except in the expression "metric tons," shall be understood for more the ton of 2,240.

be understood to me pounds (1,016 kilos). to mean the ton of 2,240

pounds (1,016 kilos). Vessels now completed shall retain their present ratings of displacement tonnage in accordance with their national system of measurement. However, a power expressing displacement in metric tons shall be considered for the application of the present treaty as owning only the equivalent displacement in tons of 2,240 pounds.

A vessel completed hereafter shall be rated at its displacement tonnage when in the standard condition defined herein.

standard condition defined herein.

### CHAPTER III.

Miscellaneous Provisions—Article XXI.

If during the term of the present treaty the requirements of the national security of

any contracting power in respect of naval defense are, in the opinion of that power, materially affected by any change of circumstances, the contracting powers will, at the request of such power, meet in conference with a view to the reconsideration of the provisions of the treaty and its amendment by mutual agreement.

In view of possible technical and scientific developments, the United States, after consultation with the other contracting powers, shall arrange for a conference of all the contracting powers, which shall convene as soon as possible after the expiration of eight years from the coming into force of the present treaty to consider what changes, if any, in the treaty may be necessary to meet such developments. velopments.

Article XXII.

Whenever any contracting power shall become engaged in a war which in its opinion affects the naval defense of its national security such power may, after notice to the other contracting powers, suspend for the period of hostilities its obligations under the present treaty other than those under articles XIII. and XVII. Provided, That such power shall notify the other contracting powers that the emergency is of such a character as to the emergency is of such a character as to

suspension. require such

require such suspension.

The remaining contracting powers shall in such case consult together with a view to agreement as to what temporary modifications, if any, should be made in the treaty as between themselves. Should such consultation not produce agreement, duly made in accordance with the constitutional methods of the respective powers, any one of said contracting powers may, by giving notice to the other contracting powers, suspend for the period of hostilities its obligation under the present treaty, other than those under articles XIII. and XVII

of nostlities its configuration and the provisions of the present treaty, other than those under articles XIII. and XVII.

On the cessation of hostilities the contracting powers will meet in conference to consider what modifications, if any, should be made in the provisions of the present treaty.

### Article XXIII.

The present treaty shall remain in force until Dec. 31, 1936, and in case none of the contracting powers shall have given notice two years before that date of its intention to terminate the treaty, it shall continue in force until the expiration of two years from the date on which notice of termination shall be given by one of the contracting powers, whereupon the treaty shall terminate as regards all contracting powers. Such notice shall be communicated in writing to the government of the United States, which shall

immediately transmit a certified copy of the notification to the other powers and inform them of the date on which it was received. The notice shall be deemed to have been given and shall take effect on that date. In the event of notice of termination being given by the government of the United States, such notice shall be given to the diplomatic representatives at Washington of the other contracting powers, and the notice shall be deemed to have been given and shall take effect on the date of the communication made to the said diplomatic representatives.

to the said diplomatic representatives.
Within one year of the date on which a notice of termination by any power has taken effect, all the contracting powers shall meet

in conference.

Article XXIV.

The present treaty shall be ratified by the contracting powers in accordance with their respective constitutional methods and shall take effect on the date of the deposit of all the ratifications, which shall take place at Washington as soon as possible. The government of the United States will transmit to the other contracting powers a certified cony the other contracting powers a certified copy of the proces verbal of the deposit of ratifications.

The present treaty, of which the French and English texts are both authentic, shall remain deposited in the archives of the government of the United States, and duly certified copies thereof shall be transmitted by that government to the other contracting

powers.

In faith whereof the above-named plenipotentiaries have signed the present treaty.

Done at the city of Washington the sixth day of February, One Thousand Nine Hundred and Twenty-Two.

tor of the Kingdom.

His Majesty the Emperor of Japan: Baron Tomosaburo Kato, Minister for the Navy, Junii, a member of the First Class of the Imperial Order of the Grand Cordon of the Rising Sun with the Paulownia Fiower: Baron Kijuro Shidehara, His Ambassador Extraordinary and Plenipotentiary at Washington, Joshii, a member of the First Class of the Imperial Order of the Rising Sun; Mr. Masanao Hanihara, Vice-Minister for Foreign Affairs, Jushii, a member of the Second Class of the Imperial Order of the Rising Sun.

Who having communicated their full

Who, having communicated their full powers, found in good and due form, have agreed as follows:

### Article I.

The signatory powers declare that among the rules adopted by civilized nations for the protection of the lives of neutrals and non-combatants at sea in time of war, the following are to be deemed an established part of international law: international law:

(1) A merchant vessel must be ordered to submit to visit and search to determine its character before it can be seized.

A merchant vessel must not be attacked unless it refuse to submit to visit and search after warning, or to proceed as directed after seizure.

A merchant vessel must not be destroyed unless it refuse to submit to visit and first placed in safety:

(2) Belligerent submarines are not under any circumstances exempt from the universal rules above stated; and if a submarine can-not capture a me chant vessel in conformity with these rules the existing law of nations requires it to desist from attack and from seizure and to permit the merchant vessel to proceed unmolested.

### Article II.

The signatory powers invite all other civilized powers to express their assent to the foregoing statement of established law so that there may be a clear public understanding throughout the world of the standards of conduct by which the public opinion of the world is to pass judgment upon future belligerents belligerents.

Article III.

The signatory powers, desiring to insure the enforcement of the humane rules of existing law declared by them with respect to attacks upon and the seizure and destruction of merchant ships, further declare that any person in the service of any power who shall violate any of those rules, whether or not such person is under orders of a governmental superior, shall be deemed to have violated the laws of war and shall be liable to trial and punishment as if for an act of piracy and may be brought to trial before the civil or military authorities of any power within or military authorities of any power within the jurisdiction of which he may be found.

Article IV.

The signatory powers recognize the practical impossibility of using submarines as commerce

destroyers without violating as they were violated in the recent war of 1914-1918, the requirements universally accepted by civilized nations for the protection of the lives of neutrals and noncombatants, and to the end that the prohibition of the use of submarines as commerce destroyers shall be universally accepted as part of the law of rations. accepted as a part of the law of nations, they now accept that prohibition as henceforth binding as between themselves and they invite all other nations to adhere thereto.

### Article V.

The use in war of asphyxiating, poisonous or other gases, and all analogous liquids, materials or devices, having been justly condemned by the general opinion of the civilized world, and a prohibition of such use having been declared in treaties to which a majority of the civilized powers are parties,

The signatory powers, to the end that this prohibition shall be universally accepted as a part of international law binding alike the conscience and practice of nations, declare their assent to such prohibition, agree to be bound thereby as between themselves and invite all other civilized nations to adhere thereto.

### Article VI.

The present treaty shall be ratified as soon as possible in accordance with the constitu-tional methods of the signatory powers and shall take effect on the deposit of all the ratifications, which shall take place at Washington.

The government of the United States will transmit to all the signatory powers a certified copy of the proces verbal of the deposit of ratifications.

The present treaty, of which the French and English texts are both authentic, shall re-main deposited in the archives of the government of the United States, and duly certified copies thereof will be transmitted by that government to each of the signatory powers.

### Article VII.

The government of the United States will

The government of the United States will further transmit to each of the nonsignatory powers a duly certified copy of the present treaty and invite its adherence thereto.

Any nonsignatory power may adhere to the present treaty by communicating an instrument of adherence to the government of the United States, which will thereupon transmit to each of the signatory and adhering powers a certified copy of each instrument of adherence. herence.

In faith whereof, the above named pleni-potentiaries have signed the present treaty. Done at the city of Washington, the sixth day of February, one thousand nine hundred

and twenty two.

C.; for the Commonwealth of Australia: Senator the Right Honorable George Foster Pearce, Minister for Home and Territories; for the Dominion of New Zealand: The Honorable Sir John William Salmond, K. C., Judge of the Supreme Court of New Zealand; for the Union of South Africa: The Right Honorable Arthur James Balfour, O. M., M. P.; for India: The Right Honorable Valingman Sankaranarayana Srinivasa Sastri, Member of the Indian Council of State;
The President of the Republic of China: Mr. Sao-Ke Alfred Sze, Envoy Extraordinary and Minister Plenipotentiary at Washington; Mr. V. K. Wellington Koo, Envoy Extraordinary

and Minister Plenipotentiary at London; Mr. Chung-Hui Wang, former Minister of Justice.

The President of the French Republic: Mr. Albert Sarraut, Deputy, Minister of the Colonies; Mr. Jules J. Jusserand, Ambassador Extraordinary and Plenipotentiary to the United States of America, Grand Cross of the National Order of the Legion of Honor;

His Majesty the King of Italy: The Honorable Carlo Schanzer, Senator of the Kingdom; The Honorable Vittorio Rolandi Ricci, Senator of the Kingdom, His Ambassador Extraordinary and Plenipotentiary at Washington; the Windal

ator of the Kingdom;

His Majesty the Emperor of Japan: Baron Tomosaburo Kato, Minister for the Navy, Junii, a member of the First Class of the Imperial Order of the Grand Corden of the Risirg Sun with the Paulownia Flower; Baron Kijuro Shidehara, His Ambassador Baron Kljuro Shidehara, His Ambassador Extraordinary and Plenipotentiary at Wash-ington, Joshii, a member of the First Class of the Imperial Order of the Rising Sun; Mr. Masanao Hanihara, Vice-Minister for Foregn Affairs, Jushii, a member of the Second Class of the Imperial Order of the Rising Sun;

Her Majesty the Queen of the Netherlands: Jonkheer Frans Beelaerts van Blokland, Her Envoy Extraordinary and Minister Plenipo-tentiary: Jonkheer Willem Hendrik de Beaufort, Minister Plempotentiary, Charge d'Affaires at Washington;

The President of the Portuguese Republic:
Mr. Jose Francisco de Horta Machado da
Franca, Viscount d'Alte, Envoy Extraordinary and Minister Plenipotentiary at Washington: Mr. Ernesto Julio de Carvalho e
Vasconcelos, Captain of the Portuguese
Navy, Technical Director of the Colonial Office.

Who, having communicated to each other their full powers, found to be in good and due form, have agreed as follows:

### Article I.

The contracting powers, other than China, agree:

(1) To respect the sovereignty, the independence, and the territorial and administrative integrity of China;

(2) To provide the fullest and most un-embarrassed opportunity to China to develop and maintain for herself an effective and stable government:

(3) To use their influence for the purpose of effectually establishing and maintaining the principle of equal opportunity for the commerce and industry of all nations throughout the territory of China;

(4) To refrain from taking advantage of conditions in China in order to seek special rights or privileges which would abridge the rights of subjects or citizens of friendly states, and from countenancing action inimical to the sequenty of such states. to the security of such states.

### Article II.

The contracting powers agree not to enter into any treaty, agreement, arrangement, or understanding, either with one another, or individually or collectively, with any power or powers, which would infringe or impair the principles stated in Article I.

### Article III.

With a view to applying more effectually the principles of the apen door or equality of opportunity in China for the trade and industry of all nations, the contracting powers.

other than China, agree that they will not seek, nor support their respective nationals in seeking:

(a) Any arrangement which might purport to establish in favor of their interests any general superiority of rights with respect to commercial or economic development in any designated region of China;

(b) Any such monopoly or preference as would deprive the nationals of any other power of the right of undertaking any legitimate trade or industry in China or of par-ticipating with the Chinese government, or with any local authority, in any category of public enterprise, or which by reason of its scope, duration or geographical extent is calculated to frustrate the practical application of the principle of equal opportunity.

It is understood that the foregoing stipulations of this article are not to be so con-strued as to prohibit the acquisition of such properties or rights as may be necessary to the conduct of a particular commercial, in-dustrial, or financial undertaking or to the encouragement of invention and research.

China undertakes to be guided by the principles stated in the foregoing stipulations of this article in dealing with applications for economic rights and privilege from governments and nationals of all foreign countries, whether parties to the present treaty or not.

### Article IV.

The contracting powers agree not to support any agreements by their respective nationals with each other designed to create spheres of influence or to provide for the enjoyment of mutually exclusive opportunities in designation. exclusive opportunities in designated parts of Chinese territory.

### Article V.

China agrees that, throughout the whole of the railways in China, she will not exercise or permit unfair discrimination of any kind. In particular there shall be no discrimination whatever, direct or indirect, in respect of charges or of facilities on the ground of the nationality of passengers or the countries from which or to which they are proceeding, or the origin or ownership of goods or the or the origin or ownership of goods or the country from which or to which they are consigned, or the nationality or ownership of the ship or other means of conveying such passengers or goods before or after their transport on the Chinese railways

The contracting powers, other than China, assume a corresp nding obligation in respect of any of the aforesaid railways over which they or their nationals are in a position to exercise any control in virtue of any concession, special agreement or otherwise.

# Article VI.

aghe contracting powers, other than China, agree fully to respect China's rights as a neutral in time of war to which China is not a party; and China declares that when she is a neutral she will observe the obligations of neutrality.

## Article VII.

The contracting powers agree that, whenever a situation arises which in the opinion of any one of them involves the application of the stipulations of the present treaty, and renders desirable discussion of such applica-tion, there shall be full and frank communi-cation between the contracting powers concerned.

### Article VIII.

Powers not signatory to the present treaty which have governments recognized by the

[L. S.]

signatory powers and which have treaty re-lations with China, shall be invited to adhere to the present treaty. To this end the gov-ernment of the United States will make the necessary communications to nonsignatory powers and will inform the contracting powers of the replies received. Adherence by any power shall become effective on receipt of notice thereof by the government of the United States.

The present treaty shall be ratified by the contracting powers in accordance with their respective constitutional methods and shall take effect on the date of the deposit of all the ratifications, which shall take place at Washington as soon as possible. The government of the United States will transmit to the other contracting powers a certified copy of the proces verbal of the deposit of ratifications. ratifications.

The present treaty, of which the French and English texts are both authentic, shall remain deposited in the archives of the government of the United States, and duly certified copies thereof shall be transmitted by that government to the other contracting powers.

In faith whereof the above named plenipotentiaries have signed the present treaty.

Office.
Who, having communicated to each other their full powers, found to be in good and due form, have agreed as follows:

### Article I.

The representatives of the contracting powers having adopted, on the 4th day of February, 1922, in the city of Washington, a resolution, which is appended as an annex to this

article with respect to the revision of Chinese customs duties, for the purpose of making such duties equivalent to an effective 5 per such duties equivalent to an effective 5 per centum ad valorem, in accordance with existing treaties concluded by China with other nations, the contracting powers hereby confirm the said resolution and undertake to accept the tariff rates fixed as a result of such revision. The said tariff rates shall become effective as soon as possible but not earlier than two months after publication thereof.

Annex.

With a view to providing additional revenue to meet the needs of the Chinese government, the powers represented in this conference— namely, the United States of America, Belgium,

the powers represented in this conferencenamely, the United States of America, Belgium,
the British empire. China, France, Italy, Japan, the Netherlands and Portugal—agree:
That the customs schedule of duties on imports into China adopted by the tariff revision
commission at Shanghai on Dec. 19, 1918,
shall forthwith be revised so that the rates
of duty shall be equivalent to 5 per cent effective, as provided for in the several commercial treaties to which China is a party.
A revision commission shall meet at Shanghai, at the earliest practicable date, to effect

hai, at the earliest practicable date, to effect this revision forthwith and on the general

lines of the last revision.

This commission shall be composed of representatives of the powers above named and of representatives of any additional powers having governments at present recognized by the powers represented at this conference and who have treaties with China providing for a tariff on imports and exports not to exceed 5 per cent ad valorem and who desire to participate therein.

The revision shall proceed as rapidly as possible with a view to its completion within four months from the date of the adoption of this resolution by the conference on the limitation of armament and Pacific and far east-

ern questions.

The revised tariff shall become effective as soon as possible but not earlier than two months after its publication by the revision commission.

The government of the United States, as convener of the present conference, is requested forthwith to communicate the terms of this resolution to the governments of powers not represented at this conference but who participated in the revision of 1918 afore-

Article II.

Immediate steps shall be taken, through a special conference, to prepare the way for the speedy abolition of likin and for the fulfillment of the other conditions laid down in article VIII. of the treaty of Sept. 5, 1902, between Great Britain and China; in articles IV. and V. of the treaty of Oct. 8, 1903, between the United States and China, and in article I. of the supplementary treaty of Oct. 8, 1903, between Japan and China, with a view to levying the surtaxes provided for in those articles. view to levying those articles.

The special conference shall be composed of The special conference shall be composed of representatives of the signatory powers, and of such other powers as may desire to participate and may adhere to the present treaty, in accordance with the provisions of article VIII., in sufficient time to allow their representatives to take part. It shall meet in China within three months after the coming into force of the present treaty, on a day and at a place to be designated by the Chinese government.

Article III.

The special conference provided for in article II. shall consider the interim provisions to be applied prior to the abolition of likin and the fulfillment of the other conditions override all stipulations of treaties between

laid down in the articles of the treaties mentioned in article II.; and it shall authorize the levying of a surtax on dutiable imports as from such date, for such purposes, and subject to such conditions as it may determine.

The surtax shall be at a uniform rate 21/2 per centum ad valorem, provided, that in case of certain articles of luxury which, in the opinion of the special conference, can bear a greater increase without unduly impeding trade, the total surtax may be increased but may not exceed 5 per centum ad valorem.

Article IV.

Following the immediate revision of the customs schedule of duties on imports into China, mentioned in article I., there shall be a further revision thereof to take effect at the expiration of four years following the completion of the aforesaid immediate revision, in order to insure that the customs duties shall correspond to the ad valorem rates fixed by the special conference provided for in article II.

Following this further revision there shall be, for the same purpose, periodical revisions of the customs schedule of duties on imports into China every seven years, in lieu of the decennial revision authorized by existing trea-

ties with China.

In order to prevent delay, any revision made in pursuance of this article shall be effected in accordance with rules to be prescribed by the special conference provided for in article

Article V.

In all matters relating to customs duties there shall be effective equality of treatment and opportunity for all the contracting pow-

Article VI.

The principle of uniformity in the rates of customs duties levied at all the land and maritime frontiers of China is hereby recognized. The special conference provided for in martine fronters of China is hereby tecopinized. The special conference provided for in article II, shall make arrangements to give practical effect to/this principle; and it is authorized to make equitable adjustments in those cases in which a customs privilege to be abolished was granted in return for some local economic advantage.

In the meantime, any increase in the rates of customs duties resulting from tariff revi-sion or any surtax hereafter imposed in pursuance of the present treaty shall be levied at a uniform rate ad valorem at all land and maritime frontiers of China.

Article VII.

The charge for transit passes shall be at the rate of 2½ per centum ad valorem until the arrangements provided for by article II. come into force.

Article VIII.

Powers not signatory to the present treaty whose governments are at present recognized by the signatory powers, and whose present treaties with China provide for a tariff on im-ports and exports not to exceed 5 per centum ad valorem, shall be invited to adhere to the present treaty.

The government of the United States undertakes to make the necessary communications for this purpose and to inform the governments of the contracting powers of the replies received. Adherence by any power shall be-come effective on receipt of notice thereof by the government of the United States.

China and the respective contracting powers which are inconsistent therewith, other than stipulations according most favored nation treatment.

Article X.

The present treaty shall be ratified by the contracting powers in accordance with their respective constitutional methods and shall take effect on the date of the deposit of all the ratifications, which shall take place at Washington as soon as possible. The government of the United States, and duly certified copies thereof shall be transmitted by that government to the other contracting powers. In faith whereof the above-named plenipotentiaries have signed the present treaty. Done at the city of Washington the 6th day of February, one thousand nine hundred and twenty-two.

## RESOLUTIONS.

### NO. 1-RESOLUTION FOR A COMMISSION OF JURISTS TO CONSIDER AMENDMENT OF LAWS OF WAR.

The United States of America, the British empire, France, Italy and Japan have agreed: the British I. That a commission composed of not more

than two members representing each of the above-mentioned powers shall be constituted to consider the following questions: (a) Do existing rules of international law adequately cover new methods of attack or defense recover new methods of attack or defense resulting from the introduction or development, since The Hague conference of 1907, of new agencies of warfare? (b) If not so, what changes in the existing rules ought to be adopted in consequence thereof as a part of the law of nations?

II. That notices of appointment of the mem-

bers of the commission shall be transmitted to the government of the United States of America within three months after the to the government of the United States of Adopted by the conference on the limitation of armament at the sixth plenary session adjournment of the present conference, which, Feb. 4, 1922.

after consultation with the powers concerned, will fix the day and place for the meeting of the commission.

III. That the commission shall be at liberty to request assistance and advice from experts in international law and in land, naval and aerial warfare.

That the commission shall report its IV. conclusions to each of the powers represented in its membership.

Those powers shall thereupon confer as to the acceptance of the report and the course to be followed to secure the consideration of its recommendations by the other civilized powers.

## TING JURISDICTION OF COMMISSION OF JURISTS PRO-VIDED IN RESOLUTION NO. 1. NO. 2—RESOLUTION LIMITING

Resolved. That it is not the intention of relating to submarines or the use of noxious the powers agreeing to the appointment of a gases and chemicals already adopted by the commission to consider and report upon the rules of international law respecting new Adopted by the conference on the limitarules of international law respecting new agencies of warfare that the commission shall review or report upon the rules or declarations Feb. 4, 1922.

tion of armament at the sixth plenary session

## NO. 3-RESOLUTION REGARDING A BOARD OF REFERENCE FOR FAR EASTERN QUESTIONS.

The representatives of the powers assembled at the present conference at Washington.

The United States of America, Belgium, the British empire, China, France, Italy, Japan, the Netherlands and Portugal:

Desiring to provide a procedure for dealing Desiring to provide a procedure for dealing with questions that may arise in connection with the execution of the provisions of articles III. and V. of the treaty to be signed at Washington on Feb. 6, 1922, with reference to their general policy designed to stabilize conditions in the far east, to safeguard the rights and interests of China and to promote intercourse between China and the other pow-

ers upon the basis of equality of opportunity:

Resolve. That there shall be established in China a board of reference, to which any questions arising in connection with the execution of the aforesaid articles may be referred for investigation and report.

The special conference provided for in article II, of the treaty to be signed at Washington on Feb. 6, 1922, with reference to the Chinese customs tariff shall formulate for the approval of the powers concerned a detailed

plan for the constitution of the board.

Adopted by the conference on the limitation of armament at the sixth plenary session Feb.

4, 1922.

### NO. 4-RESOLUTION REGARDING EXTRATERRITORIALITY IN CHINA.

The representatives of the powers hereinafter named, participating in the discussion of Pacific and far eastern questions in the conference on the limitation of armament, to wit: the United States of America, Belgium, the British empire, France, Italy, Japan, the Neth-erlands and Portugal:

erlands and Portugal:
Having taken note of the fact that in the
treaty between Great Britain and China dated
Sept. 5, 1902; in the treaty between the
United States of America and China dated
Oct. 8, 1903, and in the treaty between Japan
and China dated Oct. 8, 1903, these several
powers have agreed to give every assistance
toward the attainment by the Chinese government of its expressed desire to reform its

judicial system and to bring it into accord with that of western nations, and have de-clared that they are also "prepared to relin-quish extraterritorial rights when satisfied that the state of the Chinese laws, the arrange-ments for their administration and other con-

Being sympathetically disposed toward fur-thering in this regard the aspiration to which the Chinese delegation gave expression on Nov. 16, 1921, to the effect that "immediately, or as soon as circumstances will permit, existing limitations upon China's political, jurisdictional and administrative freedom of action are to be removed":
Considering that any determination in re-

gard to such action as might be appropriate to this end must depend upon the ascertain-

to this end must depend upon the ascertainment and appreciation of complicated states of fact in regard to the laws and the judicial system and the methods of judicial administration of China, which this conference is not in a poition to determine;

Have resolved, That the governments of the powers above named shall establish a commission (to which each of such governments shall appoint one member) to inquire into the present practice of extraterricial jurisshall appoint one member) to inquire into the present practice of extraterritorial jurisdiction in China and into the laws and the judicial system and the methods of judicial administration of China with a view to reporting to the governments of the several powers above named their findings of fact in regard to these matters and their recommendations as to such means as they may find suitable to improve the existing conditions of the administration of justice in China and to assist and further the efforts of the Chinese government to effect such legislation and judicial reforms as would warrant the several cial reforms as would warrant the several powers in relinquishing, either progressively or otherwise, their respective rights of extraterritoriality;

That the commission herein contemplated shall be constituted within three months after the adjournment of the conference in accordance with detailed arrangements to be hereafter agreed upon by the governments of the powers above named and shall be instructed to submit its report and recommendations within one year after the first meeting of the

commission;

That each of the powers above named shall be deemed free to accept or to reject all or any portion of the recommendations of the commission herein contemplated, but that in

no case shall any of the said powers make its acceptance of all or any portion of such recommendations either directly or indirectly dependent on the granting by China of any special concession, favor, benefit or immunity, whether political or economic.

Additional Resolution.

That the nonsignatory powers having by treaty extraterritorial rights in China may accede to the resolution affecting extraterritoriality and the administration of justice in China by depositing within three months after the adjournment of the conference a written notice of accession with the government of the United States for communication by it to each of the signatory powers.

Additional Resolution.

That China, having taken note of the resolutions affecting the establishment of a commission to investigate and report upon extra-territoriality and the administration of justices. territoriality and the administration of justice in China, expresses its satisfaction with the sympathetic disposition of the powers hereinbefore named in regard to the aspiration of the Chinese government to secure the abolition of extraterritoriality in China and declares its intention to appoint a representative who shall have the right to sit as a member of the said commission, it being understood that China shall be deemed free to accept or to reject any or all of the recommendations of the commission. Furthermore, China is prepared to co-operate in the work of this commission and to afford to it every possible facility for the successful accomplishment of its tasks.

Adopted by the conference on the limitation

Adopted by the conference on the limitation of armament at the fourth plenary session

Dec. 10, 1921.

## NO. 5. RESOLUTION REGARDING FOREIGN POSTAL AGENCIES IN CHINA.

A. Recognizing the justice of the desire expressed by the Chinese government to secure the abolition of foreign postal agencies in China, save or except in leased territories or as otherwise specifically provided by treaty, it is resolved:

- (1) The four powers having such postal agencies agree to their abandonment subject to the following conditions: (a) That an efficient Chinese postal service is maintained. (b) That an assurance is given by the Chinese recomment that they contamilate in change government that they contemplate no change in the present postal administration so far as the status of the foreign co-director-general
- (2) To enable China and the powers concerned to make the necessary dispositions, 1, 1922.

this arrangement shall come into force and effect not later than Jan. 1, 1923.

B. Pending the complete withdrawal of foreign postal agencies, the four powers coneign postal agencies, the four powers con-cerned severally undertake to afford full fa-cilities to the Chinese customs authorities to examine in those agencies all postal matter (excepting ordinary letters, whether registered or not, which mone external examination. or not, which upon external examination appear plainly to contain only written matter) passing through them, with a view to ascertaining whether they contain articles which are dutiable or contraband or which otherwise contravene the customs regulations or

## NO. 6. RESOLUTION REGARDING ARMED FORCES IN CHINA.

the powers have from time to time stationed armed forces, including police and railway guards, in China to protect the lives and property of foreigners lawfully in China;

And whereas, it appears that certain of these armed forces are maintained in China without the authority of any treaty or agree-

And whereas, the powers have declared their intention to withdraw their armed forces now on duty in China without the authority of on duty in Unina without the authority of any treaty or agreement, whenever China shall assure the protection of the lives and property of foreigners in China; And whereas, China has declared her intention and capacity to assure the protection of the lives and property of foreigners; in China:

the lives and property of foreigners in China; Now, to the end that there may be clear understanding of the conditions upon which, in each case, the practical execution of those intentions must depend;

It is resolved: That the diplomatic representatives in Peking of the powers now in conference at Washington, to wit, the United States of America, Belgium, the British empire, France, Italy, Japan, the Netherlands and Portugal, will be instructed by their respective governments, whenever China shall so request, to associate themselves with three representatives of the Chinese government to conduct collectively a full and impartial in quiry into the issues raised by the foregoing declarations of intention made by the powers and by China, and shall thereafter prepare a full and comprehensive report setting out without reservation that full and comprehensive report setting out without reservation their findings of fact and without reservation their findings of fact and their opinion with regard to the matter hereby referred for inquiry, and shall furnish a copy of their report to each of the nine governments concerned, which shall severally make public the report with such comment as each may deem appropriate. The representatives of any of the powers may make or join in

minority reports stating their differences, if

any, from the majority report.

That each of the powers above named shall be deemed free to accept or reject all or any of the findings of fact or opinion expressed in the report, but that in no case shall any of the said powers make its acceptance of all or any of the findings of fact or opinions either

directly or indirectly dependent on the grant-ing by China of any special concession, favor, benefit or immunity, whether political or economic.

Adopted by the conference on the limitaton of armament at the fifth plenary session Feb.

### NO. 7.-RESOLUTION REGARDING RADIO STATIONS IN CHINA AND ACCOMPANYING DECLARATIONS.

The representatives of the powers hereinafter named participating in the discussion of Pacific and far eastern questions in the conference on the limitation of armament—to wit: The United States of America, Belgium, the British empire, China, France, Italy, Japan, the Netherlands and Portugal,

Have resolved: 1. That all radio stations in China, whether maintained under the provisions of the international protocol of Sept. 7, 1901, or in fact maintained in the grounds of any of the foreign legations in China, shall be limited in their use to sending and receiving government messages and shall not receive or send commercial or personal or unofficial messages, including press matter; Provided, however, That in case all other telegraphic communication is in case all other telegraphic communication is interrupted, then, upon official notification, ac-companied by proof of such interruption to the Chinese ministry of communications, such stations may afford temporary facilities for commercial, personal or unofficial messages, including press matter, until the Chinese gov-ernment has given notice of the termination of the interruption of the interruption.

2. All radio stations operated within the territory of China by a foreign government or the citizens or subjects thereof under treaties concessions of the government of China shall limit the messages sent and received by the terms of the treaties or concessions under which the respective stations are maintained.

3. In case there be any radio station maintained in the territory of China by a foreign government or citizens or subjects thereof without the authority of the Chinese govern-ment, such station and all the plant, appara-tus and material thereof shall be transferred to and taken over by the government of China, to be operated under the direction of the Chinese ministry of communications upon fair and full compensation to the owners for the value of the installation, as soon as the Chinese ministry of communications is prepared to operate the same effectively for the general public benefit.

4. If any questions shall arise as to the radio stations in leased territories, in the South Manchurian railway zone or in the French concession at Shanghai, they shall be regarded as matters for discussion between the Chinese government and the governments concerned.

5. The owners or managers of all radio stations maintained in the territory of China by foreign powers or citizens or subjects thereof shall confer with the Chinese ministry of communications for the purpose of seeking a common arrangement to avoid interference in the use of wave lengths by wireless stations in China, subject to such general arrangements as may be made by an international conference convened for the revision of the rules established by the international radio telegraph convention signed at London, July 5, 1912.

Adopted by the conference on the limitation of armament at the fifth plenary session Feb.

Declaration Concerning the Resolution Radio Stations in China of Dec. 7, 1921.

The powers other than China declare that nothing in paragraphs 3 or 4 of the resolutions of Dec. 7, 1921, is to be deemed to be an expression of opinion by the conference as to whether the stations referred to therein are or are not authorized by China.

They further give notice that the result of any discussion arising under paragraph 4 must. if it is not to be subject to objection by them, conform with the principles of the open door or equality of opportunity approved by

the conference.

Chinese Declaration Concerning Resolution of Dec. 7 Regarding Radio Stations in China. The Chinese delegation takes this occasion formally to declare that the Chinese government does not recognize or concede the right of any foreign power or of the nationals thereof to install or operate, without its express consent, radio stations in legation grounds, settlements, concessions, leased territories, rallway areas or other similar areas.

### NO. 8.—RESOLUTION REGARDING UNIFICATION OF RAILWAYS IN CHINA AND AC-COMPANYING DECLARATION BY CHINA.

The powers represented in this conference record their hope that, to the utmost degree consistent with legitimate existing rights, the future development of railways in China shall be so conducted as to enable the Chinese government to effect the unification of railways into a railway system under Chinese control, with such foreign financial and technical assistance as may prove necessary in the interests of that system.

Adopted by the conference on the limitation of armament at the fifth plenary session Feb. 1, 1922.

Statement Regarding Chinese Railways Made on Jan. 19, 1922, by Chinese Delegation.

The Chinese delegation notes with sympathetic appreciation the expression of the hope of the powers that the existing and future

railways of China may be unified under the control and operation of the Chinese governcontrol and operation of the Chinese serving ment with such foreign financial and technical assistance as may be needed. It is our intention as speedily as possible to bring cal assistance as may be needed. It is our intention as speedily as possible to bring about this result. It is our purpose to develop existing and future railways in accordance with a general program that will meet the economic, industrial and commercial requirements of China. It will be our policy to obtain such foreign financial and technical assistance as may be needed from the powers in accordance with the principles of the open door or equal opportunity; and the friendly support of these powers will be asked for the effort of the Chinese government to bring all the railways of China, now existing or to be built, under its effective and unified control and operation. and operation.

NO. 9.—RESOLUTION REGARDING THE REDUCTION OF CHINESE MILITARY FORCES. Whereas, the powers attending this confer- severe drain on the public revenue of China ence have been deeply impressed with the through the maintenance in various parts of the country of military forces, excessive in number and controlled by the military chiefs

of the provinces without co-ordination.

And whereas, the continued maintenance of these forces appears to be mainly responsible for China's present unsettled political condi-

And whereas, it is felt that large and prompt reductions of these forces will not only ad-vance the cause of China's political unity and economic development but will hasten her financial rehabilitation;

Therefore, without any intention to interfere in the internal problems of China, but animated by the sincere desire to see China develop and maintain for herself an effective 1, 1922.

and stable government alike in her own interest and in the general interest of trade;
And being inspired by the spirit of this conference whose aim is to reduce, through the limitation of armament, the enormous disbursements which manifestly constitute the greater part of the incumbrance upon enterprise and national prosperity;
It is resolved: That this conference express

to China the earnest hope that immediate and effective steps may be taken by the Chinese government to reduce the aforesaid military

forces and expenditures.

Adopted by the conference on the limitation of armament at the fifth plenary session Feb.

### NO. 10-RESOLUTION REGARDING EXISTING COMMITMENTS OF CHINA OR WITH RESPECT TO CHINA.

The powers represented in this conference, considering it desirable that there should hereafter be full publicity with respect to all matters affecting the political and other inter-national obligations of China and of the several powers in relation to China, are agreed

as follows: The several powers other than China will, at their earliest convenience, file with the secretariat-general of the conference, for transmission to the participating powers, a list of all treaties, conventions, exchange of notes or other international agreements which they sion to the participants powers, and treaties, conventions, exchange of notes or other international agreements which they may have with China, or with any other power or powers in relation to China, which they deem to be still in force and upon which they may desire to rely. In each case citations will be given to any official or other publication in which an authoritative text of the documents may be found. In any case in

publication in which an authoritative text of the documents may be found. In any case in which the document may not have been published a copy of the text (in its original language or languages) will be filed with the secretariat-general of the conference.

Every treaty or other international agreement of the character described which may be concluded hereafter shall be notified by the governments concerned within sixty (60) days of its conclusion to the powers who are signatories of or adherents to this agreement.

II. The several powers other than China will file with the secretariat-general of the conference at their earliest convenience, for transmission to the participating powers, a list, as nearly complete as may be possible, of all those contracts between their nationals, of the one part, and the Chinese government or any of its administrative subdivisions or local authorities, of the other part, which involve any concession, franchise, option or preference with respect to railway construc-

tion, mining, forestry, navigation, river conservancy, harbor works, reclamation, electrical communications or other public works or public services, or for the sale of arms or ammunition, or which involve a lien upon any of the public revenues or properties of the Chinese government or of any of its administrative subdivisions. There shall be, in the case of each document so listed, either a citation to a published text or a copy of the text itself. or a copy of the text itself.

Every contract of the public character described which may be concluded hereafter shall be notified by the governments concerned within sixty (60) days after the receipt of information of its conclusion to the powers who are signatories of or adherents to this agreement.

III. The Chinese government agrees to notify in the conditions laid down in this agreement every treaty agreement or contract of the ment every treaty agreement or contract of the character indicated herein which has been or may hereafter be concluded by that government or by any local authority in China with any foreign power or the nationals of any foreign power whether party to this agreement or not, so far as the information is in its possession.

IV. The governments of powers having treaty relations with China which are not represented at the present conference shall be invited to adhere to this agreement.

The United States government, as convener of the conference, undertakes to communicate this agreement to the governments of the said powers with a view to obtaining their adherence thereto as soon as possible.

Adopted by the conference on the limitation of armament at the fifth plenary session Feb. 1, 1922.

## NO. 11-RESOLUTION REGARDING THE CHINESE EASTERN RAILWAY, APPROVED BY ALL THE POWERS, INCLUDING CHINA.

Resolved, That the preservation of the Chinese Eastern railway for those in interest requires that better protection be given to the railway and the persons engaged in its operation and use, a more careful selection of personnel to secure efficiency of service and a more economical use of funds to prevent waste of the property.

That the subject should immediately be dealt with through the proper diplomatic channels.

Adopted by the conference on the limitation of armament at the sixth plenary session Feb. 4, 1922.

### NO. 12-RESOLUTION REGARDING THE CHINESE EASTERN RAILWAY, APPROVED BY ALL THE POWERS OTHER THAN CHINA.

The powers other than China in agreeing deem to result from the contracts under which to the resolution regarding the Chinese East-ten railway reserve the right to insist hereafter upon the responsibility of China for performance or nonperformance of the obligations which they after upon the foreign of the obligations toward the foreign stockholders, shouldholders and creditors of the Chinese Eastern Railway company which the powers

# TREATY WITH JAPAN RELATIVE TO YAP AND OTHER ISLANDS.

On Dec. 13, 1921, the state department in On Dec. 13, 1921, the state department in Washington announced that an agreement had been reached between the United States and Japan with respect to Yap and other islands in the Pacific ocean. On Feb. 11, 1922, a treaty embodying the agreement was signed in Washington by Secretary of State Hughes and Baron Shidehara, the Japanese ambassador. The treaty was laid before the United States senate and on March I that body ratified it by a vote of 67 yeas to 22 nays, 7 not voting. The treaty as ratified was as follows:

THE UNITED STATES OF AMERICA AND JAPAN,

Considering that by article 119 of the treaty of Versailles, signed on June 28, 1919, Germany renounced in favor of the powers described in that treaty as the principal allied and associated powers—to wit, the United States of America, the Principal control of the Princi

allied and associated powers—to wit, the United States of America, the British empire, France, Italy and Japan—all her rights and titles over her oversea possessions; Considering that the benefits accruing to the United States under the aforesaid article 119 of the treaty of Versailles were confirmed by the treaty between the United States and Germany, signed on Aug. 25, 1921, to restore friendly relations between the two to restore friendly relations between the two

nations:

Considering that the said four powers—to wit, the British empire, France, Italy and Japan— have agreed to confer upon his majesty the emperor of Japan a mandate, pursuant to the treaty of Versailles, to administer the groups of the former German islands in the Pacific ocean lying north of the equator in accordance

ocean lying north of the equator in accordance with the following provisions:

"Article 1. The islands over which a mandate is conferred upon his majesty the emperor of Japan (hereinafter called the mandatory) comprise all the former German islands situated in the Pacific ocean and lying north of

the equator.

"Art. 2. The mandatory shall have full power of administration and legislation over the territory subject to the present mandate as the territory subject to the present manager an integral portion of the empire of Japan and may apply the laws of the empire of Japan to the territory, subject to such local modifications as circumstances may require. The manifolds tions as circumstances may require. The mandatory shall promote to the utmost the material and moral well-being and the social prog-ress of the inhabitants of the territory subject

to the present mandate. "Art. 3. The mandat 3. The mandatory shall see that the slave trade is prohibited and that no forced labor is permitted, except for essential public works and services, and then only for adequate remuneration. The mandatory shall also see that the traffic in arms and ammuniarise see that the trainer in arms and animulation is controlled in accordance with principles analogous to those laid down in the convention relating to the control of the arms traffic signed on Sept. 10, 1919, or in any convention amending same. The supply of intoxications with the statement of the supply of intoxications with the supply of the supply of intoxications with the supply of the icating spirits and beverages to the natives

shall be prohibited.
"Art. 4. The military training of the natives tives, otherwise than for purposes of internal police and the local defense of the territory, shall be prohibited. Furthermore, no military or naval bases shall be established or fortifi-

cations erected in the territory.

"Art. 5. Subject to the provisions of any local law for the maintenance of public order and public morals, the mandatory shall insure in the territory freedom of conscience and the free exercise of all forms of worship, and shall allow all missionaries, nationals of any state member of the league of nations, to enter into, travel and reside in the territory for the purpose of prosecuting their calling.

"Art. 6. The mandatory shall make to the council of the league of nations an annual report to the satisfaction of the council, containing full information with regard to the territory and indicating the measures taken to carry out the obligations assumed under articles 2, 3, 4 and 5,
"Art. 7. The consent of the council of

the league of nations is required for any modification of the terms of the present mandate. The mandatory agrees that if any dispute whatever should arise between the mandatory and another member of the league of nations relating to the interpretation or the applica-tion of the provisions of the mandate, such dispute, if it cannot be settled by negotiation, shall be submitted to the permanent court of international justice provided for by article 14 of the covenant of the league of nations"; Considering that the United States did not ratify the treaty of Versailles and did not participate in the agreement respecting the afore-

said mandate:

Desiring to reach a definite understanding with regard to the rights of the two governments and their respective nationals in the ments and their respective nationals in the aforesaid islands, and in particular the island of Yap, have resolved to conclude a convention for that purpose and to that end have named as their plenipotentiaries:

The president of the United States of America: Charles Evans Hughes, secretary of state

Charles Evans Hughes, secretary of state

of the United States; and
His majesty the emperor of Japan: Baron
Kiiuro Shidehara, his majesty's ambassador
extraordinary and plenipotentiary at Washing-

Who, after having communicated to each other their respective full powers, found to be in good and due form, have agreed as follows:

Subject to the provisions of the present convention the United States consents to the administration by Japan, pursuant to the aforesaid mandate, of all the former German islands in the Pacific ocean lying north of the equator.

### Article II.

The United States and its nationals shall receive all the benefits of the engagements of Japan defined in articles 3.4 and 5 of the aforesaid mandate, notwithstanding the fact that the United States is not a member of the league of nations.

It is further agreed between the high con-

tracting parties as follows:
(1) Japan shall insure in the islands complete freedom of conscience and the free exercise of all forms of worship which are con-sonant with public order and morality; Amer-ican missionaries of all such religions shall be free to enter the islands and to travel and reside therein, to acquire and possess property, to erect religious buildings and to open schools throughout the islands, it being understood, however, that Japan shall have the right to exercise such control as may be necessary for the maintenance of public order and good gov-ernment and to take all measures required for

such control. (2) Vested American property rights in the mandated islands shall be respected and in no

way impaired:
(3) Existing (3) Existing treaties between the United States and Japan shall be applicable to the mandated islands:

(4) Japan will address to the United States a duplicate of the annual report on the administration of the mandate to be made by Japan to the council of the league of nations.

(5) Nothing contained in the present convention shall be affected by any modification

which may be made in the terms of the man-

date as recited in the convention, unless such modification shall have been expressly assented to by the United States.

### Article III.

The United States and its nationals shall have free access to the island of Yap on a footing of entire equality with Japan or any other nation and their respective nationals in all that relates to the landing and operation of the existing Yap-Guam cable or of any cable which may hereafter be laid or operated by the United States or by its nationals connecting with the island of Yap.

The rights and privileges embraced by the

The rights and privileges embraced by the preceding paragraph shall also be accorded to the government of the United States and its nationals with respect to radiotelegraphic communication; Provided, however, That so long as the government of Japan shall maintain on as the government of Japan shall maintain on the island of Yap an adequate radiotelegraphic station, co-operating effectively with the cables and with other radio stations on ships or on shore, without discriminatory exactions or preferences, the exercise of the right to estab-lish radiotelegraphic stations on the island by the United States or its nationals shall be suspended.

Article IV.

connection with the rights embraced by article 3, specific rights, privileges and exemptions, in so far as they relate to electrical communications, shall be enjoyed in the island of Yap by the United States and its nationals in terms as follows:

(1) Nationals of the United States shall have the unrestricted right to reside in the island, and the United States and its nationals shall have the right to acquire and hold on a footing of entire equality with Japan or any other nation or their respective nationals all kinds of property and interests, both personal and real, including lands, buildings, residences, offices, works and appurtenances.
(2) Nationals of the United States shall not

be obliged to obtain any permit or license in order to be entitled to land and operate cables on the island or to establish radiotelegraphic service, subject to the provisions of article 3, or to enjoy any of the rights and privileges embraced by this article and by article 3.

(3) No censorship or supervision shall be exercised over cable or radio messages or op-

erations.

(4) Nationals of the United States shall have complete freedom of entry and exit in the island for their persons and property.

(5) No taxes, port, harbor or landing charges, or exactions of any nature whatso-ever shall be levied either with respect to the operation of cables or radio stations or respect to property, persons or vessels.

(6) No discriminatory police regulations shall be enforced.

(7) The government of Japan will exercise its power of expropriation in the island to secure to the United States or its nationals needed property and facilities for the purpose of electrical communications if such property or facilities cannot otherwise be obtained.

It is understood that the location and the area of land so to be expropriated shall be arranged between the two governments according to the requirements of each case. Property of the United States or of its nationals and facilities for the purpose of electrical communication in the island shall not be subject to expropriation.

## Article V.

The present convention shall be ratified by the high contracting parties in accordance with their respective constitutions. The ratifications of this convention shall be exchanged in Washington as soon as practicable, and it shall take effect on the date of the exchange of the ratifications.

In witness whereof, the respective plenipo-tentiaries have signed this convention and have

bereunto affixed their seals.

Done in duplicate at the city of Washington this 11th day of February, 1922. CHARLES EVANS HUGHES.

K. SHIDEHARA.

In executive session, senate of the United States.

Resolved (two-thirds of the senators present concurring therein), That the senate advise and consent to the ratification of executive R. 67th congress, second session, a treaty between the United States and Japan with regard to the rights of the two governments and their respective nationals in the former German respective nationals in the islands in the Pacific ocean lying north of the equator in particular the island of Yap, the equator, in particular the island of Y. Signed at Washington on Feb. 11, 1922.

# CHIEF JUSTICES OF THE UNITED STATES SUPREME COURT. Name. Served.

### EFFORTS IN 1922 TO RESTORE EUROPE TO NORMALCY.

CONFERENCES AT CANNES, GENOA AND THE HAGUE.

bring about the restoration of norms to oring about the restoration of rormal conditions in Europe occupied the attention of the leading statesmen of the various nations from the beginning of 1922. Much of the work was done through the usual diplomatic channels, but the success of the Washington conference on the limitation of armament increased confidence in that Efforts to of armament increased confidence in that method of arriving at international understandings, Prime Minister Lloyd George of Britain had strong faith in the value of conferences between the representatives of the various nations and he himself had been the dominating figure in many meetings of that kind, beginning with the peace conference in Paris resulting in the treaty of Versailles.

CONFERENCE AT CANNES.

The first important European conference of 1922 was that held at Cannes, France, Jan. 1952 was that field at Cames, France, Jan.
6-12. Its outstanding feature was the adoption of the following resolution, on motion of David Lloyd George, on the first day of the

meeting:

"The allied powers in conference are unanimously of opinion that an economic and financial conference should be summoned in February or early in March, to which all the powers of Europe, including Germany, Russia, Austria, Hungary and Bulgaria, should be invited to send representatives. They regard such a conference as an urgent and essential step toward the economic reconstruction of central and eastern Europe, and they are strongly of opinion that the prime minister of every nation should, if possible, attend it in person, in order that action may be taken as promptly as possible from its recommendations.

allied powers consider that the n of international trade throughout "The sumption of Europe and the development of the resources of all countries is necessary to increase the volume of productive employment and to relieve the widespread suffering of the European peoples. A united effort by the stronger powers is necessary to eliminate the paralysis of the European system. This effort must of the European system. This effort must include the removal of all obstacles in the way of trade, the provision of substantial credits for the weaker countries, and the cooperation of all nations in the restoration of normal prosperity. The allied powers consider that the fundamental conditions upon which this effort may be made with hope of success may be broadly stated as follows:

"1. Nations can claim no right to dictate to each other regarding the principles on which they are to regulate their system of owner-ship, internal economy and government. It

ship, internal economy and government. It is for every nation to choose for itself the system which it prefers in this respect.

"2. Before, however, foreign capital can be made available to assist the country foreign investors must be assured that their property and their rights will be respected and the fruits of their enterprise secured to them.

"3. Effective security cannot be re-established unless the governments of countries desiring foreign credit freely indicate—(a) that they will recognize all public debts and obligations which have been or may be undergations which have been or may be under-taken or guaranteed by the state or munici-palities or by any other public bodies as well as the obligation to restore or compensate all foreign interests for loss or damage caused to them when property has been confiscated or withheld: (b) that they will establish a legal and juridical system which sanctions and enforces commercial and other contracts with impartiality.

"4. An adequate means of exchange must be available, and generally there must be financial and currency conditions which offer sufficient security for trade.

"5. All nations should undertake to refrain from propaganda from motives subversive to order and the established political system in other countries than their own.

"6. All countries should join in an undertaking to refrain from aggression against their taking to refrain from aggression against their

taking to refrain from aggression against their neighbors.

neignors.
"If in order to secure the conditions necessary for the development of trade in Russia the Russian government demands official recognition, the allied powers will be prepared to accord such recognition only if the Russian government accepts the foregoing stipulations.

It was decided by the council that the conference should be held in Genoa, Italy, and that the United States should be invited to

Report on Reparations.

Reports were made to the council by its committees on reparations and on the economic reconstruction of Europe. The reparations reconstruction of Europe. The reparations committee, as the result of a long series of meetings of the financial experts of the remeetings of the mancial experts of the respective countries, recommended that the sum to be demanded from Germany in 1922 be fixed at a total of 720.000,000 gold marks (\$171,360,000). This total, it was declared, would be sufficient to pay the interest and sinking fund on the series of "A" bonds on the schedule of payments fixed in London in May, 1921.

International Consortium.

The committee on the economic restoration of Europe reported that it had modified its original plan for an international consortium with a capital of £20,000.000 (normally \$97,200,000). Instead it proposed to form an English corporation with a capital of £2,000.00 (\$9,720,000). With this corporation would be affiliated companies financed by other 000 (\$9,720,000). With this corporation would be affiliated companies financed by other interested nations, which, however, would raise their capitals in the currencies of their re-spective countries. Following is the substance of the official memorandum on the organizaof the official memorahdum on the organiza-tion of the corporation:

1. The title of the corporation is to be the Central International corporation.

2. It shall be established in London where shall have its principal office.

3. It shall be created by a special act of parliament in Great Britain.

4. The corporation shall consist of representatives of national corporations.
5. Each nation which is a party to the formation of the corporation agrees to set up in its own country a national corporation which shall contribute to the funds of the corporation.

6. For the purpose of providing funds to enable the corporation to carry on its administrative functions a sum of £20,000,000 shall be forthwith paid up by the national corpora-

tions pro rata to their capital.
7. The principal functions of 7. The principal functions of the corpora-tion shall be to examine the opportunities for undertakings in connection with European reconstruction, to assist in financing such undertakings, to obtain adequate security for payment in respect to work carried out, to arrange for contracts and to promote or assist in promoting the subsidiary companies or corporations in various countries for special purposes.

8. The business of the corporation is to be administered by the council to be appointed by the representatives of the national corpora-tions. The decisions of the council, within its competence, shall be binding on the national corporations.

### New Conference Agreed Upon.

There was also much discussion of a guaranty pact between Great Britain and France and a memorandum of such an agreement was presented by Mr. Lloyd George. In this document the British prime minister said that document the British prime infiniser said that the British government strongly desired that the Cannes conference should lead to definite results and that in its judgment an indispensable condition of success was a close under-standing between France and England. Heurther said that the French were justly dis-appointed at the continual postponement of a satisfactory reparation by Germany and that they were naturally anxious about the future safety of France, the population of which was 20,000,000 less than that of Germany.

"With regard to reparations," continued the prime minister, "the British government is prepared to abide by the arrangements reached in London under which France will reap considerable advantages while Great Britain will make considerable sacrifices. It believes that this arrangement will meet the essential claims of France until such a time as a wider finan-cial settlement has been attained, perhaps in

two or three years.

"With regard to the safety of France against invasion, Great Britain will regard this as an interest of her own and is therefore prepared to undertake that in the event of unprovoked German aggression against French soil the British people will place their forces on her side.

Mr. Lloyd George pointed out that an offensive and defensive alliance between Great fensive and defensive alliance between Great Britain and France was impracticable as it was opposed by a large section of British opinion but that the guaranty pact would be favored. To secure such a treaty and entente it would be necessary for the two nations to come to an understanding on the submarine question so as to avoid competition in naval construction. The British government also desired that France should coperate whole-heartedly in the economic and financial reconstruction of Europe. It therefore looked for an agreement by France to an fore looked for an agreement by France to an immediate summoning of an economic conference at which all the powers of Europe, including Russia, would be represented. The British government would also lay down the two following principles:

1. All nations should undertake to refrain from propaganda subversive of order and the established political system of other countries than their own.

2. All countries should join in an undertaking to refrain from aggression against their neighbors.

The memorandum laid particular stress on the latter principle as forming the basis of a wide scheme of European co-operation and nonaggression.

Germany was invited to send representatives to Cannes to confer on the subject of reparations and Dr. Walter Rathenau was present on Jan. 12. He then presented Germany's reasons for desiring a modification of the reparations terms. However, no result was attained, as Aristide Briand, the French premier, suddenly resigned from his office on account of criticism directed against him in the French chamber of deputies where it was account of criticism directed against him in the French chamber of deputies, where it was asserted that he had made too many concessions both to Britain and Germany. M. Briand was succeeded a few days later by Raymond Poincare, former president of France. The Cannes conference came to an end, the chief result attained being the arrangement for an economic conference in Italy with a limited program.

### GENOA ECONOMIC CONFERENCE.

Soviet Russia accepted the invitation to the new conference almost immediately, as did Germany and other European powers. The Germany and other European powers. The United States, however, after studying the situation carefully, declined to participate in the conference.

### Invitation Declined by the United States.

In replying to the invitation, which was received at the state department on Jan. 17, Secretary Hughes, on March 9, sent the following message to Ambassador Racei of Italy: "I have the honor to acknowledge the recipt of your excellency's note transmitting the invitation addressed by the Italian government to the government of the United States to take part in an 'economic and financial' conference to be convened at Genoa pursuant to the resolution adopted on Jan. 6, 1922, by the allied governments in conference at the allied governments in conference

"I have also received your later notes with respect to American representation, the pro-posed agenda, and the postponement of the

posed agenda, and the postponement of the date of the conference.

"Since the receipt of your excellency's first note the question of American participation in the proposed conference has had the most earnest attention. I am sure that you will realize that the government of the United States must take a deep interest in any conference which holds promise of effective measures to promote the economic rehabilitation of Europe, since not only do we keenly desire the return of prosperity to the peoples who have suffered most severely from the wastes and dislocations of war, but it is also manifest that there can be no improvement manifest that there can be no improvement in world conditions in the absence of European recuperation.

'It is with this sympathetic spirit, and with the utmost reluctance to withhold its support from any appropriate effort to attain this object, that the government of the United States has examined the resolution adopted at Cannes and the suggested agenda for the

conference.

"I regret to inform your excellency that, as a result of this examination, it has been found impossible to escape the conclusion that the proposed conference is not primarily an economic conference, as questions appear to have been excluded from consideration without the satisfactory determination of which the chief causes of economic disturbance must continue to operate, but is, rather, a conference of a political character in which the government of the United States could not helpfully participate.

"This government cannot be unmindful of the clear conviction of the American people, while desirous, as has been abundantly dem-onstrated, suitably to assist recovery of the economic life of Europe, that they should not unnecessarily become involved in Euro-

not unnecessarily become involved in European political questions.

"It may be added, with respect to Russia, that this government, anxious to do all in its power to promote the welfare of the Russian people, views with the most eager and friendly interest every step taken toward the restoration of economic conditions which will permit Russia to regain her productive power, but the conditions, in the view of this government, cannot be secured until adequate action is cannot be secured until adequate action is taken on the part of those chiefly responsible

for Russia's present economic disorder.

"It is also the view of this government—and it trusts that this view is shared by the gov ernments which have called the conference—that, while awaiting the establishment of the essential bases of productivity in Russia, which reference was made in the public dec-laration of this government on March 25,

1921, and without which this government be-lieves all consideration of economic revival to be futile, nothing should be done looking to the obtaining of economic advantages in Russia obtaining of economic advantages in Russia which would impair the just opportunities of others, but that the resources of the Russian people should be free from such exploitation and that fair and equal economic opportunity, in their interest as well as in the interest of the powers, should be preserved.

"While this government does not believe that it should participate in the proposed conferit should participate in the proposed conference, it sincerely hopes that progress may be made in preparing the way for the eventual discussion and settlement of the fundamental economic and financial questions relating to European recuperation which press for solutions

excellency, the renewed assurance "Accept.

of my highest consideration.

"CHARLES E. HUGHES." The opening of the conference was originally set for March 8, but for the convenience of the delegates it was postponed until April 10, when the meeting began with the delegates of thirty-three nations assembled in the palace of St. George. The United States was not represented officially but Ambassador Richard represented officially but Ambassador Richard W. Child acted as observer. Great Britain was represented by Prime Minister Lloyd George and a large delegation, France by Louis Barthou, Germany by Foreign Minister Rathenau and Chancellor Wirth and Russia by Foreign Commissar Tchitcherin, Maxim Litvinov, Adolph Joffe and others. The various delegations, which numbered from less than half a dozen for some of the smaller nations up to 400 for Italy and 128 for Great Britain, included, of course, excerts and attaches whose presence was deemed necessary. Prime Minister Luigi Facta of Italy opened the proceedings with a speech of welcome and on motion of Mr. Lloyd George was made permanent chairman of the conference. made permanent chairman of the conference.

Dispute on First Day. It was generally understood that the questions of land disarmament and reparations, out of deference to the wishes of France, were not to be discussed at the conference and hence when Foreign Commissar Tchiwere not to be discussed at the conference and hence when Foreign Commissar Tchitcherin, after having apparently accepted the principles of the Cannes resolutions, said in his first speech that Russia favored disarmament M. Barthou interrupted him by declaring that France insisted that disarmament should not be mentioned. To this M. Tchitcherin rejoined: "It is absolutely necessary to discuss disarmament in relation to the economic reconstruction of Europe." At this point Mr. Lloyd George intervened. "Gentlemen," he said, "we have agreed not to discuss disarmament and therefore our French colleague is right, but we must not waste time in argument. Nevertheless, in my opinion, the conference naturally will result in disarmament." Committees were appointed to deal with various questions on the agenda, including finance, commerce and transportation. In addition another body was formed, called commission (committee) No. 1. To this committee were intrusted all matters relating to the first three of the Cannes resolutions, that is to say, all political topics relating to peace guaranties and to Russia. Each participating reconsument was clips in the right to be repre-

is to say, all political topics relating to peace guaranties and to Russia. Each participating government was given the right to be represented on this committee by either one or two delegates. A subcommittee of eleven members, representing Haly, Great Britain France, Belgium, Japan, Russia, Germany, Switzerland, Sweden, Poland and Roumania was named with Foreign Minister Dr. Carlo Schanzer of Italy as chairman.

Russian Negotiations. One of the first things done at the conference was to submit to the Russian dele-

gates the report agreed upon by the allied experts at a meeting held in London before the gathering at Genoa. This report was to be taken as the basis of the negotiations with the Russians. In it the soviet government was asked to recognize the old debts of the czarist regime, to make good the destruction or confiscation of property belonging to foreigners by the communists or revolutionaries. The report also provided for the administration of justice on the western model so fraction of justice on the western model so fractions. tion of justice on the western model so far as it concerned foreigners, and for the protection of foreign investments in Russia.

Meetings were held at the villa occupied by Mr. Lloyd George in an effort to come to some understanding through private conversations between the Russian, British, French and other delegates. The entente offered Russia a moradenium until 1027 provided Russia they noted. delegates, The entente offered Russia a moratorium until 1927 provided Russia then paid between 62,000,000,000 gold francs (\$12,400,000,000,000) gold francs (\$16,000,000,000) with interest. M. Tchitcherin replied that the sums named were fantastic and that it was impossible for his country to pay the amount indicated. Moreover, he said the damages caused by Gens. Denikin, Kolchak, Wrangel and others, who were aided and abetted by the allies, amounted to about \$25,000,000,000. Mr. Lloyd George informed the Russians that such a claim was inadmissible and contrary to all reason and justice.

\*\*Russo-German Treaty Signed.\*\*

Russo-German Treaty Signed.

The Russians continued to oppose practically all the suggestions made by the allied powers, while the Germans seemed unusually quiet and reserved. Then it became known that on Sunday, April 16, the Russians and Germans had signed an economic treaty at Rapallo, near Genoa. The act was resented especially by France as a piece of trickery and deception and for a time the immediate disthe Germans. Following is the text of the

treaty as adopted:
"Article 1. (a). The German and Russian governments have agreed to settle war-time questions on the following basis: The German government and the soviet republic reciprocally renounce reimbursement of war expenses as well as reimbursement of war damages and also damages suffered by their jects in the war territories because of military measures, including requisitions carried out in the enemy's country Likewise the two contracting parties renounce reimbursement of civil damages caused by the so-called exceptional laws or by coercive measures by state

authorities.

"(b). All legal relations concerning questions of public or private law resulting from the state of war, including the question of merchant ships acquired by either side during the war, shall be settled on a basis of reciprocity.

"(c). Germany and Russia mutually re-nounce the repayment of expenses caused by prisoners of war, in the same way as the reich renounces repayment of expenses caused by the internment of soldiers of the Russian army. The Russian government renounces payment of the sum Germany has derived from the sale of Russian army material trans-

or the sale of Russian army material transported into Germany.

"Art. 2. Germany renounces all claims resulting from the enforcement of the laws and measures of the soviet republic as they have affected German nationals or their private rights or the rights of the German reich itself. rights or the rights of the German reich itself, as well as claims resulting from measures taken by the soviet republic or its authorities in any other way against the subjects of the German reich, or their private rights, provided the soviet government shall not satisfy similar claims made by any third state.

Consular and diplomatic relations between the reich and the federal republic of soviets shall be resumed immediately; the admission of consuls to both countries shall be

arranged by special agreement.

"Art. 4. Both governments agree further that the rights of the nationals of either of the two parties on the other's territory, as well as the regulation of commercial relations, shall be based on the most favored nation principle. This principle does not include the rights and facilities granted by the soviet government to another soviet state or to any state that formerly formed part of the Rus-

sian empire.
"Art. 5. The two governments undertake "Art. 5. The two governments under the to give each other mutual assistance for the alleviation of their economic difficulties in the most between spirit. In the event of a aneviation of their economic dimenties in the most benevolent spirit. In the event of a general settlement of this question on an international basis they undertake to have a preliminary exchange of views. The German government declares itself ready to facilitate, as far as possible, the conclusion and execution of economic contracts between private enter-

of economic contracts by prises in the two countries.

"Art. 6. Clause 1, paragraph B, and clause 1 of this agreement shall come into force after this document. The other ratification of this document. The oth clauses will come into force immediately."

Allies Charge Violation of Cannes Terms.
On behalf of the Germans Chancellor Wirth on benair of the Germans Chancellor Wirth and Foreign Secretary Rathenau denied that there was any trickery about the transaction, which was merely the culmination of negotiations which had been carried on for some time in Berlin. Late on the afternoon of April 18 the leaders of the allied powers and the little entente met and formulated the following note, which was sent to the German lowing note, which was sent to the German delegation:

"The undersigned powers learned with as-tonishment that in the first stage of the Genoa conference Germany, without reference to the other powers assembled, has secretly concluded a treaty with the soviet govern-

ment.

questions covered by the treaty are biect of negotiations between the the subject of the subject of negotiations between the representatives of Russia and those of all the other powers invited to the conference, including Germany, and the German chancellor himself declared at the opening session that the German delegation would co-operate with the other powers for a solution of these questions in a spirit of genuine loyalty and fellowship.

"The undersigned powers therefore express to the German delegation in the frankest terms their opinion that the conclusion of such an agreement while the conference was in session was a violation of the conditions to which Germany pledged herself upon entering the

session.

"By inviting Germany to Genoa and offering her representation on every commission on equal terms with themselves, the inviting powers proved their readiness to waive mem-ories of the war and granted Germany an opories of the war and granted Germany an opportunity for honest co-operation with former enemies in the European tasks of the conference. To that offer of good will and fellowship Germany replied with an act which destroys the spirit of mutual confidence indispensable to international co-operation, the establishment of which is the chief aim of

establishment of which is the chief aim of the conference.

"At all conferences unofficial conversations between parties are permissible, often desirable. They are helpful as long as they are designed to facilitate the common task and so long as the results are brought to the conference table for common discussion and decision. But that is not what the German delegates have done.

"This (Russo-German) treaty is not subject to any examination or sanction by the con-ference. We understand that it is final and that it is not proposed to be submitted to the judgment of the conference. It is, in fact, a

judgment of the conterence. It is, in fact, a violation of some of the principles on which the conference is based.

"In these circumstances the undersigned do not consider it fair or equitable that Germany, having effected her own arrangement with Russia, should enter into a discussion of the conditions of an arrangement between their countries and Russia; they therefore assume that the German delegates have by their action renounced further participation in the discussion of the conditions of agreein the discussion of the conditions of agreement between Russia and the various coun-

tries represented at the conference.

"LLOYD GEORGE (Britain).

German Delegation's Reply.

The Russians and the delegates from some of the neutral powers protested against the action demanded in the foregoing note, but the Germans were less aggressive. They had conferences with Mr. Lloyd George and other allied leaders and finally on April 21 returned a reply, signed by Dr. Wirth, in which they agreed to withdraw from the deliberations of the first committee on Russian conditions. Following are the essential portions of the German note:

"Germany has recognized the Russian soviet republic for several years. A settlement had, however, to be made between the two countries with regard to the consequences arising from the state of war before it was possible to renew normal diplomatic relations. The negotiations carried on between the two governments over this question had already several weeks ago progressed so far that a con-

clusion was possible.

"It was especially of importance to Germany to come to an understanding with Russia beto come to an understanding with Russia because she gave an opportunity of establishing peace with one of the great beligerent powers under conditions excluding lasting debtorship and rendering possible, on a fresh basis unincumbered by the past, a renewal of relations. For this reason the treaty with Russia was signed Sunday evening in exactly the same terms as it was drafted weeks ago and was immediately published.

"This course of action must closely chemically in the course of action must closely because of action must closely seemed."

immediately published.
"This course of action must clearly show that the German delegation did not proceed to negotiations with Russia from lack of solidarity but from compelling reasons. It just as clearly shows that the German delegation has striven to keep clear of all secrecy in their procedure. It would be quite in accordance with the wishes of the German delegation if the conference should succeed in arriving at a general settlement of the Russian question, and if the German-Russian treaty were embodied in this general arrange

Russian question, and if the German-Russian treaty were embodied in this general arrangement. This should very well be possible, as the treaty nowise affects the relations of other states to Russia.

"Furthermore, it is in all its provisions guided by an idea the realization of which is justly proclaimed as the chief aim of the conference—namely, by a spirit which looks on the past as definitely closed and seeks to lay the foundation of friendly relations. Germany came to Genoa with a hearty desire to co-operate with all the nations in restoring the suffering European continent and trusting in a suffering European continent and trusting in a

mutual understanding of the difficulties of all

mutual understanding of the difficulties of all parts of that continent.

"The propositions of the London conference left Germany's interest out of regard. To sign them would have meant to call forth heavy reparation claims for Russia against Germany. A number of clauses would have led to burdening consequences of czaristic wartime legislation on Germany alone. Repeatedly and in extensive discussions with members of the delegations of the inviting nowers the German delegation has called attenpowers the German delegation has called attention to these serious misgivings. But it was without success. On the contrary, the German delegation became aware that the inviting powers had entered into separate negotiations with Russia.

'Information which came to hand of these negotiations led to the conclusion that an agreement would be arrived at shortly, but that it was not contemplated to take the just claims of Germany into regard. Upon this the German delegation were left with no doubt that they were forced to pursue their own interests alone, as otherwise they would have come into a position of being confronted in the commission by a draft which was unac-ceptable to them, but which was already agreed upon by a majority of the delegates on the commission for mutual peaceful resto-

ration.
"With regard to further treatment of the conference, the Russian question in the conference, the German delegation also think it right that they should take part in the deliberations of the first commission on questions corresponding to those already settled between Germany and

to those already settled between Germany and Russia only in case their collaboration be especially asked for.

"On the other hand, the German delegation remains interested in all questions referred to the first commission which do not relate to the points settled in the Russian-German

"The German delegation welcomes with satisfaction the development which the discussion of the commission has taken. They are at one with the spirit of solidarity and good faith that has animated this work. Far from thinking of turning away from the common work in Europe, they are prepared to participate in the tasks allotted by the conference at Genoa with a view to reconciling the nations and adjusting the welfare of the east and the west.

DR. WINTH.

west. In a note made public April 21 the Russians reiterated their objections to the financial demands of the allies, but declared that if the war debte and approximately the war debte and approximately the war debte and approximately the control of the state of th the war debts and arrears in interest were "written down," financial assistance given Russia to help her recover from her economic troubles and the soviet government were recognized de jure they would make some con-

cessions.

On April 23 the delegates of the ten powers signatory to the treaty of Versailles sent the following note to the chairman of the German delegation:

"The undersigned desire to acknowledge the receipt of your reply to their note of April 18 indicating the attitude that they felt bound to adopt in view of the treaty concluded by the German and Russian delegations. "They note with satisfaction that the Ger-

man delegation realizes the conclusion of a separate treaty with Russia on matters falling within the purview of this conference renders undesirable that that delegation should participate in the future in the discussion of the conditions of an agreement between Russia and the various countries represented in the conference.

"The undersigned would have preferred to refrain from further correspondence on the

subject. There are, however, certain statements in your letter which they feel it their

duty to correct.

"Your letter suggests that the German delegation has been forced to conclude a separate agreement with Russia by the refusal of the members of the delegations of the inviting powers to consider grievous difficulties which the proposals formulated by their experts in London would have created

their experts in London would have created for Germany.

"The undersigned representatives of the inviting powers have made inquiries of the members of their respective delegations and find no shadow of justification for this statement. On various occasions members of the German delegation have met and talked with members of the delegations of the inviting members of the delegations of the inviling powers, but never has it been suggested that the London proposals afforded no basis for discussion in the conference, and that the German delegation was able to conclude a separate treaty with Russia. "The allegation that the informal discussions with the Russians on the subject of

recognition of debts exposed the delegation to recognition of debts exposed the delegation to the risk of being confronted with a scheme unacceptable to Germany but already approved by a majority of the members of the commission, is equally unfounded. No scheme would or could have been accepted by the conference without the fullest opportunity for discussion in competent committees and subcommittees, and in these Germany was represented on a footing of equality with the other powers

other powers.

"A misconception of the scope of the experts' proposals or a misunderstanding of the perts' proposals or a misunderstanding of the informal conversations with the Russians might well have justified a request for full discussion in the committees of the conference. They can provide no justification for the action which now has been taken, and the undersigned can only regret that your note should have attempted in this way to impose on the other powers the responsibility for a proceeding so contrary to the spirit of loyal co-operation which is essential to the restoration of Europe tion of Europe.

'The undersigned expressly reserve for their governments the right to declare null and void any clauses in the Russo-German treaty which may be recognized as contrary to existing treaties. The incident may now be regarded as closed."

To this note the Germans made no reply. To this note the Germans made no reply. On April 24 the Russians made new proposals, which, briefly stated, amounted to a demand for the complete wiping out of the war debts and also the relinquishment of all arrears in interest on prewar debts. At the same time they asked for extensive loans and in general assumed what the committee considered an impossible attitude. Sir Laming Warthington Evans the chairman, said he Worthington-Evans, the chairman, said he could not discuss the matter further and the meeting was adjourned. The delegates after considerable discussion drafted a note in reply to the Russian proposals of April 24. Recog-nition of debts contracted by Russia before and in the course of the war was again asked, but the powers agreed not to press for payment in the immediate future and to consider reductions if the Russians withdrew their counterclaims. It was proposed that a mixed arbitration commission be created, the chairman of which was to be named by Chief Justice Taft of the United States Supreme

Gurt, to consider methods of payment and Russia's financial capacity.

The question of the restoration of foreignowned property in Russia nationalized by the soviet government proved a stumbling block. The French held out for full restitution and in this position they were supported by the

Belgians, whose countrymen, it was said, owned nearly \$1,000,000,000 in property. On the evening of May I the collective agreement of the powers was ready for transmission to the Russians, the resolution to accept the offer of Russia to restore the property for ninety-nine years having been passed, though with a note of protest and opposition from M. Jasper of Belgium. On the morning of May 2 M. Barthou, the chief French delegate, left for Paris to consuit with Premier Poincare on the Genoa situation. His place was taken by M. Barrere, the French ambassador to Italy. Late in the afternoon M. Barrere announced that he had received instructions from the premier in Paris to secure a delay of twenty-four hours in the transmission of the agreement. Prime Minister Lloyd George insisted that further delay might prove dissisted of twenty-four hours in the transmission of the agreement, Prime Minister Lloyd George insisted that further delay might prove disastrous and the note or memorandum was finally submitted to the Russians on the morning of May 3 with a letter explaining that Belgium and France had abstained from signing the document. The Russians maintained that this made the agreement of little value.

New Conference Suggested.

Foreign Minister Tchitcherin presented the rolegal minister Tenticherin presented the reply of the Russians to the allied powers on May 11. It was even more unsatisfactory than the previous proposals had been. It was made clear that no agreement could be reached unless Russia received a large international loan and such a loan the powers were not disposed to make. However, in the course of the Russian reply this suggestion was made:

"If, nevertheless, the powers wish to consider a solution of the financial difficulties outstanding between themselves and Russia, taking into account the fact that this question necessitates, from the nature and extent of the claims presented to Russia, a more profound study and a more just appreciation of the credits available for her, this task could be intrusted to a committee of experts nom-inated by the conference. The labors of this committee would have to begin at a date and at a place to be determined by common agree-ment."

Prime Minister Lloyd George supported this suggestion with the proviso that during the period of the commission's labors a truce period of the commission's labors a truce should be declared between Russia and other nations in Europe on the basis of the existing frontiers. After some discussion it was decided that there should be two commissions of experts—one Russian and the other non-Russian—which should strive to reach joint conclusions on the questions of debts, private properties and credits. It was agreed that the nonaggression part should continue eight properties and credits. It was agreed that the monaggression pact should continue eight months and the conference of experts should be held in the Peace palace at The Hague, beginning June 15. All the powers pledged themselves to conclude no separate treaties with Russia up to Oct. 26, 1922.

Invitation Declined by U. S.

It was the desire of most of the delegates to Genoa that the United States should be represented officially at the new conference, and accordingly an invitation was sent to the authorities in Washington to take part in the new negotiations. On May 15 Secretary Hughes declined the invitation in a note addressed to Prime Minister Lloyd George and his colleagues in Genoa. The text of this note follows: follows:

"This government has carefully considered the invitation extended to it by the president of the Genoa conference, under the conditions set forth in the agreement of the inviting powers, to join the proposed commission to meet at The Hague on June 15.

"This government is most desirous to aid

in every practicable way the consideration of the economic exigencies in Russia and wishes again to express the deep friendship felt by the people of the United States for the people of Russia and their keen interest in all proceedings looking to the recovery of their economic life and the return of the prosperity to which their capacities and resources entitle

"The American people have given the most tangible evidence of their unselfish interest in the economic recuperation of Russia, and this government would be most reluctant to abstain from any opportunity of helpfulness.

"This government, however, is unable to conclude that it can helpfully participate in the meeting at The Hague, as this would appear to be a continuance, under a different nomenclature, of the Genoa conference and destined to encounter the same difficulties, if the attitude disclosed in the Russian memorandum of May 11 remains unchanged.

"The inescapable and ultimate question would appear to be the restoration of productivity in Russia, the essential conditions of which are still to be secured and must, in the nature of things, be provided within Russia

nerself.
"While this government has believed that these conditions are reasonably clear, it has always been ready to join with the governments extending the present invitation in arranging for an inquiry by experts into the economic situation in Russia and the necessary remedies.

"Such an inquiry would appropriately deal with the economic prerequisites of that restoration of production in Russia without which there would appear to be lacking any sound basis for credits.

"It should be added that this government is most willing to give serious attention to any

most willing to give serious attention to any proposals issuing from the Genoa conference or any later conference, but it regards the present suggestions, in apparent response to the Russian memorandum of May 11, as lacking, in view of the terms of that memorandum, in the definiteness which would make possible the concurrence of this government

possible the concerning in the proposed plan."

The Genoa conference came to an end May

The genating thirty-nine days. The gen-19 after lasting thirty-nine days. The general feeling was that the meeting, while barren as to concrete results except as to the eight months' truce agreement and the arrangements for the conference at The Hague, bed slexifed the ground France of the Conference of the Hague. had clarified the general European situation and was a long step in the direction of peace.

CONFERENCE AT THE HAGUE,

accordance with the agreement reached at Genoa a conference was begun at The Hague, Holland, on June 15, 1922, for the purpose of arriving at an understanding with soviet Russia regarding her prewar debts and restitution for nationalized foreign-owned property. The meetings were held in the Carnegie Peace palace and at first were confined to the non-Russian delegates. Dr. H. A. van Karnebeek, the Netherlands minister of fornameneek, the Netherlands minister of foreign affairs, was made permanent chairman. R. H. J. Patyn, also of the Netherlands, was made chairman of the central non-Russian commission and Felicien Cattier of Belgium vice-chairman. The following were made heads of the subcommissions: On property, Sir Philip Lloyd-Graeme, Great Britain; on debts, M. Alphand, France; on credits, Baron Avezzano, Italy. Avezzano, Italy.

France took part in the conference only on the understanding that politics should be barred, that the discussions should be of a technical character only and that all decisions reached should be subject to reference to the various governments concerned for approval.

The French delegates were Charles Benoist, minister at The Hague; M. Alphand, director minister at The Hague; M. Alphand, director of the department of property and private interests; Count Massigli, secretary of the ambassadors' council; M. Chasles, inspector of finance; Francois Poncet, director of the office of economic study, and A. G. de la Pradelle, professor of law. The British representatives were Edward Hilton Young, financial secretary of the treasury, and Sir Philip Lloyd-Graeme, director of overses trade. Halv was representations. of the treasury, and Sir Philip Lloyd-Graeme, director of overseas trade. Italy was represented by Baron Romano Avezzano, Prof. Francesco Giannini, Count Vannutelli, Count di Giura and Cavalier Buti. The chief Belgian delegates were M. Cattier, M. Galopin and M. Witmeur. There were also delegates from Austria, Bulgaria, Denmark, Spain, Esthonia, Finland, Greece, Hungary, Japan, Latvia, Lithuania, Luxembourg, Norway, Holland, Bulgaria, Betterell, Bournaris, Luxe, Slavia, Austria, Buigana, Denmark, Japan, Esthoma, Finland, Greece, Hungary, Japan, Latvia, Lithuania, Luxembourg, Norway, Holland, Poland, Portugal, Roumania, Jugo Slavia, Sweden, Switzerland and Czecho-Slovakia, The United States was unofficially represented by Louis A. Sussdorf, charge d'affaires at The Hague.

The Hague on June 26, consisted of Maxim Litvinov, chairman; Leonid Krassin, commissioner of trade; N. N. Krestinsky, commissioner of finance and minister to Berlin, and M. Sokolnikov. assistant commissioner of assistant commissioner M. Sokolnikov,

finance.

At the first joint session of the Russian and non-Russian commissions held on June 27 Litvinov bluntly demanded credits for Russian purchases abroad and declared that if there were no credits forthcoming the Russians might as well go home. It was pointed out to him that the question of credits de-

pended upon the decisions arrived at in the matter of property restitution and debts. In response to a request by the credits commission for a formal statement of the sums wanted by the Russians M. Litvinov on June 30 declared that his country needed foreign credits and loans amounting to a total of 3.224,000,000 gold rubies (\$1,612,000,000), distributed as follows, the sums named being all in gold marks: Transport, 1,050,000.000 (\$525,000,000); industries, 750,000,000 (\$462,000,000); industries, 750,000,000 (\$375,000,000); miscellaneous commercial credits, 300,000,000 (\$150,000,000); bank (\$373,000,000); miscellaneous commercial credits, 300,000,000 (\$150,000,000); bank credits 200,000,000 (\$100,000,000). The French and Belgian delegates said the sums asked for were fartastic. To this the Russians retorted that unless such credits were granted to the Moscow government the allied nations stood a small chance of being able to collect the sums due them.

Various meetings were held in the first half Various meetings were neight in the first name of July, but no progress to a definite understanding was made. The figures presented by the Russians regarding their budget ran well into the trillions and were regarded as impossible by the financial experts representing the non-Russian nations. The delegates from Moscow were unyielding in their attitude and finally of July 20 the conference came to an finally on July 20 the conference came to an end without having accomplished the purpose for which it was called. Before separating the non-Russian delegates adopted a resolution pledging every participating power to use its influence to prevent its nationals from accepting Russian concessions involving property formerly owned by foreigners.

### CARNEGIE ENDOWMENT FOR INTERNATIONAL PEACE.

Founded Dec. 14, 1910.

Dec. 14, 1910, Andrew Carnesie transferred to a board of trustees \$10,000,000 in 5 per cent first mortgage bonds, the revenue of which will be used to "hasten the abolition of international war" and to establish lasting world peace. The formal transfer was made at a meeting in the rooms of the Carnesie Research Foundation in Washington, D. C.
The work of the trustees has been mainly C.

along these lines:
(a) Promoting a thorough investigation of the causes of war and of practical methods to prevent and avoid it.
(b) Aiding in the development of inter-

national law.

(c) Diffusing information as to the causes ad effects of war.

(d) Establishing a better understanding of international rights and duties and a more perfect sense of international justice.

(e) Cultivating friendly feeling between the inhabitants of different countries.

(f) Promoting a general acceptance of peaceful methods in the settlement of international disputes. (g) Assisting other organizations having

the same objects in view.

c. 14, 1910.

Up to Jan. 31, 4920, the trustees had expended \$658,627.30 for administrative purposes: \$2,273,485.32 for subventions to societies and periodicals, international visits, publications and educational propaganda; \$557,143.22 for research and special work and publications in the division of economics and history; \$849,121.20 in the division of international law: \$184,000 for the purchase of headquarters buildings and sites; \$100,000 for the reconstruction of the University of Louvain; \$100,000 for the reconstruction of the University of Belgrade; \$50,000 for the reief of refugees from Russia, and \$50,000 for a loan to China. The trustees also contributed \$33,675 to the fund for the restoration of the fabric of Westminster abbey in London, and \$22,860 for a replica of the St. Gaudens statue of Abraham Lincoln presented to the people of England and erected in the Canning enclosure opposite Westminster abbey and the houses of parliament. Total expenditures to Jan. 31, 1920, \$4,842,377.04.

The office of the administration is at 2 Jackson place, Washington, D. C. The secretary is James Brown Scott and assistant secretary and statistician is S. N. D. North.

### SPEED IN TYPEWRITING.

In a typewriting speed contest held in connection with the Pageant of Progress in Chicago Aug. 9, 1922. George L, Hossfield of Paterson, N. J., won the American championship with a record of 126 words a minute. Miss Bessie Friedman of New York was second with 125 words and Miss Hortense Stollnitz of the same city third with 124 words, each of the contestants writing for thirty minutes. Mr. Hossfield won the championship in 1918 with a speed of 143 words a minute and

also in 1920 and 1921 with 131 and 136 words a minute, respectively. William F. Oswald of Philadelphia took the championship in 1919 by typing 132 words a minute. The commercial accuracy contest in Chicago was won by W. F. Oswald, who typed 123 words a minute for thirty minutes vith only one error. John Birmingham of Waltham, Mass, won the American novice contest by writing eighty-nine words a minute for fifteen minutes. minutes.

### THE RHODES SCHOLARSHIPS.

The stipend of a Rhodes scholarship is normally £300 a year, but at present a bonus of £50 additional is given. A scholarship is 250 additional is given. A scholarship is tenable for three years, subject to the approval of the college of Oxford of which the scholar Two scholarships are assigned is a member. is a member. Two scholarships are assigned to each state in the United States. As the scholarship is tenable for three years there will be one year out of every three in which there will be no election. A candidate to be eligible must be a citizen of the United States and unmarried. He must have passed his inheteenth and not have passed his twenty-fifth birthday. He must have completed at least his sonborner year at some recognized. least his sophomore year at some recognized degree-granting university or college of the United States.

of selection, in whose hands, subject to ratification by the trustees, the nominations will rest. Candidates must in the first instance be selected by their own college or university. The qualities to be considered by the state committee in the final selection are:

1. Qualities of manhood, force of character and leadership.

2. Literary and scholastic ability and attainments.

3. Physical vigor as shown by interest in outdoor sports and in other ways.

Participation and interest in open-air athletic pursuits form an essential qualifica-tion for a Rhodes scholar, but exceptional athletic distinction is not treated as of equal For each state there will be a committee importance with the other requirements.

#### LLOYD'S.

underwriters met to transact business. They tremained there until 1774 when they remained there until 1774 when they remained to the Royal Exchange, where they have since remained. Lloyd's was incorporated in 1871 by an act of parliament, the act being amended in 1911. It does not undertake insurance business as a corporation. This

Lloyd's is an association of underwriters in list conducted by its members on their own London, England. Its name is derived from a coffee house kept by Edward Lloyd in Tower street in the 17th century, where underwriters met to transact business. They remained there until 1774, when they removed to the Royal Exchange, where they have since remained. Lloyd's was incorporated in 1871 by an act of oarliament, the act

\*Includes United States notes less amount in reserve fund. For purposes of uniformity this has been considered as \$150,000,000 prior to 1900 and a like amount deducted from cash in the treasury, although the act authorizing a separate fund was not passed until 1900. †Does not include gold and silver certificates or federal reserve gold fund for payment of which an equal amount of money is held in trust and not included as cash in treasury. ‡Estimated amounts. Includes matured interest obligations, discount accrued on war savings securities, treasury warrants and disbursing officers' checks outstanding. No estimate of matured coupons was made prior to 1916. Includes only treasury warrants outstanding for years prior to 1914. \$Consists of balance in the general fund before deducting disbursing officers' credits which are merely book credits or authorizations to draw on the treasurer. ICash in treasury deducted from amounts shown under gross debt plus matured interest obligations, etc.

### NET PUBLIC DEBT OF THE UNITED STATES.

Includes matured interest obligations, etc., on July 1. Prior to 1897 figures include gold

and silver certificates, treasury notes of 1890 and gold reserve against United States notes. This practice was discontinued in 1915 and revision has been carried back only as far as 1897.

\*These amounts are not included in the total, since the money held in trust against gold and silver certificates and treasury notes of 1890 is included under gold coin and bullion and standard silver dollars respectively.

943,588,069.41

†The population of continental United States July 1, 1922, was estimated at 109,743,000; July 1, 1921, 108,087,000; April 1, 1917, 103,716,000; July 1, 1914, 99,027,000; Jan.

1905.....

1. 1879, 48.431.000. Note 1—The form of circulation statement has been revised as of July 1, 1922, so as to exclude from money in circulation all forms of money held by the federal reserve banks and federal reserve agents, whether as reserve against federal reserve notes or otherwise. This change results in showing a per capita circulation on July 1, 1922, of \$39.87, wherecirculation on July 1, 1922, of \$39.87, whereas under the form of statement heretofore
used it would have been \$49.17. For the
sake of comparability the figures for June 1,
1922, July 1, 1921, and April 1, 1917, have
been computed in this statement in the same
manner as those for July 1, 1922.

Note 2—Gold certificates are secured dollar
for delugably gold held in the treasury for

their redemption; silver certificates are secured dollar for dollar by standard silver dollars, held in the treasury for their redemption; United States notes are secured by a gold re-serve of \$152,979,025,63 held in the treasury. This reserve fund may also be used for the redemption of treasury notes of 1890, which are also secured dollar for dollar by standard silver dollars held in the treasury. Federal reserve notes are obligations of the United States and a first lien on all the assets of the issuing federal reserve bank. Federal reserve notes are secured by the deposit with federal reserve agents of a like amount of gold or of gold and such discounted or purchased paper as is eligible under the terms of the federal reserve act. Federal reserve banks must main-tain a gold reserve of at least 40 per cent, including the gold redemption fund which must be deposited with the United States treasurer against federal reserve notes in actual circulation. Federal reserve bank notes and national bank notes are secured by United States gov-ernment obligations, and a 5 per cent fund for their redemption is required to be main-Note 2—Gold certificates are secured dollar tained with the treasurer of the United States for dollar by gold held in the treasury for in gold or lawful money.

### NATIONAL LEAGUE OF WOMEN VOTERS. 532 17th street, N. W., Washington, D. C.

President-Mrs. Maud Wood Park, Washington,

First Vice-President - Mrs. Richard Edwards. Peru, Ind.

Honorary Chairman-Mrs. Carrie Chapman Catt. | Second Vice-President-Miss Belle Sherman,

Cleveland, O. Secretary—Miss Elizabeth Hauser, Girard, O. Treasurer — Miss Katharine Ludington, New York, N. Y. Executive Secretary—Mrs. Minnie F. Cunning-

ham, Washington, D. C.

### RANK OF STATES IN AGRICULTURAL IMPORTANCE.

#### [Federal census report.]

In the following table the value of all farm property includes the value of land and buildings, implements and machinery, and live stock. The value of all farm crops comprises the value of all cultivated crops, including hay and forage, and the value of fruits and nuts, but does not include the value of forest

products or of nursery and greenhouse products. The value of live stock products is made up of the value of dairy products, eggs and chickens, wool and mohair, and honey and wax. The value of domestic animals sold and slaughtered is not included.

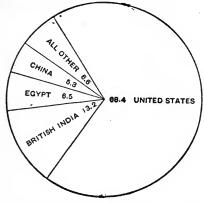

Farm property.		Farm property.		Farm crops.

## GROSS VALUE OF FARM PRODUCTS (1919 AND 1909).

[Census bureau report.]

shown in the accompanying table is the sum of the values of live stock products, domestic animals sold or slaughtered, farm crops, forest products of farms, and nursery and greenhouse products. This gross value contains a large element of duplication, resulting mainly from the fact that the contract of same from the fact that the greater part of some

The "gross value of farm products" which is of the most important crops is fed to live stock. For many purposes, nevertheless, it forms a fairly satisfactory index to the relative importance of agriculture in different areas. In making comparisons between 1909 and 1919, allowance should be made for the much higher prices prevailing in 1919.

For full information as to the method of acquiring homesteads on unappropriated public lands of the United States apply at the nearest federal land office or write to the general land office in the department of the interior, Wash-In general, it may be said that

ington, D. C. In general, it may be said that any person who is the head of a family or is 21 years old and a citizen of the United States, or has declared his intention to be such, and who is not the proprietor of more than 160 acres of land, is entitled to enter 160 acres of public land as a homestead. He is obliged to pay certain fees and commissions, ranging

ington, D. C.

HOMESTEAD LAWS OF THE UNITED STATES. THE UNITED STATES. from \$7 to \$18, according to the amount of land entered and its location, to live upon the land for a certain length of time and to cultivate a certain amount of it. Recent laws provide for enlarged homesteads of 320 acres in Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, North Dakota, South Dakota, Oregon, Utah, Washingtr and Wyoming, on nonmineral, nonirrigable and nontimbered land; also for stock raising homesteads of 640 acres on land fit only for grazing of orgage-growing purposes.

ing or forage-growing purposes.

#### GENERAL STRIKE AND REVOLT IN SOUTH AFRICA.

The Union of South Africa was the scene of a serious general strike and attempted revolution in the course of the first three months of 1922. The trouble began in January with a dispute over wages between the gold mine owners and their employes on the Rand at Johannesburg. Most of the mines were operating at a loss, but the men would accept no reduction in pay. The trouble gradually spread ating at a loss, but the men would accept no reduction in pay. The trouble gradually spread and there were frequent clashes between the strikers and the authorities. On March 5 the Industrial federation called a general strike and acts of violence increased in number. The situation became menacing when the red flag of communism and bolshevism was displayed by the strikers, who had organized armed commandoes and were not only defying but shooting down the police and military opposing On March 10 martial law was proclaimed on

the Rand and Gen. J. C. Smuts, the premier of the Union of South Africa, began assembling strong military forces and attacking the strongholds of the strikers at all points. Fighting occurred at Newlands, Fordsburg. Benoni, Brakpan, Jeppe, Sophiatown, Brixton Ridge, Auckland Park and a number of other places in the vicinity of Johannesburg. The government forces were led by Maj.-Gen. Sit J. L. Van Devanter and Brig.-Gen. Conrad Brits. Artillery, airplanes and tanks were used by the troops especially in besieging Benoni, where the revolutionists suffered many Benoni, where the revolutionists suffered many casualties. In the course of about ten days some 6,000 of the strikers and their bolshevist supporters were captured. On March 15 the strike was declared off and peace was restored.

It was asserted by the police that they had found conclusive evidence that a bolshevist plot was responsible for the revolt.

#### FEDERAL-AID HIGHWAY SYSTEM. [From bureau of

Fifteen to twenty years of building good roads lie ahead of the United States. Under the program which the country has adopted there will be built, during that time, 180,000 miles of improved highways which will constitute the federal-aid highway system and an equal or greater mileage of stata and local roads. When the great job is done, the transportation facilities of the country will far ex-ceed those of any other nation, past or pres-ent, in the world. The highways of the ancient Romans, whose fame has come down through the centuries, will pale by compari-

Details of this vast road-building program were placed before the highway education board at its conference in Washington Oct. 26 to 28, 1922, inclusive, by state highway engineers and officials of the bureau of public roads, United States department of agriculture, to whom has been intrusted the work of planning and supervising the construction of planning and supervising the construction of planning and supervising the construction of federal-aid highways. The plan was presented to enable the board to proceed authoritatively with its work of devising aids for schools and colleges to which road-builders of the country turning for competent highway engineers.

Officials of the bureau placed the aggregate Omitais of the buteau placet the aggregate cost of the federal aid program alone at about \$3,000,000,000, spread over the twenty-year period. They based this estimate on an average cost of \$17,000 per mile. The average cost, in turn, takes into consideration all cost, in turn, takes into consideration all classes of improved roadways from the cheapest to the most expensive types. Approximately one-third of the proposed system, or 60,000 miles of improved highways, already are either built or building.

states and nation.

The program is a new one. Up to comparatively recent years road-building in the United States had been conducted without special regard to a national system. Highways had been constructed where needed without considering whether they would link up in the most effective manner with the whole network of roads to be spread over the nation. Engineers had sought more to meet immediate and local demands then the breader requirement. demands than the broader requirements of the

The present federal-aid road-building program, officials of the bureau stated, will contemplate the construction of only such roads as fit into the national program and contribute to the national system. At the same time the roads will be so selected as to serve the most important local requirements. With rearried, medifications, the system adouted in marked modifications, the system adopted in building the railways of the country will be borne in mind in the construction of the country's new highways. There will be main lines of highway communication between centers and thousands of miles of feeder roads.

centers and thousands of miles of feeder roads, reaching back into the more sparsely settled regions and into the rich agricultural sections, to tap areas whose population and products will flow over the new system.

New roads will be planned and built—thousands of miles of them—where they will fit in most advantageously with the entire program. The bureau is continuing its research work into most efficient methods of road-building, including the character and wearing power of materials, resisting qualities of varying submaterials, resisting qualities of varying sub-soils, etc., and has amassed a considerable store of valuable information, all of which will be available for the highway engineer of to-morrow, whom the board is seeking to have educated in practical and modern methods.

Schedule No. 9-Indemnities.

The treaty provided that Germany should pay and Germany engaged to pay only three

pay and Germany engaged to pay only three general items of indemnity:

1. Repay Belgium for all foreign loans made by it to prosecute the war, including all fines and taxes imposed by Germany upon Belgian citizens during occupation. 2. All damages to persons and property of

civilians. 3. Pension and dependency claims, capitalized on the basis of the French rates. Ninety-five per cent of all moneys spent by ne United States was for items not coming ander any of those three heads. All of the toney spent for cost of operation of the oney spent for cost of operation of the arr and navy departments, relief-work concibutions, and economic assistance of whatver character is a dead loss. We are only to be reimbursed for a little lost shipping and or pensions and dependency claims, at the rench rate, which is considerably less than ur own; so that no doubt half or two-thirds four residenced decorates being the second of the contract of the contr our pension and dependency claims will be dead loss.

a dead loss.

The treaty fixed at the time what was then upposed to be the maximum indennity that Jermany was to pay on account of the three tems. She was to give up certain territories in Europe, which were then and there divided and given to Belgium, France, and other countries. The United States, of course, did not isk for or get any of that indemnity. Then she was required to make certain deliveries of coal to Belgium, France and Italy; of chemicals to France and live stock to both France and Belgium. The overseas possessions in Africa and the Pacific islands, some \$47,000 square miles, were to be held for the joint account of all allies.

Seven hundred thousand dollars in cash was

Seven hundred thousand dollars in cash was been be raised with which to pay off Belgium's to be raised with which to pay off Belgium's coreign debt. and Germany was to issue some \$25,000,000,000 of bonds, with varying maturities, that were to be delivered to the reparation commission, to be by it allotted. With reference to the overseas possessions of Germany in Africa and the Pacific islands it was naturally expected, in view of the fact that France and other European countries had taken the European territories, that the overseas possessions would go to England, minus a few islands in the Pacific to the United States. It was never for a minute supposed that Japan would be allotted any of those islands, because she had received ther share in Shantung, which seemed to be ample in view of her insignificant participation in the war.

ample in view of her insignificant participation in the war.
The United States had holdings in the Samoan islands, and we might expect England to turn Germany's interest in those islands over to America, or at least d'vide; but not so. The islands north of the equator lie in a string in the path between Hawaii and the Philippines, and it was thought that those islands would be conceded to the United States, but that was not to be. They were given to Japan, whose financial participation in the world war turns out to be thirty million against our thirty billion, or about one-tenth of 1 per cent of the participation of the United States. (See schedule 8.)
It was never intended that the United States should participate in any manner in the Ger

should participate in any manner in the German indemnity, so that whatever it is, large or small, the amount will have no effect upon the final figures representing the net loss appearing in the last column on the first sheet of this statement. If the amount collected is large, it will be added; and if it is small, it will be deducted from both column No. will be deducted from both column No. and column No. 2, and the final difference will be the same.

For the purposes of this statement and more to illustrate the elements that must finally go into the last account we have used the tentative issue of bonds provided for in various parts of the treaty, aggregating \$25,000,000,000, and in distributing the items in column No. 2 we have used the compilations of Prof. J. M. Keynes in his book entitled "Economic Consequences of Peace." In that work he went over the subject of damages to property and persons with great thoroughness, ascertained the original value of the property before invasion, and deducted its value after.

However, as we have shown, any other items or estimates of these damages will not change the fact that the United States has invested \$670,000,000 more in the world war than any other nation.

[The foregoing "trial balance" of the of the world war appeared in the congressional record for March 5, 1921. Senator Spencer is solely responsible for the figures and statements contained therein.]

### NAVAL VESSELS LOST IN THE WAR.

The following figures obtained by Reuter's curred by the navies of the allies and the Agency from an authoritative scurce in Paris, central powers in the period between Aug. 1, Feb. 28, 1919, show the total war losses in-11914, and Nov. 11, 1918:

	Britain.	France.	Italy.	Japan.	U.S.	Germany	lustria- Iungary.
Battle ships	13	4	3	1,	• •	1	3
Battle cruisers		'Ė	*2	°à.	• •	1 24	•
Monitors			ĩ	-		NII.	ž
Destroyers		14	10	*3	**	72	ဋ

## SYNOPSIS OF TARIFF LEGISLATION SINCE 1884.

Morrison Bills-First bill presented to 48th Morrison Bills—First only presented to 46th congress during Chester A. Arthur's administration; proposed a horizontal reduction of 20 per cent with free iron ore, coal and lumber; defeated in house April 15, 1884, by vote of 159 and 155; house heavily democratic and senate republican. Second bill presented to

senate republican. Second bill presented to 49th congress during Grover Cleveland's first administration; similar to first bill, proposing free wool, salt and lumber; defeated in house June 17, 1886, by a vote of 157 to 140; house democratic, senate republican.

Mills Bill—Presented to 50th congress during Cleveland's first administration; provided for free lumber and wool, reduction on pig iron and abolition of specific duties on cotton; passed by house July 21, 1888, by vote of 162 to 149, but failed in senate; house democratic, senate republican.

cratic, senate republican.

McKinley Bill—Passed by 51st congress during Benjamin Harrison's administration; became law Oct. 6, 1890; high protective measure, though remitting duties on sugar and pro-

ure, though remitting duties on sugar and providing for reciprocity treaties; both houses of congress republican. Wilson Bill—Passed by 53d congress during Cleveland's second administration; became law Aug. 17, 1894, without the president's signature; both houses democratic; measure reduced duties in some cases and made additions to free list, notably wool.

Dingley Bill—Passed by 54th congress during McKinley's administration; approved July

24, 1897; passed by house 205 yeas to 122 nays, 27 members not voting; passed by senate 38 yeas to 28 nays, 23 not voting; house contained 206 republicans and 134 democrats and senate 46 republicans and 34 democrats; measure raised rates to produce more revenue. but was similar in many respects to the Mc-Kinley act

Minley act.

Payne-Aldrich Bill—Passed at extra session of 61st congress in first year of President William H Taft's administration; approved Aug. 5, 1909; passed the house by a vote of 17 to 161 and the senate by a vote of 45 to 34. The conference vote in the house was 195 yeas to 183 nays, twenty republicans voting in the negative and two democrats in the affirmative. In the senate the vote on the final conference report was 47 to 31, seven republicans voting against it. In general the revision of the Dingley act was in the direction of lower duties, but there were some increases. creases.

Underwood-Simmons Bill—Passed congress at extra session called immediately after President Wilson's inauguration in 1913; house and senate democratic. The bill made house and senate democratic. The bill made many reductions in the tariff duties as fixed many reductions in the tariff duties as fixed by the Payne-Aldrich law and placed numer-ous articles on the free list. It also con-tained a section establishing a tax on incomes, Fordney-McCumber Bill—Passed by 67th congress at extra session. A full synopsis will be found on page 282 of this volume.

#### AMERICAN AVIATION ACES.

Following is an official list of American aviators who gained five or more air victories in the war, with the number credited to each:
Capt. Edward V. Rickenbacker, 26, 1334 East

Livingston avenue, Columbus, O. First Lieut. Frank Luke, Jr. (deceased), 18, 2200 West Monroe street, Phœnix, Ariz.

Maj. Victor Raoul Lutbery (deceased), 17,

Dieppe, France.
First Lieut. David E. Putnam (deceased), 12, 47 Englewood avenue, Brookline, Mass.
Maj. Reed G. Landis, 12, Hotel Windermere,

Maj. Reed G. Lahus, 12, 100 Gravette, Ark. Chicago, Ill. First Lieut, George A. Vaughn, Jr., 10, 441 Washington avenue, Brooklyn, N. Y. First Lieut, Jacques Michael Swaab, 10, 16th and Diamond streets, Philadelphia.

First Lieut. Thomas G. Cassady, 9. home address.) (No

rirst Lieut. Chester E. Wright, 9, 41 Dana hall, Cambridge, Mass.
First Lieut. William P. Erwin, 9, 814 Fine Arts building, Chicago, Ill.

Capt. Elliott W. Springs, 9, Lancaster, Pa. First Lieut. Henry R. Clay, Jr., 8, 1703 Summit avenue, Fort Worth, Tex.
Mai. James A. Meissner, 8, 45 Lenox road.
Brooklyn, N. Y. Meissner, 8, 45 Lenox road.
Capt. Hamilton Coolidge (deceased), 8, 10

Capt. Hamilton Coolidge (deceased), 6, 10 West place, Boston, Mass. Capt. G. DeFreest Larner, 8, Highland apartments, Washington, D. C. First Lieut. Paul Frank Baer, 8, 1304 Maud street, Fort Wayne, Ind. First Lieut. Frank O. D. Hunter, 8, 218 Gaston street, Savannah, Ga. First Lieut. Wilbert Wallace White (deceased), 8, 541 Lexington avenue, New York

Second Lieut. Clinton Jones. 8, 2617 Bu-chanan street, San Francisco, Cal. Capt. Reid M. Chambers, 7, 276 Monroe street, Memphis, Tenn.

#### NATIONAL PARTY PLATFORMS OF 1920.

#### REPUBLICAN.

Adopted at Chicago, June 10.

The republican party, assembled in representative national convention, reaffirms its unyielding devotion to the constitution of the United States and to the guarantees of civil, political and religious liberty therein conpolitical and religious liberty therein contained. It will resist all attempts to overthrow the foundations of the government or to weaken the force of its controlling principles and ideals, whether these attempts be made in the form of international policy or domestic agitation.

For seven years the national government has ror seven years the mattonal government has been controlled by the democratic party. During that period a war of unparalleled magnitude has shaken the foundations of civilization, decimated the population of Europe, and left in its train economic misery and suffering second only to war itself.

The outstanding features of the democratic administration have been complete unpreparedness for war and complete unpreparedness for peace.

#### Unpreparedness for War.

Inexcusable failure to make timely preparation is the chief indictment against the democratic administration in the conduct of the war. Had not our associates protected us. both on land and sea, during the first twelve months of our participation, and furnished us to the very day of the armistice with munitions, planes and artillery, this failure would have been punished with disaster. It would have been punished with disaster. It directly resulted in unnecessary losses to our gallant troops, in the imperiment of victory itself, and in an enormous waste of public funds literally poured into the breach created by gross neglect. To-day it is reflected in our huge tax burden and in the high cost of living.

Unpreparedness for Peace.

Peace found the administration as unprepared for peace as war found it unprepared for war. The vital needs of the country demanded an early and systematic return to a peace time basis. This called for vision, peace time basis. This called for vision, leadership and intelligent planning. All three have been lacking. While the country has been left to shift for itself, the government has continued on a wartime basis,

The administration has not demobilized the army of place holders. It continued a method of financing which was indefensible during the period of reconstruction. It has used legislation passed to meet the emergency of war to continue its arbitrary and inquisitorial control over the life of the people in time of peace, and to carry confusion into industrial

Under the despot's plea of necessity or superior wisdom, executive usurpation of legissuperior visuom, executive usurgatum of visuos lative and judicial functions still undermines our institutions. Eighteen months after the armistice with its wartime powers unabridged, its wartime departments undischarged, its wartime army of place holders still mobilized, the administration continues to flounder helplessly.

The demonstrated incapacity of the demo-cratic party has destroyed public confidence, weakened the authority of government, and produced a feeling of distrust and hesitation so universal as to increase enormously the difficulties of readjustment and to delay the return to normal conditions.

Never has our nation been confronted with graver problems. The people are entitled to know in definite terms how the parties purpose solving these problems. To that end, the republican party declares its policies and program to be as follows: Constitutional Government.

We undertake to end executive autocracy and to restore to the people the constitutional government.

The policies herein declared will be carried out by the federal and state governments, each acting within its constitutional powers. Despite the unconstitutional and dictatorial course of the president and the partisan obstruction of the democratic congressional minority, the republican majority has enacted a program of constructive legislation which, in great part, however, has been nullified by the vindictive vetoes of the president.

the vindictive vetoes of the pressuent. The republican congress has met the problems presented by the administration unprepared for peace. It has repealed the greater part of the vexatious war legislation. It has enacted a transportation act, making possible the rehabilitation of the railroad system of the country, the operation of which under the present democratic administration has been present democratic administration present democratic administration has been extravagant and wasteful in the highest degree. The transportation act made provision for the peaceful settlement of wage disputes, partially nullified, however, by the president's delay in appointing the wage board created by the act. This delay precipitated the outlaw

railroad strike.

We stopped the flood of public treasure recklessly poured into the lap of an inept shipping board and laid the foundations for the creation of a great merchant marine. We took from the incompetent democratic administration the administration of the telegraph and telephone lines of the country and returned them to private ownership. We reduced the cost of postage and increased the pay of the postal employes—the poorest paid of all public servants. We provided pensions for superannated and retired civil servants and for an increase in pay for soldiers and sailors. We reorganized them on a peace footing and provided for the maintenance of a powerful and efficient navy. Passed Suffrage Amendment.

The republican congress established by law a permanent women's bureau in the department of labor. We submitted to the country the constitutional amendment for woman's suffrage, and furnished twenty-nine of the thirty-five legislatures which have ratified it

Legislation for the relief of the consumers of print paper, for the extension of the powers of the government under the food control act, for broadening the scope of the control act, for broadening the scope of the war risk insurance act, better provision for the dwindling number of aged veterans of the civil war, and for the better support of the maimed and injured of the great war and for making practical the vocational rehabilitation act that has been enacted by the republican congress.

We passed an oil leasing and water power bill to unlock for the public good the great pent-up resources of the country; we have sought to check the proffigacy of the administration, to realize upon the assets of the government and to husband the revenues derived from taxation. The republicans in derived from taxation. The republicans in congress have been responsible for cuts in the estimates for government expenditure of nearly \$3,000,000,000 since the signing of the armistice.

We enacted a national executive budget law; we strengthened the federal reserve act, to permit banks to lend needed assistance to farmers; we authorized financial incorporations to develop export trade and, finally, amended the rules of the senate and house, which will reform evils in procedure and guarantee more efficient and responsible government.

#### Agriculture.

The farmer is the backbone of the nation; national greatness and economic independence demand a population distributed tetw en industry and the farm and sharing on equal terms of prosperity, which is wholly dependent on the efforts of both. Neither can the converges of the other without ent on the efforts of both. Neither can prosper at the expense of the other without inviting joint disasters. The crux of the present agricultural condition lies in prices,

labor and credit. The republican party believes that this condition can be improved by the right to form co-operative associations for marketing their products and protection against discrimination; the scientific study of agricultural prices and farm production costs at home and abroad, with a view to reducing the frequency of abnormal fluctuation; the uncensored publication of such reports; the authorization of associations for the extension of personal cation of such reports; the authorization of associations for the extension of personal credit; a national inquiry on the co-ordination of rail, water and motor transportation with adequate facilities for receiving, handling and marketing food; the encouragement of our export trade; an end to unnecessary price fixing and ill considered efforts abitrarily to reduce prices of farm products which invariably result to the disadvantage both of producer and consumer; and the encouragement of the production and importation of etrilizing material and of its extensive use.

fertilizing material and of its extensive use.

The federal farm loan act will be so administered as to facilitate the acquisition of farm land by those desiring to become owners and proprietors, and thus minimize the evils of farm tenancy, and to furnish such long time credit as farmers may need to finance adequately their larger and long time pro-

duction operations.

#### Industrial Relations.

There are two different conceptions of the relations of capital and labor. The one is contractual and emphasizes the diversity of interests of employer and employe. The other

is that of copartnership in a common task.
We recognize the justice of collective bargaining as a means of promoting good will, establishing closer and more harmonious relabetween employers and employe,

tions between employers and employe, and realizing the true ends of industrial justice.

The strike or the lockout, as a means of settling industrial disputes, inflicts such loss and suffering on the community as to justify government initiative to reduce its frequency and limit its consequences.

We deny the right to strike against the government; but the rights and interests of

all government employes must be safeguarded by impartial laws and tribunals.

Public Utilities.

In public utilities we favor the establishment of an impartial tribunal to make an investigation of the facts and to render a decision to the end that there may be no organized interruption of service necessary to the lives and
health and welfare of the people. The decisions of the tribunals should be morally but
not legally binding and an informed public
sentiment be relied on to secure their acceptance. The tribunals, however, should refuse
to accept jurisdiction except for the purpose
of investigation, as long as the public service
be interrupted. For public utilities we favor
the type of tribunal provided for in the transportation act of 1920.

In private industries we do not advocate
the principle of comvulsory arbitration, but we the end that there may be no organized inter-

the principle of compulsory arbitration, but we favor impartial commissions and better facilities for voluntary mediation, conciliation and arbitration supplemented by that full publicity which will enlist the influence of an aroused public opinion. The government should take

the initiative in inviting the establishment of tribunals or commissions for the purpose of voluntary arbitration and of investigation of disputed issues.

We demand the exclusion from interstate commerce of the products of convict labor.

#### National Economy.

A republican congress reduced the estimates submitted by the administration for the fiscal year 1920 almost three billion dollars, and for the fiscal year 1921 over a billion and a quarter dollars. Greater economies could have been effected had it not been for the stubborn refusal of the administration to co-operate with congress in an economy program. The universal demand for an executive budget is a recognition of the incontrovertible fact that leadership and sincere assistance on the part executive departments are essential of the to effective economy and constructive retrenchment.

The Overman act invested the president of the United States with all the authority and power necessary to restore the federal government to a normal peace basis and to reorganize, retrench and demobilize. The dominant ize, retrench and demobilize. The dominant fact is that eighteen months after the armistice the United States government is still on stice the United States government is still on a war time basis and the expenditure program of the executive reflects war time extrava-gance rather than rigid peace time economy. As an example of the failure to retrench which has characterized the postwar policy of the administration we git the foot that

of the administration, we cite the fact that, not including the war and navy departments, the executive departments and other establishments at Washington actually record an increase subsequent to the armistice of 2,184 employes. The net decrease in pay roll costs contained in the 1921 demands submitted by the administration is only 1 per cent under that of 1920. The annual expenses of federal operation can be reduced hundreds of millions

operation can be reduced numered of minious of dollars without impairing the efficiency of the public service.

We pledge ourselves to a carefully planned readjustment to a peace time basis and to a policy of rigid economy, to the better co-ordination of departmental activities, to the elimination of unnecessary officials and employes and to the resisting of the stendard of individual. and to the raising of the standard of individual efficiency.

The Executive Budget.

We congratulate the republican congress on the enactment of a law providing for the establishment of an executive budget as a establishment of an executive oudget as a necessary instrument for a sound and business-like administration of the national finances and we condemn the veto of the president which defeated this great financial reform,

#### Reorganization of Departments.

We advocate a thorough investigation of the present organization of the federal depart-ments and bureaus, with a view to securing consolidation, a more businesslike distribution of functions, the elimination of duplication, delays and overlapping of work and the establishing of an up to date and efficient administrative organization.

War Powers of the President.

The president clings tenaciously to his autocratic war time powers. His veto of the resolution declaring peace and his refusal to sign the bill repealing war time legislation, no longer necessary, evidence his determination not to restore to the nation and to the states the form of government provided for by the constitution. This usurpation is intolerable and deserves the severest condemnation.

The burden of taxation imposed upon the

ing a true statement of the situation we must face the fact that while the character of the capitol can and should be changed, an early reduction of the amount of revenue to be raised is not to be expected. The next republican administration will inherit from its democratic predecessor a floating indebtedness of over \$3,000,000,000, the prompt liquidation of which is demanded by sound financial considerations.

Moreover, the whole fiscal policy of the government must be deeply influenced by the necessity of meeting obligations in excess of necessity of meeting obligations in excess of \$5,000,000,000,000 which mature in 1923. But sound policy equally demands the early accomplishment of that real reduction of the tax burden which may be achieved by substituting simple for complex laws and procedure, prompt and certain determination of the tax which do not for tax laws which do excessively mulciple the consumer or needlessly repressive mulciples. ly mulct the consumer or needlessly repress enterprise and thrift.

We advocate the issuance of a simplified form of income return; authorizing the treasury department to make changes in regulations effective only from the date of their approval; empowering the commissioner of internal revenue, with the consent of the taxpayer, to make final and conclusive settlements of tax claims and assessments, barring fraud, and the creation of a tax board consisting of at least three representatives of the taxpaying public and the heads of the principal divisions of the bureau of internal revenue to act as a standing committee on the simplification of forms, procedure and law and to make rec-ommendations to the congress.

## Banking and Currency.

The fact is that the war, to a great extent, was financed by a policy of inflation through certificate borrowing from the banks and bonds issued at artificial rates sustained by the low discount rates established by the federal re-serve board. The continuance of this policy since the armistice lays the administration open to severe criticism. Almost up to the present time the practices of the federal reserve board as to credit control have been frankly dom-inated by the convenience of the treasury.

The results have been a greatly increased war cost, a serious loss to the millions of people who in good faith bought liberty bonds and victory notes at par, and extensive postwar speculation, followed to-day by a restricted credit for legitimate industrial expansion. As a matter of public policy we urge all banks to give credit preference to essential industries.

The federal reserve system should be free from political influence, which is quite as important as its independence of domination

by financial combinations.

#### High Cost of Living.

The prime cause of the "high cost of living" has been, first and foremost, a 50 per cent depreciation in the purchasing power of cent depreciation in the purchasing power of the dollar, due to a gross expansion of our currency and credit. Reduced production, burdensome taxation, swollen profits and the increased demand for goods arising from a fictitious but enlarged buying power have been contributing causes to a greater or less

We condemn the unsound policies of the democratic administration which have brought these things to pass, and their attempts to impute the consequences to minor and secondary causes. Much of the injury wrought is irreparable. There is no short way out and irreparable. There is no short way out and we decline to deceive the people with vain

sound finance, we pledge ourselves to earnest and consistent attack upon the high cost of living by rigorous avoidance of further inflation in our government borrowing, by coura-geous and intelligent deflation of overexpanded credit and currency, by encouragement of heightened production of goods and services, by prevention of unreasonable profits, by exercise of public economy and stimulation of private thrift and by revision of war imposed taxes unsuited to peace time economy.

We condemn the democratic administration for failure impartially to enforce the anti-profiteering laws enacted by the republican

congress.

#### Railroads.

We are opposed to government ownership and operation or employe operation of the railroads. In view of the conditions prevailing in this country, the experience of the last two years, and the conclusions which may fairly be drawn from an observation of the transportation systems of other countries, it is clear that adequate transportation service both for the present and future can be further than the present and future than the present and future than the first than the present and future than the present than the present that the present the present that the present that the present the present that the present the present the pr nished more certainly, economically and effi-ciently through private ownership and operation under proper regulaton and control.

There should be no speculative profit in rendering the service of transportation, but in order to do justice to the capital already invested in railway enterprises, to restore railway credit, to induce future investments at a reasonable rate and to furnish enlarged facilities to meet the requirements of the constantly increasing development and distribution, a fair return upon actual value of the railway property used in transportation should be made reasonably sure and at the same time to provide constant employment to those engaged in transportation service, with fair hours and favorable working conditions, at wages or compensation at least equal to those prevailing in similar lines of industry. We indorse the transportation act of 1920 enacted by the republican congress as a most constructive legislative achievement.

## Waterways.

We declare it to be our policy to encourage and develop water transportation service and facilities in connection with the commerce of the United States.

#### Regulation of Industry and Commerce.

We approve in general the existing federal legislation against monopoly and combination in restraint of trade, but since the known uncertainty of a law is the safety of all, we advocate such amendment as will provide American business men with better means of determining in advance whether a proposed combination is or is not unlawful. The federal trade commission under a democratic adminal trade commission, under a democratic adminal trace commission, under a democratic administration, has not accomplished the purpose for which it was created. This commission, properly organized and its duties efficiently administered, should strive for protection to the public and legitimate business interest. There should be no persecution of honest businesses. ness; but to the extent that circumstances warrant, we pledge ourselves to strengthen the law against unfair practices.

We pledge the party to an immediate resumption of trade relations with every nation with which we are at peace.

The uncertain and unsettled condition of international balances, the abnormal economic and trade situation of the world, and the impossibility of forecasting accurately even the near future, preclude the formulation of a definite program to meet conditions a year hence. But the republican party reaffirms promises or quack remedies, and definite program to meet conditions a year but as the political party that throughout its history has stood for honest money and its belief in the protective principle and pledges itself to a revision of the tariff as soon as conditions shall make it necessary for the preservation of the home market for American labor, agriculture and industry.

#### Merchant Marine.

The national defense and our foreign com-The national defense and our foreign commerce require a merchant marine of the best type of modern ship flying the American flag and manned by American seamen, owned by private capital and operated by private energy. We indorse the sound legislation recently enacted by the republican congress that will insure the promotion and maintenance of

the American merchant marine.

We favor the application of the workmen's

compensation acts to the merchant marine.

We recommend that all ships engaged in coastwise trade and all vessels of the American merchant marine shall pass through the Panama canal without premium of tolls.

#### Immigration.

The standard of living and the standard of citizenship of a nation are its most precious possessions, and the preservation and elevation of those standards is the first duty of government.

The immigration policy of the United States should be such as to insure that the number of foreigners in the country at any one time shall not exceed that which can be assimilated with reasonable rapidity and to favor immigrants whose standards are similar to ours.

The selective tests that are at present applied should be improved by requiring a higher physical standard, a more complete exclusion of mental defectives and criminals, and a more effective inspection applied as near the source of immigration as possible, as well as the port of entry. Justice to the foreigner and to ourselves demands provision for the guidance, protection and better economic distribution of our allen population. To facilitate government supervision, all aliens should be required to register annually until they become naturalized.

The existing policy of the United States for the practical exclusion of Asiatic immigrants is sound and should be maintained.

#### Naturalization.

There is urgent need of improvement in our naturalization law. No alien should become a citizen until he has become genuinely American, and tests for determining the alien's fitness for American citizenship should be provided for by law.

We advocate, in addition, the independent naturalization of married women. An Ameri-can woman should not lose her citizenship by marriage to an alien resident in the United

#### Free Speech and Alien Agitation.

We demand that every American citizen shall enjoy the ancient and constitutional right of free speech, free press and free right of free speech, free press and free assembly and the no less sacred right of the qualified voter to be represented by his duly chosen representatives, but no man may advocate resistance to the law, and no man may

advocate violent overthrow of the government.
Allens within the jurisdiction of the United
States are not entitled of right to liberty of
agitation directed against the government or
American institutions.

American institutions.

Every government has the power to exclude and deport those aliens who constitute a real menace to its peaceful existence. But in view of the large numbers of people affected by the immigration acts and in view of the vigorous malpractice of the departments of justice and labor, an adequate public hearing before a competent administrative tribunal should be assured to all.

#### Lynching.

We urge congress to consider the most effective means to end lynching in this country, which continues to be a terrible blot on our American citizenship.

#### and Order.

The equality of all citizens under the law has always been a policy of the republican party. Without obedience to law and maintenance of order, our American institutions must perish. Our laws must be impartially enforced and speedy justice should be secured.

#### Intoxicating Beverages.

With regard to the sale and manufacture of intoxicating beverages, the republican party will stand for the enforcement of the constitu-tion of the United States as it shall be declared by the Supreme court.

#### Public Roads and Highways.

We favor liberal appropriations in co-operation with the states for the construction of highways, which will bring about a reduction of transportation costs, better marketing of farm products, improvement in rural postal delivery, as well as meet the needs of military defense.

In determining the proportion of federal aid for road construction among the states the sums lost in taxation to the respective states by the setting apart of large portions of their area as forest reservations shall be considered

as a centrolling factor.

#### Conservation.

Conservation is a republican policy. It began with the passage of the reclamation act signed by President Roosevelt. The recent passage of the coal, oil, and phosphate leasing bill by a republican congress, and the enactment of the water power bill, fashioned in accordance with the same principle, are consistent that water power to the consistent that the property of the consistent that the property of the consistence with the same principle, are consistent that the property of the consistence with the consistence of the con accordance with the same principle, are consist-ent landmarks in the development of the conservation of our national resources. We denounce the refusal of the president to sign the water power bill passed after ten years of controversy. The republican party has taken an especially honorable part in saving our national forests and in the effort to estab-lish a national forest pollor. our national forests and in the effort to estab-lish a national forest policy. Our most pressing conservation question relates to our forests. We are using our forest resources faster than they are being renewed. The result is to raise unduly the cost of forest products to consumers and especially farmers, who use more than half the lumber produced in America, and in the end to create a tim-ber famme. The federal government, the states and private interests must unite in devising means to meet the menace. We favor a fixed and comprehensive policy of reclamation to increase national wealth and

of reclamation to increase national wealth and

production.

We recognize in the development of reclama-tion through federal action, with its increase of production and taxable wealth, a safeguard

for the nation.

We commend to congress a policy to reclaim lands and the establishment of a fixed national policy of development of natural resources in relation to reclamation through the now designated government agencies.

#### The Service Men.

We hold in imperishable remembrance the valor and the patriotism of the soldiers and sailors of America who fought in the great war for human liberty, and we pledge ourselves to discharge to the fullest the obligations which a grateful nation justly should fulfill, in appreciation of the services rendered by its defenders on sea and on land. Republicans are not ungrateful. Throughout their history they have shown their grati-

tude toward the nation's defenders. Liberal legislation for the care of the disabled and infirm and their dependents has ever marked infirm and their dependents has ever marked republican policy toward the soldier and sailor of all the wars in which our country has participated. The present congress has appropriated generously for the disabled of the world war. The amounts already applied and authorized for the fiscal year 1920-21 for this purpose reached the stupendous sum of \$1,180,571,893. This legislation is significant of the party's purpose in generously caring for the maimed and disabled men of the recent

Civil Service. We renew our repeated declaration that the civil service law shall be thoroughly and honestly enforced and extended wherever practicable. The recent action of congress in enacting a comprehensive civil service retirement law and in working out a comprehensive control was active to the will be a comprehensive control with t sive employment and wage policy that will guarantee equal and just treatment to the army of government workers, and in centraliz-ing the administration of the new and progressive employment policy in the hands of the civil service commission is worthy of all Postal Service.

We condemn the present administration for its destruction of the efficiency of the postal service and the telegraph and telephone service service and the telegraph and telephone service when controlled by the government, and for its failure to properly compensate employes whose expert knowledge is essential to the proper conduct of the affairs of the postal system. We commend the republican congress for the enactment of legislation increasing the pay of postal employes, who up to that time were the poorest paid in the government service. Woman Suffrage.

We welcome women into full participation in the affairs of government and the activities of the republican party. We earnestly hope that republican legislatures in states that have not yet acted upon the suffrage amendment will ratify the amendment, to the end that all of the women of the nation of voting age may participate in the election of 1920, which is so important to the welfare of our country.

The supreme duty of the nation is the conservation of human resources through an en-lightened measure of social and industrial justice. Although the federal jurisdiction over social problems is limited, they affect the wel-fare and interests of the nation as a whole. We pledge the republican party to the solution of these problems through national and state legislation in accordance with the best prelegislation in accordance with the best progressive thought of the country.

Education and Health.

We indorse the principle of federal aid to the states for the purposes of vocational

and agricultural training.
Wherever federal money is devoted to education, such education must be so directed as to awaken in the youth the spirit of America and a sense of patriotic duty to the United States.

A thorough system of physical education for all children up to the age of 19, including adequate health supervision and instruction, would remedy conditions revealed by the draft and would add to the economic and industrial strength of the nation. National leadership and stimulation will be necessary to induce the states to adopt a wise system of physical training.

The public health activities of the federal government are scattered through numerous departments and bureaus, resulting in inefficiency, duplication and extravagance. We advocate a greater centralization of the federal functions and in addition urge the better coordination of the work of the federal, state and local health agencies.

Child Labor.

The republican party stands for a federal child labor law and for its rigid enforcement. If the present law be found unconstitutional or ineffective, we shall seek other means to enable congress to prevent the evils of child labor. Women in Industry.

Women have special problems of employment which make necessary special study. We commend congress for the permanent establishment of the women's bureau in the United States department of labor to serve as a source of information to the states and to congress. The principle of equal pay for equal service should be applied throughout all branches of

the federal government in which women are

employed.

Federal aid for vocational training should take into consideration the special aptitudes and needs of women workers

We demand federal legislation to limit the hours of employment of women engaged in intensive industry the product of which enters into interstate commerce.

Housing.

The housing shortage has not only compelled careful study of ways of stimulating building but it has brought into relief the unsatisfacof the housing accommodations of large numbers of the inhabitants of our cities. A nation of home owners is the best guaranty of the maintenance of those principles of liberty and law and order upon which our government is founded. Both national and state governments should encourage in all proper ways the acquiring of homes by our citizens. The United States government should make available the valuable information on beautiful and the state of the state o the war. This information should be kept up to date and made currently available.

For Hawaii we recommend federal assistance in Americanizing and educating their greatly disproportionate foreign population; home rule and the rehabilitation of the Hawaiian race. Foreign Relations-The League of Nations.

The foreign policy of the administration has been founded upon no principle and directed by no definite conception of our nation's rights by no definite conception of our nations rights and obligations. It has been humiliating to America and irritating to other nations with the result that after a period of unexampled sacrifice our motives are suspected, our moral influence impaired and our government stands discredited and friendless among the nations

of the world.

We favor a liberal and generous foreign policy founded upon definite moral and political principles, characterized by a clear underreal principles, characterized by a clear understanding of and firm adherence to our own rights and unfailing respect for the rights of others. We should afford full and adequate protection to the life, liberty and property and all international rights of every American citizen and should require a proper reproductive citizen, and should require a proper respect for the American flag but we should be equally careful to manifest a just regard for the rights of other nations.

A scrupulous observance of our international engagements, when lawfully assumed, is essential to our own honor and self-respect and the respect of other nations. Subject to a due regard for our international obligations, we should leave our country free to develop its civilization along lines most conducive to the welfare and happiness of the people and to cast its influence on the side of justice and

right should occasion require.

Mexican Situation. The ineffective policy of the present administration in Mexican matters has been largely responsible for the continued loss of American lives in that country and upon our border; for the enormous loss of American and foreign property; for the lowering of American standards of morality and social relations with Mexicans; and for the bringing of American ideals of justice and national honor and political intergrity into contempt and ridicule in Mexico and throughout the world.

The policy of wordy, futile written protests against the acts of Mexican officials, explained the following day by the president himself as being meaningless and not intended to be

as being meaningless and not intended to be considered seriously or enforced, has but add d in degree to that contempt and has earned for us the sneers and jeers of Mexican bandits and added insult upon insult against our

national honor and dignity.

We should not recognize any Mexican government unless it be a responsible government willing and able to give sufficient guaranties that the lives and property of American citizens are respected and protected, that wrongs will be promptly corrected and just compensation will be made for injury sustained.

The republican party pledges itself to a consistent, firm and effective policy toward Mexico that shall enforce respect for the American flag and that shall protect the rights of American citizens lawfully in Mexico to security of life and enjoyment of property in accordance with an established international

law and our treaty rights.

law and our treaty rights.

The republican party is a sincere friend of the Mexican people. In its insistence upon the maintenance of order for the protection of American citizens within its borders a great service will be rendered the Mexican people themselves, for a continuation of present conditions means disaster to their interest and present converticity envircing. patriotic aspirations.

#### Armenian Mandate.

We condemn President Wilson for asking congress to empower him to accept a mandate for Armenia. We commend the republican senate for refusing the president's request to empower him to accept the mandate for Armenia. The acceptance of such mandate would throw the United States into the very maelstrom of European quarrels.

According to the estimate of the Harboard

maeistrom of European quarrels.

According to the estimate of the Harboard commission, organized by authority of President Wilson, we would be called upon to send 59,000 American boys to police Armenia and to expend \$276,000,000 in the first year and \$756,000,000 in five years. This estimate is made upon the basis that we would have only roving bands to fight, but in case of serious trouble with the Turks or Russia, a force exceeding 200,000 would be necessary.

No more striking illustration can be found

force exceeding 200,000 would be necessary. No more striking illustration can be found of President Wilson's disregard of the lives of American boys or American interests. We deeply sympathize with the people of Armenia and stand ready to help them in all proper ways, but the republican party will oppose now and hereafter the acceptance of a mandate for any country in Europe or Asia,

For Association of Nations.

The republican party stands for agreement among the nations to preserve the peace of the world. We believe that such an international association must be based upon international justice and must provide methods which shall lustice and must provide methods which shall maintain the rule of public right by the development of law and the decision of impartial courts and which shall secure instant and general international conference whenever peace shall be threatened, so that the nations pledged to do and insist upon what is just and fair may exercise their influence and power for the prevention of war.

We believe that all this can be done with

We believe that all this can be done with-

out the compromise of national independence, without depriving the people of the United States in advance of the right to determine for themselves what is just and fair when the occasion arises and without involving them as participants and not as peacemakers in a multitude of quarrels, the merits of which they are unable to judge.

The covenant signed by the president at Paris failed signally to accomplish this great purpose and contains stipulations not only in-

tolerable for independent people but certain to produce injustice, hostility and controversy among nations which it proposed to prevent.

That covenant repudiated to a degree whol-

That covenant repudiated to a degree whose unnecessary and unjustifiable the time honored policy in favor of peace declared by Washington and Jefferson and Monroe and pursued by all American administrators for more than a century and it ignored the universal sentiment of America for generations past in favor of international law and arbitration and it rested the hope of the future upon mere expedients and negotiations.

The unfortunate insistence of the president

The unfortunate insistence of the president upon having his own way without any change and without any regard to the opinions of the majority of the senate, which shares with him the treaty making power, and the president's demand that the treaty should be ratified without any modification, created a situation in which senators were required to vote upon their consciences and their oaths, according to their judgment, against the treaty as it was presented or submit to the command of a dictator in a matter where the authority and responsibility under the constitution were theirs and not his.

The senators performed their duties faithfully. We approve their conduct and honor their courage and fidelity, and we pledge the coming republican administration to such agreement with the other nations of the world as shall meet the full duties of America to civilization and humanity in accordance with American ideals and without surrendering the right of the American people to exercise its judgment and its power in favor of justice and peace.

#### Tax Reform.

Pointing to its history and relying on its Folining to its history and relying on its fundamental principles, we declare the republican party has the genius, courage and constructive ability to end executive usurpation and restore constitutional government; to fulfill our world obligations without sacrificing our national independence; to raise the national standards of education and general welfare; to receivable the content of the co al standards of education and general welfare; to re-establish a peace time administration and to substitute economy and efficiency for extravagance and chaos; to restore and maintain the national credit; to reform unequal and burdensome taxes; to free business from arbitrary and unnecessary official control; to suppress disloyalty without denial of justice; to repel the arrogant challenge of any class and to maintain a government of all the people as contrasted with government for some of the people, and finally, to allay unrest, suspicion and strife and to secure the co-operasuspicion and strife and to secure the co-operation and unity of all citizens in the solution of the complex problems of the day, to the end that our country, happy and prosperous, proud of its past, sure of itself and of its institutions, may look forward with confidence to the future

#### DEMOCRATIC.

#### Adopted at San Francisco, July 2.

The democratic party, in its national convention row assembled, sends greetings to the president of the United States, Woodrow Wilson, and hails with partiotic pride the great achievements for the country and the

world, wrought by a democratic administra-

world, wrought by a democratic administra-tion under his leadership.

It salutes the mighty people of this great republic, emerging with imperishable honor from the severe tests and grievous strains of the most tragic war in history, having earned the plaudits and the gratitude of all free nations.

It declares its adherence to the fundamental progressive principles of social, economic and industrial justice and advance and purposes to resume the great work of translating these principles into effective laws, begun and carried far by the democratic administration and interrupted only when the war claimed all the national energies for the single task of victory.

League of Nations.

The democratic party favors the league of nations as the surest, if not only, practicable means of maintaining the permanent peace of the world and terminating the insufferable burden of great military and naval establish-ments. It was for this that America broke away from traditional isolation and spent her blood and treasure to crush a colossal scheme of conquest. It was upon this basis that the president of the United States, in prearrangement with our allies, consented to a suspension of hostilities against the imperial German sion of hostilities against the imperial German government; the armistice was granted and a treaty of peace negotiated upon the definite assurance to Germany as well as to the powers pitted against Germany, that "a general association of nations must be formed, under specific covenants, for the purpose of according mutual guaranties of political independence and territorial integrity to great and small states alike." Hence, we not only congratulate the president on the vision manifested and the vigor exhibited in the prosecution of the war, but we felicitate him and his associates on the exceptional achievements at Paris involved in the adoption of a league and treaty so near akin to previously expressed American ideals and so intimately related to the aspirations of civilized peoples everywhere. the aspirations of civilized peoples everywhere.

We commend the president for his courage and his high conception of good faith in

steadfastly standing for the covenant agreed to by all the associated and allied nations at war with Germany, and we condemn the repub-lican senate for its refusal to ratify the treaty merely because it was the product of demo-

merely because it was the product of demo-cratic statesmanship, thus interposing partisan envy and personal hatred in the way of the peace and renewed prosperity of the world. By every accepted standard of international morality the president is justified in asserting that the honor of the country is involved in this business; and we point to the accusing fact that, before it was determined to initiate political antagonism to the treaty, the now republican chairman of the senate foreign relations committee himself publicly proclaimed relations committee himself publicly proclaimed that any proposition for a separate peace with Germany, such as he and his party associates thereafter reported to the senate, would make us "guilty of the blackest crime." On May 15, 1920, the Knox substitute for the

Versailles treaty was passed by the republican versames treaty was passed by the republican senate; and this convention can contrive no more fitting characterization of its obloquy than that made in the Forum magazine of December, 1918, by Henry Cabot Lodge, when

he said:

"If we send our armies and young men abroad to be killed and wounded in northern France and Flanders with no result but this, our entrance into war with such an intention was a crime which nothing can justify.
"The intent of congress and the intent of

"The intent of congress and the intent of the president was that there could be no peace until we could create a situation where no such war as this could recur. We cannot

make peace except in company with our allies. It would brand us with everlasting dishonor and bring ruin to us if we undertook to make a separate peace."

Thus to that which Mr. Lodge in sance moments considered "the blackest crime" he

and his party in madness sought to give the sanctity of law; that which eighteen months ago was an "everlasting dishonor" the repub-

lican party and its candidates to-day accept as the essence of faith.

We indorse the president's view of our international obligations and his firm stand against reservations designed to cut to pieces the vital provisions of the Versailles treaty and we commend the democrats in congress for voting against resolutions for separate peace which would disgrace the nation. We advocate the immediate ratification of the treaty with-out reservations which would impair its essential integrity; but do not oppose the acceptance of any reservations making clearer or more specific the obligations of the United States to the league of associates. Only by doing this may we retrieve the reputation of this nation among the powers of the earth and recover the moral leadership which President Wilson won and which republican politicians at Washington sacrificed. Only by doing this may we hope to aid effectively in the restoration of order throughout the world and to take the place which we should assume in the front rank of spiritual, commercial and industrial advancement. industrial advancement.

We reject as utterly vain if not vicious, the republican assumption that ratification of the treaty and membership in the league of nations would in any wise impair the integrity or independence of our country. The fact that the covenant has been entered into by twenty-nine nations all as jealous of their independence as we are of ours is a sufficient refutation of such charge. The president repeatedly has declared and this convention reaffirms that all our duties and obligations as a member of the league must be fulfilled in strict conformity with the constitution of the United States, embodied in which is the fundamental requirement of declaratory action by the congress before this nation may become a participant in any war.

Conduct of the War.

During the war President Wilson exhibited the very broadest conception of liberal Ameri-In his conduct of the war, as in the general administration of his high office, there was no semblance of partisan bias. He invited to Washington as his counselors and coadjutors hundreds of the most prominent and pro-nounced republicans in the country. To these To these he committed responsibilities of the gravest import and most confidential nature. Many of them had charge of vital activities of the government.

And yet, with the war successfully prose-cuted and gloriously ended, the republican party in congress, far from applauding the masterly leadership of the president and felicitating the country on the amazing achieve-ments of the American government, has meanby requited the considerate course of the chief magistrate by savagely defaming the commander in chief of the army and navy, by assailing nearly every public officer of every branch of the service intimately concerned in winning of the service infinitely concerned in winning the war abroad and preserving the security of the government at home. We express to the soldiers and sailors of

America the admiration of their fellow coun-America the admination of their ferror com-trymen. Guided by the genius of such com-manders as Gen. John J. Pershing the armed force of America constituted a decisive factor in the victory and brought new luster to the

We commend the patriotic men and women who sustained the efforts of their government in the crucial hours of the war and contributed to the brilliant administrative success, achieved under the broad-visioned leadership of the president.

#### Financial Achievements.

A review of the record of the democratic party during the administration of Woodrow Wilson presents a chapter of substantial achievements unsurpassed in the history of the republic. For fifty years before the advent of this administration periodical conadvent of this administration periodical convulsions had impeded the industrial progress of the American people and caused inestimable loss and distress. By the enactment of the federal reserve act the old system which bred panic was replaced by a new system which insured confidence. It was an indispensable factor in winning the war and to-day it is the hope and inspiration of business. Indeed one wital danger against which to-day it is the hope and hispitation of our-ness. Indeed one vital danger against which the American reople should keep constantly on guard is the commitment of this system to partisan enemies who struggled against its adoption and vainly attempted to retain in the hands of speculative bankers a monopoly of the currency and credits of the nation. Already there are well defined indications of an assault upon the vital principles of the system in the event of republican success in the elections in November.

Under democratic leadership the American people successfully financed their stupendous part in the greatest war of all time. The treasury wisely insisted during the war upon meeting an adequate portion of the war expenditure from current taxes and the bulk! penditure from current taxes and the bulk of the balance from popular loans and, during the first full fiscal year after fighting stopped. upon meeting current expenditures from current receipts, notwithstanding the new and unnecessary burdens thrown upon the treasury

by the delay, obstruction and extravagance of a republican congress.

The nonpartisan federal reserve authorities have been wholly free of political interference or motive; and, in their own time and their own way, have used courageously though cautiously the instruments at their disposal to prevent undue expansion of credit in the country. As a result of these sound treasury and federal reserve policies, the inevitable war inflation has been held down to a minimum and the cost of living has been prevented from increasing here in proportion to the increase in other belligerent countries and in neutral countries which are in close contact with the world's commerce and exchanges.

After a year and a half of fighting in Europe and despite another year and a half of republican obstruction at home the credit of the government of the United States stands unimpaired the federal reserve note is the unit of value throughout all the world and the United States is the one great country in the world which maintains a free gold market. We condemn the attempt of the republican

We condemn the attempt of the republican party to deprive the American people of their legitimate pride in the financing of the war—an achievement without parallel in the financial history of this or any other country, in this or any other war. And in particular we condemn the pernicious attempt of the republican party to create discontent among the holders of the bonds of the government of the United States and to drag our public finance and our banking and currency system back into the arena of party politics.

#### Tax Revision.

We condemn the failure of the present congress to respond to the oft-repeated de-mand of the president and the secretaries of the treasury to revise the existing tax laws.

The continuance in force in peace times of taxes devised under pressure of imperative necessity to produce a revenue for war purposes is indefensible and can only result in lasting injury to the people. The republican congress persistently failed, through sheer political cowardice, to make a single move toward a readjustment of tax laws which it denounced before the last election and was afraid to revise before the next election. We advocate tax reform and a searching

arraid to revise before the next election. We advocate tax reform and a searching revision of the war revenue acts to fit peace conditions so that the wealth of the action may not be withdrawn from productive enterprise and diverted to wasteful or nonproductive contraction.

tive expenditure.

We demand prompt action by the next congress for a complete survey of existing taxes and their modification and simplification with a view to secure greater equity and justice in tax burden and improvement in administration.

Public Economy.

Claiming to have effected great economies in government expenditures, the republican party cannot show the reduction of one dollar in taxation as a corollary of this false pretense. In contrast, the last democratic enacted legislation reducing taxes reducing taxes from eight billions, designed to be raised, to six billions for the first year after the armi-stice. and to four billions thereafter; and there the total is left undiminished by our political adversaries. Two years after armistice day a republican congress provides for expending the stupendous sum of \$5,403,390,-327,30.

327.30.

Affecting great paper economies by reducing departmental estimates of sums which would not have been spent in any event and by reducing formal appropriations, the republican statement of expenditures omits the presnant fact that congress authorized the use of one and a half billion dollars in the hands of various departments and bureaus, which otherwise would have been covered into the trees. wise would have been covered into the treasury, and which should be added to the republican total of expenditures.

#### High Cost of Living.

The high cost of living and the depreciation of bond values in this country are primarily due to war itself, to the necessary governmental expenditures for the destructive purposes of war, to private extravagance, to the world shortage of capital, to the inflation of foreign currencies and credits and, in large

of foreign currencies and credits and, in large degree, to conscienceless profiteering.

The republican party is responsible for the failure to restore peace and peace conditions in Europe, which is a principal cause of postarmistice inflation the world over. It has denied the demand of the president for necessary legislation to deal with secondary and local causes. The sound policies pursued by the treasury and the federal reserve system have limited in this country, though they could not prevent the inflation which was worldwide. Elected upon specific promises to curtail public expenditures and to bring the country back to a status of effective economy, the republican party in congress wasted omy, the republican party in congress wasted time and energy for more than a year in vain and extravagant investigations, costing the taxpayers great sums of money while re-vealing nothing beyond the incapacity of re-

vealing nothing beyond the incapacity of republican politicians to cope with the problems. Demanding that the president, from his place at the peace table, call the congress into extraordinary session for imperative purposes of readjustment, the congress, when convened, spent thirteen months in partisan pursuits, failing to repeal a single war statute which harassed business or to initiate a single constructive measure to help business. It

busied itself making a pre-election record of pretended thrift, having not one particle of substantial existence in fact. It raged against profiteers and the high cost of living without

profiteers and the high cost of living without enacting a single statute to make the former afraid or doing a single act to bring the latter within limitations.

The simple truth is that the high cost of living can only be remedied by increased production, strict governmental economy and a relentless pursuit of those who take advantage of postwar conditions and are demanding and receiving outrageous profits.

We pledge the democratic party to a policy of strict economy in government expenditures and to the enactment and enforcement of such legislation as may be required to bring prof-

legislation as may be required to bring profiteers before the bar of criminal justice.

The Tariff.

We reaffirm the traditional policy of the democratic party in favor of a tariff for revenue only and confirm the policy of basing tariff revisions upon the intelligent research of a nonpartisan commission, rather than upon the demands of selfish interests, temporarily held in abeyance.

Budget.

In the interest of economy and good administration, we favor the creation of an effective istration, we favor the creation of an effective budget system that will function in accord with the principles of the constitution. The reform should reach both the executive and legislative aspects of the question. The supervision and preparation of the budget should be vested in the secretary of the treasury as the representative of the president. The budget, as such, should not be increased by the corress event by a two-thirds vote each house gress except by a two-thirds vote, each house, however, being free to exercise its constitutional privilege of making appropriations through independent bills. The appropriation bills should be considered by single committees of the house and senate.

The audit system should be consolidated and its powers expanded so as to pass upon the wisdom of as well as the authority for ex-

penditures.

A budget bill was passed in the closing days A budget bill was passed in the closing days of the second session of the 66th congress, which, invalidated by plain constitutional defects and defaced by considerations of patronage, the president was obliged to veto. The house amended the bill to meet the executive objection. We condemn the republican senate for adjourning without passing the amended measure, when by devoting an hour or two more to this urgent public business a budget system could have been provided.

\*\*Senate Public\*\*

Senate Rules.

We favor such alteration of the rules of procedure of the senate of the United States as will permit the prompt transaction of the nation's legislative business.

Agricultural Interests.

To the great agricultural interests of the country the democratic party does not find it necessary to make promises. It already is rich in its record of things actually accomplished. For nearly half a century of recomplished. For nearly half a century of republican rule not a sentence was written into the federal statutes according one dollar of bank credits to the farming interests of hamerica. In the first term of this democratic administration the national bank act was so altered as to authorize loans of five years' maturity on improved farm lands. Later was established a system of farm loan banks from which the borrowings already exceed \$300. established a system of farm foan banks from which the borrowings already exceed \$30C. 000.000 and under which the interest rate to farmers has been so materially reduced as to drive out of business the farm loan sharks who formerly subsisted by extorion upon the great agricultural interests of the counter the great agricultural interests of the country.

Thus it was a democratic congress in the administration of a democratic president which enabled the farmers of America for the first time to obtain credit upon reasonable terms and insured their opportunity for the future development of the nation's agricultural resources. Tied up in Supreme court proceedings, in a suit by hostile interests, the federal farm in a suit by hostile interests, the federal farm loan system, originally opposed by the republican candidate for the presidency, appealed in vain to a republican congress for adequate financial assistance to tide over the interim between the beginning and the ending of the current year, awaiting a final decision of the highest court on the validity of the contested act. We pledge prompt and consistent support of sound and effective measures to sustain, amplify and perfect the rural credits statute.

port of sound and effective measures to sustain, amplify and verfect the rural credits statutes and thus to check and reduce the growth and course of farm tenancy.

Not only did the democratic party put into effect a great farm loan system of land mortgage banks but it passed the Smith-Levre agricultural extension act, carrying to every farmer in evry section of the country, through the medium of trained experts and by demonstration farms, the practical knowledge acquired by the federal agricultural department in all things relating to agriculture, horticulture and animal life; it established the bureau of markets, the bureau of farm management and passed the cotton futures act, the grain grades bill, the co-operative farm administration act and the federal warehouse act.

act.
The democratic party has vastly improved the rural mail system and has built up the parcel post system to such an extent as to render the activities and its practical service indispensable to the farming community. It was this wise encouragement and this effective concern of the democratic party for the farmers of the United States that enabled this great interest to render such essential service in feeding the armies of America and the allied nations of the war and succoring starv-ing populations since armistice day.

#### Rivals Fail to Aid Farmers.

Meanwhile the republican leaders at Washington have failed utterly to propose one single measure to make rural life more tolerable. They have signalized their fifteen months able. They have signalized their fifteen months of congressional power by urging schemes which would strip the farms of labor; by assailing the principles of the farm loan system and seeking to impair its efficiency; by covertly attempting to destroy the great nitrogen plant at Muscle Shoals upon which the government has expended \$70,000,000 to supply American farmers with fertilizers at reasonable cost; by ruthlessly crippling nearly every branch of agricultural endeavor, literally crippling the productive mediums through which the people must be fed. must be fed.

We favor such legislation as will confirm to the primary producers of the nation the right of collective bargaining and the right of cooperative handling and marketing of the products of the workshop and the farm and such legislation as will facilitate the exportation of our farm products.

production costs and the uncensored publica-tion of facts found in such studies.

#### Labor and Industry.

The democratic party is now, as ever, the firm friend of honest labor and the promoter of progressive industry. It established the department of labor at Washington and a demopartment of later washington and a demo-cratic president called to his official council board the first practical workingman who ever held a cabinet portfolio. Under this adminis-tration have been established employment bureaus to bring the man and the job together; have been peaceably determined many bitter disputes between capital and labor; were passed the child labor act, the workingman's compensation act (the extension of which we advocate so as to include laborers engaged in loading and unloading ships and in interstate commerce), the eight hour law, the act for vocational training and a code of other wholesome laws affecting the liberties and bettering the conditions of the laboring classes. In the department of labor the democratic administration established a woman's bureau, which a republican congress destroyed by withholding appropriations.

Labor is not a commodity, it is human. Those who labor have rights and the national security and safety depend upon a just recognition of those rights and the conservation of the strength of the workers and their families in the interest of sound-hearted and sound-headed men, women and children. Laws regulating hours of labor and conditions under which labor is performed, when passed in recognition of the conditions under which labor is performed, when passed in recognition of the conditions under which life to attain the highest development and happiness, are just assertions of the rational interest in the welfare of the people.

At the same time, the nation depends upon the products of labor; a cessation of production means loss and, if long continued, disaster. The whole people, therefore, have a right to insist that justice shall be done to those who work, and in turn that those whose labor creates the necessities upon which the life of the nation depends must recognize the reciprocal obligation between the worker and the state. They should participate in the formulation of sound laws and regulations governing the conditions under which labor is performed, recognize and obey the laws so formulated and seek their amendment when necessary by the processes ordinarily addressed to the laws and regulations affecting the other relations of life.

Labor, as well as capital, is entitled to adequate compensation. Each has the indefeasible right of organization, of collective bargaining and of speaking through representatives of their own selection. Neither class, however, should at any time nor in any circumances take action that will put in jeopardy the public welfare. Resort to strikes and lockouts which endanger the health or lives of the people is an unsatisfactory device for determining disputes and the democratic party pledges itself to contrive, if possible, and ut into effective operation a fair and comprehensive method of composing differences of this nature.

In private industrial disputes we are opposed to compulsory arbitration as a method plausible in theory, but a failure in fact. With respect to government service, we hold distinctly that the rights of the people are paramount to the right to strike. However, we profess scrupulous regard for the conditions of public employment and pledge the democratic party to instant inquiry into the pay of government employes and equally speedy regulations designed to bring salaries to a just and proper level.

#### Woman Suffrage.

We indorse the proposed nineteenth amendment of the constitution of the United States granting equal suffrage to women. We congratulate the legislatures of thirty-five states which have already ratified said amendment, and we urge the democratic governors and legislatures of Tennessee. North Carolina and Florida and such states as have not yet ratified the federal suffrage amendment to unite in an effort to complete the process of ratification and secure the thirty-sixth state in

time for all the women of the United States to participate in the fall election. We commend the effective advocacy of the measure by President Wilson.

We urse co-operation with the states for the protection of child life through infancy and maternity care; in the prohibition of child labor and by adequate appropriations for the children's bureau and the woman's bureau in the department of labor. Co-operative federal assistance to the states is immediately required for the removal of illiteracy, for the increase of teachers' salaries and instruction in citizenship for both native and foreign born; increased appropriation for vocational training in home economies; re-establishment of joint federal and state employment service with women's departments under the direction of technically qualified women. We advocate full representation of women's work or women's interest and a reclassification of the federal civil service, free from discrimination on the ground of sex; continuance of appropriations for education in sex hysiene; federal legislation which shall insure that American women resident in the United States, but married to aliens, shall retain their American citizenship and that the same process of natural-

#### Disabled Soldiers.

The federal government should treat with the utmost consideration every disabled soldier, sailor and marine of the world war, whether his disability be due to wounds received in line of action or to health impaired in service; and for the dependents of the brave men who died in line of duty the government's tenderest concern and richest bounty should be their requital. The fine patriotism exhibited, the heroic conduct displayed by American soldiers, sailors and marines at home and abroad constitute a sacred heritage of posterity, the worth of which can never be recompensed from the treasury and the glory of which must not be diminished.

The democratic administration wisely established a war risk insurance bureau, giving four and a half millions of enlisted men insurance at unprecedentedly low rates, through the medium of which compensation of men and women injured in service is readily adjusted and hospital facilities for those whose health is impaired are abundantly afforded.

health is impaired are abundantly afforded.

The federal board for vocational education should be made a part of the war risk insurance bureau, in order that the task may be treated as a whole, and this machinery of protection and assistance must receive every aid of law and appropriation necessary to full and effective operation.

to full and effective operation.

We believe that no higher or more valued privilege can be afforded to an American citizen than to become a freeholder in the soil of the United States, and to that end we pledge our party to the enactment of soldier settlements and home aid legislation which will afford to the men who fought for America the opportunity to become land and home owners under conditions affording genuine government assistance, unincumbered by needless difficulties of red tape or advance financial investment.

#### The Railroads.

The railroads were subjected to federal control as a war measure without other idea than the swift transport of troops, munitions and supplies. When human life and national hopes were at stake profits could not be considered and were not. Federal operation, however, was marked by an intelligence and efficiency that minimized loss and resulted in many and marked reforms. The equipment

taken over was not only grossly inadequate but shamefully outworn. Unification practices overcame these initial handicaps and provided additions, betterments and improvements. Economies enabled operation without the rate raises that private control would have found neces-sary, and labor was treated with an exact justice that secured the enthusiastic co-operation that victory demanded. The fundamental auon mai victory demanded. The fundamental purpose of federal control was achieved fully and splendidly and at far less cost to the taxpayer than would have been the case under private operation. Investments in railroad properties were not only saved by government operation but government management returned these processing. ment returned these properties vastly improved in every physical and executive detail.

proved in every physical and executive detail. A great task was greatly discharged.

The president's recommendation of return to private ownership gave the republican majority a full year in which to enact the necessary legislation. The house took six months to formulate its ideas and another six months was consumed by the republican senate in equally vague debate. As a consequence the Esch-Cummins bill went to the president in the closing hours of congress president in the closing hours of congress and he was forced to a choice between the chaos of a veto and acquiescence in the measure submitted, however grave may have

measure submitted, now the been his objections to it.

There should be a fair and complete test of the law until careful and mature action by congress may cure its defects and insure by congress may core its detects and insufer a thoroughly effective transportation system under private ownership without government subsidy at the expense of the taxpayers of the country.

Improved Highways.

Improved roads are of vital importance not only to commerce and industry but also to agriculture and rural life. The federal road act of 1916, enacted by a democratic congress, represented the first systematic effort of the government to insure the building of an adequate system of roads in this country. The act, as amended, has resulted in placing the movement for improved highways on a progressive and substantial basis in every state in the union and in bringing under actual construction more than 13,000 miles of roads suited to the traffic needs of the communities in which they are located.

We favor a continuance of the present federal aid plan under existing federal and state agencies, amended so as to include as one of which the several states shall be entitled to share in the fund, the area of any public

lands therein.

lands therein.

Inasmuch as the postal service has been extended by the democratic party to the door of practically every producer and every consumer in the country (rural free delivery alone having been provided for 6,000,000 additional patrons within the past eight years without material added cost), we declare that this instrumentality can and will be used to the maximum of its capacity to improve the efficiency of distribution and reduce the cost of living to consumers, while increasing the profitable operations of producers.

We strongly favor the increased use of the motor vehicle in the transportation of the mails and urge the removal of restrictions imposed by the republican congress on the use of motor devices in mail transportation in rural territories.

rural territories.

#### Merchant Marine.

We desire to congratulate the American people upon the rebirth of our merchant marine, which once more maintains its former place in the world. It was under a democratic

administration that this was accomplished after seventy years of indifference and neglect, 13,000,000 tons having been constructed since the act was passed in 1916. We pledge the policy of our party to the continued growth of our merchant marine under proper legislation so that American products will be carried to all ports of the world by vessels built in American varies, flying the American flag. in American yards, flying the American flag.

Port Facilities.

Port Facilities.

The urgent demands of the war for adequate transportation of war material as well as for domestic need revealed the fact that our port facilities and rate adjustment were such as to seriously affect the whole country in times of peace as well as war.

We pledge our party to stand for equality of rates, both import and export, for the ports of the country to the end that there might be adequate and fair facilities and rates for the mobilization of the products of the country offered for shipment.

Inland Waterways.

call attention to the failure of the republican national convention to recognize in any way the rapid development of barge transportation on our inland waterways, which development is the result of the constructive policies of the democratic administration. And we pledge ourselves to the further development of adequate transportation facilities on our rivers and to the further improvement of our inland waterways and we recognize the impornniand waterways and we recognize the importance of connecting the great lakes with the sea by way of the Mississippi river and its tributaries, as well as by the St. Lawrence river. We favor an enterprising foreign trade policy with all nations, and in this connection we favor the full utilization of all Atlantic, gulf and Pacific ports, and an equitable distribution of shipping facilities between the various ports

the various ports.

Transportation remains an increasingly vital problem in the continued development and prosperity of the nation. Our present facilities for distribution by rail are inadequate and the promotion of transportation by water is im-

perative.

We, therefore, favor a liberal and comprehensive policy for the development and utilizations barbors and interior waterways.

Flood Control.

We commend the democratic congress for the redemption of the pledge contained in our last platform by the passage of the flood control act of March 1, 1917, and point to the successful control of the floods of the Mississippi river and the Sacramento liver, California, under the policy of that law, for its complete justification. We favor the extension of this policy to other flood control problems wherever the federal interest involved justifies the expenditure required.

Reclamation of Arid Lands.

By wise legislation and progressive administration we have transformed the government reclamation projects, representing an investment of \$100,000,000, from a condition of impending failure and loss of confidence in the ability of the government to carry through such large enterprises, to a condition of demonstrated success whereby formerly arid and strated success, whereby formerly arid and wholly unproductive lands now sustain 40.000 prosperous families and have an annual crop production of over \$70,000,000, not including the crops grown on a million acres outside the projects supplied with storage water from government works.

We favor ample appropriations for the continuation and extension of this great work of home building and internal improvement along the same general lines, to the end that all practical projects shall be built, and waters now running to waste shall be made to provide homes and add to the food supply, power resources and taxable property, with the government ultimately reimbursed for the en-

The Trade Commission.

The democratic party heartily indorses the creation and work of the federal trade commission in establishing a fair field for competitive business, free from restraints of trade and monoply, and recommends amplification of the statutes governing its activities so as to grant it authority to prevent the unfair use of patents in restraint of trade.

Live Stock Markets.

For the purpose of insuring just and fair treatment in the great interstate live stock market, and thus instilling confidence in growers through which production will be stimulated and the price of meats to consumers be ultimately reduced, we favor the enactment of legislation for the supervision of such markets by the national government of such markets by the national government.

The United States is the neighbor and friend of the nations of the three Americas. In a very special sense, our international relations in this hemisphere should be characterized by good will and free from any possible sus-

picion as to our national purpose.

The administration, remembering always that Mexico is an independent nation and that permanent stability in her government and her institutions could come only from and her institutions could come only from the consent of her own people to a government of their own making, has been unwilling either to profit by the misfortunes of the people of Mexico or to enfeeble their future by imposing from the outside a rule upon their temporarily distracted councils. As a consequence, order is gradually reappearing in Mexico; at no time in many years have American lives and interests been so safe as they now are; peace reigns along the border and industry is resuming.

When the new government of Mexico shall have given ample proof of its ability nermanently to maintain law and order, signified its willingness to meet its international ob-

manently to maintain law and order, signified its willingness to meet its international obligations and written upon its statute books just laws under which foreign investors shall have rights as well as duties, that government should receive our recognition and systematic assistance. Until these proper expectations have been met, Mexico must realize the propriety of a policy that asserts the right of the United States to demand full protection for its citizens.

Petroleum.

The democratic party recognizes the importance of the acquisition by Americans of additional sources of supply of petroleum and other minerals and declares that such acquisition both at home and abroad should be fostered and encouraged. We urge such action, legislative and executive, as may secure to American citizens the same rights in the acquirement of mining rights in foreign countries as are enjoyed by the citizens or subjects of any other nation.

\*\*Name Nations\*\*

New Nations.

The democratic party expresses its active sympathy with the people of China, Czecho-Slovakia, Finland, Poland, Persia and others who have recently established representative government and who are striving to develop the institution of true democracy.

one of the chief objectives for which this country entered the war and victory established this principle.

Within the limitations of international comity and usage, this convention repeats the several previous expressions of the sympathy of the democratic party of the United States for the aspirations of Ireland for self-government.

Armenia.

We express our deep and earnest sympathy for the unfortunate people of Armenia, and we believe that our government consistent with Deneve that our government consistent which its constitution and principles should render every possible and proper aid to them in their efforts to establish and maintain a government of their own.

The Philippines.

We favor the granting of independence without unnecessary delay to the 10,500,000 inhabitants of the Philippine islands.

Hawaii.

We favor a liberal policy of homesteading public lands in Hawaii to promote a larger middle class citizen population, with equal rights to all citizens. The importance of Hawaii as an outpost on the western frontier of the United States demands, adequate a preparint in the United States

demands adequate appropriations by congress for the development of our harbors and highways there.

Porto Rico.

We favor granting to the people of Porto Rico the traditional territorial form of government with a view to ultimate statehood, accorded to all territories of the United States since the beginning of our government, and we believe that the officials appointed to administer the government of such territories should be qualified by previous bona fide residence therein.

Alaska.

We commend the democratic adminstration for inaugurating a new policy as to Alaska as evidenced by the construction of the Alaska railroad and opening of the coal and oil fields.

We declare for the modification of the existing coal land law, to promote development without disturbing the features intended to

prevent monopoly.

For such changes in the policy of forestry control as will permit the immediate initiation

of the paper pulp industry.

For relieving the territory from the evils of long distance government by arbitrary and interiocking bureaucratic regulation, and to that end we urge the speedy passage of a law containing the essential features of the Lane-Curry bill now pending, co-ordinating and consolidating all federal control of natural resources under one department to be administered by a nonpartisan board permanently resident in the terminal permanently resident in the terminal permanents. interlocking bureaucratic regulation, and

natural resources under one department to be administered by a nonpartisan board permanently resident in the territory.

For the fullest measure of territorial self-government, with the view to ultimate state-hood, with jurisdiction over all matters not of purely federal concern, including fisheries and game, and for an intelligent administration of federal control we believe that all officials appointed should be qualified by previous bona fide residence in the territory.

For a comprehensive system of road construction with increased appropriations and the full extension of the federal road act to Alaska.

For the extension to Alaska of the federal farm loan act.

The great principle of national self-determination has received constant reiteration as Asiatic Immigrants.

The policy of the United States with reference to the nonadmission of Asiatic immigrants is a true expression of the judg-

ment of our people and to the several states whose geographical situation or internal conditions make this policy and the enforcement of the laws enacted pursuant thereto of particular concern, we pledge our support.

The Postal Service.

The efficiency of the postoffice department has been vindicated against a malicious and designing assault by the efficiency of its operation. Its record refutes its assailants. Their voices are silenced and their charges have collapsed.

We commend the work of the joint commission on the reclassification of salaries of postal employes, recently concluded, which commission was created by a democratic administration. The democratic party has always favored and will continue to favor the just treatment of all government employes.

Free Speech and Press.

We resent the unfounded reproaches directed against the democratic administration for alleged interference with the freedom of the press and freedom of speech.

No utterance from any quarter has been assailed, and no publication has been repressed, which has not been animated by treasonable purpose and directed against the nation's peace,

order and security in time of war.

We reaffirm our respect for the great principles of free speech and a free press, but assert as an indisputable proposition that they afford no toleration of enemy propaganda or the advocacy of the overthrow of the govern-ment of the state or nation by force or violence.

Republican Corruption.

The shocking disclosure of the lavish use of money by aspirants for the republican nomination for the highest office in the gift of the people has created a painful impression throughout the country. Viewed in connection with the recent conviction of a republican the people nas created a paintal impression throughout the country. Viewed in connection with the recent conviction of a republican senator from the state of Michigan for the criminal transgression of the law limiting expenditures on behalf of a candidate for the United States senate, it indicates the re-entry United States senate, it indicates the re-entry under republican auspices of money as an influential factor in elections, thus nullifying the letter and flouting the spirit of numerous laws enacted by the people to protect the ballot from the contamination of corrupt practices. We deplore those delinquencies and invoke their stern popular rebuke, pledging our earnest efforts to a strengthening of the present statutes against corrupt practices and their rigorous enforcement. their rigorous enforcement.

We remind the people that it was only by the return of a republican senator in Michigan who is now under conviction and sentence for the criminal misuse of money in his elec-tion that the present organization of the senate with a republican majority was made

possible.

Conclusion.

Believing that we have kept the democratic faith and resting our claims to the confidence of the people not upon grandiose promises but upon the solid performances of our party, we submit our record to the nation's consideration and ask that the pledges of this platform be appraised in the light of that record.

#### SOCIALIST.

Adopted in New York, May 13. the national campaign of 1920 In the national campaign of 1920 the Socialist party calls upon all American workers of hand and brain, and upon all citizens who believe in political liberty and social justice, to free the country from the oppressive mistrale of the old political parties and to take the government into their own hands under

the banner and upon the program of the socialist party.

The outgoing administration, like democratic and republican administrations of the past, leaves behind it a disgraceful record of solemn pledges unscrupulously broken and public confidence ruthlessly betrayed.

It obtained the suffrage of the people on a platform of peace, liberalism and social betterplatform of peace, noeraism and social determent, but drew the country into a devastating war and inaugurated a regime of despotism, reaction and oppression unsurpassed in the annals of the republic.

It promised to the American people a treaty which would assure to the world a reign of international right and true democracy. It gove its sanction and support to an infamous

international right and true gemocracy. It gave its sanction and support to an infamous pact formulated behind closed doors by predatory elder statesmen of European and Asiatic imperialism. Under this pact territories have been annexed against the will of their populations lends out off from their sources of sustions, lands cut off from their sources of sus-tenance, and nations seeking their freedom in the exercise of the much heralded right of self-determination have been brutally fought with armed force, intrigue and starvation blockades.

To the millions of young men, who staked their lives on the field of battle, to the people their roll and property to support the war, the democratic administration held out the sublime ideal of a union of the peoples of the world organized to maintain perpetual peace among nations on the basis of justice and freedom. It helped create a reactionary alliance of imperialistic governments, banded together to bully weak nations, crush workingclass governments and perpetuate strife and

class governments and perpetuate strife and warfare.

While thus furthering the ends of reaction, violence and oppression abroad, our administration suppressed the cherished and fundamental rights and civil liberties at home. Upon the pretext of war time necessity the chief executive of the republic and the appointed heads of his administration were clothed with dictatorial powers and congress enacted laws in open and direct violation of the constitutional safeguards of freedom of expression. expression.

Hundreds of citizens who raised their voices for the maintenance of political and industrial rights during the war were indicted under the rights during the war were indicted under the espionage law, tried in an atmosphere of prejudice and hysteria and many of them are now serving inhumanly long jail sentences for daring to uphold the traditions of liberty which once were sacred in this country.

Agents of the federal government unlawfully

raided homes and meeting places and prevented or broke up peaceable gatherings of citi-

zens.

The postmaster-general established a censorship of the press more autocratic than that ever tolerated in a regime of absolutism and has harassed and destroyed publications on account of their political and economic views, by excluding them from the mails.

And after the war was in fact long over the administration has not scrupled to continue a policy of repression and terrorism under the shallow and hypocritical guise of warting measures.

war-time measures

war-time measures.

It has practically imposed involuntary servitude and peonage on a large class of American workers by denying them the right to quit work and coercing them into acceptance of inadequate wages and onerous conditions of labor I thas dealt a foul blow to the traditional American right of asylum by deporting bundled of foreign-horn workers by administrative order, on the mere suspicion of har-boring radical views, and often for the sinister purpose of breaking labor strikes. In the short span of three years our self-styled liberal administration has succeeded in undermining the very foundation of political liberty and economic rights which this re-public has built up in more than a century

of struggle and progress.

Under the cloak of a false and morbid patriotism and under the protection of governmental terror the democratic administration mental terror the democratic administration has given the ruling classes unrestrained license to plunder the people by intensive exploitation of labor, by the extortion of enormous profits, and by increasing the cost of all necessities of life. Profiteering has become reckless and rampant, billions have been coined by the explicities out of the suffering and by the capitalists out of the suffering and misery of their fellow men. The American financial oligarchy has become a dominant factor in the world, while the condition of the American workers grows more precarious.

The responsibility does not rest upon the democratic party alone. The republican party through its representatives in congress and otherwise has not only openly condoned the political misdeeds of the last three years, but it has sought to outdo its democratic rival in the orgy of political reaction and repression. Its criticism of the democratic administrative policy is that it is not reactionary and drastic

enough.

enough.

We particularly denounce the militaristic policy of both old parties of investing countless milions of dollars in armaments after the victorious completion of what was to have been the "last war": we call attention to the fatal results of such a program in Europe, carried on prior to 1914, and culminating in the great war; we declare that such a policy, adding unbearable burdens to the working class and all the people, can lead only to the complete Prussianization of the nation, and we demand immediate and complete abandonwe demand immediate and complete abandonment of the fatal program,

America is now at the parting of the roads,

America is now at the parting of the roads. If the outraging of political liberty and concentration of economic power into the hands of the few is permitted to go on, it can have only one consequence, the reduction of the country to a state of capitalist despotism. The socialist party of the United States therefore summons all who believe in this fundamental doctrine to prepare for a complete reorganization of our social system based upon public ownership of public necessities; upon government by representatives chosen from occupational as well as from geographical groups, in harmony with our inchosen from occupational as well as from geographical groups, in harmony with our industrial development; and with citizenship based on service; that we may end forever the exploitation of class by class. The socialist party sounds the warning. It calls upon the people to defeat both old parties at the polls, and to elect the candidates of the socialist party to the end of restoring political democracy and bringing about complete industrial freedom

plete industrial freedom.

To achieve this end the socialist party pledges itself to the following program:

Foreign Relations.

It. All claims of the United States against allied countries for loans made during the war should be canceled upon the understanding that all war debts, including indemnities, among such countries shall likewise be canceled. The largest possible credit in food, raw material and machinery should be extended to the stricken nations of Europe in order to beln them rebuild the primed world.

to help them rebuild the ruined world.

2. The government of the United States should initiate a movement to dissolve the mischievous organization called the "League or Nations" and to create an international parliament, composed of democratically elected representatives of all nations of the world,

based upon the recognition of their equal rights, the principles of self-determination, the right to national existence of colonies and other dependencies, freedom of international trade and trade routes by land and sea, and universal disarmament, and charged with revising the treaty of peace on the principles

vising the treaty of peace on the principles of justice and conciliation.

3. The United States should immediately make peace with the central powers and open commercial and diplomatic relations with Russia under the soviet government. It should be a supple of the independence of the promptly recognize the independence of the

promptly recognize the independence of the Irish republic.

4. The United States should make and proclaim it a fixed principle in its foreign policy that American capitalists who acquire concessions or make investments in foreign countries do so at their own risk, and under no circumstances should our government enter into diplomatic negotiations or controversies or resort to armed conflicts on account of foreign property claims.

#### Political.

1. The constitutional freedom of speech, press and assembly should be restored by repealing the espionage law and all other repressive legislation, and by prohibiting the executive usurpation of authority.

2. All prosecutions under the espionage law should be discontinued and all persons serving prison sentences for alleged offenses growing out of religious convictions, political views or industrial activities should be fully pardoned and immediately released.

3. No alien should be deported from United States on account of his poli-United States on account of his political views or participation in labor struggles, nor in any event without proper trial on specific charges. The arbitrary power to deport aliens by administrative order should be repealed.

4. The power of the courts to restrain workers in their struggles against employers by the writ of injunction or otherwise and their power to nullify congressional legislation should be abrogated.

5. Federal judges should be elected by the

6. The president and the vice-president of the United States should be elected by direct

popular election and be subject to recall.
7. All members of the cabinet should be elected by congress and be responsible to congress

8. Suffrage should be equal and unrestricted, in fact as well as in law, for all men and women throughout the nation. 9. Adequate provision should be made for ne registration of the votes of migratory

the registration of the votes of migratory workers.

10. The constitution of the United States should be amended to strengthen the safeguards of civil and political liberty and to remove all obstacles to industrial and social reform and reconstruction, including the changes enumerated in this program, in keeping with the will and interest of the people. It should be made amendable by a majority of the voters of the nation upon their own initiative or upon the initiative of congress. initiative, or upon the initiative of congress. Social.

Social.

1. All business vitally essential for the existence and welfare of the people, such as railroads, express service, steamship lines, telegraphs, mines, oil wells, power plants, clavators, packing houses, cold storage plants and all industries operating on a national scale should be taken over by the nation.

2. All publicly owned industries should be administered jointly by the government and representatives of the workers, not for revenue or profit, but with the sole object of securing just compensation and humane con-

ditions of employment to the workers and efficient and reasonable service to the public, 3. All banks should be acquired by the government and incorporated in a unified

public banking system.

4. The business of insurance should be taken over by the government and should be extended to include insurance against accident, sickness, invalidity, old age and unemployment, without contribution on the part of the worker.

5. Congress should enforce the provisions of the fourteenth and fifteenth amendments, with reference to the negroes, and that effective federal legislation should be enacted to secure to the negroes full civil, political, industrial and educational rights.

Industrial.

1. Congress should enact effective laws to abolish child labor, to fix minimum wages, based on an ascertained cost of a decent standard of life, to protect migratory and unem-ployed workers from oppression, to abolish detective and strikebreaking agencies and to establish a shorter workday in keeping with increased industrial productivity.

Fiscal.

1. That all war debts and other debts of the federal government must be immediately paid off in full, the funds for such payment to be raised by means of a progressive property tax, whose burden should fall upon the rich and particularly upon great fortunes

rich and particularly upon great fortunes made during the war.

2. A standing progressive income and a graduated inheritance tax should be levied to provide for all needs of the government, including the cost of its increasing social and industrial functions.

industrial functions.

3. The unearned increment of land should be taxed. All land held out of use should be taxed at full rental value.

> FARMER-LABOR. Adopted at Chicago July 14, Preamble.

The American declaration of independence, adopted July 4, 1770, states that governments are instituted to secure to the people the rights of life, liberty and pursuit of happiness and that governments derive their just powers from the consent of the governed,

Democracy cannot exist unless all power is preserved to the people. The only excuse for the existence of government is to serve, not

to rule the people.

In the United States of America the power of government, the priceless and inalienable heritage of the people, has been stolen from the people—has been seized by a few men who control the wealth of the nation and by the tools of these men, maintained by them in public office to do their bidding.

The administrative offices of the government and congress are controlled by the financial barons—even the courts have been prostituted—and the people as a result of this usurpation have been reduced to economic and industrial

servitude.

Under the prevailing order in the United States wealth is monopolized by a few and the people are kept in poverty, while costs of living mount until the burden of providing

the necessaries of life is well nigh intolerable. Having thus robbed the people, first of their power and then of their wealth, the wielders of financial power, seeking new fields of exploitation, have committed the government of the United States against the second s the United States against the will of the people to imperialistic policies and seek to extend these enterprises to such lengths that our na-tion to-day stands in danger of becoming an empire instead of a republic.

Just emerging from a war which we said we fought to extend democracy to the ends of the earth, we find ourselves helpless while the masters of our government, who are also the masters of industry and commerce, league themselves with the masters of other nations to prevent self-determination by helpless peoples and to exploit and rob them, notwithstanding that we committed ourselves to guaranty of self-government for all such peoples.

Following the greedy spectacle of the peacy conference, the money masters faced an awakening of the people which threatened to exactor mankind those benefits for which the war was said to have been fought. Thereupon was said to nave been fought. Thereupon these masters, in the United States, through their puppets in public office, in an effort to stifle free discussion, stripped from the inhabitants of this land rights and liberties guaranteed under American dectrines on which this country was founded and guaranteed also by the federal constitution.

These rights and liberties must be restored

to the people.

More than this must be done. All power to govern this nation must be restored to the This involves industrial freedom, people. people. This involves industrial traction, political democracy is only an empty phrase without industrial democracy. This cannot be done by superficial palliative measures such as are from time to time thrown as sops to the voters by the republican and democratic Patchwork cannot repair the destrucparties. tion of democracy wrought by these two old Reconstruction is necessary. parties.

The invisible government of the States maintains the two old parties to confuse the voters with false issues. These parties, therefore, cannot seriously attempt reconstruction, which, to be effective, must smash to atoms the money power of the proprietors of the two old parties.

proprietors of the two old parties. Into this breach step the amalgamated groups of forward-looking men and women who perform useful work with hand and brain united in the farmer-labor party of the United States by a spontaneous and irresistible impulse to do righteous battle for democracy against its despoilers, and more especially determined to function together because of the aventionally bazen defence cause of the exceptionally brazen defiance cause of the exceptionally british dentalishmen by the two old parties in the selection of their candidates and the writing of their pletforms in this campaign. This party, their platforms in this campaign. This party, financed by its rank and file and not by big business, sets about the task of fundamental reconstruction of democracy in the United States, to restore all power to the people and to set up a governmental structure that will prevent seizure, henceforth, of that power by a few unscrupulous men.

The reconstruction proposed is set forth in the following platform of national issues, to which all candidates of the farmer-labor

party are pledged:

#### 1. 100 Per Cent Americanism.

Restoration of civil liberties and American doctrines and their preservation inviolate, including free speech, free press, free assemcluding free speech, free press, free assemblage, right of asylum, equual opportunity and trial by jury; return of the department of justice to the functions for which it was created, to the end that laws may be enforced without favor and without discrimination; amnesty for all persons imprisoned because of their patriotic insistence upon their constitutional guaranties, industrial activities cause of their patriotic insistence upon their constitutional guaranties, industrial activities or religious beliefs; repeal of all so-called "espionage," "sedition" and "criminal syndicalist" laws; protection of the right of all workers to strike and stripping from the courts of powers unlawfully usurped by them and used to defeat the people and foster big business, especially the power to issue anti-labor injunctions and to declare unconstitu-tional laws passed by congress.

To Americanize the federal courts we demand that federal judges be elected for terms not to exceed four years, subject to recall.

As Americanism means democracy, suffrage

We demand immediate should be universal. ratification of the nineteenth amendment and full, unrestricted political rights for all citizens, regardless of sex, race, color or creed, and for civil service employes.

Democracy demands also that the people be

equipped with the instruments of the initiative, referendum and recall, with the special provision that war may not be declared, except in cases of actual military invasion, before referring the question to a direct vote of

the people.

2. Abolish Imperialism at Home and Abroad. Withdrawal of the United States from fur-ther participation (under the treaty of Versailles) in the reduction of conquered peoples to economic or political subjection to the small groups of men who manipulate the bulk of the world's wealth; refusal to permit our government to aid in the exploitation of the weaker peoples of the earth by these men; refusal to permit use of the agencies of our government (through dollar diplomacy or other means) by the financial interests of our country to exploit other peoples, including emphatic refusal to go to war with Mexico at the behest of Wall street; recognition of the behest of Wall street; recognition of the elected government of the republic of Ireland and of the government established by the and of the government established by the Russian people; denial of assistance, financial, military or otherwise, for foreign armies in-vading these countries, and an embargo on the shipment of arms and ammunition to be used against the Russian or Irish people; instant lifting of the blockade against Russia; recognition of every government set up by peoples who wrest their sovereignty from oppressors, in accordance with the right of self-determination for all peoples; abolition of secret treaties and prompt publication of all diplomatic documents received by the state department; withdrawal from imperialistic enterprises upon which we already have embarked (including which we already nave embarked (including the dictatorship we exercise in varying degrees over the Philippines, Hawaii, Haiti, the Dominican Republic, Porto Rico, Cuba, Samoa and Guam). and prevention of the imposition upon the people of t. J. United States of any form whatever of conscription, military or industrial or of military training.

Whatever or consistency training.

We stand committed to a league of free peoples, organized and pledged to destruction of autocracy, militarism and economic imperialism throughout the world and to bring about a worldwide disarmament and open di-plomacy, to the end that there shall be no more kings and no more wars.

3. Democratic Control of Industry. The right of labor to an increasing share in the responsibilities and management of in-

dustry; application of this principle to be developed in accordance with the experience

of actual operation.

4. Public Ownership and Operation. Immediate repeal of the Esch-Cummins law; public ownership and operation, with democratic control, of all public utilities and natural resources, including stockyards, large abattoirs, grain elevators, water power and cold storage and terminal resources. cold storage and terminal warehouses; government ownership and democratic operation of the railroads, mines and of such natural resources as are in whole or in part bases of control by special interests of basic industries and monopolies such as lands containing coal, iron, copper, oil, large water power and com-

mercial timber tracts; pipe lines and oil tanks; telegraph and telephone lines; and establishment of a public policy that no land (including natural resources) and no patents shall be held out of use for speculation or to aid monopoly; establishment of national and state owned banks where the money of the govern-ment must and that of individuals may be deposited; granting of credit to individuals or groups according to regulations laid down by

congress which will safeguard deposits.

We denounce the attempt to scuttle our great government owned merchant marine and favor bringing ocean going commerce to our

inland ports.

5. Promotion of Agricultural Prosperity. Legislation that will effectively check and reduce the grow.h and evils of farm tenancy; establishment of public markets; extension of the federal farm loan system, making personal credit readily available and cheap to farmers; maintenance of dependable transportation for farm products; organization of a state and national service that will furnish adequate advice and guidance to applicants for farms and to farmers already on the land; legislation to promote and protect farmers' and consumers' co-operative organizations conducted for mutual benefit; comprehensive studies of costs of production of farm and staple manfactured products and uncensored publication of facts found in such studies.

6. Government Finance.

We demand that economy in governmental expenditures shall replace the extravagance that has run riot under the present administration. The governmental expenditures of the present year of peace, as already disclosed, exceed \$5,000,000,000—or six times the annual expenditures of the prewar period. We condemn and denounce the system that has created one war millionaire for every three American soldiers killed in the war in France, and we demand that the war-acquired wealth shall be taxed in such a manner as to prevent the shifting of the burden of taxa-

prevent the shifting of the burden of taxation to the shoulders of the poor in the shape of higher prices and of increased living costs. We are opposed, therefore, to consumption taxes and to all indirect taxation for support of current operations of the government. For support of such current operations we favor steeply graduated income taxes, exempting individual incomes amounting to less than \$3,000 a year, with a further exemption allowance of \$300 for every child under 18 and also for every child over 18 who may be pursuing an education to fit himself for life. In the case of state governments and of local governments we favor taxation of land values, governments we favor taxation of land values, but not of improvements or of equipment, and also sharply graduated taxes on inheritance.

7. Reduce the Cost of Living.

Stabilization of currency so that it may not Stabilization of currency so that it may not fluctuate as at present, carrying the standard of living of all the people down with it when it depreciates; federal control of the meat packing industry; extension and perfection of the parcel post system to bring producer and consumer closer together; enforcing existing laws against profiteers, especially the big and powerful ones.

8. Justice to the Soldiers. We favor paying the soldiers of the late war. a matter of right and not as charity, sufficient sum to make their war pay not less than civilian carnings. We denounce the deunan civilian carnings. We denounce the de-lays in payment, and the inadequate com-pensation to disabled soldiers and sailors and their dependents, and we pledge such changes as will promptly and adequately give sympathetic recognition of their services and sacri-

#### 9. Labor's Bill of Rights.

During the years that labor has tried in vain to obtain recognition of the rights of the workers at the hands of the government through the agencies of the republican and democratic parties, the principal demands of labor have been catalogued and presented by the representatives of labor, who have gone to convention after convention of the old parto convention after convention of the old parties—to congress after congress of old party officeholders. These conventions and sessions of congress have, from time to time, included in platforms and laws a few fragments of labor's program, carefully rewritten, however, to interpose no interference with the oppression of labor by private wielders of the power of capital. It remains for the farmer-labor party, the neople's own party financed by the party, the people's own party, financed by the people themselves, to pledge itself to the entire bill of rights of labor, the conditions enumerated therein to be written into the laws of the land, to be enjoyed by the workers, organizations. ized or unorganized, without the amelioration of a single word in the program. Abraham Lincoln said: "Labor is the superior of capital and deserves the highest consideration."

We pledge the application of this fundamental principle in the enactment and adminis-

tration of legislation.

(a) The unqualified right of all workers, including civil service employes, to organize and bargain collectively with employers through such representatives of their unions as they choose.

(b) Freedom from compulsory arbitration and all other attempts to coerce workers,

(c) A maximum standard eight hour day and forty-four hour week.

(d) Old age and unemployment payments and workmen's compensation to insure workers and their dependents against accident and disease.

(e) Establishment and operation through periods of depression of governmental work on housing, road building, reforestation, rec-lamation of cutover timber, desert and swamp lands and development of ports, waterways and water power plants.

(f) Re-education of the cripples of industry as well as the victims of war.

(g) Abolition of employment of children under 16 years of age.

(h) Complete and effective protection for women in industry, with equal pay for equal work

(i) Abolition of private employment, detective and strikebreaking agencies and extension of the federal free employment service.

(i) Prevention of exploitation of immigrations of immigrations of the federal free employment service.

tion and immigrants by employers.

(k) Vigorous enforcement of the seamen's act, and the most liberal interpretation of its provisions. The present provisions for the protection of seamen and for the safety of the traveling public must not be minimized.

(1) Exclusion from interstate commerce of

the products of convict labor.

(m) A federal department of education to advance democracy and effectiveness in all advance democracy and effectiveness in all public school systems throughout the country, to the end that the children of workers in industrial and rural communities may have maximum opportunity of training to become unafraid, well-informed citizens of a free country.

#### SINGLE TAX.

Adopted at Chicago July 14.

"Full rental value of the land shall be collected by the government instead of all taxes, and all buildings and other improvements of land, all industry, thrift and enterprise, all wages, salaries, incomes and every product of labor shall be entirely exempt from taxation." from taxation.

#### PROHIBITION.

Adopted at Lincoln, Neb., July 22.

The main planks in the national prohibition party platform adopted in 1920 were these: Commended congress for the enforcement

laws passed and the Supreme court for upholding the prohibition amendment and the enforcement laws.

Denounced the efforts of the organized liquor traffic to nullify the prohibition amendment by modifying the enforcement act.

Favored the entrance of the United States into the league of nations with reasonable reservations.

Favored compulsory education in the English language in public and private schools. Pledged aid to the farmers in working out a plan to equalize prices, to secure labor, to organize co-operative marketing and to extend

the parcel post. Favored prohibition of child labor and appropriation for a federal children's bureau and a federal department of education.

Favored a budget system, governmental economy and the creation of industrial courts.

#### WIND BAROMETER TABLE FOR THE GREAT LAKES.

[Prepared by United States weather bureau.]

fresh winds.

29.40 to 29.60, rising. West Fair, cooler, fresh west to northwest winds. 29.40 to 29.60, falling. South Warmer, increasing southerly winds.

29.60, or above, steady......Variable .....No immediate change, but south inside of 36 hours. but winds will go to

29.40, or below, falling slowly. South to east. Rain or snow, increasing easterly winds. 29.40, or below, falling rapidly. South to east. Rain or snow, increasing easterly winds, followed within 48 hours by clearing, cooler, west to northwest winds.

29.40, or below, rising slowly...South to west...Clearing, colder, fresh to brisk west to northwest winds.
29.20, or below, falling rapidly..South to east..Severe storm of wind and rain, and wind shift-

29.20, or below, falling rapidly. East to north, severe northeaster, within 36 hours.
and winds shifting to northwest within 36 hours.
29.20, or below, falling rapidly. East to north, severe northeaster, with heavy rain or snow, and winds backing to northwest.
29.20, or below, rising rapidly. Going to west. Clearing and cooler, probably cold wave in winter.

Wells, Readunators—Leafunger III.

Headquarters-LaGrange, Ill.

#### NATIONAL PROHIBITION AMENDMENT.

The house of representatives in Washington, D. C., by a vote of 282 to 128 adopted, Dec. 17, 1917, a senate joint resolution submitting to the states an amendment providing for ting to the states an amendment providing for the suppression of the liquor traffic one year after the ratification of the amendment by the required thirty-six state legislatures. The resolution had passed the senate Aug. 1, 1917, by a vote of 65 to 20. It was amended in the house and the senate accepted the resolution as amended Dec. 18 by a rising vote of 47 yeas to 8 navs.

The proposed amendment was submitted to state legislatures for ratification and by Jan. 16, 1919, more than thirty-six, the number required for making an amendment to the constitution valid, had taken affirmative action. The dates on which the various states ratified the amendment were as follows:

1918. Mississippi, Jan. 9. Virginia, Jan. 10. Kentucky, Jan. 14. South Carolina, Jan. 23 North Dakota, Jan. 25 Maryland, Feb. 13 Montana, Feb. 19. Texas, March 4. 13. Delaware, March 18 Massachusetts, April 2 Arizona, May 24. Georgia, June 26. Louisiana, Aug. 8. Florida, Nov. 27.

Michigan, Jan. 2. Ohio, Jan. 7. Oklahoma, Jan. 7. Idaho, Jan. 8. Tennessee, Jan. 8. Maine, Jan. 8. W. Virginia, Jan. 9 California, Jan. 13. Washington, Jan. 13. Illinois, Jan. 14. Indiana, Jan. 14.

Arkansas, Jar 14. Nebraska, Jan. 16. Missouri, Jan. 16. Kansas, Jan. 14.

Kansas, Jan. 14.
No. Carolina Jan. 14.
Alabama, Jar. 14.
Colorado, Jan. 15.
New Hampshire, Jan. 15.
Vermont, Jan. 29.
Utah, Jan. 15.
Vermont, Jan. 29.
Pennsylvania, Feb. 25 Connecticut. New Jersey and Rhode Island fused to ratify the federal prohibition refused to

amendment. The states dry prior to December, 1917, were:

Alabama. Maine. Oregon. Michigan. South Carolina. South Dakota. Arizona. Arkansas. Mississippi. Montana. Tennessee. Colorado. Montana, Nebraska, North Carolina, North Dakota, Oklahoma.

Virginia, Washington, West Virginia. Georgia. Idaho Towa

Kansas. Oklahoma. Ratification of the prohibition amendment to the federal constitution was formally pro-claimed Jan. 29, 1919, by Frank L. Polk, acting secretary of state in the absence of Secretary Robert Lansing, who was attending the peace conference in Paris, Though the document was dated the 29th, legal authori-ties in the department held that the relificaoccument was dated the 29th, legal authorities in the department held that the ratification was accomplished when the thirty-sixth state acted affirmatively on Jan. 16 and that under the terms of the amendment itself prohibition would become effective one year from that date, or Jan. 16, 1920. thirty-sixth

#### THE MUSCLE SHOALS PROJECT.

Muscle Shoals is a stretch of rapids in the Tennessee river in northern Alabama extending for a total distance of thirty-six miles and a half, but swiftest just to the east of Florence. The stream here sweeps in a westerly direction until it turns porthypard to Pedrach direction until it turns northward to Paducah, Ky., where it joins the Ohio river.

"The shoals," wrote M. B. Morton in the Nashville Banner of Feb. 21, 1922, "gets its name from the bivalves—mussels—which are found there in great abundance. They are the same mussels that produce the wonderful fresh-water pearls which Tiffany buys from the southern pearl hunters. They are the same mussels whose shells furnish the material framewhich converted the buttons we were same musses whose steens furnish the mac-rial from which many of the buttons we wear on our clothing are made. Of course, the name should be and was as long as we old-fashioned southerners had our way about it. Mussel Shoals. But along came a great multi-tude of ignoramuses and called it Muscle Shoals, and then the government adopted the spelling of the ignoramuses and tried to make the excuse that 'muscle' was the correct spelling because at this point the river spreads out and resembles the muscle in a man's arm."

From its mouth at Paducah to Florence. Ala, the Tennessee is navigable. From Florence to Decatur it is obstructed by the rapids. From Decatur it is navigable almost to the Virginia line. As long ago as 1820 congress voted money for the construction of a canal voted money for the construction of a cana-along the northern edge of the shoals to per-mit continuous navigation. The canal, eighteen miles long, five feet deep and having eleven locks, was completed in 1890, but was never a success commercially or otherwise. It cost \$3,191,726,

In the shoals section of the river there is a fall of 134 feet in less than twenty miles. The width of the stream varies from 1.000 to 9.600 feet and at Florence its flow is 72.000 second-feet at low water and 499.000 second-feet at high water. It has been estimated that the section contains from 800.000 to 850.000 the section contains from 800,000 to 850,000 potential horse power. In 1900 army engineers recommended the building of a dam two miles up the river from Florence to aid navigation and utilize the water power. Little was done, however, beyond some preliminary work until the United States entered the world war and found it necessary to construct nitrate plants for the atmospheric fixation of nitrogen to be used for the manufacture of explosives.

Two plants were constructed at Muscle Shoals,

No. 1 being an experimental affair for the making of ammonium nitrate by the synthetic process and No. 2 a large and permanent establishment across the river from Florence. establishment across the river from Florence, using the cyanimid process. It was completed just as the war was ended and was ready to produce 110,000 tons of ammonium nitrate a year. The war-time cost of the two plants was \$85,423,078.73. No. 1 was a failure and the \$13,500,000 spent on it was largely wasted.

In addition to this the government expended about \$17,000,000 on the Wilson water-power about \$17,000,000 on the Wilson water-power dam, for which \$60,000,000 was appropriated Feb. 25, 1918. It was about 30 per cent completed when work on it stopped in May, 1921, congress having refused to appropriate moncy for it. More than \$100,000,000 had been spent on these Muscle Shoals projects before the government halted its operations.

Secretary of War Weeks early in 1921 announced that he would not recommend to congress the appropriation of money for the com-pletion of the Wilson dam unless the engineers of the war department were first assured that there would be a market for the power developed. In response to their inquiries Henry Ford, the Detroit automobile manufacturer,

made an offer on July 8, 1921, to complete the Wilson dam, construct a third dam which would develop all the water power of the shoals and also to operate the large nitrate plant (No. 2) for the manufacture of nitrate. This offer and also one made by the Alabama Power company were turned over to congress by Secretary Weeks, and they were referred to the agricultural committee of the house and the military affairs committee of the company were turned over the house and the military affairs committee of the senate. These committees early in 1922 held extensive hearings which attracted much attention. Mr. Ford modified his offer in a number of particulars and a copy of his final legally signed proposal, dated Jan. 25, 1922, was submitted to congress.

Following is a synopsis of Mr. Ford's amended offer:

- 1. For carrying out the agreement Henry Ford will form a company to be controlled by him.
- 2. The company will complete for the United States dam No. 2 (Wilson dam) and install hydro-electric equipment adequate for generating 600,000 horse power, the work to be performed at actual cost and without profit to the company.
- 3. The company will lease from the United States dam No. 2: its power house and operating appurtenances, except the locks, for a period of 100 years, and will pay to the United States as annual rental 4 per cent of the actual cost of acquiring lands and flowage rights and of completing the dam, locks and power house, payable annually at the end of each lease year except that for the first six years the rentals shall be \$200,000 one year after 100,000 horse power is installed and thereafter \$200.-000 at the end of each year for five years.

4. The company will further pay during the period of the lease of dam No. 2 \$35,000 annually for maintenance and repairs under the supervision of the United States.

- 5. The company will furnish to the United States, free of charge, electric power sufficient for the operation of the locks, but not in excess of 200 horse power.
- 6. The company will construct dam No. 3, lock and power house and install hydro-electric equipment adequate for generating 250,000 horse power at actual cost and without profit to the company.
- 7. The company will lease from the United States dam No. 3 and all its appurtenances, except the lock, for a period of 100 years, and will pay therefor an annual rental of \(\frac{1}{2}\) per cent of the actual cost of the dam, etc., payable annually at the end of each lease year. shall be \$160,000, payable one year from the date when \$0,000 horse power is installed and thereafter \$160,000 annually at the end of each year for two years.

  8. The company will pay \$20,000 a year for the maintenance and repairs of dam No. 3, its

gates and lock.

9. During the period of the lease the company will furnish to the United States, free of charge, electric power necessary for the operation of the lock, but not in excess of 100 horse power.

norse power.

10. The company will, for the purpose of enabling the government to provide a sinking fund to retire the cost of dam No. 3 at the end of 100 years, at the beginning of the fourth year and semiannually thereafter pay to the United States \$3,505; and for a similar purpose in the case of dam No. 2 the company will at the beginning of the seventh year of the lease and semiannually thereafter pay to the United States \$19,868 to the United States \$19,868.

11. The company agrees to buy from the United States (a) all the property constituting nitrate plant No. 2: (b) all the property constituting natrate plant No. 1; (c) all the property known as the Waco quarry, and (d) all the property constituting the steam-power plant at Gorgas, Ala., on the Warrior river.

12. As the purchase price for the foregoing plants and properties the company will pay to the United States \$5.000.000 in five installments—\$1,000.000 upon the acceptance of the offer and \$1,000.000 annually thereafter until the price is fully paid, with 5 per cent interest on deferred payments,

13. The purchase price shall not be diminished by reason of depreciation due to use and wear and tear of buildings, machinery and

equipment.

14. The company agrees to operate nitrate plant No. 2 at the annual capacity of approximately 110,000 tons of ammonium nitrate throughout the lease period. It also agrees (a) to determine by research whether by other means there may be produced on a commercial scale fertilizer compounds of higher grade and at lower prices than fertilizer-using farmers have in the past been able to obtain, and (b) to maintain nitrate plant No. 2 in readiness for immediate operation in the manufacture of materials necessary in time of war for the production of explosives.

15. In order that farmers may be supplied with fertilizers at fair prices and without excessive profits the company agrees that the maximum net profit which it shall make in the manufacture and sale of fertilizer products at nitrate plant No. 2 shall not exceed 8 per cent of the actual cost of production.

16. Whenever, in the national defense, the United States shall require the operating facilities at nitrate plant No. 2 for the manufacture of explosives or other war materials it shall have the right, upon five days notice, to take over and operate the same with reasonable compensation to the company.

17. The company shall have a preferred right to negotiate with the United States for a renewal of the 100-year lease at its expiration.

newal of the 100-year lease at its expiration.

18. The company, in the event of the violation of any of the terms of the proposal or of any contract made under its terms, agrees that the attorney-general of the United States may, at the request of the secretary of war, institute proceedings in the District court of the United States for the northern district of Alabama for the cancellation, termination or correction of the leases of the two dams.

18. The proposals are submitted as a whole and not as a part.

and not as a part.

Congress failed to take any action on the proposal, but appropriated \$7,500,000 for construction work on the Wilson dam.

#### THE SHERMAN ANTITRUST LAW.

Passed by the 51st congress and approved July 2, 1890.

Section 1. Every contract, combination in the form of trust or otherwise or conspiracy in restraint of trade or commerce among the several states or with foreign nations is hereby declared to be illegal. Every person who shall make any such contract or engage in any such combination or conspiracy shall be deemed guilty of a misdemeanor, and on conviction thereof shall be punished by fine not exceeding \$5.000 or by imprisonment not exceeding one year, or by both said punishments, in the discretion of the court.

Sec. 2. Every person who shall monopolize or attempt to monopolize or combine or conspire with any person or persons to monopolize any part of the trade or commerce among the several states or with foreign nations shall be deemed guilty of a misdemeanor, and on conviction thereof shall be punished by fine not exceeding \$5,000 or by imprisonment not exceeding one year, or by both said punishments, in the discretion of the court. Sec. 3. Every contract, combination in form

Sec. 3. Every contract, combination in form of trust or otherwise or conspiracy in restraint of trade or commerce in any territory of the United States or of the District of Columbia, or in restraint of trade or commerce between any such territory and another, or between any such territory and another, or between any such territory or territories and any state or states or the District of Columbia or with foreign nations, or between the District of Columbia and any state or states or foreign nations, is hereby declared illegal. Every person who shall make any such contract or engage in any such combination or conspiracy shall be deemed guilty of a misdemeanor, and on conviction thereof shall be punished by fine not exceeding \$5,000 or by imprisonment not exceeding one year, or by both said punishments in the discretion of the court

on conviction thereof shall be punished by fine not exceeding \$5,000 or by imprisonment not exceeding \$6,000 or by imprisonment not exceeding sone year, or by both said punishments, in the discretion of the court.

Sec. 4. The several Circuit courts of the United States are hereby invested with jurisdiction to prevent or restrain violations of this act; and it shall be the duty of the several district attorneys of the United States, in their respective districts, under the direction of the attorney-general, to institute proceedings in equity to prevent and restrain such violations. Such proceedings may be by way of any foreign country.

petition setting forth the case and praying that such violation shall be enjoined or otherwise prohibited. When the parties complained of shall have been duly notified of such petition the court shall proceed as soon as may be to the hearing and determination of the case; and pending such petition and before final decree the court may at any time make such temporary restraining order or prohibition as shall be deemed just in the premises.

Sec. 5. Whenever it shall appear to the court before which any proceeding under section 4 of this act may be pending that the ends of justice require that other parties should be brought before the court, the court may cause them to be summoned, whether they reside in the district in which the court is held or not; and subpœnas to that end may be served in any district by the marshal thereof.

Sec. 6. Any property owned under any contract or by any combination or pursuant to any conspiracy (and being the subject thereof) mentioned in section I of this act and being in the course of transportation from one state to another or to a foreign country shall be forfeited to the United States and may be seized and condemned by like proceedings as those provided by law for the forfeiture, seizure and condemnation of property imported into the United States contrary to law.

Sec. 7. Any person who shall be injured in his business or property by any other person or corporation by reason of anything forbidden or declared unlawful by this act may sue therefor in any Circuit court of the United States in the district in which the defendant resides or is found, without respect to the amount in controversy, and shall recover threefold the damages by him sustained and the cost of suit, including a reasonable attorney's fee.

Sec. 8. That the word "person" or "persons" wherever used in this act be deemed to include corporations and associations existing under or authorized by the laws of either the United States, the laws of any of the territories, the laws of any state or the laws of any foreign country.

#### POSTAL INFORMATION.

#### DOMESTIC RATES. First-Class Matter.

Rates of postage-Letters and other first-class

Rates of postage—Letters and other first-class matter 2 cents for each ounce or fraction thereof. Postcards and postal cards, 1 cent each. "Drop letters." addressed for delivery at the office where mailed, 2 cents for each ounce or fraction thereof when deposited at postoffices where letter carrier service is not established. There is no drop rate on mail other than letters. Airplane mail, first-class only, 2 cents an ounce. Special stamps not required.

The limit of weight of first-class matter is

The limit of weight of first-class matter is

The limit of weight of first-class matter is four pounds.

First-class matter includes written matter, namely, letters, postal cards, postcards (private mailing cards) and all matter wholly or partly in writing, whether scaled or unsealed (except manuscript copy accompanying proof sheets or corrected proof sheets of the same and the writing authorized by law on matter of other classes). Also matter sealed or otherwise classes). Also matter sealed or otherwise closed against inspection.

Second-Class Matter.

Rates of postage—Newspapers and periodical publications of the second class, when sent unsealed by others than the publisher or a newsagent, I cent for each four ounces or fraction thereof on each separately addressed copy or package of unaddressed copies.

Second-class matter includes newspapers and periodicals bearing notion of entry as second-

periodicals bearing notice of entry as second-class matter. No limit of weight is prescribed. On and after July 1, 1918, the rate of postage

on publications entered as second-class matter, on publications entered as second-class matter, when sent by the publisher or a news agent to subscribers or to other agents for the purpose of sale, on the portion of a publication devoted to other matter than advertisements, shall be 1½ cents per pound or fraction thereof until July 1, 1919: after that 1½ cents per pound or fraction thereof; on the portion of a publication devoted to advertisements the rates per pound or fraction thereof; or delivery within the several zones devoted to fourth class matter shall be: From July 1, 1918, to July 1, 1919, for the 1st and 2d zones, 1½ cents; 3d zone, 1½ cents; 4th zone, 2½ cents; 5th zone, 2½ cents; 6th zone, 2½ cents; 6th zone, 2½ cents; 6th zone, 2½ cents; 3d zone, 2 cents; 4th zone, 3 cents; 3th zone, 3½ cents; 6th zone, 4 cents; 7th zone, 5½ cents; 8th zone, 5½ cents; 15th zone, 5½ cents; 15th zone, 4½ cents; 6th zone, 5½ cents; 7th zone, 1½ cents; 3d zone, 2½ cents; 4th zone, 5½ cents; 7th zone, 7 cents; 8th zone, 7½ cents; 3d zone, 2 cents; 4th zone, 5½ cents; 3d zone, 3 cents; 4th zone, 5½ cents; 3d zone, 3 cents; 4th zone, 5½ cents; 3d zone, 3 cents; 4th zone, 5 cents; 5th zone, 6 cents; 7th zone, 9 cents; 8th zone, 10 cents.

In the case of newspapers entitled to be enwhen sent by the publisher or a news agent to

10 cents.

In the case of newspapers entitled to be entered as second-class matter and published in the interest of religious educational, scientific, philanthropic, agricultural, labor or fraternal organizations, not organized for profit, the rates, irrespective of the zone in which delivered (except where the same are deposited in a letter carrier office for delivery by its carrier, which case the old rate prevails), shall be 1½ cents a pound or fraction thereof between July 1, 1918, and July 1, 1919, and after that 1½ cents.

Third-Class Matter.

Third-Class Matter

Rate of postage—On unsealed third-class matter the rate is 1 cent for each two ounces or fraction thereof on each individually addressed piece or package.

Third-class matter embraces circulars, newspapers and periodicals not admitted to the second class, nor embraced in the term "book," miscellaneous printed matter on paper not havmiscellaneous printed matter on paper not hav- 70... .40 .74 .74 1.44 seventy pounds in ing the nature of an actual personal corre- weight when mailed for delivery within any

spondence, proof sheets, corrected proof sheets and manuscript copy accompanying the same, and matter in point print or raised character used by the blind. (Books are included in fourth-class or areel post mail.)

The limit of weight of third-class matter is

four pounds.

Rates of postage-to be fully prepaid-un-

sealed:

(a) Parcels weighing 4 ounces or less, except books, seeds, plants, etc., 1 cent for each ounce or fraction thereof, any distance.

(b) Parcels weighing 8 ounces or less containing books, seeds, cuttings, bulbs, roots, scions and plants, 1 cent for each 2 ounces or fraction thereof, regardless of distance.

(c) Parcels weighing more than 8 ounces, containing books, seeds, plants, etc., parcels of miscellaneous printed matter weighing more than 4 pounds, and all other parcels of fourth-class matter weighing more than 4 ounces are chargestly according to disof fourth-class matter weigning more than 4 ounces are chargeable, according to dis-tance or zone, at the pound rates shown in the zone table, a fraction of a pound being considered a full pound.

Zones-Parcel Post Guide and Maps.

For parcel post purposes the United States is divided into units of area thirty minutes square. Such units form the basis of the eight postal zones. To ascertain in which zone a postoffice is located from the office of zone a postofince is located from the office of mailing, a parcel post guide, costing 55 cents, and map, costing 20 cents, are jointly used. The guide applies to all offices, but a separate map is required for each unit. A zone key is furnished with the guide for use in the units of area in which some of the largest postoffices are located, and makes the map for those units unnecessary. The guide and maps may be nurchased by sending a map for those units unnecessary. The guide and maps may be purchased by sending a money order to the third assistant post-master-general, Washington, D. C. Stamps are not accepted.

Insurance of Fourth-Class Mail.

Fees and conditions—Fourth-class or domestic parcel post mail (but no other) may not be registered but may be insured against los in a amount equivalent to its actual value, but not to exceed \$5 in any one case, on payment of a fee of 3 cents; not to exceed \$25 on payment of a fee of 5 cents; not to exceed \$50 on payment of a fee of 5 cents; not to exceed \$50 on payment of a fee of 10 cents, or not to exceed \$100 on payment of a fee of 10 cents, or not to exceed \$100 on payment of a fee of 25 cents, in addition to the postage, both to be prepaid by stamps affixed.

Collect-on-Delivery Service.

Conditions and fee-Parcels of fourth-class or parcel post matter (but no other) may be sent C. O. D. from one domestic money orsent C. O. D. from one domestic money or der postoffice to another, including those in the Canal Zone, on payment of a fee of 10 cents in addition to the postage, both to be prepaid with stamps affixed. The amount to be collected and remitted to the sender must not exceed \$100. The remittance is made by postoffice money order, the fee therefor being included in the amount collected from the addressee. A C. O. D. tag furnished by the postmaster must be filled in by the sender and attached to the parcel. The C. O. D. fee also covers insurance against loss up to \$50.

Postal Cards.

Postal cards are furnished at the postage value represented by the stamp impressed thereon; single postal cards for domestic and foreign correspondence at 1 cent and 2 cents each, respectively, and reply (double) postal cards at 2 cents and 4 cents each, respectively.

hours to persons who reside within the car-rier limits of city delivery offices, to patrons of rural service who reside more than one mile from postoffices but within one-half mile of rural routes, and to residents within one mile of any postoffice.

one mile of any postolice.

This service is obtained by placing on any letter or article of mail a special delivery stamp or 10 cents' worth of ordinary stamps in addition to the lawful postage. When ordinary stamps are used the words "Special Delivery" must be placed on the envelope or wrapper, directly under but never on the stamps; otherwise the letter or article will not be accorded special delivery service.

Registry System.

Any matter, properly addressed and bearing the name and address of the sender, admissible to the domestic mails (except fourth-class mail, which may be insured), or to the postal union mails (except foreign "pareel post" packages for Barbados, Curacco, Dutch Guiana, France, Great Britain, Guadeloupe, Martinique, the Netherlands and Uruguay), may be registered. Foreign "pareel post" Martinique, the Netherlands and Uruguay), may be registered. Foreign "parcel post" mail must be taken to the postffice to be registered, but other mail may be registered at any postoffice or postoffice station by rural carriers, and, when sealed and not cumbersome, by city carriers in residential districts. The registry fee for each separate article, foreign or domestic is 10 cents in addition to the postage, both to be fully prepaid. Indemnity for lost registered mail will be naid as follows:

paid as follows:

Domestic mail, first class (sealed), up to \$50, actual value; third class (unsealed), up to \$25, actual value.

Foreign mail, amount claimed within limit of 50 francs (\$9.65), for total loss (not partial loss of rifling) of a registered article exchanged between the United States and a postal union country, except foreign parcel post matter, and losses beyond control ("force majeure").

Application for a money order must be made on a form furnished for that purpose and be presented at the money order window of the postoffice or one of its stations. Money orders are issued for any desired amount from 1 cent to \$100 and when a larger sum than \$100 is to be sent any number of additional orders may be detained. orders may be obtained. Applications may be made through rural carriers, who will fur-nish the necessary forms and give receipts for the amounts.

International money orders, payable in almost any part of the world, may be obtained at all of the larger postoffices and at many of the

smaller ones.

Fees for money orders payable in the United States (which includes Hawaii, Porto Rico and the Virgin islands) and its possessions, comprising the Canal Zone, Guam, the Philippines and Tutuila, Samoa; also for orders payable in Bermuda, British Guiana, British Honduras, Canada, Cuba, Mexico, Newfoundland, at the United States postal agency at Shanghai (China), in the Bahama islands and in certain other islands in the West Indies:

For orders from \$0.01 to \$2.50...... 3 cents

For orders from 75.01 to 100.00.....30 cents The fees for foreign money orders payable

Special delivery service is the prompt de-livery of mail by messenger during prescribed

#### FOREIGN MAIL MATTER.

\*Deceased.

The names of members are given in the order of election. Group 1 was chosen by ballot of the National Institute of Arts and Letters. Thereafter each group was chosen by the preceding members. After group 4 the selections were by the full Academy of thirty, then in-

creased to fifty, since which time the elections are individually made as vacancies occur. Membership in the Academy is limited to fifty. The members are chosen from the National Institute of Arts and Letters, which consists of

### WINNERS OF THE NOBEL PRIZES.

PHYSICS.

1901-William Conrad Roentgen, professor of physics at the University of Munich.

1902—Divided equally between Henrik Anton Lorentz professor of physics at the Univer-sity of Leyden, and Peter Zeeman, professor

of physics at the University of Amsterdam.

1903—Half to Antoine Henri Becquerel, professor of physics at the Ecole Polytechnique and at the Musee d'Histoire Naturelle, Paris, and at the Musee d'Histoire Natureile, Paris. France, member Institut Francais, and half to Pierre Curie, professor of physics at the University of Paris (Sorbonne) and teacher in physics at the Paris Municipal School of Industrial Physics and Chemistry, and his wife, Marie Skłodovska Curie, preceptress at the Higher Normal School for Young Girls at Sevres.

1904-Lord Rayleigh, Royal Institute of Great

Britain, London.

1905—Philippe Lenard, professor of physics at the Physical Institute of Kiel. 1906—J. J. Thomson, professor of experimen-tal physics at the University of Cambridge, 1907—Albert A. Michelsen, professor of phys-ics at the University of Chicago. 1908—Prof. Gabriel Lippman, University of

Paris. 1909-G. Marconi, Italy, and Prof. Ferdinand

Braun of Strassburg. 1910—Johannes Diderik van der Waals, University of Amsterdam, Holland.

versity of Amsterdam, Holland. 1911—Prof. Wilhelm Wiem. 1912—Gustaf Dalen, Swedish engineer.

1913-Prof. H. Kamerlingh Onnes, University of Leyden.

1914—Prof. Max von Laue, Germany. 1915—Prof. William H. Bragg and W. L. Bragg. Cambridge, England. 1916—Prof. C. G. Barkla, University of Edinburgh.

1918—Prof. Max Planck, University of Berlin. 1919—Prof. Hermann Starke, University of Greifswald.

1920-C. E. Guilleaume and C. G. Breteuil, France.

1921—Dr. Albert Einstein, German 1922—Prof. Niels Bohr, Denmark. Albert Einstein, Germany. MEDICINE.

MEDICINE.

1901—Emil Adolf von Behring, professor of hygiene and medical history at the University of Marburg, Prussia.

1902—Donald Ross, professor of tropical medicine at the University college of Liverpool.

1903—Niels Ryberg Finsen, professor of medicine, Copenhagen, Denmark.

1904—Ivan Petrovic Pawlow, professor of physiology in the Military Academy of Medicine, Petrograd, Russia.

1905—Robert Koch, member of the Royal Academy of Science, Berlin.

1906—Profs, Ramon y Cajal and Camillo Golgi of the Pavia university, Italy.

1907—Charles L. A. Laveran of Paris.

1908—Dr. Paul Ehrlich of Berlin and Prof. Elie Metchnikoff of Paris.

1909—Prof. F. T. Kocher, Switzerland.

1910—Dr. Abrecht Kossel, professor of physiology, Heidelberg university, Germany.

1911—Allvar Gullstrand, professor of diseases of the eye, Upsala university, Sweden.

1912—Dr. Alexis Carrel of the Rockefeller Institute for Medical Research, New York, N. Y.

1913—Prof. Charles Richet, University of Paris,

1919—Dr. Jules Bordet, Brussels,

1920—Prof. August Krogh, Copenhagen.

CHEMISTRY.

CHEMISTRY.

CHEMISTRY.

1901—Jakob Hendrikvan't Hoff, professor of chemistry in the University of Berlin.

1902—Emil Fischer, professor of chemistry in the University of Berlin.

1903—Svante August Arrhenius, professor at the University of Stockholm.

1904—Sir William Ramsay, professor of chemistry in the University college, London.

1905—Adolf von Baeyer, professor of chemistry at Munich.

1906—Prof. H. Moissan, Sorbonne, Paris.

#### FOREIGN EXCHANGE RATES IN 1922.

Jan. 1 to Nov. 1.

[From the Annalist, New York.]

#### SOCIETY OF MIDLAND AUTHORS.

OFFICERS 1922-1923.

Honorary President—H. C. Chatfield-Taylor. President—Alice Gerstenberg. Secretary—James Taft Hatfield. Treasurer—Walter Taylor Field.

Vice-Presidents.

Illinois—Harriet Monroe. Indiana—George Barr McCutcheon. Iowa—Emilie B. Stapp. Kansas—E. Haldeman-Julius. Michigan—Will Payne. Ohio—Clara Kern Bayliss. South Dakota—Joseph Mills Hanson. West Virginia—Herbert Quick. Wisconsin—Edna Ferber.

#### Directors.

Fanny Butcher, Mary Dickerson Donahey, Louise Ayres Garnett, Harry Hansen, Clara E. Laughlin, Gene Markey, Keith Preston, Lew Sarett, Arthur P. Scott, Eunice Tictiens,

#### CLIMATOLOGY OF THE UNITED STATES.

The following table of average rainfall, the United States, was compiled from the rechighest and lowest temperatures, based upon ords of the weather bureau for The Almanac observations of fifty or fewer years at selected and Year-Book by the United States weather stations in the several states and territories of bureau, Washington, D. C.:

FEDERAL FUEL DISTRIBUTOR. 

# APPORTIONMENT OF REPRESENTATIVES.

[From census bureau report.]

The apportionment of representatives in conrne apportuoment of representatives in congress, under the first six censuses—1790 to 1840, inclusive—was made by congress, each by a separate act. The law for taking the census of 1850, which was intended to be permanent, presented a rule of apportionment, fixed the number of members of the house at 233, and directed the secretary of the interpretation of the property of the property of the interpretation of the property of the pro at 233, and directed the secretary of the interior thereafter to make the apportionment. The apportionment of 1860 was also made under this law, but congress, on March 4, 1862, fixed the total number of representatives at 241, and the secretary of the interior apportioned the new quotas to the states. The apportionments from and after the census of 1870 were made by congress, each by a separate act; hence it may be assumed that the power conferred on the secretary of the interior by the act of May 23, 1850, was re-

pealed by implication. The following shows the dates of the apportionment acts and the ratio of population to each representative: Census. Date. ratio of population to each representative:
Census, Date.
Ratio.

#### UNITED STATES DISTRICT ATTORNEYS.

labama—Northern district, Charles Kennamer, Birmingham; middle district, Thomas D. Sam-ford, Montgomery; southern district, Aubrey Alabama-Boyles, Mobile.

laska—First division, Arthur G. Shoup, Juneau; second division, William F. Harrison, Nome; third division, Sherman Duggan, Valdez; fourth division, Guy B. Erwin, Fair-Alaska-First division, banks.

Arizona—Frederick H. Bernard, Tucson. Arkansas—Eastern district, Charles F. Colc, Little Rock; western district, Samuel S. Langley, Fort Smith. California—Northern district, J. T. Williams, San Francisco; southern district, Joseph C.

Burke, Los Angeles,

Canal Zone—A. C. Hindman, Ancon.
Colorado—Granby Hillyer, Denver.
Connecticut—Edward L. Smith, Hartford.
Delaware—James H. Hughes, Jr., Wilmington. District of Columbia-Peyton Gordon, Washington.

Florida—Northern district, Fred C. Pensacola; southern district, W William M.

Gober, Tampa.
Georgia—Northern district, Clint W. Hager, A. lanta; southern district, John W. Bennett.
Hawaii—William T. Carden, Honolulu.
Idaho—Edwin G. Davis, Boise.

Hilinois—Northern district, Charles F. Clyne, Chicago; eastern district, W. O. Potter, East St. Louis; southern district, Thomas Williamson, Springfield.

son, Springheid. Indiana—Homer Elliott, Indianapolis. Iowa—Northern district, G. P. Linville, Cedar Rapids; southern district, Ralph Pringle, Red

Kansas-Al. F. Williams, Topeka.

Kentucky-Western district, W. Sherman Ball. Louisville: eastern district, Sawyer A. Smith, Covington.

Louisiana—Eastern district, Louis H. Burns, New Orleans; western district, Philip H. Mecom. Shreveport.

Maine—Frederick R. Dyer, Portland. Maryland—Robert R. Carman, Baltimore,

Massachusetts-Robert O. Harris, Boston.
Michigan-Eastern district, Earl J. Davis, Detroit: western district, Edward J. Bowman,
Grand Rapids.

Minnesota—Lafayette French, Jr., St. Paul. Mississippi—Northern district, Lemuel E. ham, Oxford; southern district, E. E. Hind-man, Jackson.

man, Jackson.

Missouri—Eastern district, James E, Carroll,
St. Louis; western district, Charles C. Madison, Kansas City.
Montana—John L. Slattery, Helena.
Nebraska—James C. Kinsler, Omaha.
Nevada—George Springmeyer, Reno.
New Hampshire—Raymond U. Smith. Concord.
New Jersey—Walter G. Winne, Trenton.
New Mexico—George R. Craig, Albuquerque.
New York—Northern district, Earl H. Gallup,
Albany; southern district, William H. Hayward.
New York City; eastern district, Ralph
C. Green, Brooklyn; western district, William
J. Donovan, Buffalo.

J. Donovan, Buffalo. North Carolina—Eastern district, Irvin B. Tucker, Raleigh; western district, Frank A.

Linney, Ashboro North Dakota-Melvin A. Hildreth, Fargo. Ohio-Northern district, Edwin S. Wertz, Cleveland; southern district, D. Q. Morrow, Cincin-

nati.

Oklahoma — Eastern district, Frank Lee, Muskogee; western district, W. A. Maurer, Oklahoma City. Oregon—Lester W. Humphreys, Portland. Pennsylvania—Eastern district Gagara

Okianoma City.
Oregon—Lester W. Humphreys, Portland.
Pennsylvania—Eastern district, George W.
Coles, Philadelphia: middle district, Andrew
B. Dunsmore, Sunbury; western district,
Walter Lyon, Pittsburgh.
Porto Rico—Ira K. Wells, San Juan.
Rhode Island—Norman S. Case, Providence.
South Carolina—Eastern district, J. D. Ernest
Meyer, Charleston; western district, Ernest F.
Cochena Greenville.

Cochran. Greenville.

South Dakota—S. Wesley Clark, Sioux Falls. Tennessee—Eastern district, George C. Taylor, Knoxville; middle district, A. V. McLane, Nashylle; western district, S. E. Murray. Nashville; western district, S. E. Murray, Memphis.

Texas—Eastern district, Bandolph Bryant, Sher- Wyoming—A. D. Walton, Cheyenne.

man: northern district, Henry Zweifel, Fort Worth; western district, John D. Hartman, San Antonio: southern district, Henry M.

San Antonio. Bolland, Houston, Morris, Salt Lake City, Charles M. Morris, Salt Lake City, Charles M. Burlington, W. Bolland, W. Bolland, Burlington, W Utah—Charles M. Morris, Salt Lake City. Vermont—Vernon A. Bullard, Burlington. Virginia—Eastern district, Paul W. Kear, Richmond; western district, Lewis P. Summers, Abingdon.

Washington-Western district, Thomas Revelle, Seattle; eastern district, Frank R. Jeffrey, Spokane.

Jeffrey. Spokane.
West Virginia—Northern district. Thomas A.
Brown, Parkersburg: southern district, Elliott.
Northcott, Huntington.
Wisconsin,—Bastern district, H. A. Sawyer.

H. A William

# UNITED STATES MARSHALS.

Alabama—Northern district, Thomas J. Kennamer, Birmingham; middle district, McDuffie Cain, Montgomery; southern district, Christopher G. Gewin, Mobile.

Alaska—First division, George D. Beaumont, Juneau: second division, Morris Griffith, Nome; third division, Harvey Sullivan, Val-dez: fourth division, Gilbert B. Stevens, Fairbanks.

Arizona—Thomas J. Sparks. Phoenix.
Arkansas—Eastern district. George L.
Little Rock; western district, John H. Parker, Fort Smith.
California—Northern district. James B. Holo-

califorma—Northern district. James B. Holo-han, San Francisco: southern district. Albert C. Sittell, Los Angeles. Canal Zone—Horace D. Ridenour, Ancon. Colorado—Samuel J. Burris, Denver. Connecticut—Jacob D. Walter, New Haven. Delaware—Walter S. Money, Wilmington. District of Columbia—Edgar C. Snyder, Wash-ington

ington. Florida-Northern district, Peter H. Miller, Pensacola: southern district, Benjamin E.

Dyson, Jacksonville. Georgia-Northern district, Walter Akerman, Atlanta; southern district, George B. McLeod,

Macon.

Macon. Hawaii—Oscar P. Cox, Honolulu. Haho—Frank M. Brashears, Boise. Illinois—Northern district, Robert R. Levy, Chi-cago; eastern district, James A. White, Dan-ville; southern district, James E. McClure,

Springfield. Johnsheit.

Jowa—Northern district, Fred Davis, Dubuque; southern district, Guy S. Brewer, Des Moines.

Kansas—Fred R. Fitzpatrick, Topeka. Kentucky—Western district, Thomas N. Hazlip. Louisville; eastern district, Roy B. Williams, Covington.

ouisiana—Eastern district, Victor Loisel, New Orleans; western district, John H. Kirk-Louisiana-Eastern patrick, Shreveport.

patrick, Shreveport.
Maine—Stillman E. Woodman, Portland.

The American Legion was organized at convention held in St. Louis, Mo., May 8-10, 1919, when temporary officers were chosen and the main principles of the association were adopted. Henry D. Lindsley of Dallas, Tex., was chosen as Tex., was che temporary commander, and it was de-cided to hold the first regular convention in

Minneapolis, Minn. It took place there Nov. 10-12, 1919, when national officers were chosen and the organization perfected. chosen and the organization periected. Au persons who were in the military or naval and marine service of the United States between April 6, 1917, and Nov. 11, 1918, are eligible for membership. The object of the association is to uphold and defend the constitution of the United States; to maintain law and property as 100 per cent order; to foster and perpetuate a 100 per cent Americanism: to combat autocracy whether of the classes or the masses: to make right the the classes or the masses; to make right one master of might; to promote peace and good will on earth; to safeguard and transmit to posterity principles of justice, freedom and democracy and to sanctify the comradeship of the war by mutual helpfulness.

The American Legion is a nonpolitical organization. It was incomparated by an earth

ganization. It was incorporated by an act of congress approved Sept. 16, 1919.

Judge-Advocate General—Frank M. Avery.
Chaplain-General—Capt. J. Madison Hare.
Historian-General—Maj. Emerson G. Taylor.
Recorder-General—Maj. Joseph M. Heller.
Commanderies have been established i

established in Total membership about twenty-five states.

6,000.

The order is a military organization with patriotic objects, having for its scope the period of American history since national inde-pendence. It stands for the needed and honorable principle of national defense against foreign aggression. The principal feature of the eign aggression. The principal feature of the order is the perpetuating of the names as well as the services of commissioned officers who served in either the war of the revolution, the war of 1812, the Mexican war or the war with Spain or shall serve in future campaigns recognized by the United States government as war with foreign powers. Veteran companionship is conferred upon such officers and hereditary comferred upon such officers and hereditary companionship upon their direct lineal descendants in the male line.

Chairman—Charles B. Pike, 39 S. State street. Chicago, Ili.
Executive Secretary—George F. James, 210 Mallers building, Chicago, Ili.
Chicago Committee—Pierce Anderson, Wharton Clay, Marshall Field III, Robert Gardner John A. Holabird. Noble B. Judah, Ralph Poole, Joseph T. Ryerson, W. Edwin Stanley, Tom R. Wyles,
The Military Training Camps association was organized in 1916 by the men who attended the students' and business and professional men's camps of 1913, 1914 and 1915. At the request of the war department it recruited for the first and second series of officers' training camps in 1917 and helped also cruited for the first and second series of of-ficers' training camps in 1917 and helped also in the later camps, furnishing 100,000 com-missioned officers for the national army. It enrolled nearly 250,000 men for different spe-cialist branches, enlisting, for example, in Chicago within three weeks approximately 7,000 skilled mechanics for the ordnance and in the central department by a single drive nearly 12,000 recruits for the navy, as well as candidates for the tank corps, the air serv-ice the agineer corps the chemical weights as candidates for the tains corps, the air service, the angineer corps, the chemical warfare service and the quartermaster corps. In 1920 the association proposed a series of citizens' military training camps as part of the permanent military policy of the country and at the request of the war department helped to secure over 75,000 applications for the sumar camps held under its surpless in 1021 and mer camps held under its auspices in 1921 and 1922. The Military Training Camps association consistently supports a conservative policy of national defense; membership in it is open to all patriotic citizens.

CHRISTIAN SCIENCE CHURCH.

CHRISTIAN SCIENCE CHURCH.
The Church of Christ, Scientist, was founded at Boston in 1879 by Mary Baker Eddy, the discoverer of Christian Science and author of its textbock, "Science and Health with Key to the Scriptures." As she then said, the church was "designed to commemorate the word and works of our Master," and to "reinstate primitive Christianity and its lost element of healing" (Church manual, p. 17). Its proper name is The First Church of Christ, Scientist, in Boston, Mass, It is also known as The Mother Church. Its present officers are: The Mother Church Its present officers are: Directors, Adam H. Dickey, James A. Neal, Ed-ward A. Merrit, William R. Rathvon, Annie M. Knott; president, Albert F. Gilmore; clerk, George Wendell Adams; treasurer, Edward L. Ripley.

Regularly organized local congregations of Regularly organized local congregations of Christian Scientists, throughout the world, are branches of The Mother Church. In Chicago there are sixteen of such churches, named and located as follows: First Church of Christ, Scientist. 4017 Drexel boulevard: Second located as follows: First Univer of Universets, Scientist, 4017 Drexel boulevard; Second Church, Wrightwood and Pine Grove avenues; Third, 2151 Washington boulevard; Fourth, Harvard avenue and West Marquette road; Fifth, 4840 Dorchester avenue; Sixth, 1132; Prairie avenue; Seventh, 5318 Kenmore avenue; Sixth, 1434, Wichigan avenue and 44th street; nue: Eighth, Michigan avenue and 44th street:

Ninth, 6154 Woodlawn avenue; Tenth, 5640 Blackstone avenue; Eleventh, 2840 Logan boulevard; Twelfth, Lemoyne School auditorium, Waveland avenue and Rokeby street; Thirteenth, 10317 Longwood drive; Fourteenth, 4446 North Paulina street; Fifteenth, Masonic Temple, Fulton street and Central avenue; Sixteenth, 1716 Lunt avenue.

teenth, 1716 Lunt avenue.

Each of the Chicago churches maintains a Christian Science reading room, and all of them maintain joint reading rooms at 11 South LaSalle street and 104 South Michigan boulevard. These rooms are free and public services to which the public are invited are held by each of these churches on Sundays at 10:45 a.m. and 7:45 p.m. and on Wednesdays at 8 p.m. From time to time, also, they provide free public lectures on Christian Science by members of the Board of Lectureship of The Mother Church.
